## Proposal and Comment Information

**Title:** Regulatory Capital Rules: Regulatory Capital and Standardized Approach for Risk-weighted Assets, R-1888

**Comment ID:** FR-2026-0008-01-C97

## Submitter Information

**Name:** Anonymous

**Submitted Date:** 05/08/2026

Bitcoin should be reevaluated under the Basel rules.

Requiring 0% for Gold and 1,250% for Bitcoin is outrageous and essentially a ban.

This will allow banks to hold Bitcoin which is already considered a reserve asset among many in the world. Let's not prevent US institutions from modernizing.
