State:

Zip:

Country: UNITED STATES

Postal (if outside the U.S.):

Your comment: They need even bigger margins! They already have a monopoly with exemptions most do not have. Everytime they make infinite risk short positions just tell Congress to give them a free grant! The system and equity in risks has become a JOKE! CAPITALISM IS NOT when these bad investors get an advantage to "protect" their private business! Capitalism must remain a TRUE cash INVESTMENT OF EQUALITY before "capitalism" can be a foundation of the market!
