## GLOSSARY

**Aggregate lending:** The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

**Census tract:** A small, relatively permanent statistical subdivision of a county. Census tract boundaries do not cross county lines; however, they may cross the boundaries of metropolitan statistical areas. Census tracts average about 4,000 inhabitants, and their physical size varies widely depending upon population density. Census tracts are designed to be homogeneous with respect to the population characteristics, economic status, and living conditions to allow for statistical comparisons.

**Community development:** All Agencies have adopted the following language:

1. Affordable housing (including multi-family rental housing) for low- or moderate-income individuals.
2. Community services targeted to low- or moderate-income individuals.
3. Activities that promote economic development by financing businesses or farms that meet the size eligibility standards of the Small Business Administration's Development Company or Small Business Investment Company programs (13 CFR 121.301) or have gross annual revenues of \$1 million or less.
4. Activities that revitalize or stabilize –
  - a. Low- or moderate-income geographies.
  - b. Designated disaster areas.
  - c. Distressed or underserved nonmetropolitan middle-income geographies designated by the Board, Federal Deposit Insurance Corporation, and Office of the Comptroller of the Currency, based on-
    - i. Rates of poverty, unemployment, and population loss.
    - ii. Population size, density, and dispersion. Activities that revitalize and stabilize geographies designated based on population size, density, and dispersion if they help to meet essential community needs, including needs of low- and moderate-income individuals.

**Consumer loan(s):** A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

**Family:** Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family, which is further classified into 'male householder' (a family with a male householder and no wife present) or 'female householder' (a family with a female householder and no husband present).

**Geography:** A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

**Home Mortgage Disclosure Act (HMDA):** The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and income of the applicants; the amount of loan requested; and the disposition of the application (for example, approved, denied, or withdrawn).

**Home mortgage loans:** Includes home purchase and home improvement loans as defined in the HMDA regulation. This definition also includes multifamily (five or more families) dwelling loans, loans for the purchase of manufactured homes, and refinancing of home improvement and home purchase loans.

**Household:** Includes all persons occupying a housing unit. Persons not living in households are classified as living in group quarters. In 100 percent tabulations, the count of households always equals the count of occupied housing units.

**Low-income:** Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent, in the case of a geography.

**Market share:** The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

**Metropolitan area (MA):** A metropolitan statistical area (MSA) or a metropolitan division (MD) as defined by the Office of Management and Budget. A MSA is a core area containing at least one urbanized area of 50,000 or more inhabitants, together with adjacent communities having a high degree of economic and social integration with that core. A MD is a division of a MSA based on specific criteria including commuting patterns. Only a MSA that has a population of at least 2.5 million may be divided into MDs.

**Middle-income:** Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 percent and less than 120 percent, in the case of a geography.

**Moderate-income:** Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 percent and less than 80 percent, in the case of a geography.

**Multifamily:** Refers to a residential structure that contains five or more units.

**Other products:** Includes any unreported optional category of loans for which the institution collects and maintains data for consideration during a CRA evaluation. Examples of such activity include consumer loans and other loan data an institution may provide concerning its lending performance.

**Owner-occupied units:** Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

**Qualified investment:** A qualified investment is defined as any lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

**Rated area:** A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

**Small loan(s) to business(es):** A loan included in 'loans to small businesses' as defined in the Consolidated Report of Condition and Income (Call Report) and the Thrift Financial Reporting (TFR) instructions. These loans have original amounts of \$1 million or less and typically are either secured by nonfarm or nonresidential real estate or are classified as commercial and industrial loans. However, thrift institutions may also exercise the option to report loans secured by nonfarm residential real estate as "small business loans" if the loans are reported on the TFR as nonmortgage, commercial loans.

**Small loan(s) to farm(s):** A loan included in 'loans to small farms' as defined in the instructions for preparation of the Call Report. These loans have original amounts of \$500,000 or less and are either secured by farmland, or are classified as loans to finance agricultural production and other loans to farmers.

**Upper-income:** Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more, in the case of a geography.

### Comerica Bank & Trust

Comerica Bank & Trust has no branches.

**Public Exhibit 9**

**Form of Newspaper Notice**

## **Notice of Application for Merger of Bank Holding Companies**

Fifth Third Bancorp, Cincinnati, Ohio (“Fifth Third”), and its wholly owned subsidiary, Fifth Third Financial Corporation, Cincinnati, Ohio (“Fifth Third Financial” and, with Fifth Third, the “Applicants”) have applied to the Federal Reserve Board for (i) permission to acquire another bank holding company, Comerica Incorporated, Dallas, Texas (“Comerica”), by merging Comerica with and into Fifth Third Financial, and thereby acquire control of Comerica’s two subsidiary banks, Comerica Bank, Dallas, Texas, and Comerica Bank & Trust, National Association, Ann Arbor, Michigan (the “Acquisition”) and (ii) permission for Fifth Third Financial to merge immediately following the Acquisition with another bank holding company, Comerica Holdings Incorporated, Dallas, Texas, a wholly owned subsidiary of Comerica (“Comerica Holdings”), with Fifth Third Financial continuing as the surviving corporation. We intend to acquire control of the wholly owned subsidiary banks of Comerica and Comerica Holdings, Comerica Bank, Dallas, Texas, and Comerica Bank & Trust, National Association, Ann Arbor, Michigan. The Federal Reserve considers a number of factors in deciding whether to approve the application, including the record of performance of banks we own in helping to meet local credit needs.

You are invited to submit comments in writing on this application/notice to the Federal Reserve Bank of Cleveland, 1455 East Sixth Street, Cleveland, OH 44114, or via e-mail: [comments.applications@clev.frb.org](mailto:comments.applications@clev.frb.org). The comment period will not end before December 1, 2025 and may be somewhat longer. The Board's procedures for processing applications/notices may be found at 12 C.F.R. Part 262. Procedures for processing protested applications/notices may be found at 12 C.F.R. 262.25. To obtain a copy of the Federal Reserve Board’s procedures, or if you need more information about how to submit your comments on the application/notice, contact Richard Ryan Schilling, Banking Supervisor, at (513) 455-4406. The Federal Reserve will consider your comments and any request for a public meeting or formal hearing on the application/notice if they are received in writing by the Reserve Bank on or before the last day of the comment period.
