Proposal and Comment Information

Title: Regulatory Capital Rules: Regulatory Capital and Standardized Approach for Risk-weighted Assets, R-1888

Comment ID: FR-2026-0008-01-C143

Submitter Information

Name: Matthew Butler

Submitted Date: 05/09/2026

I have been a bitcoin investor for the last few years and I intend to hold onto my investment as generational wealth to pass on to my children. I would like to see my banks offer bitcoin financial services in the future. Please adjust the basel agreement so that bitcoin's risk weight aligns more with gold, or at the most a speculative equity so that it is not as expensive for banks to support.

Thank you,

Matthew Butler
