I have been working hard to keep in compliance I have no funds to get forms to notarized .WF only does WF and Credit union locked me out and never call. I've called many times I can't get help with them now I lost my car because of their negligence. they and all where my investment accounts are nobody has gave me advice or helped me with direction, Fidelity has best application. I've got all my direction and advice thru my own and the government websites And I think it's a great idea for tax worksheet All in all I'm satisfied how hard the gov, tribes, chiefs, counselors work, they deserve all the burden hours. and I disagree how much these investment companies give themselves credit for they are good at taking our money 100 percent and hiding what's left I'm irritated my ancestors fought for this country the investment companies working with me have done nothing .no phone calls no money .no direction .no mail Scares me they want to control the whole shabang,.
