Proposal and Comment Information

Title: Regulatory Capital Rules: Regulatory Capital and Standardized Approach for Risk-weighted Assets, R-1888

Comment ID: FR-2026-0008-01-C137

Submitter Information

Name: Robert Schinski

Submitted Date: 05/09/2026

My wife and I are retired. We want to keep our finances secure and simple. Especially because, at some point in the foreseeable future, our children will have to assume their ownership. We want to make that transition as easy as possible. That's why we want our bank to be able to provide all the services we need, including holding our bitcoin. Please make this happen as soon as possible.
