
Instructions for Preparation of Financial Statements of U.S. Nonbank Subsidiaries Held by Foreign Banking Organizations

FR Y-7N and FR Y-7NS

GENERAL INSTRUCTIONS

Who Must Report

The Financial Statements of U.S. Nonbank Subsidiaries Held by Foreign Banking Organizations (FR Y-7N/FR Y-7NS) must be filed either quarterly or annually by the top-tier foreign banking organization for each U.S. nonbank subsidiary¹ it owns or controls.

The FR Y-7N/FR Y-7NS must be submitted for each legal entity subject to reporting requirements. Therefore, consolidation of individual entities is not permitted.

For purposes of this report, nonbank subsidiaries include, but are not limited to, commercial or consumer finance companies, leasing companies, mortgage banking companies, venture capital corporations, small business investment companies, and data processing and information services companies that do not have a primary U.S. regulator other than the Federal Reserve System.

Quarterly Filers—Detailed Report (FR Y-7N)

Each top-tier foreign banking organization must file the FR Y-7N report on a **quarterly** basis for each of its U.S. nonbank subsidiaries that meets **any one** of the following criteria:

- 1) The total assets of the nonbank subsidiary are equal to or greater than \$1 billion; or
- 2) The nonbank subsidiary's off-balance-sheet activities² are equal to or greater than \$5 billion.

1. A subsidiary, for purposes of this report, is defined by Section 225.2 of Federal Reserve Regulation Y, which generally includes companies 25 percent or more owned or controlled by another company.

2. Off-balance-sheet activities (defined as the sum of Schedule BS, items 20 through 30) include commitments to purchase foreign currencies and U.S. dollar exchange, all other futures and forward contracts, option

Once a nonbank subsidiary satisfies the criteria to file the FR Y-7N for any quarter during the calendar year, the nonbank subsidiary must continue to file the quarterly FR Y-7N for the remainder of the calendar year even if it no longer satisfies the requirement for filing the quarterly FR Y-7N.

Nonbank subsidiaries that do not meet the quarterly filing thresholds may be requested to file quarterly if the Federal Reserve Bank has determined that these nonbank subsidiaries have significant risk exposures.

Annual Filers—Detailed Report (FR Y-7N)

A nonbank subsidiary that does not meet any of the criteria to file quarterly, but has total assets greater than or equal to \$250 million (but less than \$1 billion) must file the entire FR Y-7N report on an annual basis.

Annual Filers—Abbreviated Report (FR Y-7NS)

A nonbank subsidiary that does not meet the criteria to file the detailed report, but does meet the following criterion, must file the Abbreviated Financial Statements of U.S. Nonbank Subsidiaries Held by Foreign Banking Organizations (FR Y-7NS) on an annual basis:

- The nonbank subsidiary has total assets equal to or greater than \$50 million (but less than \$250 million).

Other Reporting Criteria

- Foreign banking organizations must submit a separate FR Y-7N/FR Y-7NS for each of its nonbank subsidiaries satisfying the above criteria whether directly or indirectly owned (as defined per Regulation Y,

contracts, and the notional value of interest rate swaps, exchange swaps, and other swaps.

General Instructions

section 225.2 (o)). Each foreign banking organization must submit a report on a parent only (non-consolidated) basis for each parent nonbank subsidiary meeting the criteria and submit individual reports for each lower level nonbank subsidiary required to file the report.

- The FR Y-7N/FR Y-7NS report for a U.S. nonbank subsidiary owned by more than one foreign banking organization should be submitted in its entirety by the foreign banking organization with the majority ownership. If a nonbank subsidiary is equally owned by two or more foreign banking organizations, the FR Y-7N/FR Y-7NS report should be submitted in its entirety by the largest foreign banking organization based on total consolidated assets.

Preparation of the Reports

Foreign banking organizations are required to prepare the financial statements of its U.S. nonbank subsidiaries (FR Y-7N/FR Y-7NS) in accordance with generally accepted accounting principles (GAAP) and these instructions. All reports shall be reported in a consistent manner.

The nonbank subsidiaries' financial records shall be maintained in such a manner and scope so as to ensure that the reports can be prepared and filed in accordance with these instructions and reflect a fair presentation of the subsidiaries' financial condition and results of operations. Questions and requests for interpretations of matters appearing in any part of these instructions should

be addressed to the Federal Reserve Bank that is responsible for the regulation of the top-tier foreign banking organization.

Foreign banking organizations should refer to the instructions for the preparation of the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C) or the Parent Company Only Financial Statements (FR Y-9SP) for additional information on the items requested on this report. Copies of the FR Y-7N, FR Y-7NS, FR Y-9C, and FR Y-9SP may be found on the Federal Reserve Board's public website (www.federalreserve.gov/boarddocs/reportforms.)

Applicability of Generally Accepted Accounting Principles

It should be noted that the presentation by subsidiaries of assets, liabilities, stockholders' equity, and the recognition of income and expenses should be reported in accordance with generally accepted accounting principles. Subsidiaries are required to report certain other accounts or types of transactions on schedules to the balance sheet and income statement. In addition, these instructions designate where a particular asset or liability should be reported.

There may be areas in which a reporting subsidiary wishes more technical detail on the application of accounting standards and procedures to the requirements of these instructions. Such information may often be found in the appropriate entries in the Glossary section of the FR Y-9C instructions or, in more detail, in the GAAP standards. Selected sections of the GAAP standards are referenced in the instructions where appropriate.

When the Federal Reserve's interpretation of how GAAP or these instructions should be applied to a specified event or transaction (or series of related events or transactions) differs from the reporting institution's interpretation, the Federal Reserve may require the reporter to reflect the event(s) or transaction(s) in its FR Y-7N/FR Y-7NS reports in accordance with the Federal Reserve's interpretation and to amend previously submitted reports.

Cover Page

The cover page of the report must include the legal name of the foreign banking organization filing the FR Y-7N/FR Y-7NS and the legal name and mailing address of the

General Instructions

reported U.S. nonbank subsidiary. The name and telephone number of a U.S. contact to whom questions about the report(s) may be directed must be indicated.

Legal Name of Nonbank Subsidiaries

When specifying the name of the nonbank subsidiary for which the FR Y-7N/FR Y-7NS is being filed, use the legal name of the subsidiary as it appears on the papers of incorporation or formation documents. The legal name must be the same name that is specified on the Report of Changes in FBO Organizational Structure (FR Y-10F).

Signatures

The FR Y-7N/FR Y-7NS shall be signed at the places and in the manner indicated on the cover sheet by a duly authorized officer of the foreign banking organization.

When the top tier bank holding company is domiciled outside the United States, the holding company may authorize an officer of the respondent nonbank subsidiary to sign the report.

Submission of Reports

Reports are to be submitted for each report date on the report forms provided by the Federal Reserve Bank. No caption on the report form shall be changed in any way. No item is to be left blank. An entry must be made for each item, i.e., an amount, a zero, or an "N/A."

All items will not be applicable to each nonbank subsidiary required to file the report. An "N/A" should be entered if the nonbank subsidiary cannot be involved in a transaction because of the nature of the organization. A zero should be entered whenever a nonbank subsidiary can participate in an activity, but may not, on the report date, have any outstanding balances

Where to Submit the Reports

The original report and the number of copies specified by the Reserve Bank should be submitted to the Reserve Bank where the foreign banking organization files its Annual Report of Foreign Banking Organizations (FR Y-7).

All reports shall be made out clearly and legibly by typewriter or in ink. Reports completed in pencil will not be accepted. Foreign banking organizations may submit

computer printouts in a format identical to that of the report form, including all item and column captions and other identifying numbers.

Electronic submission of report form. At this time, electronic filing of the FR Y-7N/FR Y-7NS is not available. Federal Reserve Bank staff will notify foreign banking organizations when the electronic reporting option becomes available.

Submission Date

A foreign banking organization must file this report for its nonbank subsidiaries no later than 60 calendar days after the report date. The filing of a completed report will be considered timely, regardless of when the reports are received by the appropriate Federal Reserve Bank, if these reports are mailed first class and postmarked no later than the third calendar day preceding the submission deadline. In the absence of a postmark, a company whose completed FR Y-7N/FR Y-7NS is received late may be called upon to provide proof of timely mailing.

A "Certificate of Mailing" (U.S. Postal Service form 3817) may be used to provide such proof. If an overnight delivery service is used, entry of the completed original reports into the delivery system on the day before the submission deadline will constitute timely submission. In addition, the hand delivery of the completed original reports on or before the submission deadline to the location to which the reports would otherwise be mailed is an acceptable alternative to mailing such reports. Companies that are unable to obtain the required officers' signatures on their completed original reports in sufficient time to file these reports so that they are received by the submission deadline may contact the Federal Reserve Bank to which they mail their original reports to arrange for the timely submission of their report data and the subsequent filing of their signed reports.

If the submission deadline falls on a weekend or holiday, the report must be received by 5:00 P.M. on the first business day after the Saturday, Sunday, or holiday. Any report received after 5:00 P.M. on the first business day after the Saturday, Sunday, or holiday deadline will be considered late unless it has been postmarked three calendar days prior to the original Saturday, Sunday, or holiday submission deadline (original deadline), or the institution has a record of sending the report by overnight service one day prior to the original deadline.

General Instructions

NOTE: A foreign banking organization must submit all of its required nonbank subsidiary reports on or before the submission deadline to be considered timely.

Monitoring of Regulatory Reports

Federal Reserve Banks will monitor the filing of all regulatory reports to ensure that they are filed in a timely manner and are accurate and not misleading. Many reporting errors can be screened through the use of computer validity edit checks which are detailed in the Checklist accompanying the reporting instructions. Reporting deadlines are detailed in Submission Date section of these general instructions. Additional information on the monitoring procedures are available from the Federal Reserve Banks.

Confidentiality

These reports are available to the public upon request on an individual basis. However, a reporting foreign banking organization may request confidential treatment for one or more of the nonbank subsidiaries for which it submits the financial statements of U.S. nonbank subsidiaries held by foreign banking organizations if it is of the opinion that disclosure of certain commercial or financial information in the report would likely result in substantial harm to its (or its subsidiaries') competitive position or that disclosure of the submitted personal information would result in unwarranted invasion of personal privacy.

A request for confidential treatment must be submitted in writing concurrently with the submission of the report. The request must discuss *in writing* the justification for which confidentiality is requested, demonstrating the specific nature of the harm that would result from public release of the information; merely stating that competitive harm would result or that information is personal is *not* sufficient.

INFORMATION FOR WHICH CONFIDENTIAL TREATMENT IS REQUESTED SHOULD BE REPORTED SEPARATELY BOUND WITH A SEPARATE FR Y-7N/FR Y-7NS COVER SHEET LABELED "CONFIDENTIAL." THIS INFORMATION SHOULD BE SPECIFICALLY IDENTIFIED AS BEING CONFIDENTIAL.

The Federal Reserve will determine whether information submitted with a request for confidential treatment will

be so treated, and will advise the foreign banking organization through the appropriate Reserve Bank of any decision to make available to the public any of the information.

Information for which confidential information is requested may subsequently be released by the Federal Reserve System if the Board of Governors determines that the disclosure of such information is in the public interest.

Amended Reports

The Federal Reserve may require the filing of amended Financial Statements of U.S. Nonbank Subsidiaries Held by Foreign Banking Organizations if reports as previously submitted contain significant errors. In addition, a foreign banking organization should file an amended report when internal or external auditors make audit adjustments that result in a restatement of financial statements affecting reports previously submitted to the Federal Reserve.

In the event that certain of the required data are not available, respondents should contact the appropriate Reserve Bank for information on submitting revised reports.

Respondents should refer to the Glossary of the Instructions for the Consolidated Financial Statements for Bank Holding Companies (FR Y-9C) for information concerning general definitions.

For purposes of this report, related organizations include (1) any organization that directly or indirectly controls the reporting nonbank subsidiary, (2) any organization that is controlled directly or indirectly by the reporting nonbank subsidiary, or (3) any organization that is controlled directly or indirectly by any bank holding company that controls the reporting subsidiary (i.e., if more than one bank holding company directly or indirectly controls the reporting nonbank subsidiary, then all organizations directly or indirectly controlled by *each* bank holding company is considered related regardless of whom submits this report). In addition, for purposes of this report related organizations include all associated companies.

Nonrelated organizations include all organizations that do not meet the definition of "related organizations."

Include normal and recurring depreciation and amortization charges against assets; all operating lease payments made by the subsidiary on premises and equipment; cost of ordinary repairs to premises (including leasehold improvements), equipment, furniture, and fixtures; cost of service or maintenance contracts for equipment, furniture, and fixtures; insurance expense related to the use of premises, equipment, furniture, and fixtures; all property tax and other tax expense related to premises (including leasehold improvements), equipment, furniture, and fixtures; cost of heat, electricity, water, and other utilities connected with the use of premises and fixed assets; cost of janitorial supplies and outside janitorial services; and services and fuel, maintenance, and other expenses related to the use of the subsidiary-owned automobiles, airplanes, and other vehicles for the subsidiary's business.

LINE ITEM INSTRUCTIONS FOR THE

Total equity capital includes perpetual preferred stock, common stock, capital surplus, retained earnings, accumulated other comprehensive income and other equity capital components such as treasury stock and unearned Employee Stock Ownership Plan Shares. All amounts, other than the amount reported in item 1, should represent net aggregate changes for the calendar year-to-date. Enclose all net decreases and losses (net reductions of equity capital) in parentheses.

Line Item 1 Equity capital most recently reported for the end of the previous calendar year (i.e., after adjustments from amended Income Statements).

Report the subsidiary's total equity capital balance most recently reported for the previous calendar year-end after the filing of any amended report(s). Include the cumulative effect, net of applicable income taxes, of those changes in any accounting principles adopted during the calendar year-to-date reporting period that were applied retroactively and for which prior years' financial statements were restated. Also, include the sum of all corrections, net of applicable income taxes, resulting from material accounting errors that were made in prior years and not corrected by the filing of an amended report for the period in which the error was made.

Line Item 2 Net income (loss).

Report the net income (loss) for the calendar year-to-date as reported on the Income Statement, item 12, "Net income (loss)."

Line Item 3 Sale, conversion, acquisition, or retirement of common stock and perpetual preferred stock.

resulting from the sale, conversion, acquisition, or retirement of the subsidiary's capital stock. Limited-life preferred stock is not included in equity capital.

Report the total amount of new capital stock issued, net of any expenses associated with the issuance of the stock.

Report the changes in the subsidiary's total equity capital resulting from:

- (1) Sale of the subsidiary's perpetual preferred stock or common stock;
- (2) Exercise of stock options, including:
 - (a) Any income tax benefits to the subsidiary resulting from the sale of the subsidiary's own stock acquired under a qualified stock option within three years of its purchase by the employee who had been granted the option; and
 - (b) Any tax benefits to the subsidiary resulting from the exercise (or granting) of nonqualified stock options (on the subsidiary's stock) based on the difference between the option price and the fair market value of the stock at the date of exercise (or grant);
- (3) The conversion of convertible debt, limited-life preferred stock, or perpetual preferred stock into perpetual preferred or common stock;
- (4) Redemption of perpetual preferred stock or common stock;
- (5) Retirement of perpetual preferred stock or common stock including:

Schedule IS-A

- (b) The net increase in equity capital when a stockholder who receives a fractional share from a stock dividend purchases the additional fraction necessary to make a whole share; and
- (6) Capital-related transactions involving the subsidiary's Employee Stock Option Plan.

Line Item 4 LESS: Cash dividends declared.

Report all cash dividends declared during the calendar year-to-date, including dividends on common and preferred stock. Include dividends not payable until after the report date. Also, a special purpose subsidiary (trust) should report dividends declared on the trust preferred stock. Exclude dividends declared during the previous calendar year but paid in the current period.

Cash dividends are payments of cash to stockholders in proportion to the number of shares they own. Cash dividends on preferred and common stock are to be reported on the date they are declared by the subsidiary's board of directors (the declaration date) by debiting "retained earnings" and crediting "dividends declared not yet payable," which is to be reported in other liabilities. Upon payment of the dividend, "dividends declared not yet payable" is debited for the amount of the cash dividend with an offsetting credit, normally in an equal amount, to "dividend checks outstanding."

A liability for dividends payable may not be accrued in advance of the formal declaration of a dividend by the boards of directors. However, the subsidiary may segregate a portion of retained earnings in the form of a capital reserve in anticipation of the declaration of a dividend.

Line Item 5 Other comprehensive income.

Report the amount of other comprehensive income for the calendar year-to-date. Other comprehensive income

includes changes during the calendar year-to-date in: net unrealized holding gains (losses) on available-for-sale securities, accumulated net gains (losses) on cash flow hedges, foreign currency translation adjustments, and minimum pension liability adjustments. Refer to the FR Y-9C instructions and FASB Statement No. 130 for additional information on reporting this item.

- (3) LESS: Purchases of treasury stock (the resale or the disposal on the subsidiary's own perpetual preferred stock or common stock, i.e., treasury stock transactions); and

LINE ITEM INSTRUCTIONS FOR

Line Item 1 Cash and balances due from depository institutions.

Report the total of non-interest bearing and interest-bearing balances due from depository institutions, currency and coin, cash items in process of collection and unposted debits.

Depository institutions consist of commercial banks in the United States, credit unions, mutual and stock savings banks, savings or building and loan associations, cooperative banks, industrial banks that accept deposits, U.S. branches and agencies of foreign banks, and banking organizations¹ in foreign countries.

Balances due from depository institutions include:

- (1) Noninterest-bearing funds on deposit at depository institutions for which the reporting company has already received credit; and
- (2) Interest-bearing balances due from depository institutions, whether in the form of demand, savings or time balances, including certificates of deposit, but excluding certificates of deposits held for trading.

Exclude balances with closed or liquidating banks or other depository institutions and all loans (report in item 3 below). Also exclude balances due from subsidiary banks (and their branches) of the reporting bank holding company (report in item 9 below).

Cash and due from balances include:

- (1) Cash items in the process of collection that include the following:

- (a) Checks or drafts in the process of collection that are drawn on banking institutions, and payable immediately upon presentation, including checks or drafts already forwarded for collection and checks on hand which will be presented for payment or forwarded for collection on the following business day in the country where the reporting office that is clearing or collecting the check or draft is located;
- (b) Government checks that are drawn on the Treasurer of the United States or any other government agency that are payable immediately upon presentation and that are in process of collection;
- (c) Checks or warrants that are drawn on a foreign government that are payable immediately upon presentation and that are in the process of collection; and
- (d) Amounts credited to deposit accounts in connection with automatic payment arrangements where such credits are made one business day prior to the payment date to ensure the availability of funds on the payment date; and

- (2) Unposted debits are cash items in the reporting organization's possession drawn on itself that are chargeable, but have not yet been charged to the general ledger deposit control account at the close of business on the report date.

Exclude from this item the following:

Balance Sheet

- (2) Cash items not conforming to the definition of in process of collection, whether or not cleared; and
- (3) Commodity or bill-of-lading drafts (including arrival drafts) not yet payable (because the merchandise against which the draft was drawn has not yet arrived), whether or not deposit credit has been given. (If deposit credit has been given, report such drafts as loans in the appropriate line item; if the drafts were received on a collection basis, exclude them entirely until the funds have actually been collected.)

Line Item 2 Securities.

Report the amount of U.S. Treasury securities, U.S. government agency and corporation obligations, securities issued by states and political subdivisions in the U.S., and all other debt and equity securities with readily determinable fair values. Also, include as debt securities all holdings of commercial paper. Report held-to-maturity securities in item 2(a) and available-for-sale securities in item 2(b). Exclude equity securities that do not have readily determinable fair values and report these equity securities in item 7, "All other assets."

Financial Accounting Standards Board Statement No. 115, "Accounting for Certain Investments in Debt and Equity Securities (FASB 115)," requires depository institutions to divide their securities holdings among three categories: held-to-maturity, available-for-sale, and trading securities. This accounting standard provides a different accounting treatment for each category. Under FASB 115, only those debt securities for which an institution has the positive intent and ability to hold to maturity may be included in the held-to-maturity account, and the institution would continue to account for these debt securities at amortized cost.

Securities in the available-for-sale category under FASB 115 are those securities for which an institution does not have the positive intent and ability to hold to maturity, yet does not intend to trade as part of its trading account. Report available-for-sale securities at fair value, and report unrealized holding gains (losses) on these securities, net of the applicable tax effect, as a separate component of equity capital in Schedule BS, item 18(d), "Accumulated other comprehensive income."

Trading securities are debt and equity securities that an institution buys and holds principally for the purpose of

selling in the near term. Report trading securities at fair value (generally, market value), and report unrealized changes in value (appreciation and depreciation) directly in the income statement as a part of earnings. Exclude all trading securities from this item and report trading securities in Schedule BS, item 4, "Trading assets."

Balance Sheet

otherwise with the intent to resell in order to profit from short-term price movements, or (c) acquire or take positions in such items as an accommodation to customers or for other trading purposes shall report in this item the value of such assets or positions on the report date. Report the amount of other comprehensive income in conformity with the requirements of FASB Statement No. 130, Reporting Comprehensive Income. Accumulated other comprehensive income includes net unrealized holding gains (losses) on available-for-sale securities, accumulated net gains (losses) on cash flow hedges, foreign currency translation adjustments, and minimum pension liability adjustments. Net unrealized holding gains (losses) on available-for-sale securities is the difference between the amortized cost and fair value of the subsidiary's available-for-sale securities, net of tax effects, as of the report date.

For most subsidiaries, all "securities," as the term is defined in FASB Statement No. 115, that are designated as "available-for-sale" will be reported as "available-for-sale securities" in item 2(b), above. However, a subsidiary may have certain assets that fall within the definition of "securities" in FASB Statement No. 115 (e.g., commercial paper or nonrated industrial development obligations) that the subsidiary has designated as "available-for-sale" which are reported for purposes of this report in a balance sheet category other than "securities" (e.g., "loans and lease financing receivables"). These "available-for-sale" assets must be carried on the balance sheet at fair value rather than

amortized cost and the difference between these two amounts, net of tax effects, must be included in this item.

Also include the unamortized amount of the unrealized holding gain or loss at the date of transfer of any debt security transferred into the held-to-maturity category from the available-for-sale category. When a debt security is transferred from available-for-sale to held-to-maturity, report the unrealized holding gain or loss at the date of transfer in this equity capital account and amortize it over the remaining life of the security as an adjustment of yield in a manner consistent with the amortization of any premium or discount. Accumulated net gains (losses) on cash flow hedges is the effective portion of the accumulated change in fair value (gain or loss) on derivatives designated and qualifying as cash flow hedges in accordance with FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities."

Under Statement No. 133, a subsidiary that elects to apply hedge accounting must exclude from net income the effective portion of the change in fair value of a derivative designated as a cash flow hedge and record it on the balance sheet in a separate component of equity capital (referred to as "accumulated other comprehensive income" in the accounting standard). Report the ineffective portion of the cash flow hedge in earnings. Adjust the equity capital component (i.e., the accumulated other comprehensive income) associated with a hedged transaction each reporting period to a balance that reflects the lesser (in absolute amounts) of:

- (1) The cumulative gain or loss on the derivative from inception of the hedge, less (a) amounts excluded consistent with the subsidiary's defined risk management strategy and (b) the derivative's gains or losses previously reclassified from accumulated other comprehensive income into earnings to offset the hedged transaction, or
- (2) The portion of the cumulative gain or loss on the derivative necessary to offset the cumulative change in expected future cash flows on the hedged transaction from inception of the hedge less the derivative's gains or losses previously reclassified from accumulated other comprehensive income into earnings.

Accordingly, the amount reported in this item should reflect the sum of the adjusted balance (as described

Balance Sheet

above) of the cumulative gain or loss for each derivative designated and qualifying as a cash flow hedge. These amounts will be reclassified into earnings in the same period or periods during which the hedged transaction affects earnings (for example, when a hedged variable rate interest receipt on a loan is accrued or when a forecasted sale occurs).

Report the sum of the subsidiary's foreign currency translation adjustments accumulated in accordance with FASB Statement No. 52, involved." Report any minimum pension liability adjustment recognized in accordance with FASB Statement No. 87, Employers' Accounting for Pensions. Under Statement No. 87, an employer must report in a separate component of equity capital, net of any applicable tax benefits, the excess of additional pension liability over unrecognized prior service cost.

Refer to the FR Y-9C instructions and FASB Statement No. 130 for additional information on reporting this item.

Line Item 18(e) Other equity capital components.

Report all other equity capital components including the total carrying value (at cost) of treasury stock and unearned Employee Stock Ownership Plan (ESOP) shares as of the report date. Refer to the FR Y-9C instructions for additional information on reporting this item.

Line Item 18(f) Total equity capital.

Report the sum of items 18(a) through 18(e). This item must equal Schedule IS-A, Changes in Equity Capital, item 7, "Total equity capital at end of current period."

Line Item 19 Total liabilities and equity capital.

Report the sum of items 17 and 18(f). This item must equal item 10, "Total assets."

Derivatives and Off-Balance-Sheet Items

Report the following selected commitments, contingencies, and other off-balance-sheet items and derivative contracts. Include transactions with related organizations. Exclude contingencies arising in connection with litigation.

Line Item 20 Unused commitments on securities underwriting.

Report the unsold portion of the subsidiary's own takedown in securities underwriting transactions. Report the unused portion of commitments for which the subsidiary has charged a commitment fee or other consideration, or otherwise has a legally binding commitment. Report such commitments regardless of whether they contain "material adverse change" clauses or other provisions that are intended to relieve the issuer of its funding obligations under certain conditions and regardless of whether they are unconditionally cancelable at any time.

Include revolving underwriting facilities (RUFs), note issuance facilities (NIFs), and other similar arrangements. These are facilities under which a borrower can issue on a revolving basis short-term paper in its own name, but for which the underwriting banks have a legally binding commitment either to purchase any notes the borrower is unable to sell by the roll-over date or to advance funds to the borrower.

Line Item 21 Unused commitments on loans and all other unused commitments.

Report the unused portions of commitments that obligate the reporting subsidiary to extend credit in the form of loans or participations in loans, lease financing receivables, or similar transactions. Report the unused portion of commitments for which the subsidiary has charged a commitment fee or other consideration, or otherwise has a legally binding commitment. Report such commitments regardless of whether they contain "material adverse change" clauses or other provisions that are intended to relieve the issuer of its funding obligations under certain conditions and regardless of whether they are unconditionally cancelable at any time. In the case of commitments for syndicated loans, report only the subsidiary's proportional share of the commitments. Report unused commitments gross, that is, including any commitments acquired from others and any portions of commitments conveyed to others.

Include loan proceeds that the subsidiary is obligated to advance, such as loan draws, construction progress payments, seasonal or living advances to farmers under prearranged lines of credit, rotating or revolving credit arrangements, including retail credit card, check credit, and related plans, or similar transactions. Include

Balance Sheet

forward agreements and commitments to issue a commitment at some point in the future.

Report the unused portion of commitments to extend credit for the following loans:

- (1) Revolving, open-end loans secured by 1–4 family residential properties, e.g., home equity lines;
- (2) Commercial real estate, construction, and land development;
- (3) Commitments to fund loans secured by real estate;
- (4) Commitments to fund loans not secured by real estate;
- (5) Credit card lines;
- (6) Overdraft facilities;
- (7) Commercial lines of credit; and
- (8) Retail check credit and related plans.

Line Item 22 Standby letters of credit and foreign office guarantees.

Report the amount outstanding and unused as of the report date of all standby letters of credit (and all legally binding commitments to issue standby letters of credit) issued by the subsidiary. The originating subsidiary must report the full outstanding and unused amount of standby letters of credit in which participations have been conveyed to others where (a) the originating and issuing subsidiary is obligated to pay the full amount of any draft drawn under the terms of the standby letter of credit and (b) the participating companies have an obligation to partially or wholly reimburse the originating subsidiary, either directly in cash or through a participation in a loan to the account party. The originating subsidiary also must report the amount of standby letters of credit conveyed to others through participations. The subsidiary participating in such arrangements must report the full amount of their contingent liabilities to participate in such standby letters of credit without deducting any amounts that they may have reparticipated to others. Participating subsidiaries also must report the amount of interest in transactions that they have reparticipated to others, if any. Also include those standby letters of credit that are collateralized by cash on deposit.

Line Item 23 Commercial and similar letters of credit.

Report the amount outstanding and unused as of the report date of issued or confirmed commercial letters of credit, travelers' letters of credit not issued for money or its equivalent, and all similar letters of credit, but excluding standby letters of credit (which are to be reported in item 22 above). Report legally binding commitments to issue commercial letters of credit.

Line Item 24 Commitments to purchase foreign currencies and U.S. dollar exchange (spot, forward, and futures).

Report the gross aggregate par value or notional amount (stated in U.S. dollars) of all futures contracts, forward and spot contracts to purchase foreign (non-U.S.) currencies and U.S. dollar exchange that are outstanding as of the report date. A purchase of U.S. dollar exchange is equivalent to a sale of foreign currency. Report only one side of a foreign currency transaction. In those transactions where foreign (non-U.S.) currencies are bought or sold against U.S. dollars, report only that side of the transaction that involves the foreign (non-U.S.) currency. A currency futures contract is a standardized agreement for delayed delivery of a foreign (non-U.S.) currency in which the buyer agrees to purchase and the seller agrees to deliver, at a specified future date, a specified amount at a specified exchange rate. Future contracts are traded on organized exchanges that act as the counterparty to each contract.

A forward foreign exchange contract is an agreement for delayed delivery of a foreign (non-U.S.) currency in which the buyer agrees to purchase and the seller agrees to deliver, at a specified future date, a specified amount at a specified exchange rate. These contracts are not standardized and are traded in an over-the-counter market. A spot contract is an agreement for the immediate delivery, usually within two days, of a foreign currency at the prevailing spot rate. Contracts are outstanding (i.e., open) until they have been canceled by acquisition or delivery of the underlying currencies or, for futures contracts, by offset. ("Offset" is the purchase and sale of an equal number of contracts on the same underlying currencies for the same delivery month, executed through the same clearing member on the same exchange.)

Balance Sheet

Line Item 25 All other futures and forward contracts (excluding contracts involving foreign exchange).

Report the gross aggregate par value or notional amount of all other futures and forward contracts not included in item 24. Include futures and forward interest rate contracts (e.g., U.S. Treasury securities futures, forward rate agreements, and forward agreements on U.S. government securities) and futures and forward contracts on other commodities (e.g., stock index and commodity contracts). Report the aggregate par value of all futures and forward contracts that are related to an interest-bearing financial instrument or whose cash flows are determined by referencing interest rates or another interest rate contract.

Report futures and forward contracts that commit the subsidiary to purchase or sell agricultural products (e.g., wheat or coffee), precious metals (e.g., gold or platinum), non-ferrous metals (e.g., copper or zinc) or any other commodity.

Futures and forward contracts are agreements for delayed delivery of financial instruments or other commodities in which the buyer agrees to purchase and the seller agrees to deliver, at a specified future date, a specified instrument or commodity at a specified price. Futures contracts are standardized, transferable agreements traded on organized exchanges that act as the counterparty to each contract. Forward contracts are not standardized and are not traded on organized exchanges. The contract amount to be reported for futures and forward contracts on commodities is the quantity, (i.e., number of units) of the commodity or product contracted for purchase or sale multiplied by the contract price of a unit.

Line Item 26 Option contracts.

Report the amount of written option contracts in item 26(a), and the amount of purchased option contracts in item 26(b). In reporting items 26(a) and 26(b), do not net the following:

- (1) Obligations of the subsidiary to buy against the subsidiary's obligations to sell, or
- (2) Written options against purchased options.

An option contract conveys either the right or the obligation, depending upon whether the reporting subsidiary is the purchaser or the writer, respectively, to

(1) buy or sell a financial instrument or an interest rate futures contract on a financial instrument at a specified price by a specified future date, (2) exchange two different currencies at a specified exchange rate, or (3) buy or sell stock options, stock index options, or other commodities. Options can be traded on organized exchanges. In addition, options can be written to meet the specialized needs of the counterparties to the transaction. These customized option contracts are known as over the counter (OTC) options and are not generally traded.

Line Item 26(a) Written option contracts.

Report the amount of all financial instruments (aggregate par value), foreign currencies, and other commodities that the reporting subsidiary has obligated itself, for compensation (such as a fee or premium), to either purchase or sell under option contracts that are outstanding as of the report date.

Line Item 26(b) Purchased option contracts.

Report the amount of all financial instruments (aggregate par value), foreign currencies, and other commodities that the reporting subsidiary has purchased, for compensation (such as a fee or premium), the right to either purchase or sell under option contracts that are outstanding as of the report date. In the case of option contracts giving the reporting subsidiary the right to either purchase or sell a futures contract, report the amount of the financial instrument, foreign currency, or other commodity underlying the futures contract.

Line Item 27 Notional value of interest rate swaps.

Report the notional value of all outstanding interest rate and basis swaps. In those cases where the subsidiary is acting as an intermediary, report both sides of the transaction. Include cross-currency interest rate swaps that do not involve the exchange of principal amounts between the counterparties. An interest rate swap is a transaction in which two parties agree to exchange the interest payment streams on a specified principal amount of assets or liabilities for a certain number of years. The notional value of an interest rate swap is the underlying principal amount upon which the exchange of interest income or expense is based.

Line Item 28 Notional value of exchange swaps.

Report the notional principal value (stated in U.S.

Balance Sheet

dollars) of all outstanding cross-currency interest rate swaps. In those cases where the subsidiary is acting as an intermediary, report both sides of the transaction. A cross-currency interest rate swap is a transaction in which two parties agree to exchange principal amounts of different currencies, usually at the prevailing spot rate, at the inception of the agreement, which lasts for a certain number of years. Over the life of the swap, the counterparties exchange payments in the different currencies based on fixed rates of interest. When the agreement matures, the principal amounts will be re-exchanged at the same spot rate. The notional value of a cross-currency interest rate swap is the underlying principal amount upon which the exchange is based.

Line Item 29 Notional value of other swaps.

Report the notional principal value of all other swap agreements that are not reportable as either interest or foreign exchange rate contracts in items 27 or 28.

Line Item 30 All other off-balance-sheet liabilities.

With the exceptions listed below, report all types of off-balance-sheet items not covered in other items of this schedule. Other off-balance-sheet liabilities include, but are not limited to:

- (1) Securities borrowed against collateral (other than cash) or on an uncollateralized basis;
- (2) Securities lent against collateral or on an uncollateralized basis (other than cash);
- (3) Commitments to purchase and to sell securities that have not been issued (when-issued securities) and

are excluded from the requirements of FASB Statement No. 133 and are not reported in item 25;

- (8) Shipment or dockside guarantees or similar guarantees relating to missing bills of lading or title documents and other document guarantees that facilitate the replacement of lost or destroyed documents and negotiable instruments.

Exclude from other off-balance-sheet items:

- (1) All items that are required to be reported on the balance sheet, such as repurchase and resale agreements;
- (2) Commitments to purchase property being acquired for lease to others (reported in item 23);
- (3) Contingent liabilities arising in connection with litigation in which the subsidiary is involved; and
- (4) Signature or endorsement guarantees of the type associated with the regular clearing of negotiable instruments or securities in the normal course of business.

Loans and Lease Financing Receivables

Schedule BS-A

General Instructions

Loans and lease financing receivables are extensions of credit resulting from either direct negotiation between the subsidiary and their customers or the purchase of such assets from others. Loans may take the form of promissory notes, acknowledgments of advance, due bills, invoices, overdrafts, acceptances held, factoring account receivables, and similar written or oral obligations.

Include the dollar amount outstanding of all federal funds sold (including “term federal funds”) and securities purchased under agreement to resell. Also include resale agreements involving assets other than securities.

Exclude:

- (2) Any loans or leases that the subsidiaries have sold or charged off;
- (3) The fair value of any assets received in full or partial satisfaction of a loan or lease (unless the asset received is itself reportable as a loan or lease) and any loans for which the subsidiary has obtained physical possession of the underlying collateral regardless of whether formal foreclosure or repossession proceedings have been instituted against the borrower;
- (4) Holdings of commercial paper (report in Schedule BS, item 2, “Securities”);
- (5) Contracts of sale or other loans indirectly representing other real estate (report in Schedule BS, item 6, “Other real estate owned”); and

Exclude all transactions with related institutions. Include in items 1 through 7 all loans and leases on the books of the subsidiary even if on the report date they are past due and collection is doubtful. Also report all loans and leases held for sale as part of the subsidiary’s mortgage banking activities or activities of a similar nature involving other types of loans. Loans held for sale shall be reported at the lower of cost or market value. Exclude any loans or leases the subsidiary has charged off (report in Schedule IS-B, item 3, “less: charge-offs.” Report the aggregate book value of all loans and leases before deduction of the allowance for loan and lease losses. Report each item in this schedule net of (1) unearned income (to the extent possible), (2) any applicable allocated transfer risk reserve, and (3) deposits accumulated for the payment of personal loans (hypothecated deposits).

Line Item 1 Total Loans secured by real estate.

Line Item 2 Loans to depository institutions.

Report the subsidiary’s holdings of all bankers acceptances accepted by unrelated banks (i.e., banks that are not direct or indirect subsidiaries of the

Schedule BS-A

subsidiary's bank holding company or parent organization).

Exclude acceptances accepted by related banks (i.e., banks that are direct or indirect subsidiaries of the subsidiary's bank holding company or parent organization). Also exclude loans to foreign governments and foreign official institutions.

Line Item 3 Commercial and industrial loans.

Include all loans to individuals for household, family, and other personal expenditures that are not secured by real estate, whether direct loans or purchased paper. Line Item 5 All other loans and lease financing receivables.

Report all other loans held by the subsidiary that are not properly included in items 1 through 4 above and all lease financing receivables. Report all outstanding receivable balances relating to direct financing and leveraged leases on property acquired by the subsidiary for leasing purposes. These balances should include the estimated residual value of leased property and must be net of unearned income. Include all lease financing receivables of states and political subdivisions in the U.S. Also include all loans to foreign governments and official institutions.

Report the full outstanding balances of the past due loans and lease financing receivables, not simply the delinquent payments.

Schedule BS-A

Line Item 7(c) Nonaccrual loans and leases.

Report loans and lease financing receivables accounted for on a nonaccrual status. Include restructured loans and leases that are in nonaccrual status. For purposes of this report, report loans and leases as being in nonaccrual status if: (a) they are maintained on a cash basis because of deterioration in the financial position of the borrower, (b) payment in full of interest or principal is not expected, or (c) principal or interest has been in default for a period of 90 days or more unless the obligation is both well-secured and in the process of collection.

NOTE: Loans to individuals for household, family, and other personal expenditures and loans secured by 1 to 4 family residential properties on which principal or interest is due and unpaid for 90 days or more are not required to be reported as nonaccrual loans. Nevertheless, such loans should be subject to other alternative methods of evaluation to assure that the subsidiary's net income is not materially overstated. To the extent that the subsidiary has elected to carry any loans in nonaccrual status on its books, such loans must be reported as nonaccrual in this item.

Line Item 7(d) Restructured loans and leases included in items 7(a) through 7(c) above.

Report loans and leases that, under their modified terms, are past due 30 days or more and still accruing or are in nonaccrual status as of the report date. Report such loans and leases in items 7(a), 7(b), or 7(c), (and exclude from item 6). Restructured debt includes those loans and lease financing receivables that have been restructured or renegotiated to provide a reduction of either interest or principal because of a deterioration in the financial position of the borrower. A loan extended or renewed at a stated interest rate equal to the current interest rate for new debt with similar risk is not considered restructured debt.

Exclude all loans to individuals for household, family, and other personal expenditures, and all loans secured by 1–4 family residential properties. (However, restructured loans of these two types that subsequently become past due 90 days or more or are placed in nonaccrual status should be reported accordingly.)
