Keep the check system the way it is, and make sure it stays that way for the next 10 years. The MOMENT checks are no longer accepted credit card "fees" will skyrocket due to this monopoly of payment method. And NO, crypto is not the future - its a Ponzi Scheme. This is just billionaires influencing our financial system, trying to force people to pay arbitrary fees and funnel money into their pockets, while simultaneously furthering a system that only recognizes wealth assets, like homes, cars, businesses, land, etc, as being representative of one's worth, essentially creating modern day feudal lords. And what about after the end of checks, how long till money will no longer be minted? The penny feels like its just the start of switching to digital currency... currency that could be INSTANTLY wiped out with an accidental button press or a purposeful push by those that don't like your attitude or political stance. Digital records are much easier to manipulate than something that leaves a physical paper trail. Keep the system!!
