(a) Public Section – 2015 Plan Submission

(1) Introduction

This Public Section of the resolution plan is being filed by the National Bank of Kuwait S.A.K.P. ("NBK", the "Bank" or the "covered company") to fulfill the requirements of Section 165(d) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") and its implementing regulations (the "Final Rule"). Section 165(d) of the Dodd-Frank Act and the Final Rule require any foreign bank or company that is a bank holding company or treated as a bank holding company under Section 8(a) of the International Banking Act of 1978 ("IBA") and that has \$50 billion or more in total consolidated assets (such company a "covered company") to periodically submit to the Board of Governors of the Federal Reserve System ("FRB") and the Federal Deposit Insurance Company ("FDIC") a plan for the rapid and orderly resolution of its U.S. operations in the event of material financial distress or failure. NBK is a foreign bank that is treated as a bank holding company pursuant to Section 8(a) of the IBA with total global consolidated assets of more than \$50 billion as of December 31, 2014. NBK is therefore a covered company and is required to submit periodically a resolution plan for its U.S. operations.

In lieu of a standard resolution plan, NBK is submitting a "tailored" resolution plan ("TRP" or "Plan") which is available to foreign banking organizations with less than \$100 billion in total U.S. non-bank assets, and with the assets of its U.S. banking operations comprising 85% or more of its U.S. total consolidated assets.

On March 12, 2015, the Bank submitted written notice to the FDIC and FRB of its intent and eligibility to submit a tailored resolution plan and received confirmation by the FDIC/FRB on June 4, 2015 of its eligibility to file a TRP. Subsequently in a letter dated July 24, 2015, the FDIC/FRB notified the Bank that the 2015 plan is only required to contain information concerning material changes that require modifications to the 2014 Plan and any actions taken to improve the effectiveness of our resolution plan. This Public Section of NBK's TRP provides an executive summary of the Bank as well as any material changes since the 2014 Plan.

(3) Resolution strategy and Material Changes

NBK's Tailored Resolution Plan addresses the requirements for a resolution plan under the FRB and FDIC rule implementing Section 165(d) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010.

NBK's December 2014 Plan provided a high level analysis of how the covered company's NY Branch could be resolved in a rapid and orderly manner that would not create significant adverse effects on U.S. financial stability.

NBK has determined that there have been no material changes to its resolution plan since the filing of its initial tailored plan in December, 2014. Further, in light of the size and structure of its U.S. operations, NBK has not deemed it necessary to take any actions to improve the effectiveness of its resolution plan.
