Dear Federal Reserve Board,

Please reconsider eliminating the processing of paper checks in the United States of America. I understand that many people are not writing as many checks as they had in the past, but many businesses are now upcharging consumers when credit/ debit cards are used. Physicians offices are the most common and currently the businesses that have asked me to " bring cash or check" for payment for treatment.

An elimination of paper check processing will be a huge burden for anyone who may need health care, or to pay a bill, when credit is not an option.

Thank you for your consideration,

Jeffrey Weigel
