Subject: FR 2004 Government Securities Dealers Reports

Comments:

Hi Fed Agents,

In respect to your new proposal on 1/29 to extend with revision the FR2004 C report. The proposal adds three columns, for each asset category, to separately capture sponsored general collateral Triparty Repo financing by maturity tenors. The proposed revision is currently set for June implementation and is now in public comment period.

We want to submit our comment on the "go-live date/Jun 5th" as it conflicts with the t-1 go live and it completes for limited IT resources.

Thank you!

Regards,

Jenny Cheung, CPA
