RE: OP-1874

I have to write this to you because I am techno-deprived so much that I can't even get your online comment page to work. So that is my main concern if your Checkless America was enacted, OP-1874 should NOT be thrust upon the elderly, handicapped or poor, of which I am all three. I cannot now or ever will afford a smart phone and service. I can't even afford to upgrade my computer to Windows 11. It's fine to order paychecks, rebates, refunds, etc., to be paperless but I need to be able to write checks for certain bills like yard care or certain deliveries because these are "mom and pop" businesses that can't afford electronic payments. I do not want to have to keep hundreds in cash on hand. I want to be able to send a new baby or college graduate a check and an Amazon gift card can't be deposited in their savings. Please "grandfather" us oldsters or since you can't teach an old dog new tricks, I am available at _____ for discourse.
Thank you.
