Submitted Date: 03/11/2026

I strongly oppose this proposal. Please eliminate "reputation risk" from the Board's supervisory programs. I have already started to feel the strain from being limited, as a creator, business owner, and consumer. Censoring and prohibiting adult or "obscene" content does nothing in regards to "reputation safety" as having this content does not affect the reputation of banking organizations. In fact, if my bank limited what I could or could not purchase with my own wages, I would consider it in control of my own purchases. As an artist, I am limited in my free speech and ability to produce content I desire. As a business owner, what's to stop my content from suddenly being disallowed and I lose my livelihood? As a consumer, many of the stores, artists, authors, and producers already are unable to keep up with the over-censoring of legal media and as such even my leisure time is being impacted. We are people, people are a part of nature, and nature is messy and sexual.

I just don't understand why I cannot enjoy content I have enjoyed all of my adulthood, because a banking organization, the government, lobbyists, or whoever else, doesn't want me to spend my money on it. We are not children who need banks or the government to hand hold us for the rest of our lives.
