Proposal and Comment Information

Title: Regulatory Capital Rules: Regulatory Capital and Standardized Approach for Risk-weighted Assets, R-1888

Comment ID: FR-2026-0008-01-C128

Submitter Information

Name: Charles Glahe

Submitted Date: 05/08/2026

Hello, my name is Charlie Glahe and I firmly believe that Bitcoin should be treated like other assets in regards to bank reserves. This would allow holders of Bitcoin to Place their Bitcoin securely with banking institutions with banks being able to expand their balance sheet based on the holdings and make loans for their customers. The time to make this change now.
