**Re: Application of Opportunity Financial (“OppFi”) to [FDIC](#) (#20260654), [OCC](#) (#27220) and [FRB](#) to acquire BNC National Bank, to create and merge with OppFi Bank, and to become a bank holding company, [91 Fed. Reg. 42961 \(July 13, 2026\)](#)**

Dear Mr. Koopmans,

My name is Chuck Bell and I serve as Programs Director, Advocacy for Consumer Reports<sup>1</sup> in Yonkers, New York. I am writing regarding OppFi’s proposed acquisition of BNC National Bank and proposal to become a bank holding company. Specifically, OppFi has agreed to acquire BNCCORP and BNC National Bank in a transaction that would combine OppFi’s digital lending platform with BNC’s national bank charter. OppFi states that the combination would place lending and deposit products under unified OCC and Federal Reserve supervision, lower funding costs through access to deposits, expand geographic reach, and support substantial growth. The transaction remains subject to regulatory approvals and is expected to close in the fourth quarter of 2026.<sup>2</sup>

Consumer Reports has very strong concerns and reservations regarding the proposed application. Based on OppFi’s national track record of making high-cost short-term loans of 160% APR loans in many states that prohibit excessive, usurious interest rates, we are concerned that approving the acquisition would further harm consumers and communities, and at a broader level, create a race to the bottom through the expansion of high-cost lending models nationwide.

OppFi is proposing to take a high-cost consumer-lending model and place it inside a bank holding company structure with access to a national-bank subsidiary and substantially cheaper deposit funding. The relevant question is therefore whether management has demonstrated that the resulting **larger, cheaper-funded and potentially faster-growing lending operation** will have sound financial prospects, adequate compliance and governance systems, and demonstrable benefits for the communities it serves. We are concerned that the highly negative borrower outcomes that are already evident from OppFi’s current operations will spread more deeply and

---

<sup>1</sup> Founded in 1936, Consumer Reports (CR) is an independent, nonprofit and nonpartisan organization that works with consumers to create a fair and just marketplace. Known for its rigorous testing and ratings of products, CR also advocates for laws and corporate practices that are beneficial for consumers. CR is dedicated to amplifying the voices of consumers to promote safety, digital rights, financial fairness, and sustainability. The organization surveys millions of Americans every year, reports extensively on the challenges and opportunities facing today’s consumers, and provides ad-free content and tools to 6 million members across the United States.

<sup>2</sup> OppFi, “OppFi Announces Definitive Agreement to Acquire BNCCORP, Inc. and BNC National Bank,” Apr. 29, 2026. <https://investors.oppfi.com/news/news-details/2026/OppFi-Announces-Definitive-Agreement-to-AcquireBNCCORP-Inc--and-BNC-National-Bank-and-the-Elimination-of-Up-C-Structure/default.aspx>

widely in states and communities across the country. High default rates, repeat borrowing, regulatory complaints, servicing failures, total borrowing costs, refinancing behavior, and credit-score trajectories are very important indicators that already raise concerns about whether consumers are actually being served and whether management is capable of safely operating the resulting banking organization. The Federal Reserve's oversight framework supports incorporating consumer-compliance risk into its assessment of a potential Bank Holding Company's overall risk profile.

The proposed application raises serious questions relating to management oversight and supervision, risks controls, consumer compliance risk, and potentially negative impacts on customers and the convenience and needs of communities. We are also concerned that approval of the transaction could have a negative effect on the lending and compliance practices of other banks, such that they would perceive a permissive environment to also engage in high-cost lending to compete with OppFi.

### **OppFi's High Cost Lending Model**

We are a signer of the coalition letter to the FDIC, Federal Reserve and OCC that was submitted by Consumer, Civil Rights, Legal Services and Community Groups and Academics. The letter expresses strong concerns about OppFi's track record as an institution that makes high-cost loans with a very high rate of defaults and charge-offs. As the coalition letter states, these practices are extremely harmful to customers and should have no place in the national bank system:

"...OppFi's rates typically reach 160% and as high as 195%.<sup>3</sup> Loans at those rates are debt traps, not responsible credit. OppFi's interest rates are illegal in up to 45 states, depending on the size of the loan.<sup>4</sup> OppFi seeks a bank charter to avoid the nearly unanimous judgment across the country that its loans are destructive and should be prohibited. OppFi's charge-offs are over 55%, proof of its irresponsible lending.<sup>5</sup> Chargeoffs at those rates have never been tolerated at national banks. That rate is more than 14 times the credit card charge-off rate and even 10 times the credit card charge-off rate at the peak of the Great Recession.<sup>6</sup> Consumers default in high numbers, many others struggle to repay, and OppFi's lending is not based on ability to repay.

"...OppFi's frequent refinancing promotes long-term debt and disguises defaults.<sup>7</sup> As much as 75% of OppFi's pre-tax income comes from refinancing, and about half of OppFi customers refinance, sometimes multiple times and within two or three months of taking out the loans.<sup>8</sup> Between defaults and refinances, very few OppFi borrowers repay their loans in full on the loan's original terms."

<sup>3</sup> Center for Responsible Lending, [Lost Opportunities: How OppFi Traps Borrowers in Unaffordable Debt](#) (Jan. 27, 2026) ("CRL, Lost Opportunities").

<sup>4</sup> National Consumer Law Center, [Fact Sheet: State Annual Percentage Rate \(APR\) Caps for \\$500, \\$2,000, and \\$10,000 Installment Loans](#) (Dec. 18, 2025).

<sup>5</sup> See cross river IQ, [Q4 Consumer Lending Review](#) (May 27, 2026) (59% net charge-off in 4Q25, 55.5% in 1Q26); Alex Horowitz & Chase Hatchett, Pew Charitable Trusts, [Rent-a-Bank Payday Lenders' New Filings Show 55% Average Loss Rates](#) (Jan 9, 2023).

<sup>6</sup> Board of Governors of the Federal Reserve System, [Charge-Off and Delinquency Rates on Loans and Leases at Commercial Banks](#).

<sup>7</sup> CRL, Lost Opportunities, *supra*.

<sup>8</sup> *Ibid*.

“...There is an enormous gap between the destructive, usurious rates that OppFi charges and the top rates allowed by nearly every state. As shown in this graph, which displays the maximum rates allowed in the 43 states that cap rates on a \$2,000, two-year installment loan, OppFi’s rates are many multiples of the legal rate in every one of those states.<sup>9</sup>

As the letter also points out, “...OppFi’s lending program is risky, unsafe and unsound. It violates the principles of responsible lending outlined in the Interagency Guidance for Responsible Small-Dollar Loans.<sup>10</sup> Those principles, approved during President Trump’s first term, include several metrics OppFi does not meet, including:

- A high percentage of customers successfully repaying their small dollar loans in accordance with original loan terms, a key indicator of affordable and appropriate underwriting. Instead, OppFi’s underwriting is unaffordable and inappropriate.
- Repayment terms, pricing, and safeguards that minimize adverse customer outcomes. Rather, OppFi has high defaults and cycles of debt due to reborrowing.
- Repayment outcomes and program structures that enhance a borrower’s financial capabilities. OppFi’s lending destroys financial capability by imposing enormous interest charges and payment obligations on consumers in financial stress, leading to high numbers of consumers struggling and in long term debt.”

“...OppFi’s high charge-off rates alone are grounds for denying this application.”

“...OppFi is not engaged in responsible lending or meeting the conveniences and needs of the community. OppFi’s lending program poses a high risk of violating numerous consumer protection and other laws, including those on unfair, deceptive or abusive practices, debt collection, credit reporting, fair lending, military lending, privacy and data security, know-your-customer, and community reinvestment requirements.”

## Consumer Complaints About Opportunity Financial Provide Concerning Signals of Financial Harm to Borrowers

To learn more about OppFi's lending record, Consumer Reports examined complaints that have been submitted to both the Consumer Financial Protection Bureau and the Better Business Bureau.

The CFPB file contains 1,990 complaints, including 740 narratives<sup>11</sup>. Complaint volume rose from 178 in 2023 to 394 in 2024 and 710 in 2025; 454 were filed in the first part of 2026 through the download date. Complaint narratives repeatedly describe emergency borrowing, unexpected total costs, balances that decline slowly, refinancing that supplies little new cash, unaffordable payments, hardship, and collection consequences. The Better Business Bureau complaints and company responses provide concrete examples of refinancing mechanics and explain that missed payments may cause additional interest and extend loans beyond their original maturity date.

The CFPB dataset contains 1,990 complaints involving Opportunity Financial, LLC from 2017 through July 23, 2026. Of these, 740 include consumer narratives. Because the raw file includes substantial credit-reporting and identity-theft boilerplate, the thematic narrative analysis excludes 175 narratives identified through common boilerplate terms, leaving 565 narratives for coding. Many themes expressed by consumers overlap.

<sup>11</sup> CFPB Complaints relating to Opportunity Financial LLC, available at CFPB Complaint Database, [https://www.consumerfinance.gov/data-research/consumercomplaints/search/?company=Opportunity%20Financial%2C%20LLC&dateRange=3y&date\\_received\\_max=2026-0729&date\\_received\\_min=2023-07-29&page=1&searchField=all&size=25&sort=created\\_date\\_desc&tab=List](https://www.consumerfinance.gov/data-research/consumercomplaints/search/?company=Opportunity%20Financial%2C%20LLC&dateRange=3y&date_received_max=2026-0729&date_received_min=2023-07-29&page=1&searchField=all&size=25&sort=created_date_desc&tab=List) (accessed 07-23-26)

Figure 1. Complaint counts reflect the CFPB export date and do not adjust for changes in company size, customer volume, reporting behavior, or incomplete 2026 data.

Figure 2. Credit-reporting disputes dominate the full file, but high-cost lending issues remain prominent: 204 complaints are coded as unexpected fees or interest and 102 as struggling to pay the loan.

Figure 3. Keyword-coded themes among 565 non-boilerplate narratives. Counts are descriptive and themes overlap; they are not estimates of all borrower experiences.

Taken together, the complaints show a strong persisting trend of borrower financial distress. Complaint volume increased markedly in 2024 and 202. Recent borrower stories continue to describe APRs near 160% and higher. Collections and credit consequences appear frequently, but the report's central focus is the product path leading to financial distress: emergency borrowing, high cost, refinancing, payment allocation, and hardship.

While these borrower stories give helpful insights into the experience of some customers, complaint data cannot measure incidence among all borrowers. Regulators should therefore examine OppFi's internal denominator data in more detail, including data relating to originations, repeat borrowing, refinances, hardship enrollments, delinquency, charge-offs, and borrower financial outcomes.

### Common Themes in CFPB Complaints

#### 1. Emergency credit becomes a long obligation

Borrowers commonly report taking loans for housing costs, utilities, medical needs, transportation, unemployment, and other urgent expenses. The urgency that makes fast funding valuable may also reduce a borrower's practical ability to compare total cost or absorb biweekly and weekly payments.

#### 2. The true cost is understood too late

Many narratives acknowledge signing disclosures but say the effect of a 150%–180% APR became clear only after payments began. This distinction matters: formal disclosure of APR and total

payments is not necessarily the same as effective consumer understanding under emergency conditions.

### 3. Payments may produce little visible principal reduction

Recent narratives describe cleared payments applied entirely or primarily to accrued interest for extended periods. At triple-digit rates, payment interruptions, reversals, or deferments can make the payoff path difficult to understand and can leave principal largely unchanged.

### 4. Refinancing can provide little new money while resetting the obligation

Several complaints provide concrete numbers showing that most proceeds of a “new” loan were used to retire the old balance. One 2025 complaint reported a \$3,200 refinance in which only \$400 was received as new cash; a BBB response describes a \$2,500 refinance in which \$792.90 went to the borrower and \$1,707.10 paid off the prior loan.

### 5. Hardship can trigger a cascade of consequences

Borrowers report job loss, medical hardship, insufficient-funds returns and fees, extended maturities, collections, charge-offs, and damaged credit. Even where hardship programs exist, the public record does not disclose how frequently they are requested, granted, or successful at preventing default.

| Sample consumer statement                                                                                      | Illustrated concern                                                     |
|----------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|
| “Only \$400 was provided to me as new funds while \$2,700 was used to refinance an existing OppLoans balance.” | Refinancing may reset high-cost debt while supplying limited liquidity. |
| “I was hoping to take care of some emergency issues. I did not think that this would become a nightmare.”      | Emergency context and post-origination surprise.                        |
| “Each show the full \$110 applied to interest and no reduction to the principal balance.”                      | Payment allocation and slow principal amortization.                     |
| “I wasn’t paying attention to the interest rate when I signed... mostly interest.”                             | Understanding of cost under emergency pressure.                         |
| “The missed payment would simply be added to the end... [but] the remaining balance consists of interest.”     | Deferment and extended payoff uncertainty.                              |

## Better Business Bureau Complaints

The Better Business Bureau (BBB) profile for Opportunity Financial listed 357 complaints over the prior three years, including 167 categorized as billing issues. BBB cautions that displayed complaint text may not represent all filed complaints. The BBB data is therefore not a representative sample,

but company responses are useful because they often provide specific loan mechanics and account histories.<sup>12</sup>

| Recent BBB example                  | Company-response detail                                                                                                                                 | Regulatory significance                                                                      |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|
| 2026 refinance                      | \$2,500 loan: \$792.90 paid to the borrower; \$1,707.10 used to pay off the previous loan.                                                              | Shows that gross originations can overstate the new liquidity provided to a repeat borrower. |
| 2025 refinance                      | \$1,600 loan: \$1,128.31 paid to the borrower; \$471.69 used to retire prior debt.                                                                      | Illustrates repeated borrowing and rollover mechanics.                                       |
| Missed weekly payment               | \$2,000 loan required forty weekly payments of \$94.42; response states missed payments cause additional interest and extend the original maturity date | Confirms that payment disruption can lengthen indebtedness.                                  |
| Account with many returned payments | \$1,000 loan had eighteen successful payments and twenty returned payments, followed by charge-off and later settlement.                                | Illustrates repeated payment attempts, insufficient funds, and prolonged account resolution. |

Source: BBB complaint page and published OppFi responses

The CFPB and BBB complaints are likely just the tip of the iceberg because most borrowers do not know who oversees high-cost loans and who can help them if they have a complaint. For every complaint received, there are likely many other borrowers who experienced a similar problem.

The complaints do not prove every borrower is harmed. But they do help shine a light on a product design in which rapid access to emergency credit is paired with unusually high cost, and in which successful consumer use may depend heavily on maintaining an uninterrupted payment schedule or paying off early.

That structure warrants heightened scrutiny given the very high stakes for the public relating to OppFi's application to complete the acquisition and obtain the funding advantages of a national bank. In Appendix A, we provide 25 illustrative borrower stories to put a human face on the hardships and unexpected risks encountered by borrowers in interacting with OppFi and struggling to pay back their loans.

### **Attorneys Generals' Letter Highlight Consumer and Systemic Risks Posed By Usurious Predatory Lending, Urges Federal Regulators to Disapprove OppFi and Enova Efforts to Obtain Federal Banking Charters**

Attorneys General are on the frontlines of enforcing state protections against predatory and usurious lending to protect consumers in their states. Twenty state attorneys general, led by Illinois AG Kwame Raoul, recently wrote a letter urging the OCC, Fed and FDIC not to approve the

<sup>12</sup> Better Business Bureau, OppLoans Complaints profile, accessed July 2026, available at:

<https://www.bbb.org/us/il/chicago/profile/consumer-finance-companies/opploans-0654-88577853/complaints>

<https://www.bbb.org/us/il/chicago/profile/consumer-finance-companies/opploans-0654-88577853/complaints>

proposed OppFi and Enova fintech purchases of banks, because of the potential further harm to consumers and the national banking system.

“As the regulators that manage national bank charters, bank holding companies, and deposit insurance, you collectively determine who is allowed access to national banking privileges and what responsibilities and conditions they must meet,” the 20 Attorneys General wrote. “We urge you to prohibit such access to entities that have a track record of brazenly attempting to evade state law and disregarding consumer protections... Allowing such companies into the national banking system without guardrails empowers and incentivizes predatory lending and needlessly leaves consumers vulnerable to harm.”<sup>13</sup>

The Attorneys General emphasized that granting national bank privileges to predatory lenders would severely erode state autonomy and consumer protections. They also point out that granting charters to high-cost lenders and emerging nontraditional companies endangers safety and soundness and the stability of the financial marketplace, because OppFi and Enova do not fully assess borrower ability to repay the loans. Attorneys general from Arizona, California, Colorado, Connecticut, District of Columbia, Hawaii, Maine, Maryland, Massachusetts, Michigan, Minnesota, Nevada, New Jersey, New Mexico, New York, Oregon, Rhode Island, Vermont and Washington joined Illinois’ Attorney General Raoul.

## Conclusion

For all the reasons listed above, Consumer Reports opposes the proposal to allow OppFi to move forward with completing its acquisition of BNC National Bank and obtain the advantages of a national bank charter. We urge the Federal Reserve, FDIC and OCC to closely scrutinize the proposal and the potentially negative impacts on the safety and soundness of the banking system, the federal deposit insurance system, community reinvestment obligations, and the convenience and needs of customers and communities.

Adverse consumer outcomes should get priority attention in regulatory review of the proposal, because they are highly relevant to each category of issues that ought to be of priority concern to federal financial regulators.

**Appendix B. Methodology**

Dataset - CFPB Consumer Complaint Database export supplied by the user, downloaded July 23, 2026. The file contains 1,990 records naming Opportunity Financial, LLC.

**Narrative universe**

740 records contained narrative text longer than 40 characters. A reproducible keyword screen identified and excluded 175 narratives dominated by common credit-reporting or identity-theft boilerplate, leaving 565 for high-cost-lending theme coding.

**Theme coding**

Narratives were coded using case-insensitive keyword and phrase patterns for high APR/cost, emergency needs, unexpected terms, hardship, debt-trap dynamics, affordability, refinancing, payment processing, and collection consequences. One narrative may match multiple themes. Counts are descriptive and were not manually validated line by line.

**Case selection**

Illustrative cases were selected using a transparent scoring approach that favored recent narratives matching multiple high-cost-lending themes, followed by editorial review for specificity and diversity.

**Limitations**

Complaint databases may overrepresent consumers who experienced or perceived problems; narratives can contain errors, legal conclusions, duplicated language, or incomplete facts. The dataset lacks the denominator and borrower-level performance data needed to estimate incidence or causation.

Re: Application of Opportunity Financial ("OppFi") to FDIC (#20260654), OCC (#27220) and FRB acquire BNC National Bank, to create and merge with OppFi Bank, and to become a bank holding company, 91 Fed. Reg. 42961 (July 13, 2026).

The Partners for Rural Transformation (PRT), a coalition of six-community rooted organizations with 250 years of experience in economic development in rural and Native communities, opposes OppFi Inc.'s proposed merger with BNCCORP, Inc. and BNC National Bank and OppFi's related applications to become a bank holding company and establish OppFi Bank, N.A. These concerns are similar to our response to Enova's bank charter application<sup>1</sup>.

PRT serves more than 75 percent of the nation's persistent poverty counties, defined as places that experience poverty rates of more than 20 percent for more than 30 years. Our goal is to build a future where Native communities and rural America are no longer defined by persistent poverty, but by opportunity so people can live, work, learn, and raise a family in the communities they call home.

We are deeply concerned that the proposed merger undermines this goal.

---

<sup>1</sup> Partners for Rural Transformation, "Proposed Merger Application of Payday Lender Enova and Grasshopper Bank," letter to Jerome H. Powell, Chair, Board of Governors of the Federal Reserve System, May 12, 2026, [PRT Letter regarding Enova Grasshopper Merger](#).

The proposed transaction would allow OppFi, a high-cost online lender, to expand its lending nationwide, including states with laws protecting against triple-digit interest rates. OppFi's high-cost loans, with high-rates of charge-offs and of repeat refinancing, do not represent the safe and responsible financial services that rural and Native persistent poverty communities deserve. Granting OppFi a national bank charter would risk expanding high-cost lending into communities that already face barriers to accessing affordable credit.

Under the Banking Holding Company Act and other applicable laws, the regulators must consider whether the proposed transaction is consistent with the convenience and needs of the communities to be served. We urge the regulators to deny OppFi's applications because the proposed merger would not meet that standard.

**OppFi's high-cost lending model is harmful to rural and Native communities experiencing persistent poverty.**

Across PRT's footprint, the Partners provide fair and responsible credit in communities with varying levels of protection against high-cost predatory lending. We have seen firsthand the lasting damage that unaffordable credit can cause when it becomes a primary source of financing for families and small businesses. The Consumer Financial Protection Bureau (CFPB) has documented significant barriers to affordable credit in rural communities. The CFPB reports that rural consumers who lack traditional credit records can have difficulty accessing credit when they need it and may turn to higher-cost alternatives such as pawnshops and payday lenders, which can quickly contribute to increasing debt.<sup>2</sup>

For rural and Native regions of persistent poverty, financial inclusion must mean access to products that build household assets, not products that perpetuate debt. The FDIC's 2023 National Survey of Unbanked and Underbanked Households found that American Indian and Alaska Native households were more than six times as likely as white households to be unbanked and twice as likely to be underbanked. They were also nearly three times as likely to have no mainstream credit and more than twice as likely to use a rent-to-own service or a payday, pawn shop, auto title, or tax refund anticipation loan<sup>3</sup>. Rural communities face similar barriers to accessing mainstream financial services. The CFPB found that a rural census tract is ten times more likely than urban tract to be a banking desert<sup>4</sup>. These disparities matter when evaluating OppFi's proposed expansion.

---

<sup>2</sup> Consumer Financial Protection Bureau, *Data Spotlight: Challenges in Rural Banking Access* (Washington, DC: CFPB, April 2022), [https://files.consumerfinance.gov/f/documents/cfpb\\_data-spotlight\\_challenges-in-rural-banking\\_2022-04.pdf](https://files.consumerfinance.gov/f/documents/cfpb_data-spotlight_challenges-in-rural-banking_2022-04.pdf)

<sup>3</sup> Federal Deposit Insurance Corporation (FDIC), *2023 FDIC National Survey of Unbanked and Underbanked Households* (Washington, DC: FDIC, November 2024), <https://www.fdic.gov/household-survey/2023-fdic-national-survey-unbanked-and-underbanked-households-report>.

<sup>4</sup> Ibid. at 1

OppFi's operating model does not support rural consumers in ways that advance household or small business economic health in rural communities. OppFi's consumer loans have APRs exceeding 160%,<sup>5</sup> and OppFi had an annualized net charge-off rate of 55 percent in the first quarter of 2026, reflecting significant default risk associated with its lending model. Bitty Advance, its small business arm, offers short-term (90-day) loans with costs equivalent to about 250% APR.<sup>7</sup> These high-cost loans can consume household income that could otherwise be used to build savings, pay for housing, and invest in a family's future. In regions of rural and Native persistent poverty, these impacts can be particularly damaging. Their small business products put rural entrepreneurs at significant risk of failure, which undermines the economy writ large, given that rural launches over half of all the nation's small businesses.<sup>8</sup>

OppFi's proposed merger would also allow it to undermine state usury laws through national bank status. This is deeply concerning PRT. State usury laws reflect the public policy decisions of those states, many of which include significant rural communities. State like Arizona, South Dakota, Mississippi, Georgia, Kentucky, and others served by the Partners for Rural Transformation all enforce rate caps less than half of what OppFi otherwise charges<sup>9</sup>. PRT Partners work to provide products and services to help communities escape persistent poverty; the OppFi merger would do the opposite.

PRT has seen that access to affordable credit can be a powerful tool for economic mobility. Conversely, high-cost lending can strip wealth from families and communities, making it harder for borrowers to establish stronger credit histories and transition to safer, more affordable financial products. As we work to move rural and Native communities from poverty to prosperity, expanding access to unaffordable and predatory credit services is a step in the wrong direction.

**OppFi's proposed merger does not meet the needs of rural and native communities experiencing persistent poverty.**

These communities need financial institutions that understand and respond to economic conditions and are committed to building long-term financial stability. Mission- driven lenders

work alongside borrowers to provide responsible credit, technical assistance, and other resources that help people and businesses build assets. OppFi's high-cost lending model raises serious concerns that it would deepen the financial challenges facing the hard-working families that need pathways to affordable credit and economic opportunity.

PRT strongly urges the Federal Reserve to deny OppFi's application to acquire BNC and become a bank holding company because doing so, would allow OppFi to circumvent state consumer protection laws and strip the wealth from rural and Native families.

Sincerely,

# NEW JERSEY CITIZEN ACTION

August 11, 2026

The Honorable Jerome H. Powell  
Chair  
Board of Governors of the Federal Reserve System  
20th Street and Constitution Avenue NW  
Washington, D.C. 20551

***Re: Deny OppFi's Merger Application***

Dear Chair Powell:

New Jersey Citizen Action ("NJ Citizen Action") strongly opposes the merger application of OppFi, Inc. ("OppFi") and BNCCORP, Inc. and urges the Board of Governors ("the Board") to hold a public hearing to fully examine the harms the proposed transaction would pose to communities, including New Jersey borrowers, and ultimately deny the application.

New Jersey is one of 21 states, along with the District of Columbia, where high-cost lending is banned through vigorous enforcement of our state's usury law, which caps interest rates at 30%. **With over 125 million people living in states that ban high-cost lending**, we know firsthand that our communities are better off without exploitative lenders charging exorbitant interest rates.

Predatory debt traps, like the triple-digit APR loans peddled by OppFi, push people struggling to make ends meet further into debt and leave them worse off. OppFi is a notorious nonbank, fintech installment lender with a history of evading state usury caps. It makes 95% of its high-cost personal loans through "rent-a-bank" schemes, which are designed to export high-interest rates from states without usury laws. OppFi routinely makes loans that are designed to fail. In fact, in 2020, **OppFi charged off more than 60% of its loans**, evidencing a business model predicated on extracting wealth from low-income people and communities.

Not content only to "rent" a state bank charter to circumvent state usury laws, OppFi now seeks permission to acquire a national bank. Granting OppFi a national bank charter would **enable OppFi to claim the right to ignore longstanding state usury**

**and consumer protection laws**, unleashing predatory lending in states where it has never been legal. Put plainly, approval of OppFi's bank acquisition would devastate low-income people and communities of color across the country. OppFi's application cloaks its true intent in euphemistic terms, saying it intends to "have a greater geographical footprint to expand credit access;" in reality, that means exploiting a national bank charter to spread high-cost loans nationwide.

**The experiences of borrowers in New Jersey demonstrate that concrete harms would accompany OppFi's expanded national reach.** As one New Jersey consumer reported to the Consumer Financial Protection Bureau:

"I am submitting this complaint regarding a loan serviced by OppLoans and originated by [X]. While OppLoans states that [X] is the lender, all servicing, communication, and consumer interaction is handled by OppLoans, making this a concern involving both entities. I believe the structure and handling of this loan may involve unfair, deceptive, and potentially predatory lending practices. The loan carries extremely high interest, resulting in a repayment amount that is significantly disproportionate to the original loan balance. Interest accrues rapidly, including daily accrual, which makes it difficult to make meaningful progress toward paying down the principal. [] When I attempted to seek relief due to financial hardship, I was only offered limited temporary payment reductions (half payments for a short period), with no meaningful long-term solution such as a settlement, principal reduction, or structured hardship program. This creates a cycle where the balance continues to grow despite payments. [] OppLoans has stated that [X] is the originating lender, but OppLoans appears to control the marketing, servicing, and overall loan experience. This raises concerns that the bank may be used to bypass state interest rate limits, including those applicable in New Jersey. I request that this arrangement be reviewed for compliance with federal and state consumer protection laws. The structure of this loan places borrowers in a position where repayment becomes extremely difficult due to high interest and limited relief options. This creates financial harm rather than providing responsible lending support. [] I have already attempted to resolve this issue directly and through [X], without a satisfactory resolution."

Such accounts show that OppFi's promised expansion would not increase access to safe and affordable credit but instead expose more borrowers to unaffordable debt and financial instability.

At a time when people are struggling under the weight of a historic affordability crisis, approving a national bank specializing in predatory loans with triple-digit interest rates will only drive people into further financial distress. Strong interest rate caps remain the most effective bulwark against exploitative lending, and [research consistently shows](#) that access to safe and affordable credit **increases** where high-interest rate loans are banned. To ensure stability and public confidence in our financial system, the Board

must hold a public hearing to fully consider the interests of the public, including New Jersey borrowers, and ultimately deny OppFi's charter application.

Sincerely,

Re: Application of Opportunity Financial ("OppFi") to FDIC (#20260654), OCC (#27220) and FRB acquire BNC National Bank, to create and merge with OppFi Bank, and to become a bank holding company, 91 Fed. Reg. 42961 (July 13, 2026)

Dear Sirs and Madams,

The 134 undersigned consumer, civil rights, legal services and community groups and academics appreciate the opportunity to submit these comments to the Federal Deposit Insurance Corp. (FDIC), Office of the Comptroller of the Currency (OCC) and Board of Governors of the Federal Reserve System (FRB) on the application of Opportunity Financial ("OppFi") to become a bank. OppFi seeks to acquire BNC Bank, to create OppFi National Bank, to merge BNC and OppFi banks, and to become a bank holding company. **We urge you to deny the application after holding a public hearing, including consideration by the full Board of Governors of the Federal Reserve.**

OppFi's application, like the recent and still-pending application by Enova International to acquire Grasshopper Bank, would be an unprecedented use of a national bank charter for the purposes of a business model built on outrageously usurious and destructive loans that have no place in the national bank system:

- **OppFi's rates typically reach 160% and as high as 195%.<sup>1</sup>** Loans at those rates are debt traps, not responsible credit.

---

<sup>1</sup> Center for Responsible Lending, [Lost Opportunities: How OppFi Traps Borrowers in Unaffordable Debt](#) (Jan. 27, 2026) ("CRL, Lost Opportunities").

- **OppFi's interest rates are illegal in up to 45 states**, depending on the size of the loan.<sup>2</sup> OppFi seeks a bank charter to avoid the nearly unanimous judgment across the country that its loans are destructive and should be prohibited.
- **OppFi's charge-offs are over 55%, proof of its irresponsible lending.**<sup>3</sup> Charge-offs at those rates have never been tolerated at national banks. That rate is more than 14 times the credit card charge-off rate and even 10 times the credit card charge-off rate at the peak of the Great Recession.<sup>4</sup> Consumers default in high numbers, many others struggle to repay, and OppFi's lending is not based on ability to repay.
- **OppFi's frequent refinancing promotes long-term debt and disguises defaults.**<sup>5</sup> As much as 75% of OppFi's pre-tax income comes from refinancing, and about half of OppFi customers refinance, sometimes multiple times and within two or three months of taking out the loans.<sup>6</sup> Between defaults and refinances, very few OppFi borrowers repay their loans in full on the loan's original terms.

**There is an enormous gap between the destructive, usurious rates that OppFi charges and the top rates allowed by nearly every state.** As shown in this graph, which displays the maximum rates allowed in the 43 states that cap rates on a \$2,000, two-year installment loan, OppFi's rates are many multiples of the legal rate in every one of those states.<sup>7</sup> In addition, Alabama and South Carolina, which do not cap rates on \$2,000 loans, do prohibit 100% APRs on OppFi's smaller installment loans, so OppFi's rates are illegal in 45 states.

## OppFi Makes Loans That Are Illegal in 43+ States

43 States Prohibit 100% APR Rates for a \$2,000, Two-Year Loan

AL and SC prohibit 100% APRs on smaller loans.

DE, ID, MO, UT and WI have no rate caps, though ID, UT and WI prohibit unconscionability.

OppFi's lending program is risky, unsafe and unsound. It violates the principles of responsible lending outlined in the **Interagency Guidance for Responsible Small-Dollar Loans**.<sup>8</sup> Those principles, approved during President Trump's first term, include several metrics OppFi does not meet, including:

- *A high percentage of customers successfully repaying their small dollar loans in accordance with original loan terms, a key indicator of affordable and appropriate underwriting.* Instead, OppFi's underwriting is unaffordable and inappropriate.
- *Repayment terms, pricing, and safeguards that minimize adverse customer outcomes.* Rather, OppFi has high defaults and cycles of debt due to reborrowing.
- *Repayment outcomes and program structures that enhance a borrower's financial capabilities.* OppFi's lending destroys financial capability by imposing enormous interest charges and payment obligations on consumers in financial stress, leading to high numbers of consumers struggling and in long term debt.

OppFi's high charge-off rates alone are grounds for denying this application.

<sup>8</sup> Board of Governors of the Federal Reserve System, FDIC, National Credit Union Administration, Office of the Comptroller of the Currency, [Interagency Lending Principles for Offering Responsible Small-Dollar Loans](#) (May 2020).

## OppFi v. Credit Card Net Charge-Off Rates

Source: Federal Reserve, OppFi

**OppFi is not engaged in responsible lending or meeting the conveniences and needs of the community.** OppFi's lending program poses a high risk of violating numerous consumer protection and other laws, including those on unfair, deceptive or abusive practices, debt collection, credit reporting, fair lending, military lending, privacy and data security, know-your-customer, and community reinvestment requirements.

**Approval of this application would deeply injure and threaten the national bank charter.** The charter would become a vehicle for predatory lending outlawed in nearly every state. National banks as a whole could also face a backlash that amplifies calls to pass legislation to end the preemption powers of national banks.

**Our communities have seen the damage that OppFi and similar predatory lenders inflict.** Predatory lending at these interest rates exploits and disproportionately harms communities of color, low-income borrowers and those with damaged credit scores.

A national bank charter is a privilege, not a right. OppFi's lending should not be allowed under a national bank charter and the application should be denied.

Thank you for the opportunity to submit these comments.

Yours truly,

August 12, 2026

The Honorable Kevin Warsh, Chair  
Board of Governors of the Federal Reserve System  
20th Street and Constitution Avenue NW  
Washington, DC 20551-0001

Benjamin W. McDonough, Secretary of the Board  
Board of Governors of the Federal Reserve System  
20th Street and Constitution Avenue NW  
Washington, DC 20551-0001

Christopher Koopmans, Senior Vice President  
Federal Reserve Bank of Chicago  
230 South LaSalle Street  
Chicago, Illinois 60690-1414

Re: Application of *OppFi, Inc., Chicago, Illinois*; to become a bank holding company  
by acquiring BNCCORP, Inc., Bismarck, North Dakota, and thereby indirectly  
acquiring BNC National Bank, Glendale, Arizona.

Dear Chair Warsh, Vice President Koopmans, and Mr. McDonough:

The Center for Responsible Lending<sup>1</sup> (CRL) strenuously objects to the application of OppFi, Inc. to become a bank holding company and indirectly acquire BNC National Bank. Our

---

<sup>1</sup>The Center for Responsible Lending (CRL) is a non-partisan, nonprofit research and policy advocacy organization working to promote financial fairness and economic opportunity for all, end predatory lending, and close the racial wealth gap. CRL's expertise gives it trusted insight to evaluate the impact of financial products and policies on the wealth and economic stability of families, including people of color, women, rural, military, low-wage, low-wealth, and early-career workers and communities. CRL is an affiliate of Self-Help, one of the nation's largest nonprofit community development financial institutions. We work in partnership with national

objections arise specifically under the Federal Reserve's review authority under the Bank Holding Company Act (BHCA).<sup>2</sup> This review encompasses a consolidated assessment of the holding company's managerial competence, its overall financial condition, and — critically — the convenience and needs of the communities the resulting institution will serve. As detailed below, the application fails to meet the standards required for approval.

In this comment, we set forth concerns regarding OppFi's business model and practices, which threaten systemic financial stability and fail to meet the convenience and needs of the communities served. The set-up-to-fail nature of OppFi's high-cost lending, which features extremely high charge-offs, does not belong in a regulatory regime that is not structured to evaluate or tolerate exploitative lending.

It should give pause to the Federal Reserve that, when asked during a 2022 investor call whether that heightened level of borrower default was sustainable for the business in the future, OppFi's CEO, Todd Schwartz, said high charge-off rates are the cost of doing business and OppFi generates sufficient revenue to remain profitable.<sup>3</sup> Schwartz's exact words on charge-offs were:

I think I've said this on previous calls, we feel that when we get into the low forties, potentially high thirties, and we've also achieved that historically. The business we feel really good about that as a percentage of revenue and we'll always strive to kind of target that and hit that metric.

His stunning admission acknowledges that OppFi's business model expects these high charge-off rates, which translates into tens of thousands of individuals suffering the adverse consequences of default.

If the Federal Reserve is not persuaded on the face of the application that it should be denied, we request a public hearing to fully develop the record and to allow the public an opportunity to be heard on this matter.

- I. This Application Should Be Denied for Oppfi's Failure to Meet Statutory Factors Under the Bank Holding Company Act.

---

and local consumer, faith, and civil rights organizations.

a. Bank Holding Company Act

According to 12 CFR § 225.13, the Federal Reserve is required to take into account the financial condition, managerial resources, and the convenience and needs of the communities to be served.<sup>4</sup>

1. *OppFi's business practices are a risk to safety and soundness because their business practices are untested in an economic downturn and because current regulatory structures are ill-fitted to evaluate them.*

Federal regulators should not extend banking privileges like deposit insurance, bank holding companies and national bank charters to a fintech that operates like OppFi. In particular, section 225.4(a)(1) of Regulation Y provides that—

A bank holding company shall serve as a source of financial and managerial strength to its subsidiary banks and shall not conduct its operations in an unsafe or unsound manner.<sup>5</sup>

First, the standards and policies developed by the Board on financial condition are not well suited to OppFi's business model. Second, OppFi's model is not tested against an economic downturn, and the Board should be hesitant to rubber stamp its bank holding company application without further evaluation.

OppFi has created a business model that lends at exorbitant APRs with high defaults, high charge-offs and repeated refinances.<sup>6</sup> Existing regulatory structures are not designed to address the type of products and risks that OppFi presents, and therefore granting the application would pose systemic risks.

OppFi boldly advertises on its website personal installment loans, with APRs of up to 195% on loans ranging from \$500–\$5,000.<sup>7</sup> OppFi's earnings release reveals that in 2025 net

<sup>7</sup> OppFi, *OppFi*, <https://www.oppfi.com/> (last visited July 31, 2026).

charge-offs, calculated as a percentage of average receivables, were 49%.<sup>8</sup> That was actually an improvement over prior years when charge-offs were as high as 62%.<sup>9</sup>

Early and repeat loan refinances are likewise key elements of the OppFi model and an important part of its revenue.<sup>10</sup> Indeed, OppFi reports that its average borrower takes out 3.5 loans and that “approximately 95% of lifetime value comes after the first loan.”<sup>11</sup> Moreover, OppFi reports that while the average term of its loan is eleven months,<sup>12</sup> the average duration is just four months, indicating that the average borrower refinances or defaults on their loan within a short period of time.<sup>13</sup>

The company does not disclose its customers' delinquency rates or loan-level repayment outcomes, but its astronomical charge-offs and high levels of default, coupled with the short duration of its loans and rapid refinances, indicate that a sizable share of its customers are not successfully repaying their loans. Given these facts, current rubrics are not appropriate for an entity such as OppFi. For example, capital requirements never contemplated a bank product with a 50% charge-off rate.

It is imperative to evaluate the potential effects of an economic downturn on the resulting bank and consumers. OppFi claims in its application that it has developed a “data-driven approach to credit underwriting and servicing that allows it to responsibly serve customers who may not qualify for traditional bank credit products” and that it has “significant experience managing credit risk of non-prime consumers, having operated this platform at scale across multiple economic cycles.” But the reality is that the only downturn through which OppFi operated was during the COVID-19 pandemic, and because of the vast amount of financial help that the federal government provided to consumers, coupled with

the pause on student loans and the availability of widespread forbearance on mortgages, the pandemic was actually a quite benign period for other forms of consumer debt. Indeed, OppFi's charge-offs declined in 2021 relative to 2019,<sup>14</sup> belying OppFi's claim to have experience operating through normal business cycles.

It is true that OppFi has had experience managing ballooning charge-offs, as its charge-off rate increased by over 60% in 2022, reaching 62%. But that was not because of anything in the economic environment but rather because of business decisions made by OppFi's management—decisions that hardly give confidence in the strength of that management or in the stability of the company.

Modeling of outcomes should ensure that the resulting bank is adequately capitalized and meets the standards of safety and soundness. OppFi's business models, and the level of defaults and charge-offs have not been significantly tested against the type of economic downturn that is part of the normal "business cycle," let alone against a severe downturn that could lead to catastrophic default and charge-off rates.

Research has shown that while economic downturns have less of a negative impact on the credit performance of subprime borrowers relative to prime or superprime borrowers, it is nonetheless still true that a serious recession will have a substantial negative impact on the credit performance of subprime borrowers.<sup>15</sup> Given OppFi's already astronomical charge-off and refinancing rates, it is vitally important for the OCC to stress test OppFi's business model.

Accommodating this business model in our regulatory system while protecting the public requires further analysis and potentially developing new means of evaluating high-cost fintechs that seek bank charters. The uncertainty is reason enough to deny the merger application.

*2. Granting banking privileges to high-cost fintechs risks a flood of financial institutions offering high-cost loans to the detriment of systemic stability.*

2 U.S.C. § 1842(c)(7), provides that:

<sup>15</sup> Canals-Cerdá, J. J., & Kerr, S., *Forecasting Credit Card Portfolio Losses in the Great Recession: A Study in Model Risk*, Fed. Rsrv. Bank of Phila. Working Paper No. 14-10 (Marc. 2014), <https://www.philadelphiafed.org/the-economy/forecasting-credit-card-portfolio-losses-in-the-great-recession-a-study-in-model-risk>.

In every case, the Board shall take into consideration the extent to which a proposed acquisition, merger, or consolidation would result in greater or more concentrated risks to the stability of the United States banking or financial system.

Granting banking privileges to OppFi risks a “race to the bottom effect” for other entities wishing to—or compelled by competitive pressure to—circumvent state usury caps. Should the Federal Reserve approve this merger, other high-cost lenders will follow, seeking federal imprimatur for loans with APRs of 160% plus, loans that are refinanced with astonishing frequency, and charge-off rates that could exceed 50%.

Because loans at these prices can be profitable at least in the short term, opening the door in this way would likely create pressure such as occurred in the years leading up to the financial crisis, when mortgage lenders were drawn into competition to offer mortgages with the lowest initial monthly payments and the least amount of underwriting. Lenders first started offering mortgages with lower payments that never reduced the principal balance of the loan. This was then surpassed by loans with “teaser rates,” where the monthly payments were even lower for the first several years, but then increased dramatically. Finally, lenders pushed loans that had startlingly low payments, a few thousand dollars a month for a half million-dollar loan, but the loan balance then increased by more than five percent every year. At the same time, lenders competed by reducing underwriting requirements, streamlining the underwriting, and pushing no documentation or “no doc” loans without any verification of income. It was very difficult for responsible lenders to compete in this environment, and in order to maintain their businesses and some market share, they were forced to join this race to the bottom.<sup>16</sup> Eventually the chickens came home to roost with a large number of bank failures, including the largest failure in history (Washington Mutual) and the distressed sale of many more banks including one (Wachovia) that was twice the size of Washington Mutual.

3. *OppFi fails to meet the convenience and needs of communities served.*

a. Effects in Arizona and North Dakota

---

<sup>16</sup> Calhoun, M. D. (2017, March 28). *The state of bank lending in America* [Written testimony before the Subcommittee on Financial Institutions and Consumer Credit, Committee on Financial Services, U.S. House of Representatives]. Center for Responsible Lending. [https://www.responsiblelending.org/sites/default/files/nodes/files/research-publication/crl\\_calhoun\\_hfsc\\_cfpb\\_testimony\\_mar2017.pdf](https://www.responsiblelending.org/sites/default/files/nodes/files/research-publication/crl_calhoun_hfsc_cfpb_testimony_mar2017.pdf), Calhoun, M. (2018, September 5). *Lessons from the financial crisis: The central importance of a sustainable, affordable and inclusive housing market*. Brookings Institution. <https://www.brookings.edu/articles/lessons-from-the-financial-crisis-the-central-importance-of-a-sustainable-affordable-and-inclusive-housing-market/>

OppFi apparently is already marketing its high-cost loans in Arizona and North Dakota where BNC is based and in Utah where the proposed new entity will be based. We do not know the extent of OppFi's current activities in those states, however, it appears that it does so using a so-called bank partnership to evade the usury laws of those states.<sup>17</sup> But what is plain from the application is that OppFi intends to push into BNC's branches its high-cost loans allegedly as a complement—but far more likely as a substitute—for the personal loans that BNC offers to its community-based customers.

Further, the application also makes plain that OppFi intends to introduce into these branches small business loans offered by Bitty, a company in which OppFi currently has a minority interest with an option to acquire control. Bitty's bread and butter is what it terms "revenue-based financing"—a term that refers to "merchant cash advances," which have generally been viewed as the small business equivalent of payday loans. Again, there is a significant risk that these loans will displace BNC's traditional small business loans as a way of serving its communities and, given their excessive cost, could grossly increase prices.

b. Expansion in national markets

Notwithstanding that the new bank's CRA assessment will include Arizona, North Dakota, and Utah, OppFi makes it clear in its application and in public statements that it intends to extend the reach of its high-cost, predatory loans across the entire country. The application states:

The OppLoans business line will provide a national digital platform that will expand the Target Bank's offerings to include digitally originated consumer and small business (through Bitty) credit products on a nationwide basis. OppLoan products will include unsecured installment loans, and over time may be expanded as described in the Business Plan.<sup>18</sup>

OppFi application further states that the effect of "strengthening its ability to provide access to the banking system" will be to enable it to "continue to lend across the credit

---

<sup>17</sup> It should be noted that bank partnerships are OppFi's only option to offer loans in Arizona and North Dakota, which carry inherent risks of true lender or other litigation, state and federal enforcement, and supervisory violations, see e.g., National Consumer Law Center, Center for Responsible Lending, & Student Borrower Protection Center. (Oct. 30, 2024). *Comments on request for information on bank-fintech arrangements involving banking products and services distributed to consumers and businesses*. Submitted to the Office of the Comptroller of the Currency, Board of Governors of the Federal Reserve System, and Federal Deposit Insurance Corporation, [https://www.nclc.org/wp-content/uploads/2024/10/2024.10.30\\_Comments\\_Bank-fintech-lending-risks-comments-NCLC-CRL-SBPC.pdf](https://www.nclc.org/wp-content/uploads/2024/10/2024.10.30_Comments_Bank-fintech-lending-risks-comments-NCLC-CRL-SBPC.pdf).

<sup>18</sup> Application of OppFi and BNCCORP at p 26.

continuum by operating *under a uniform federal legal framework* and funding loans with low-cost deposits.” (emphasis added). OppFi currently lends in 39 states according to its website, notwithstanding the fact that few of these states have laws allowing loans at APRs of 99% to 195%.<sup>19</sup> But even with its so-called “bank partnership” model, which it claims, exempts it from state usury laws by partnering with a Utah bank, OppFi has not chosen to market in the states with the strongest usury protections, including states such as Georgia, Iowa, and West Virginia, as well as Colorado, Connecticut, Maryland, Massachusetts, and New York. Thus, if the merger is approved, OppFi plans to “serve” these communities by offering loans that those states deem usurious and harmful to their citizens.

That injecting OppFi’s loans into BNC’s branches will not serve the interest of the communities in which BNC operates and intends to operate is apparent from the complaints that consumers have made regarding OppFi’s loans.

CRL reviewed complaints submitted to the Consumer Financial Protection Bureau about OppFi, from residents of forty-five states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and the Armed Services.

Consumers complained about being charged unexpected fees and interest, false statements and misrepresentations, problems with credit reporting, struggling to pay their loans, and legal actions taken against them. The attached appendix provides a number of narratives, directly from consumers, told in their own words. The volume and nature of complaints should set off alarm bells for regulators and underscore the need for an open forum on this matter.

II. If the Federal Reserve Is Not Persuaded that the Application on Its Face Does Not Satisfy the Bank Merger Act’s criteria, A Public Hearing Would Be Necessary and Would Be in the Public Interest

Pursuant to 12 CFR 262.3(e) and 262.25(d) the Board may, in its discretion, hold a public hearing on an application to acquire a bank if necessary or appropriate to clarify factual issues related to the application and to provide an opportunity for testimony. It is vitally important to further evaluate how and whether business practices uncommon among other national banks may affect OppFi’s bottom line and/or the banking system writ large.

If the application is not denied outright, a public hearing would be required to develop a deeper understanding of OppFi’s business than is apparent from its public application and reporting. Among the questions that should be explored are:

---

<sup>19</sup> National Consumer Law Center, *High-Cost Rent-a-Bank Loan Watch List* (July 21, 2026), <https://www.nclc.org/resources/high-cost-rent-a-bank-loan-watch-list/>.

- On a vintage basis (treating loans that are refinanced as part of the vintage in which they are originated), what is OppFi's charge-off rate both as a percentage of the number of loans originated and as a percentage of average outstanding balances on a given vintage? This will enable the Federal Reserve to assess the extent to which OppFi's reported charge-off rate masks the true charge-off rate by growing receivables and refinancing loans.
- On a vintage basis, what is OppFi's early payment default rate? What is the rollover rate from early- to late-stage delinquency? To what extent is OppFi using refinancing to mask defaults?
- What are the Bitty loans that OppFi plans to market both in branch and nationally? How are they priced? What is their loss experience on a vintage basis? How do they compare to BNC's small business loans?
- The Federal Reserve should carefully explore, in a public hearing, what, if anything, OppFi plans to do to the current suite of products that BNC offers its communities as well as to BNC's underwriting philosophy and approach. Will OppFi continue to offer the current suite of checking account products or will it seek to develop products that are highly dependent on overdraft fees? Will it displace BNC's personal loan products with OppFi loans or BNC's small business loans with Bitty loans?

We have detailed just some of the questions raised, which are relevant and material to the matter and would benefit the decision-making process.

There is evidence of geographically widespread complaints about OppFi, and a 30-day comment period does not provide sufficient time for everyday citizens unfamiliar with the merger process, nor for organizations that work with the general public to organize borrowers to weigh in on the matter. This is particularly true when the general public, and OppFi customers, are unlikely to be aware of their ability to provide insight into OppFi's practices and policies. The public should be heard on this matter.

### III. Conclusion

CRL requests that the application be denied outright and, in the alternative, if not denied, that the Federal Reserve proceed with a public hearing.

cc: OppFi

## APPENDIX A

### OppFi Consumer Complaints Illustrating Affordability Impact

Scope & Source: This appendix contains consumer complaints selected from the Consumer Financial Protection Bureau (CFPB) Complaint Database.

#### Alabama

##### **Complaint ID: 13869317**

Date Filed: June 3, 2025

ZCTA: 365XX

Product: Credit Reporting or Other Personal Consumer Reports: Credit Reporting

CFPB Issue: Problem with a company's investigation into an existing problem

Complaint:

“ The existence of a derogatory rating on my account is causing me significant concern. I am deeply worried about its potential impact on my credit. It has already resulted in the denial of a recent loan application and an increase in the interest rates on my existing credit accounts. I want to emphasize the severe financial and emotional distress that this negative rating has caused me and will continue to cause until it is resolved.”

##### **Complaint ID: 10374176**

Date Filed: October 7, 2024

ZCTA: 366XX

Product: Payday Loan, Title Loan, Personal Loan, or Advance Loan; Installment

CFPB Issue: Struggling to repay your loans

Complaint:

“I took out this loan to bury my XXXX because he had no insurance or anything else. I have to pay XXXX every XXXX weeks, I have paid XXXX ( XXXX payments ) and they stating that I still owe XXXX??? The original loan amount was only XXXX definitely believe that I have been tricked into accepting this " Predatory lending "!!! So they are taking my payments and not putting anything or very little, ( XXXX or XXXX dollars ) towards the principal part of the loan.

**I think this is so unfair, because I'm having to do without food, medication, etc because of this " Extremely " high interest they are charging me!**

**I have XXXX XXXX, and my medicine is very high, If I would have known that**

**this company was gon na take advantage of me because I needed funds for my brother 's service, I definitely would have never used them, But everything looked legit online.**

PLEASE reach out to them and see if they can do anything to help me with this loan, maybe refinancing at a lower rate that I can afford?

I know there are good people in this world, and hopefully some of the owners of this company will have enough XXXX to make this right for me, I'm going through a very rough time because of this loan, Please help me with this issue.”

## Arizona

### **Complaint ID: 7730518**

Date Filed: October 21, 2023

ZCTA: 864XX

Product: Payday Loan, Title Loan, or Advance Loan; Installment Loan

CFPB Issue: Charged fees or interest you didn't expect

Complaint:

“Hello, I am a XXXX XXXX here in the US. I worked as a XXXX. An XXXX XXXX from other country.

**I was having a hard time with finances this year because my salary is too low, my rentals and other expenses here in the US is too high that is why I tried applying a personal loan at opploans online, I was surprised that the interest is huge but I still applied for it, resulting to difficulty of budget. I send half of my salary to my family back home, because my XXXX children are XXXX and no one will take care of their finances except me. I started a {\$500.00} loan and the interest is over 160 %, I refinanced it due to financial problems and I was approved for {\$1500.00}.**

They take away electronically on my account the amount of {\$130.00} twice a month, starting XX/XX/XXXX until now. I am really confused with the scheduled payment specially the month of XX/XX/XXXX, I saw that they schedule XXXX autopays on my card. The loan will end on XX/XX/XXXX. This is too much. I am having an XXXX because of this.

Please advise me. I want to be free from their incredible interest."

CFPB Issue: Struggling to repay your loans

Complaint:

“I am writing to file a formal complaint against XXXX XXXXXXXXXX XXXX XXXX OppLoans, located at XXXXopploansXXXX for engaging in what I believe to be predatory lending practices in violation of Arizona consumer protection laws.

On or around XX/XX/year>, I entered into a loan agreement with OppLoans. The terms of the loan were not fully or clearly disclosed, and I believe they were designed to exploit borrowers in financial distress. Specifically, the loan included : An extremely high interest rate of 159.56 % APR Hidden or unclear fees and penalties A repayment structure that was not reasonably affordable, established payments of {\$260.00} biweekly Difficult and unclear terms of refinancing options ; despite multiple attempts to communicate hardship with the lender in XX/XX/year>, XX/XX/year>, XX/XX/year> In late 2023, XXXX XXXX XXXX notified me of class action arbitration against this lender, and I have submitted documentation to their case.

**As a result, I have suffered financial harm and emotional stress ; they have since charged off my account to multiple third-party collectors, who have made it extremely difficult to track and attempt to repay, as well as greatly effect my credit scores. This effects my abilities to obtain fair housing, interest rates for secured loans, and even gainful employment.**

I am concerned that this lender may be engaging in practices that target vulnerable consumers in Arizona.

I respectfully request that your office investigate this matter for potential violations of the Arizona Consumer Fraud Act ( A.R.S. 44-1521 et seq. ) and any other relevant laws. I am also requesting assistance in addressing this situation and determining whether the loan can be invalidated, or removed from my credit report due to its predatory nature.

I have attached copies of the loan agreement.

Please let me know if additional documentation is needed. Thank you for your time and assistance.

Sincerely, XXXX XXXX XXXX.”

Date Filed: January 11, 2025

ZCTA: 33024

Product: Payday Loan, Title Loan, Personal Loan, or Advance Loan; Installment Loan

CFPB Issue: Struggling to pay your loan

Complaint:

**“In XX/XX/year>, I took out a {\$2000.00} loan from OppLoans to cover overdue HOA payments, as HOA rates across Florida had more than doubled, leaving me in a desperate situation to prevent foreclosure on my home. While I have consistently made payments on the loan, the termsessentially resembling those of a payday loanhave created a financial trap with no end in sight.**

The interest rate on this loan is an astronomical 178.51 %, resulting in {\$1600.00} in finance charges and interest. This excessive rate has made repayment unsustainable and feels grossly unfair, especially since I have already paid back the {\$2000.00} principal. Asking me to pay nearly {\$2000.00} in additional charges is unreasonable and appears to be predatory and exploitative.

I urgently need help to address this situation. I believe OppLoans practices may violate fair lending laws, and I am seeking options to challenge these excessive charges, whether through negotiation, legal recourse, or regulatory intervention. This loan has become a significant financial burden that far exceeds what is reasonable or ethical, and I need assistance to resolve this injustice fairly and equitably.”

## Georgia

### Complaint ID: 11525891

Date Filed: January 14, 2025

ZCTA: 30132

Product: Payday Loan, Title Loan, Personal Loan, or Advance Loan; Installment Loan

CFPB Issue: Struggling to pay your loan

Complaint:

“In XX/XX/year>, I refinanced a previous loan with OppLoans into a new loan of {\$3000.00}, with an APR of 58.79 %. Of this amount, only {\$670.00} was disbursed directly to me, while the remainder was applied to pay off the prior loan. **The high APR significantly increased my repayment burden, and I struggled to keep up with payments due to financial hardship. As a result, the loan went into default and was later charged off.**

OppLoans has since hired a collection agency, XXXX, to recover the debt. I contacted XXXX to negotiate a payoff rate, which was approved. However, I also submitted a request for a pay-for-deletion agreement to remove the negative reporting from my credit report. Despite this, I have not received a response regarding my pay-for-deletion request.

Additionally, OppLoans continues to report late payments on my credit report, even after the loan was charged off. I believe this practice is inaccurate and may violate the Fair Credit Reporting Act ( FCRA ). I also have concerns about the loan 's refinancing terms and high APR, which may have disproportionately increased my financial burden and could be considered predatory under Georgia law.

I am seeking a resolution that includes the removal of all negative reporting from my credit report, acknowledgment of my financial hardship, and a review of OppLoans refinancing practices and compliance with consumer protection laws.”

CFPB Issue: Struggling to pay your loan

Complaint:

"I had a loan with this company for about {\$2000.00} now i went on short term with my job and didn't get paid called the company explained why i couldn't make payment. The young lady stated there was nothing i could do if i couldn't make payment. Months later i called back when i was able to make and set up forms of payment they stated if i couldn't make full amount of payment they couldn't except payment at all. i then stated i cant pay full amount but partial. Now they told me they sent account to attorney and then the sheriff came to my house serve me with someone else information and had a sticker on

back pages with my information. I then showed up to court the attorney tried to attempt to make me give her the paper because they realize they serve wrong person than she stated if i disputed and wanted to see a judge the would charge me additional fees and they still charged me serving fee but truly was serving someone else, so not only do i have some one else info they want me to pay those fees and not dispute them to resubmit my actual information, the lawyer called her office hand wrote everything and ask could she email me because i didn't have my original loan documents she then stated i now owe about 4500 dollars. i then tried to work with her and explained after trying to catch up with everything from not getting paid i can pay XXXX dollars a month no more than XXXX a month, she stated i would need to pay amount below, i also added her information and what she stated. I really dont know what to do but i have arrangements with other companies after they knowingly understood my dilemma. **Im upset that i have to pay all the fees and loan with no arrangement and still be a single mom and live. Now they are emailing and calling me saying they will garnish my bank account for 20 years and my check and so on. Im very afraid and dont want to be homeless or behind over 4500 dollars.**

Good afternoon XXXX, Unfortunately, that payment arrangement is too low. I can only set up a payment arrangement for 12 months at \$ XXXX/month. In the alternative if youd like to offer a lump sum settlement for less than the full amount owed to be paid in 30 days, youre welcome to do that and I will bring it back to my client for consideration.

Thanks, XXXX XXXX Attorney XXXX XXXX XXXX XXXX XXXX XXXX

ZCTA: 61615

Product: Debt Collection; Payday Loan Debt

CFPB Issue: Threatened to contact someone to share information improperly

Complaint:

"Hi, I took a payday installment loan for the sake of building my credits and we entered into a contract with payment terms that they deduct installments from my checking account. I gave them all the information they wanted that included my account and routing number as per contract. Initially, they didn't deduct money as per scheduled payment and I called them 3 times asking them to take their money and they didn't. I paid through a debit card thereafter. I did pay again 3 times more and asked them to perform their responsibility to deduct their money as this is important for my credit building. I then told them I am not doing it through

debit card anymore. Have to do their obligation as per contract, it doesn't say I have to use my debit card as a routing number was a condition for approval.

This week I wondered that they contacted my employer and decided to garnish my wage. This is unfair to me as I wasn't informed and it is not my fault, I never refused to pay or change my account. They didn't do their responsibility to deduct money while I gave my account information ( confirmed today they still have ).

**This is unfair garnishment and punishment to me because of their fault ( or their systems ). My intention is to build my credits instead they are now destroying me more while I am innocent. Again they never gave me a chance to defend or give my position on this. I am still willing to service my loan and never refused to fulfill my obligations but I getting unfair punishment for this company failure to comply with the agreements.**

I urge your help to assist me to remove this unfair garnishment on me and let the company comply with their promises. I also ask you to judge this and make Opploans repair my damaged credits that were caused by this unfair transaction. I am not delinquent to this transaction."

Date Filed: June 26, 2025

ZCTA: 60123

Product: Payday Loan, Title Loan, Personal Loan, or Advance Loan; Personal Line of Credit

CFPB Issue: Charged fees or interest you did not expect

Complaint:

“I received the loan through Opportunity Financial , LLC ( OppLoans ), although the lender listed in the contract is XXXX XXXXXXXXXX XXXX ( XXXX ), a XXXX bank. I believe this setup was used to evade Illinois 36 % APR cap, and it has caused financial harm and emotional distress.

I am formally filing this complaint against Opportunity Financial LLC ( OppLoans ) for abusive lending practices. I took out a loan with them for {\$3000.00}, and they are charging me an interest rate of 159.44 % APR. I am currently a resident of the State of Illinois, where the law sets a maximum APR of 36 %. This rate greatly exceeds the legal limits established in this state.

**This loan has been refinanced twice through repeated offers from the bank, which has prevented me from getting out of debt and has led me into a cycle of continuous borrowing. This situation has affected my emotional stability and mental health.**

Furthermore, the company has been making charges before the agreed payment due date. According to the official schedule, payments are due on Tuesdays, but debits are being made starting on the Saturday of the previous week without my prior authorization, directly affecting my finances and violating the terms established in the contract.

So far, including the XXXX refinancings, I have received a total of {\$5100.00} and have paid {\$5100.00} out of my own moneythat is, more than 100 % of what I received. However, the bank still claims I owe an additional {\$2400.00}, which represents more than 82 % of the last signed loan, not counting future interest that continues to accrue daily under this abusive annual rate of 159.44 %.

This situation has seriously impacted my emotional well-being, my credit score, and my ability to cover my essential living expenses. Therefore, I respectfully request that this case be reviewed and that Opportunity Financial LLC ( OppLoans ) be investigated for possible predatory lending practices. I have attached the original contract for the current loan, along with the XXXX previous contracts that were refinanced. These documents include the payment schedule, the full terms of the loans, payment history, and the current outstanding balance as evidence.”

CFPB Issue: Struggling to pay your loan

#### Complaint:

“In XX/XX/year>, I took out an installment loan for {\$4000.00} through Opportunity Financial , LLC ( OppLoans ), which was funded by XXXX XXXX Bank ( CCBank ). The loan carries an APR of 159.56 %, requiring me to repay {\$10000.00} over XXXX biweekly payments of {\$260.00}.

**I was not fully aware of the extreme cost when I accepted the loan. The interest rate is excessive and far exceeds XXXX legal usury limits. This kind of interest would be illegal if issued directly by a non-bank lender in my state. I later discovered this type of loan structure is commonly used by XXXX XXXX to evade state interest rate caps by renting a XXXX bank charter.**

I contacted the lender to request a hardship forbearance, which they granted temporarily. However, they also informed me that after 90 days of nonpayment, I would likely be eligible for a settlement offer. This essentially encourages strategic default, which would severely damage my credit.

This loan is predatory and exploitative. I believe it violates the spirit of XXXX consumer protection laws and takes advantage of consumers facing financial hardship.

Im requesting assistance to investigate the legality of this loan and either cancel the agreement or help me negotiate a settlement that reflects a fair and legal cost of borrowing.”

### Complaint ID: 11265677

Date Filed: December 23, 2024

ZCTA: 559XX

Product: Debt Collection; Payday Loans

CFPB Issue: Attempts to collect debt not owed

Complaint:

"My name is XXXX XXXX XXXX, and I am the legal surviving spouse of my now-deceased husband XXXX XXXX XXXX XXXX In or around XXXX, both XXXX and I took out installment/payday loans through Opportunity Financial , LLC, also known as OppLoans and XXXX. In or around XXXX, I settled my loan in full for less than the original balance, and my credit reports do reflect a " paid in full/settled for less than full balance, " showing a XXXX balance. As part of their verbal settlement offer, they agreed to delete the tradelines/account from all three major credit bureaus once I paid my balance in full, which I did do ; it reports as a XXXXXXXXXX balance to all three bureaus. For the last couple of years, I have filed -- and will continue to file -- legitimate complaints about OppLoans ' debt collection and credit reporting practices, which have included falsified promises to delete the debt/tradeline once **I paid it in full for the amount agreed upon in their verbal settlement, and OppLoans intentionally continues to report my debt despite the debt being older than the timeframe allotted**

**for negative items to continue reporting to credit bureaus.** Each time OppLoans responds to my complaint, they write voluminous letters that are intentionally and deliberately written in legal language -- not in plain XXXX -- to knowingly confuse and baffle me, attempting to dissuade me from taking further regulatory and legal action against them. Their responses often ramble XXXX XXXX off with words and claims that don't exist. In short, OppLoans' responses to my complaints do nothing to fix the issue nor specifically address my specific concerns. Changing gears, XXXX is deceased as of XX/XX/year>, having completed XXXX XXXX XXXX XXXX XXXX XXXX XXXX while I was in the next room. I have attached his official XXXX certificate as proof. Shortly after his XXXX, I contacted all of XXXXXXXX XXXX creditors, including OppLoans and their incessant communications -- telephone calls, emails and postal letters -- seeking to collect upon XXXXXXXX XXXX debt to them. I informed them at least twice, and more recently in XXXX when I physically spoke to one of their representatives, that XXXX is XXXX and to cease and desist all contact with me concerning his debt. I was advised to fax in proof of his XXXX, which I faxed in the attached XXXX certificate, along with other personally identifying details, and attached a letter explaining XXXXXXXX XXXX situation and advised OppLoans that I demanded they cease and desist all contact with me of any kind, including XXXXXXXX XXXX outstanding debt. OppLoans did honor my request, ceasing contact with me for around two years, until recently when I began to file numerous complaints about them, which I've described herein. At that point, OppLoans took my email address -- - XXXX -- and began sending me the attached emails, addressed to XXXX, asking XXXX to settle his debt via countless emails with poorly worded, unclever subject lines. Please view the attached emails. **I believe OppLoans, upon receiving my many complaints about them to regulatory bodies, did deliberately and knowingly begin harassing me and inflicting intentional emotional harm against me by attaching my email address -- that resembles nothing related to XXXX -- to my deceased husband's unpaid loan, in attempt to exact revenge and cruelty on me, having been given a copy of his XXXX certificate that clearly lists he died as a result of suicide by a gunshot to the head. I believe OppLoans is using illegal, unethical, unfair, deceptive and abusive debt collection practices, forbidden under the FDCPA, to intimidate and retaliate against consumers like me who make legitimate complaints against their company for actions such as these and many others they take that are unethical, fringing up against illegal, or downright illegal.**

#### Complaint:

“I have been a customer with this them since XXXX of this year. On XX/XX/XXXX I reached out to advise I was having financial issues, as my husband 's job did temporary layoffs/ work reduction. I spoke with a rep who advised me if I could make at least half payments it would keep my account from going into collections, which I have done. Since then they have reported me to the Credit Reporting Agencies and now I am getting collection calls every few hours. I have no choice but to make smaller payments right now. But my concern is, when I was in good standing my credit report was not updated to show good history but it is for negative, I don't think that is fair practice. Also, I did reach out as soon as I had a situation and now I am getting collections calls and letters, I got an email on Sunday advising me I had 30 days to validate this debt as mine. I know its mine, I made a payment as directed. pull the call where I called in, check the emails I have sent. I am trying to do the right thing ...”

Product: Payday Loan, Title Loan, or Personal Loan; Installment Loan

CFPB Issue: Struggling to pay your loan

Complaint:

“XX/XX/2022 I was approved for the loan of {\$2000.00}. The interest rate is 160.14 % and as I pay, the loan amount continues to increase and is now totaling {\$2600.00} regardless of payments I have made. I was charged every pay day for this loan. I missed payments and it is now with a debt collector who insistentlly contacts me via phone call as well as email. **I have XXXX XXXX children that this is greatly effecting. I have contacted the company multiple times to see how to decrease the loan-and there are no options. The loan balance continues to increase and adversely impact my credit. In my research, the interest rate that they approved me with is intentionally predatory.**”

**Complaint ID: 18398687**

Date Filed: January 1, 2026

ZCTA: 37421

Product: Payday Loan, Title Loan, Personal Loan, or Advance Loan; Payday Loan

CFPB Issue: Charged fees or interest you didn't expect

Complaint:

"I am submitting this complaint regarding Opportunity Financial , LLC ( OppLoans ) and its repeated refinancing, servicing, and reporting of high-cost installment loans originated through its bank-partner structure.

Overview and XXXX XXXX XXXX XXXX a period of several years, OppLoans repeatedly refinanced the same underlying debt rather than extending new credit. Although I never borrowed more than approximately {\$2300.00} at any XXXX time, I was cycled through XXXX refinanced loans issued and serviced by the same company. As a result, I paid approximately {\$19000.00} in regular payments toward this single underlying obligation.

OppLoans has confirmed in writing that these loans were refinanced through its platform and that balances from prior loans were repeatedly rolled into new loans. This refinancing structure kept my balance persistently elevated and generated excessive interest and fees disproportionate to the principal actually received.

Excessive Payments and Restitution Request Based on my records and OppLoans own disclosures, I paid approximately {\$17000.00} in excess of the maximum principal ever outstanding. These payments were largely applied to interest and fees rather than principal reduction.

I am requesting : Restitution of excess interest and fees paid above lawful principal, totaling approximately {\$17000.00}, or, in the alternative, Restitution of all interest paid above a reasonable consumer lending benchmark ( e.gXXXX XXXX XXXX XXXX XXXX

Failure of Clear Disclosure ( TILA Concerns ) OppLoans monthly statements and communications failed to clearly disclose : The true effective APR applied across refinances Total interest paid over time How fees differ from or function as interest OppLoans response relies on the existence of signed agreements but does not address whether disclosures were clear, meaningful, and compliant with the Truth in Lending Act ( TILA ), particularly in the context of repeated refinances that materially altered the cost of credit.

Credit and Financial Harm Due to OppLoans repeated refinancing of the same debt : **My debt-to-income ratio remained artificially elevated for years My credit utilization and installment balances remained persistently high I was prevented from qualifying for lower-cost credit alternatives This caused measurable financial and credit harm.** I am requesting monetary compensation for credit and financial damage,

estimated at {\$4000.00} {\$10000.00}, consistent with CFPB consumer remediation standards.

Account Reconciliation and Balance Resolution Because the principal has been repaid multiple times over through refinancing under the same lender relationship, any remaining balance should be forgiven or reduced to {\$0.00} following a proper accounting.

OppLoans continues to assert a remaining balance despite the excessive repayment and unresolved disclosure issues. I dispute the legality and accuracy of this balance.

Credit Reporting Correction and Deletion OppLoans has reported multiple tradelines corresponding to these refinanced loans. I request the following corrective action : Deletion of XXXX of the XXXX OppLoans XXXX profiles from all consumer reporting agencies, as they represent refinanced iterations of the same underlying obligation rather than separate extensions of new credit The remaining account should be reported as : Paid in Full / Closed Consumer Paid as Agreed with no late payments, charge-offs, or derogatory remarks Payment Status and Dispute Acknowledgment I have stopped payments going forward due to the ongoing dispute and potential consumer protection violations. OppLoans has acknowledged receipt of my communications regarding payment cessation on XXXX separate occasions, confirming awareness that the account is disputed.

Despite this, OppLoans has indicated it XXXX continue reporting and accruing interest.

Request for Suspension of Adverse Actions I request written confirmation that : No negative credit reporting will occur No collection activity will occur No interest or fees will accrue while this matter is under CFPB XXXX.

Full Accounting Request I request a complete loan-by-loan accounting showing : Principal advanced Interest charged Fees charged Amount applied to principal versus interest for each refinanced loan and written confirmation that all adverse actions are suspended pending resolution.

Requested Resolution Summary I respectfully request that the CFPB require OppLoans to : Provide a full accounting of all loans and refinances Refund excessive interest and fees Compensate for documented credit and financial harm Forgive or XXXXXXXXX XXXX any remaining balance Correct and delete inaccurate or duplicative credit reporting Cease all collection, reporting, and accrual activity during review I have attached OppLoans written responses and my prior dispute communications as supporting documentation."

**Complaint ID: 17476509**

Date Filed: November 24, 2025

ZCTA: 23320

Product: Payday Loan, Title Loan, Personal Loan, or Advance Loan; Installment Loan

CFPB Issue: Problem when making payments

Complaint:

“ I applied for an {\$1800.00} installment loan in XX/XX/year>. Per the documents that I reviewed, and agreed to ; the term is for XXXX payments, @ 160 % interest rate. The first payment due was scheduled for XX/XX/year>, paid via ACH from my XXXX XXXX Checking account. This was to be paid only once per month, in the amount of {\$130.00}. I did not agree to have these payments to be debited more than once. I set up this through there vendor XXXX, to access my account for these payments. **I knew that this was high but, I was hoping to take care of some emergency issues. I did not think that this would become a nightmare.** I noticed on XX/XX/year>, may checking account balance was not right. Per XXXX XXXX 's auto system ; these amounts were taken : XX/XX/year> : {\$130.00}, XX/XX/year> : {\$130.00}, XX/XX/year> : {\$130.00}. I was not understanding what the deal was, and why I had three amount taken within a 30 day period. I contacted XXXX XXXX, to confirm what this was and how. I explained to XXXX XXXX, that I did not agree to these installment payments at this frequency, and felt that I was being scammed. I did a stop payment on two of the payments and put a request for this to be looked at by XXXX XXXX. I pulled my agreements and emails from Opportunity Financial, and also emailed the vendor XXXX. There was nothing there to confirm anything different. I did not agree to have multiple payments taken within one month. I attempted to email Opportunity Financials during this time. I continued to get the run around,. I was told in one of my emails that, those payments were taken out because, of my pay periods ( twice a month ) with my employer ( XXXX of XXXX ). I would have never agreed to have {\$130.00} taken out of my checking account, twice amount. I can not afford this. I have sent them a few emails, and was told that I could either agree, or they would need to redo my loan, which result in a higher interest rate and installment amount. I am not trying to have this drag on, but I want to be treated fairly and pay this as I assumed it would honestly be. I am not agreeing to what Opportunity Financial is not claiming. I am requesting your assistance with this matter. Thank you for your time in advance. Sincerely.”

CFPB Issue: Struggling to pay your loan

Complaint:

“I received a payday loan to help pay a previous loan I received and Im paying 160 % interest on the loan and I cant keep paying it. I was in a bad spot and made a stupid decision. I feel like they are taking advantage of people with these ridiculous interest rates.”

**Complaint ID: 13065713**

Date Filed: April 18, 2025

ZCTA: 23666

Product: Payday Loan, Title Loan, Personal Loan, or Advance Loan; Payday Loan

CFPB Issue: Charged fees or interest you didn't expect

Complaint:

“OppLoans has proven to be incredibly predatory in my experience. After losing my job, I reached out to them for flexibility or support, but they offered no real help or understanding just the same rigid payment demands. Their interest rates are outrageously high, often triple digits, which only traps struggling borrowers in a cycle of debt. Its frustrating and disheartening to see a company claim to help people with bad credit, yet take advantage of their desperation with unfair terms and no compassion when circumstances change.”

Re: Application of Opportunity Financial ("OppFi") to the Federal Reserve Bank to acquire BNC National Bank, to create and merge with OppFi Bank, and to become a bank holding company, 91 Fed. Reg. 42961 (July 13, 2026)

To Whom It May Concern,

Oregon Consumer Justice submits the following comments to express our concerns regarding Opportunity Financial (OppFi)'s application to acquire BNC National Bank to create OppFi National Bank, to merge BNC and OppFi banks, and become a bank holding company. OCJ requests you to deny the application after holding a public hearing, including consideration by the full Board of Governors of the Federal Reserve.

Oregon Consumer Justice (OCJ) is a nonprofit organization that works to expand and protect consumer rights through policy and advocacy, community engagement, and the law. All Oregonians deserve to live with dignity and abundance, and experience health, joy, and economic opportunity.

OppFi specializes in high-cost consumer installment loans with annual percentage rates (APRs) that frequently reach 160%.<sup>1</sup> These rates far exceed the interest rate caps adopted and enforced by 31 states, including Oregon's 36% cap. State caps exist to reduce the risk of debt traps and to protect consumers from lending practices repeatedly shown to cause lasting financial harm.<sup>2</sup> By acquiring BNC National Bank, OppFi would gain access to a national bank charter, enabling it to expand high-cost lending and bypass state laws regarding interest rates and lending practices, disregarding deliberate policy decisions by

---

<sup>1</sup> <https://www.opploans.com/rates-and-terms/california/>

<sup>2</sup> <https://www.nerdwallet.com/personal-loans/learn/high-interest-loans-and-alternatives#:~:text=If%20you%20have%20bad%20credit,with%20a%20financially%20also%20creates%20high%20interest%20rate.>

states, including Oregon, to protect consumers.

The proposed acquisition raises broader concerns about an emerging trend in which high-cost nonbank lenders seek to acquire federally regulated banks to expand their lending authority. OppFi's proposed acquisition follows a similar request by Enova International, another high-cost consumer lender pursuing a bank charter after using bank partnerships to offer usurious loans. If these acquisitions are allowed to go through, they could set a precedent for nonbank lenders to obtain national banking authority, increasingly undermine state consumer protection laws, and destabilize American families financially.

The Federal Reserve System is responsible for ensuring the health and stability of the U.S. economy and financial system through regulating financial institutions and promoting consumer protection.<sup>3</sup> Approving this acquisition would undermine those responsibilities and create a pathway for nonbank lenders to expand harmful lending practices that bypass state protections and threaten consumer well-being nationwide.

Consumers nationwide are already facing rising household debt, increasing financial insecurity, and persistent affordability challenges.<sup>4</sup> Federal policymakers have acknowledged consumer concerns about increasing borrowing costs and the harmful effects of high-interest lending.<sup>5</sup> Now is not the time to approve a transaction that would expand loans with triple-digit APRs and erode state consumer protections. The Federal Reserve System should carefully consider the implications of this application and the precedent it would establish for future acquisitions by high-cost lenders seeking to avoid state lending restrictions.

Thank you for considering this comment and for your commitment to ensuring the national banking system operates in a manner that protects consumers.

Regards,

Chris Coughlin

Federal Policy Director

Chicago, IL 60690-1414

RE: Block Enova and OppFi From Using National Bank Charters to Evade State Interest-Rate Laws

I urge the Federal Reserve to deny Enova International's application to acquire Grasshopper Bank and to reject Opportunity Financial's proposed acquisition of BNC Bank when it comes before the Board.

These companies are seeking the privileges of national bank ownership in order to override state interest-rate protections and expand predatory triple-digit lending nationwide. If approved, these transactions could create the first national banks whose core business models focus on loans carrying interest rates of 100% to 160% APR or higher.

A \$2,000 loan at 100% APR is prohibited in 45 states. Yet national bank ownership could allow Enova and OppFi to export the rules of a bank's home state and evade the protections adopted by voters and lawmakers elsewhere. The Federal Reserve should not allow a federal banking charter to become a tool for nullifying state consumer-protection laws.

The companies' lending records make the danger unmistakable. Enova's consumer-loan charge-offs have exceeded 50%. OppFi offers loans with APRs reaching 195%, has disclosed a 51% net charge-off rate, and derives a substantial share of its income from refinancing borrowers into continuing high-cost debt. These figures demonstrate severe unaffordability, not responsible underwriting.

Enova also has a documented history of consumer protection violations. The CFPB labeled the company a repeat offender in 2023 after finding continued illegal conduct following a previous enforcement order. Advocates have also identified a disproportionate concentration of consumer complaints against Enova in predominantly Black and Latino communities. That history should weigh heavily against granting the company control of a national bank.

National bank charters are public privileges. They must not be used as escape routes from state law or as vehicles for spreading unaffordable debt traps.

Please deny Enova's application, block OppFi's proposed acquisition, and prevent the creation of national banks dedicated to predatory 100% APR lending.
