General Description of Reports

The Market Risk Regulatory Report for Institutions Subject to the Market Risk Capital Rule (FFIEC 102) is filed quarterly with the agencies and provides information for market risk institutions, defined for this purpose as those institutions that are subject to the market risk capital rule as incorporated into Subpart F of the agencies’ regulatory capital rules¹ (market risk institutions). Each market risk institution is required to file the FFIEC 102 for the agencies’ use in assessing the reasonableness and accuracy of the institution’s calculation of its minimum capital requirements under the market risk capital rule and in evaluating the institution’s capital in relation to its risks. Additionally, the market risk information collected in the FFIEC 102: (a) Permits the agencies to monitor the market risk profile of, and evaluate the impact and competitive implications of, the market risk capital rule on individual market risk institutions and the industry as a whole; (b) provides the most current statistical data available to identify areas of market risk on which to focus for onsite and offsite examinations; (c) allows the agencies to assess and monitor the levels and components of each reporting institution’s risk-based capital requirements for market risk and the adequacy of the institution’s capital under the market risk capital rule; and (d) assists market risk institutions in validating their implementation of the market risk framework.

Statutory Basis and Confidential Treatment

The quarterly FFIEC 102 information collection is mandatory for market risk institutions: 12 U.S.C. 161 (national banks), 12 U.S.C. 324 (state member banks), 12 U.S.C. 1844(c) (bank holding companies), 12 U.S.C. 1467a(b) (savings and loan holding companies), 12 U.S.C. 5365 (U.S. intermediate holding companies), 12 U.S.C. 1817 (insured state nonmember commercial and savings banks), and 12 U.S.C. 1464 (savings associations). The FFIEC 102

¹ 12 CFR 3.201 (OCC); 12 CFR 217.201 (Board); and 12 CFR 324.201 (FDIC). The market risk capital rule generally applies to any banking institution with aggregate trading assets and trading liabilities equal to (a) 10 percent or more of quarter-end total assets or (b) \$1 billion or more.

information collections are not given confidential treatment.

The agencies invite comment on the following topics related to these collections of information:

(a) Whether the information collections are necessary for the proper performance of the agencies' functions, including whether the information has practical utility;

(b) The accuracy of the agencies' estimates of the burden of the information collections, including the validity of the methodology and assumptions used;

(d) Ways to minimize the burden of information collections on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Comments submitted in response to this joint notice will be shared among the agencies. All comments will become a matter of public record.
