| <b>Total</b>                                                                             | <b>100.0</b>        | <b>100.0</b>       | <b>100.0</b>       | <b>55</b> | <b>100.0</b> | <b>89</b>         | <b>100.0</b> |

The bank opened one branch in an upper-income census tract and closed one branch in moderate-income census tract. The bank's record of opening or closing branches has not adversely affected the accessibility of its delivery systems, including to LMI geographies. Banking services and hours of operations do not vary in the AA, particularly in LMI geographies or to LMI individuals. The level of branch services and hours offered are consistent throughout the AA.

## Community Development Services

Comerica is a leader in providing CD services in the AA. The bank's employees served in 148 organizations offering 1,243 CD services that aid LMI individuals for a total of 3,655 hours. The bank demonstrates significant responsiveness to AA CD needs, by increasing the number of community service hours served since the previous evaluation by 121.4 percent.

Comerica employees devoted over 800 hours serving nonprofit organizations in various capacities, demonstrating the bank's significant commitment to the well-being of LMI individuals and geographies. In addition to the significant community service hours noted, Comerica BusinessHQ opened in early 2023 to support small businesses in the AA. This \$5 million proof-of-concept collaborative space has served more than 400 individuals, providing approximately \$4,500 worth of no-cost coworking and tailored technical assistance by bank employees at the location. In response to the overwhelming success of the location and the development of new avenues to serve the area created through Comerica BusinessHQ, the bank intends to extend the concept to other AAs. This commitment to serving the bank's AA through such a program, despite it not fitting within established definitions of qualified CD activity, reflects very favorably on the bank's responsiveness and innovation to the needs of its communities.

**SAN ANTONIO METROPOLITAN ASSESSMENT AREA**  
(Full-Scope Review)

**DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN THE SAN ANTONIO ASSESSMENT AREA**

- The San Antonio Metropolitan AA is comprised of Bexar and Kendall counties, which represent a portion of the San Antonio-New Braunfels, TX MSA. The AA excludes the following MSA counties: Atascosa, Bandera, Comal, Guadalupe, Medina, and Wilson. Refer to Appendix A for an AA map and Appendix B for additional demographic data.
- The AA consists of 384 census tracts, of which 9.1 percent are designated as low-income, 35.7 percent as moderate-income, 26.8 percent as middle-income, 27.3 percent as upper-income, and 1.0 percent as unknown-income.
- The 2020 U.S. Census added 12 new census tracts within the AA, resulting in an increase of 3.2 percent. The number of geographies designated as LMI increased by 4.7 percent.
- The bank operates six full-service branches in the AA: three branches in moderate-income, two branches in middle-income, and one branch in an upper-income census tract.
- According to the June 30, 2022, FDIC Market Share Report, Comerica had a 0.1 percent market share, ranking 19<sup>th</sup> out of 49 of FDIC-insured depository institutions operating in the AA.
- In 2022, the bank ranked 146<sup>th</sup> out of 719 HMDA reporters in the AA with 26 HMDA originations and purchases, and 40<sup>th</sup> out of 189 CRA reporters with 74 CRA small business loans.
- A community contact noted a significant need for affordable housing, mortgage payment assistance, and access to credit for LMI individuals and families as well as small businesses and entrepreneurs. The community contact also noted that financial institutions should continue to invest in CDFIs, as they support small business by providing financing and technical support.

- While the AA's MFI increased at a lower rate than the state of Texas' MFI between 2015 and 2020, Bexar County's MFI grew at a comparable rate. Conversely, Kendall County's MFI grew significantly, at a 21.6 percent, almost doubling the statewide percentage change during the same period.
- The 2020 MFI in Kendall County exceeds the MFI for the AA and the state by at least \$40,000. It is noteworthy that only 2.6 percent of the AA families reside in Kendall County, limiting the impact in the AA MFI.
- According to 2020 FFIEC data, 11.6 percent of AA families live below the poverty level. In contrast, only 3.0 percent of Kendall County's families live below the poverty level.

- Housing affordability within the AA for low-income renters is a substantially greater burden than the burden on homeowners at any other level.
- The cost burden for LMI renters is lower in Kendall County, with a median gross rent of \$1,278, than the Bexar County and the statewide cost burden.
- The AA median housing value, at \$173,821, is below the statewide, at \$187,200. Kendall County's median housing value, at \$378,500, significantly exceeds the AA and state of Texas housing values.

- Unemployment rates for the AA and Bexar County between 2018 and 2021 are comparable to the statewide rate. However, Kendall County's unemployment rates are consistently below the statewide during the same period.
- Unemployment rates almost doubled in 2020 due to the COVID-19 pandemic, as many businesses laid off employees due to the statewide stay at home and social distancing orders. While AA unemployment rates stabilized in 2021 and 2022, they have not reached pre-pandemic rates levels. The statewide unemployment rates reached pre-pandemic levels in 2022.
- Major employment industries within the AA include accommodation and food services, healthcare and social assistance, and retail trade.

Table 59 details selected characteristics of the AA.

## **CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS**

### **LENDING TEST**

Comerica's Lending Test performance in the AA is good. The bank's small business lending generally carried more weight, as this product comprised the largest volume of lending in the AA. The bank's home mortgage lending activity was evaluated as a whole given the insufficient volume by sub-products to conduct a meaning analysis.

Details of the bank's 2020 mortgage and small business lending and corresponding aggregate data can be found in Appendix C.

#### **Lending Activity**

The bank's lending activity in the San Antonio Metropolitan AA reflects good responsiveness to AA credit needs. Comerica makes use of innovative and/or flexible lending practices to serve AA credit needs, including LMI borrowers. The bank originated 84 home mortgage and 351 small business loans in the AA between January 1, 2020, and December 31, 2022. These volumes represent 2.7 percent of the HMDA-reportable loans and 4.2 percent of the CRA-reportable loans in the state of Texas during the review period. Comerica sustained a constant volume of home mortgage lending between 2020 and 2022; however, the volume of small business lending significantly decreased year after year. The reduction in small business lending is primarily attributed to the cessation of the SBA's PPP in May 2021 and rising interest rates in 2022. It is noteworthy that the level of home mortgage lending has not been adversely impacted by the interest rate hikes. This level of lending reflects favorably on the bank as it aligns with the bank's strategic focus on small business lending.

#### **Geographic Distribution of Loans**

Comerica's geographic distribution of lending reflects excellent penetration throughout the AA. The distribution of home mortgage and small business lending is consistent with the overall conclusion, reflecting excellent penetration among geographies of different income levels, especially LMI census tracts. The distribution of the bank's lending in middle- and upper-income geographies did not affect conclusions about the bank's performance in LMI geographies. Furthermore, the bank's loan dispersion among geographies of different income levels did not reveal any notable gaps or lapses.

#### *Residential Real Estate (HMDA) Lending*

The geographic distribution of home mortgage lending reflects excellent penetration throughout the AA. The distribution of 2020 and 2021 home mortgage loans among low-income census tracts exceeds aggregate data and the demographic figure, though the bank did not make any loans in low-income census tracts in 2022. The distribution of the bank's home mortgage lending in moderate-income census tracts is also well above aggregate data and comparable to demographic figures in each year of the review period.

### Small Business Lending

The geographic distribution of small business loans reflects excellent penetration throughout the AA when compared to demographics and the performance of the aggregate lenders. While the volume of small business lending decreased year after year during the review period, the distribution of small business loans among low-income census tracts consistently exceeds aggregate data and the demographic figure. Additionally, the bank's small business lending in moderate-income census tracts generally exceeds aggregate data and the demographic figure. Comerica's 2021 performance in moderate-income tracts declined slightly but remained comparable to both figures. This performance reflects favorably on the bank's responsiveness to the credit needs of small businesses in the AA.

### ***Lending to Borrowers of Different Income Levels and Businesses of Different Sizes***

The bank's distribution of lending to borrowers reflects a good penetration among individuals of different income levels and businesses of different revenue sizes. Comerica's lending distribution to middle- and upper-income borrowers did not affect conclusions about its performance to LMI borrowers.

#### ***Residential Real Estate (HMDA) Lending***

Home mortgage lending by borrower income in the AA is excellent when compared to demographic characteristics and the performance of aggregate lenders. The bank's 2021 and 2022 lending to low-income borrowers significantly exceeds aggregate data and is comparable to the demographic figure, reflecting improvement from its 2020 performance.

The bank's lending to moderate-income borrowers improved year after year. In 2020, the bank's performance is below aggregate and demographic data. While Comerica's 2021 performance is comparable to aggregate and demographic data, it significantly exceeds both figures in 2022. The shift in performance is especially notable given the rising interest rate environment in 2022.

The bank's 2020 lending performance exceeds aggregate data and is significantly below the demographic figure. However, this has limited impact in rating the bank's performance, as aggregate data serves as a better proxy for loan demand.

### Small Business Lending

The borrower distribution of small business loans by revenue size of businesses is good. The 2022 loan distribution to businesses with revenues of \$1 million or less is below the percentage of small businesses in the AA and aggregate data by number of originations; however, Comerica's performance by dollar amount is comparable to aggregate data. This is reflective of the bank's willingness to lend larger sums to small businesses. Moreover, aggregate data serves as a better indicator for loan demand than the demographic figure.

In 2021, the bank's lending to businesses with annual revenues of \$1 million or less is comparable to aggregate lending performance, but well below the demographic figure. Conversely, Comerica's lending performance in 2020 reflected penetration levels greater than 2021 and 2022, originating a significantly larger portion of small business loans to businesses with revenues of \$1 million or less than aggregate lenders. It is noteworthy that Comerica's number volume of small business loans has decreased by 69.1 percent between 2020 and 2022, but only 23.8 percent by dollar amount. This declining performance is primarily attributed to the cessation of the SBA's PPP in May 2021 and rising interest rates in 2022.

## Community Development Lending

The bank makes a relatively high level of CD loans in the AA, originating a total of 14 qualifying CD loans, totaling \$47.5 million. Since the previous evaluation, the bank substantially increased the dollar amount of CD loans by 90.9 percent. The majority of the CD loans were extended for the purpose of economic development, focusing on financing small businesses and supporting permanent job creation or retention or improvement for LMI persons or in LMI geographies. Examples of the bank's CD lending activities that were considered responsive to the credit needs in the AA include:

- A \$15 million line of credit extended to a small business that processes and distributes nuts, seeds, dried fruit, and snack mixes. Funds expected to support ongoing business operations and permanent jobs for LMI employees.
- A \$638,000 line of credit extended to a small business to expand its car wash operations and support permanent jobs for LMI employees.

| <b>Total</b>                                                               | <b>14</b> | <b>47,457</b> |

**INVESTMENT TEST**

The bank's performance under the Investment Test in the AA is good. Comerica is occasionally in a leadership position given its significant level of qualified CD investments and grants, particularly those not routinely provided by private investors. The bank makes significant use of innovative or complex investments to support CD initiatives and exhibits good responsiveness to AA needs. The bank's overall dollar amount of CD investments and grants significantly increased by 28.7 percent since the previous evaluation while the number volume decreased by 31.0 percent. Comerica's investments primarily focused on affordable housing, which reflects good responsiveness as community contacts emphasized the need for affordable housing in the AA.

Table 65 illustrates the breakdown of the bank's CD investments and donations within the AA, including prior period investments that remain on the bank's ledger, current period investments purchased during the review period, and CD donations made since the previous evaluation. Examples of notable investment and donation activities that reflect Comerica's efforts to meet the CD and credit needs of the AA include:

- A \$250,000 equity investment to a CDFI that provides access to capital for small businesses in the AA.
- A \$5.9 million investment in LIHTC-eligible funds for the construction or preservation of rent-restricted units for LMI individuals.

**SERVICE TEST**

The bank's Service Test performance is good.

**Retail Services**

Comerica's delivery systems are accessible to the bank's geographies and individuals of different income levels in the AA. The distribution of the bank's six branch offices and six ATMs as of April 1, 2023, was compared to the distribution of the households and businesses among the income tract categories within the AA. Table 66 summarizes the bank's retail locations in the AA.

**Table 66**

The bank did not open or close any branches in the AA during the review period. Banking services and hours of operations do not vary the AA, particularly in LMI geographies or to LMI individuals.

### Community Development Services

The bank provides an adequate level of CD services in the AA. Comerica's employees served six organizations, offering 22 community services that aided LMI individuals for a total of 67 hours. This level of CD services represents an improvement from the previous evaluation, with an 146.3 percent increase in the number of hours rendered. Examples of services performed by bank employees include:

- Serving on the board of directors of a nonprofit that unites communities to identify and solve relevant CD issues, such as financial education and affordable housing.
- Providing over 17 hours of financial education to LMI youth.

## METROPOLITAN ASSESSMENT AREAS (LIMITED-SCOPE REVIEW)

### DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN LIMITED-SCOPE TEXAS METROPOLITAN ASSESSMENT AREAS

The bank's branch operations and deposit market share for each metropolitan AA receiving a limited-scope review were determined as of April 1, 2023, and June 30, 2022, respectively.

- **Austin Metropolitan AA**

- The Austin Metropolitan AA is comprised of the entirety of Travis and Williamson counties which, along with Bastrop, Caldwell, and Hays counties (excluded from the AA) make up the Austin-Round Rock-Georgetown, TX MSA.
- The AA is comprised of 425 census tracts, including 27 low-, 100 moderate-, 142 middle-, 140 upper-, and 16 unknown-income tracts.
- Based upon 2020 ACS data, the AA population was 1,899,205, which reflects a 19.1 percent increase from the 2015 ACS data.
- The AA includes 416,236 families, 20.4 percent are low-, 16.8 percent moderate-, 20.8 percent middle-, and 42.0 percent are upper-income.
- The bank operated ten branches, representing 2.5 percent of its branches.
- Comerica held \$1.5 billion in deposits, representing a market share of 2.2 percent and 1.9 percent of the bank's total deposits.

- **Houston Metropolitan AA**

- The Houston Metropolitan AA is comprised of the entirety of Brazoria, Fort Bend, Galveston, Harris, and Montgomery counties which, along with Austin, Chambers, Liberty, and Waller counties (excluded from the AA) make up the Houston-The Woodlands-Sugarland, TX MSA.
- The AA is comprised of 1,562 census tracts, including 215 low-, 385 moderate-, 408 middle-, 505 upper-, and 49 unknown-income tracts.
- Based upon 2020 ACS data, the AA population was 6,897,080, which reflects a 12.0 percent increase from the 2015 ACS data.
- The AA includes 1,650,859 families, 23.6 percent of which are low-, 16.6 percent moderate-, 17.8 percent middle-, and 42.0 percent are upper-income.
- The bank operated 41 branches, representing 10.0 percent of its branches.
- Comerica held \$3.9 billion in deposits, representing a market share of 1.0 percent and 5.3 percent of the bank's total deposits.

### CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS

Appendix D contains detailed performance and demographic information reviewed for the limited-scope AAs. Table 67 discusses conclusions regarding the bank's performance.

**Table 67**

| Assessment Area         | Lending Test | Investment Test | Service Test |
|-------------------------|--------------|-----------------|--------------|
| Austin Metropolitan AA  | Consistent   | Below           | Consistent   |
| Houston Metropolitan AA | Consistent   | Consistent      | Consistent   |

The institution's lending, investment, and service performance in the areas is generally consistent with Comerica's lending, investment, and service performance in the state.

## NONMETROPOLITAN ASSESSMENT AREA (LIMITED-SCOPE REVIEW)

### DESCRIPTION OF OPERATIONS

- **Bank of the Hills Nonmetropolitan AA**
  - The Bank of the Hills Nonmetropolitan AA is comprised of the entirety of Kerr County.
  - The AA is comprised of 14 census tracts, including two moderate-, six middle-, and six upper-income tracts.
  - Based upon 2020 ACS data, the AA population was 52,598, which reflects a 4.9 percent increase from the 2015 ACS data.
  - The AA includes 14,712 families, 17.6 percent are low-, 17.8 percent moderate-, 19.0 percent middle-, and 45.6 percent are upper-income.
  - As of April 1, 2023, the bank operated three branches, representing 0.7 percent of its branches.
  - As of June 30, 2022, Comerica held \$193.2 million in deposits, representing a market share of 10.7 percent and 0.3 percent of the bank's total deposits.

### CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS

Appendix E contains detailed performance and demographic information reviewed for the limited-scope AAs. Table 68 summarized the conclusions regarding the bank's performance.

**Table 68**

| Assessment Area                      | Lending Test | Investment Test | Service Test |
|--------------------------------------|--------------|-----------------|--------------|
| Bank of the Hills Nonmetropolitan AA | Below        | Below           | Below        |

The institution's lending, investment, and service performance in the AA is below Comerica's performance in the state; however, it does not affect the rating for the state.

## STATE OF CALIFORNIA

|                                   |                     |
|-----------------------------------|---------------------|
| <b>CRA RATING FOR CALIFORNIA:</b> | <b>Satisfactory</b> |
| The Lending Test is Rated:        | High Satisfactory   |
| The Investment Test is Rated:     | Outstanding         |
| The Service Test is Rated:        | High Satisfactory   |

Major factors supporting the institution's rating include:

- Lending activity reflects good responsiveness to the AAs credit needs.
- The geographic distribution of loans reflects good penetration throughout the AAs.
- The distribution of loans among individuals of different income levels and businesses of different revenue sizes is adequate.
- Comerica is a leader in making CD loans.
- The bank has a good record of serving the credit needs of low-income individuals and areas as well as very small businesses.
- The bank makes use of innovative and/or flexible lending practices in serving AAs' needs.
- Comerica is often in a leadership position given its excellent level of qualified CD investments and grants.
- The bank makes occasional use of innovative and/or complex investments to support CD initiatives.
- Comerica exhibits good responsiveness to credit and CD needs.
- Delivery systems are reasonably accessible to individuals of different income levels throughout the bank's AAs.
- The record of opening and closing branches has not adversely affected the accessibility of its delivery systems, particularly to LMI geographies and/or LMI individuals.
- Services do not vary in a way that inconveniences the bank's AAs, particularly LMI geographies and/or LMI individuals.
- Comerica provides a relatively high level of CD services.

## SCOPE OF THE EVALUATION

The scope of the review for the state of California is consistent with the overall scope for the institution, including evaluations under the lending, investment, and service tests. The time period and products evaluated for this state are also unchanged from the scope discussed in the Institution section of this report.

Three of the eight AAs in the state of California were reviewed using full-scope procedures.

- Greater Los Angeles AA
- Salinas MSA AA
- San Jose Metropolitan AA

The remaining five AAs received limited-scope reviews.

- Inland Empire MSA AA
- San Diego MSA AA
- San Francisco Bay Metropolitan AA
- Santa Cruz MSA AA
- Ventura MSA AA

AAs were selected for full-scope reviews based on the strategic importance of the AA, considering volume of lending, number of branches, and percentage of total deposits, as well as the length of time since the AA last received a full-scope review. Overall, approximately 58.8 percent of the bank's lending activity by number of loans, 62.5 percent of the total deposits, and 56.5 percent of total branches within the state of California were evaluated through the full-scope reviews. The bank's performance in the Greater Los Angeles AA was given greater consideration as it is a strategic focus of the institution and represents the majority of the bank's activity in the state. The Salinas MSA AA was given the least consideration based upon the AA's size and the bank's limited presence and activity in the AA relative to other full-scope AAs.

## **DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN CALIFORNIA**

The bank delineates eight of its 27 AAs and operates 92 of its 409 branches in the state of California. As of June 30, 2022, the bank had approximately \$25.2 billion in deposits in the state, representing 32.8 percent of total deposits. According to the June 30, 2022, FDIC Summary of Deposits, the bank had a deposit market share of 1.2 percent and ranked 13<sup>th</sup> out of 183 FDIC-insured financial institutions across the state.

Of the 20,205 HMDA-reportable loans and 35,231 small business loans originated and purchased by Comerica during the review period, 7,520 HMDA-reportable loans (37.2 percent) and 7,193 small business loans (20.4 percent) were extended in the California AAs.

## **CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS**

### **LENDING TEST**

The bank's lending test performance in the state of California is High Satisfactory. The lending test conclusions in the Greater Los Angeles MSA and San Jose Metropolitan AAs are considered good, which is consistent with the overall state rating, while the Lending Test conclusion in the Salinas Metropolitan AA is adequate. Overall, Comerica's performance in the AAs receiving limited-scope reviews support the state rating.

### **Lending Activity**

The bank's lending activities in the state of California reflect good responsiveness to the credit needs of its AAs. The bank makes use of innovative and/or flexible lending programs through its participation in numerous industry-recognized, government-guaranteed programs, including the origination of 5,026 SBA loans and 1,266 small business micro loans within the state of California.

As outlined in Table 69, this evaluation considered 14,887 loans totaling \$4.4 billion. The loan products and origination volumes appear consistent with the credit needs of the bank's California AAs. The number of small business and HMDA loans extended by the bank was compared against the number of loans made by aggregate lenders in the area during the review period. The bank ranked 38<sup>th</sup> out of 353 CRA reporters in its California AAs and 53<sup>rd</sup> of 1,035 HMDA reporters.

### ***Geographic Distribution of Loans***

The overall geographic distribution of lending within the state of California reflects good penetration throughout the bank's AAs. This performance is consistent across the bank's Greater Los Angeles and San Jose Metropolitan AAs, while the geographic distribution of lending in the Salinas Metropolitan AA is adequate.

### ***Lending to Borrowers of Different Income Levels and Businesses of Different Sizes***

The bank's overall lending reflects adequate penetration among individuals of different income levels and businesses of different sizes. This performance is consistent across the bank's Greater Los Angeles, Salinas Metropolitan, and San Jose Metropolitan AAs. A detailed discussion of the facts and data supporting the overall conclusions are presented in the Conclusions with Respect to Performance Criteria section for each AA.

### ***Community Development Lending***

The bank is a leader in making CD loans in the state of California. As reflected in Table 70, the bank originated 361 CD loans totaling approximately \$1.9 billion within the state, which comprises 26.8 percent of overall bank-wide CD loan volume by number and 35.0 percent by dollar amount. The level of CD lending was excellent in the Greater Los Angeles MSA AA, adequate in the Salinas MSA AA, and good in the San Jose Metropolitan AA. Additionally, it is noted that approximately 30 percent of the bank's CD lending occurred in the California AAs that received a limited-scope review at this evaluation.

The bank's total California CD loans increased notably since the previous evaluation. Overall, the number of qualified loans grew by 36.7 percent since the previous evaluation, while the dollar amount of CD lending grew by more than 233.3 percent. This growth occurred despite the substantial decrease in loans originated through the SBA's PPP, which made up approximately half of the bank's CD loans during the previous evaluation period.

CD loans originated by the bank during the evaluation period were extended for a variety of purposes, as noted in the table below. Specific details regarding the CD lending can be found in the Conclusions with Respect to Performance Tests section for each AA.

## INVESTMENT TEST

The bank's performance under the Investment Test in the state of California is Outstanding. The investment test conclusions in the bank's Greater Los Angeles MSA AA are considered excellent, which is consistent with the overall state rating. In the bank's San Jose Metropolitan AA, the bank's performance is good, and in the Salinas MSA AA, the bank's investment test performance is adequate. Generally, the bank's performance in its AAs that received limited-scope reviews is consistent with the overall performance in the state of California.

The bank has an excellent level of qualified CD investments and grants and is often in a leadership position. While Comerica makes occasional use of innovative and/or complex investments, the bank exhibits good responsiveness to the credit and CD needs of its AAs. As illustrated in Table 71, the bank maintains an increased balance of prior period investments, the substantial majority of which are comprised of Low-Income Housing Tax Credit funds, compared to current period investments. While the level of the bank's CD investments and donations to area organizations that support community services for LMI individuals represent a smaller dollar amount, the breadth of impact reflects favorably on the bank's responsiveness to this category of CD needs. In the state of California, the bank made qualifying CD donations to more than 140 distinct community organizations across its delineated AAs, each of which serves a unique subset of individuals and extending the reach of the bank's CD funds.

Details regarding investments and donations in each of the bank's California AAs can be found in the Conclusions with Respect to Performance Tests section for each AA. In addition to the investments made within the bank's delineated AAs, the bank also made several investments in the broader statewide or regional area. These investments included, notably, more than \$5 million worth of deposits in minority-owned financial institutions serving the region.

| <b>Total</b>                                                              | <b>158</b>                                  | <b>114,929</b>  | <b>40</b>                              | <b>117,948</b>  | <b>272</b>       | <b>4,221</b>    | <b>470</b>   | <b>237,098</b>  |

<sup>1</sup> Book value of investment

<sup>2</sup> Original market value of investment

**SERVICE TEST**

The bank's performance under the Service Test in the state of California is High Satisfactory. While the Service Test conclusion in the Greater Los Angeles MSA is excellent, Comerica's performance in the Salinas MSA and the San Jose Metropolitan AAs are good, which is consistent with the overall state rating. Generally, the bank's performance in its AAs that received limited-scope reviews is consistent with the performance in the full-scope review areas and the state.

**Retail Services**

Branch locations and alternative delivery systems, such as drive-through facilities and online and mobile banking, are reasonably accessible to the bank's various geographies and to individuals of different income levels in each AA. Of the bank's 92 full-service offices in the state of California, 17 are located in LMI tracts. Additionally, the bank operates 22 of its 108 full-service ATMs in LMI tracts. The bank's record of opening and closing branches has not adversely affected the accessibility of its delivery systems, particularly in LMI areas or to LMI individuals.

Refer to Table 72 below for the distribution of California banking offices and full-service ATMs by income level of geographies.

The bank's products, services, and business hours do not vary in a way that inconveniences its AAs, particularly LMI geographies and/or LMI individuals. The bank's operations and product and service offerings in the state generally mirror that of the overall institution, which is described in the overall Retail Banking Services section of this evaluation.

**Table 72**

**Community Development Services**

The bank provides a relatively high level of CD services in its California AAs. This conclusion is consistent across all California AAs. Bank representatives provided 1,199 CD services, totaling 3,880 hours, to 122 unique organizations within the state of California. This represents approximately 17.1 percent of the bank's total CD services, while 14.6 percent of the bank's 7,382 employees are located in California. Details regarding CD services can be found in the respective Conclusions with Respect to Performance Tests section for each AA.

**GREATER LOS ANGELES MSA ASSESSMENT AREA**  
(Full-Scope Review)

**DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN THE GREATER LOS ANGELES MSA ASSESSMENT AREA**

- The bank's Greater Los Angeles MSA AA consists of the entirety of the Los Angeles-Long Beach-Anaheim, CA MSA. Refer to Appendix A for an AA map and Appendix B for additional demographic data.
- The AA is made up of 3,112 census tracts, of which 5.7 percent are designated as low-income, 27.5 percent are moderate-income, 29.8 percent are middle-income, 34.4 percent are upper-income, and 2.6 percent are designated as unknown-income.
- Following the 2020 U.S. Census, 183 new census tracts were drawn within the AA, representing a 6.2 percent increase. Additionally, the income level designations of many existing census tracts changed, resulting in a reduction of LMI geographies of 5.1 percent between 2021 and 2022. It is noteworthy that the number of low-income geographies decreased by 33.1 percent.
- The bank operates 36 full-service branches in the AA, including six branches in moderate-income, ten in middle-income, 19 in upper-income census tracts, and one branch in an unknown-income tract.
- According to the June 30, 2022, FDIC Market Share Report, the bank had a 1.3 percent market share, ranking 15<sup>th</sup> out of 109 FDIC-insured depository institutions operating in the AA.
- In 2022, the bank ranked 46<sup>th</sup> out of 881 HMDA reporters in the AA with 1,217 HMDA originations and purchases, and 42<sup>nd</sup> out of 286 CRA reporters with 549 CRA small business loans.
- Community contacts identified affordable housing, homelessness, small business lending, and small business financial literacy as credit and CD needs in the AA.

| Cost burden is housing cost that equals 30 percent or more of household income.                                        |                              |                        |                    |                             |                        |                   |
| Source: U.S. Department of Housing and Urban Development (HUD), 2015-2019 Comprehensive Housing Affordability Strategy |                              |                        |                    |                             |                        |                   |

- Overall, the cost burden for homeowners and renters in the AA is higher than the statewide rates for all LMI segments other than moderate-income renters, which is comparable. While housing affordability within the AA is a noted problem, this is especially true for low-income renters who face substantially greater burden than homeowners at any other level.
- The AA median housing value is \$641,000 and the median rent is \$1,625. Moreover, 45.7 percent of the housing units in the AA are owner-occupied and 48.1 percent are rental. Conversely, the state of California has more owner-occupied units, at 51.0 percent, and less rental units, at 41.3 percent.
- A community contact indicated that the AA is significantly impacted by homelessness and housing-overcrowding, which occurs when the number of occupants exceeds the capacity of the dwelling. The overcrowding issue, which is attributed to a unique combination of low-wage jobs and high-cost housing, has impacted the AA for over three decades.

- Unemployment rates almost tripled in 2020 due to the COVID-19 pandemic, as many businesses laid off their employees given the statewide stay at home and social distancing mandates. In 2022, the AA unemployment rate stabilized and returned to pre-pandemic levels.
- A community contact noted that a substantial number of small businesses within the AA with less than 20 employees were adversely impacted by the COVID-19 pandemic.
- Major employment industries within the AA include healthcare and social assistance, professional and technical services, and retail trade.

Table 77 details selected characteristics of the AA.

## **CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS**

### **LENDING TEST**

The bank's Lending Test performance in the Greater Los Angeles MSA AA is good. For this evaluation, the bank's home mortgage and small business lending carried equal weight, as Comerica extended a similar volume of these products during the review period. Additionally, multifamily, other purpose closed/exempt, and loan purpose not applicable lending products were not evaluated separately from the evaluation of the bank's home mortgage lending.

Details of the bank's 2020 mortgage and small business lending and information regarding lending by aggregate lenders can be found in Appendix C.

### **Lending Activity**

The bank's lending activity in the Greater Los Angeles MSA AA reflects good responsiveness to AA credit needs. The bank makes use of innovative and/or flexible lending practices to serve AA credit needs, including LMI borrowers. During the review period, the bank demonstrated flexible lending practices through its participation in numerous industry-recognized, government-guaranteed lending programs. It is noteworthy that Comerica extended \$767 million through 2,252 SBA loans and 588 small business micro loans.

During the review period, the bank originated 3,357 home mortgage and 3,072 small business loans. While the number of home mortgage loans increased year after year between 2020 and 2022, the volume of small business loans decreased by 64.1 percent during the same period of time. The significant reduction in small business lending is primarily due to the conclusion of the SBA's PPP in May 2021 and rising interest rate environment. Loan products and origination volumes are consistent with the credit needs of the AA and align with the bank's strategic focus on commercial and residential real estate lending.

### ***Geographic Distribution of Loans***

For this analysis, the geographic distribution of small business lending and HMDA lending, including both originations and purchases, was compared to available demographic and aggregate data. Aggregate lending serves as a better proxy for loan demand than the demographic figure when evaluating the bank's geographic distribution. The bank's geographic distribution of loans reflects good penetration throughout the AA. There were no significant gaps or lapses in contiguous geographies noted.

### ***Residential Real Estate (HMDA) Lending***

The geographic distribution of home mortgage loans in the AA is adequate. The distribution of 2021 and 2022 home mortgage loans among low-income census tracts is comparable to aggregate data and the percentage of owner-occupied units in these tracts. The penetration of the bank's HMDA lending in moderate-income census tracts is below aggregate data and the demographic figure.

The bank's lending performance for 2020 reflected penetration levels consistent with those of 2021 and 2022, with a distribution of loans to LMI tracts that was comparable to aggregate data but below the demographic figure.

### *Home Purchase Lending*

The geographic distribution of home purchase lending is excellent. The distribution of these loans by number among low-income census tracts was above aggregate data and the demographic figure in 2021 and comparable to both data points in 2022. Distribution of home purchase loans among moderate-income census tracts was significantly above the aggregate data and the demographic figure in 2021 and 2022. The bank originated almost double the percentage of home purchase loans in moderate-income census tracts compared to the performance of aggregate data.

The bank's lending performance by number volume in 2020 reflected penetration levels consistent with 2021 and 2022 performance in LMI census tracts, though performance in 2020 by dollar amount was below the aggregate.

### *Home Refinance Lending*

The geographic distribution of home refinance lending is good. The distribution of 2021 and 2022 home refinance loans among low-income census tracts is comparable to aggregate data and the demographic figure. The penetration level of the bank's 2022 home refinance lending among moderate-income census tracts is comparable to the aggregate data and the demographic figure, while in 2021, the bank performed well above aggregate data. Opportunities for home refinance lending, particularly in low-income census tracts, were limited due to the substantial increase in interest rates in 2022.

### *Home Improvement Lending*

The geographic distribution of home improvement lending is adequate. The distribution of home improvement loans among low-income census tracts is comparable to aggregate data and the demographic figure. The bank's performance improved between 2021 and 2022 but remained close to aggregate performance.

In moderate-income census tracts, the distribution of the bank's 2021 home improvement lending is comparable to aggregate lending performance, but below the demographic figure. The bank's performance declined slightly between 2021 and 2022, with the distribution level of 2022 home improvement loans below both the aggregate data and the demographic figure.

The bank's lending performance for 2020 reflected penetration levels consistent with 2022, with a distribution of loans to low-income tracts that was comparable to aggregate data and a distribution of loans to moderate-income tracts that was below the aggregate.

### *Other Purpose Lines of Credit Lending*

The geographic distribution of other purpose lines of credit is adequate. The 2021 loan distribution among low-income census tracts is comparable to aggregate data but below the percentage of owner-occupied units in these tracts, while the 2022 loan distribution in these tracts is above aggregate data and comparable to the demographic figure. The bank's 2020 performance in low-income tracts is comparable to both aggregate and demographic data.

In moderate-income census tracts, the loan distribution is slightly below the aggregate data, with the bank's performance decreasing in 2022 after being comparable in 2020 and 2021. However, the bank's performance in the three years is below the demographic figure. Greater weight was placed on the bank's performance in comparison to aggregate lenders', as aggregate data is a better indicator of loan demand.

### Small Business Lending

The geographic distribution of small business loans reflects excellent penetration throughout the Greater Los Angeles MSA AA. The distribution of 2022 small business loans among LMI census tracts are above aggregate data and the percentage of businesses located in these tracts. While the 2021 lending in low-income census tracts mirrors the 2022 performance, the lending in moderate-income census tracts is comparable to aggregate data and the demographic figure.

The bank's lending performance for 2020 reflected penetration levels that were below 2021 and 2022 performance, with distribution among low-income census tracts comparable to aggregate data and the demographic figure, and distribution among moderate-income census tracts below both metrics. The improvement in the bank's performance in LMI geographies in 2021 and 2022 is attributed to Comerica's strategic focus on leveraging its commercial lending expertise to meet the needs of small businesses in the AA even through interest rates hikes.

### ***Lending to Borrowers of Different Income Levels and Businesses of Different Sizes***

The bank's distribution of lending to borrowers reflects an adequate penetration among individuals of different income levels and businesses of different sizes. Comerica's lending distribution to middle- and upper-income borrowers did not affect conclusions about its performance to LMI borrowers.

#### ***Residential Real Estate (HMDA) Lending***

Home mortgage lending by borrower income in the Greater Los Angeles MSA AA is adequate. The bank's 2021 and 2022 lending to LMI borrowers is slightly below aggregate data and well below the demographic figure. The bank's lending performance in 2020 is consistent with that of 2021 and 2022.

The bank's performance decreased slightly in 2022, coinciding with hikes in interest rates which made mortgage loans more expensive. Additionally, 2022 median housing values were substantially higher than the national median values, further exacerbating difficulties faced by lower-income borrowers in qualifying for mortgage loans. As a result, neither then bank's performance nor aggregate data aligns with the demographic figures.

### Small Business Lending

Comerica's borrower distribution of small business loans to businesses of different revenue size is adequate. The 2021 and 2022 loan distribution to businesses with annual revenues of \$1 million or less by volume of originations is below the aggregate data and significantly below the percentage of small businesses in the AA. Though the percentage of originations to small businesses in 2021 was below aggregate, the dollar amount of loans was comparable to aggregate data, which is reflective of Comerica's willingness to lend larger sums to small businesses.

The bank's lending performance in 2020 reflected penetrations levels greater than 2021 and 2022, originating a larger portion to businesses with revenues of \$1 million or less than aggregate lenders. Comerica's originations of small business loans decline year after year between 2020 and 2022, as well as the volume of originations to borrowers with unknown revenue. The decline in small business loan originations is partly attributed to the rise of interest rates.

**Table 81**

## Community Development Lending

The bank is a leader in making CD loans in the AA. During the review period, Comerica originated 166 CD loans totaling \$1.1 billion in the Greater Los Angeles MSA AA, making up 12.3 percent of bank-wide CD loan volume by number and 19.9 percent by dollar amount. The number and dollar amount of CD loans originated in the AA increased significantly by 45.6 percent and 330.0 percent, respectively, since the previous evaluation. Despite the substantial decrease in loans originated through the SBA's PPP since the prior evaluation, this substantive increase in number and dollar amount is reflective of the bank's focus on identifying CD opportunities and being responsive through qualified activities.

The largest portion of the bank's CD lending in the AA is comprised of loans that promote economic development by financing small businesses and supporting permanent job creation, retention, or improvement for LMI persons or in LMI geographies. Examples of the bank's CD lending activities that are responsive to the AA credit needs include:

- A \$60 million line of credit to an apparel manufacturer, providing for the retention and improvement of more than 300 LMI jobs.
- A \$25 million line of credit to the largest after-school program in southern California, which delivers nationally recognized expanded learning and school improvement programs through more than 400 schools to over 200,000 students, 80 percent of which are LMI.
- A \$17 million loan for the construction of 53 studio apartments serving special needs, homeless veterans, and chronically homeless individuals. The program serves low-income individuals, earning less than 30 percent of the area median income, providing a full range of supportive services including employment training, educational services, and

transportation. This loan was originated in conjunction with a LIHTC investment provided by the bank, increasing the overall financial commitment. This loan particularly reflects favorably on the bank, as community contacts noted housing over-crowding and housing affordability as a significant need in the AA.

- Twenty-five loans totaling \$20.9 million originated through the SBA's PPP in response to the ongoing effects of the COVID-19 pandemic, which continued to impact the nation during the early portion of the review period for this evaluation.

## INVESTMENT TEST

Comerica's performance under the Investment Test in the Greater Los Angeles MSA AA is excellent. The bank has an excellent level of qualified CD investments and grants, particularly those not routinely provided by private investors, which often positions it as a leader in the AA. Since the prior evaluation, the dollar amount of CD investments and grants made in the AA has increased by 30.4 percent despite the number of individual investments and grants decreasing by 43.4 percent. The bank makes occasional use of innovative and/or complex investments and exhibits good responsiveness to the AA credit and CD needs.

Table 83 illustrates the breakdown of the bank's CD investments and donations within the AA, including prior period investments that remain on the bank's ledger, current period investments purchased during the current evaluation period, and CD donations made since the previous evaluation. Examples of CD investment and donation activities include:

- A \$2 million investment in a small business investment company, with funds targeted to serve low-income communities within the bank's Greater Los Angeles MSA AA, as well as women- and minority-owned small businesses. This investment reflects favorably on the bank, as a community contact noted a need for financial institutions to invest in intermediaries who extend loans to eligible small businesses.
- A \$500,000 investment in a business development center serving the AA through flexible business solutions including targeted education and small business loan programs.
- A \$7.5 million LIHTC investment in the construction of 53 studio apartments serving special needs, homeless veterans and chronically homeless individuals, a project for which the bank also provided a \$17 million loan.
- Three recurring donations totaling \$300,000 to a local organization's Emergency Economic Fund and Workforce Emergency Response Fund. The economic fund provides food vouchers, housing support, and technology to the most vulnerable AA families, while the workforce fund provides direct training to low-income workers who were negatively impacted by the COVID-19 pandemic.

## SERVICE TEST

The bank's Service Test performance is excellent.

### Retail Services

Comerica's delivery systems are reasonably accessible to the bank's geographies and individuals of different income levels in the AA. The distribution of the bank's 36 branch offices and 41 ATMs as of April 1, 2023, was compared to the distribution of the population and businesses among the tract categories within the AA. Table 84 summarizes the bank's retail locations in Greater Los Angeles MSA AA.

**Table 84**

The bank closed two branches in the AA: one in a middle-income census tract and one in an unknown-income geography. The bank's record of opening or closing branches has not adversely affected the accessibility of its delivery systems, including to LMI geographies. Banking services and hours of operations are tailored to the convenience and needs of the AA, particularly in LMI geographies or to LMI individuals.

Products and services are uniformly offered in all branches within the AA. Hours of operation for AA branches vary slightly, based upon transaction volume and demographic needs. Of the six branches located in moderate income census tracts, four offer extended and/or weekend hours of operation to better serve the community. Branches in middle- and upper-income census tracts

follow a similar pattern, with the majority offering extended hours and approximately half offering weekend hours.

### ***Community Development Services***

The bank is a leader in providing CD services in the Greater Los Angeles MSA AA. The bank's employees served in various capacities, including boards of directors and as trustees, for 64 organizations offering CD services targeted toward LMI individuals. This represents a broadening of the bank's approach to providing CD services in the AA, as the bank provided services to more than twice as many community organizations than during the previous evaluation. During the review period, bank employees provided 723 CD services totaling 2,179 hours. Examples of services performed by bank employees include:

- Several bank representatives provided services to an organization which provides life skills training to LMI individuals with developmental disabilities. The organization provides job development and college preparation programs as well as providing access to affordable housing.
- Bank employees provided a significant volume of financial education to LMI individuals through partnerships with several organizations, including a local community health network serving underrepresented individuals, and an organization focused on serving women who grew up in foster care, have been homeless, or escaped from domestic violence or trafficking.
- A bank employee served on the board of directors of an organization with an express mission of improving California's economic future by teaching economics and financial literacy to Title 1 students. The Every Student Succeeds Act defines Title 1 schools, as those that provide financial assistance to children who are from low-income families to help ensure that all children meet academic standards.

**SALINAS MSA ASSESSMENT AREA**  
(Full-Scope Review)

**DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN THE SALINAS MSA ASSESSMENT AREA**

The bank's Salinas MSA AA consists of the entirety of Monterey County, which is coterminous with the Salinas, CA MSA. See Appendix A for an AA map and Appendix B for additional demographic data.

- The AA is made up of 104 census tracts, of which 3.9 percent are designated as low-income, 25.0 percent are moderate-income, 32.7 percent are middle-income, 34.6 percent are upper-income, and 3.8 percent are designated as unknown-income.
- Following the 2020 U.S. Census, ten new census tracts were drawn within the AA, representing a 10.6 percent increase. In addition, the number of geographies designated as LMI increased by 20.0 percent.
- The bank operates three full-service branches in the AA, including one branch in a moderate-income census tract and two in upper-income tracts.
- According to the June 30, 2022, FDIC Market Share Report, the bank had a 2.7 percent market share, ranking 8<sup>th</sup> out of 14 FDIC-insured depository institutions operating in the AA.
- In 2022, the bank ranked 32<sup>nd</sup> out of 388 HMDA reporters in the AA with 51 HMDA originations and purchases, and 31<sup>st</sup> out of 88 CRA reporters with 18 CRA small business and small farm loans.
- Community contacts identified the following as credit and CD needs in the AA: financial literacy and resources for the underbanked and unbanked communities (particularly in rural areas); capital for small businesses; affordable housing for low-income individuals and families; financial institutions' participation in loan guarantee programs that benefit small businesses; and volunteering on the loan committees of CD organizations. A community contact indicated that the AA has a significant shortage of affordable housing for low-income individuals and families due to population growth. Additionally, the contact stated that low paying wages hinder homeownership. Lastly, the community noted that financial institutions have limited opportunities to participate in CD programs and financing of housing projects given the county's concerns with steering.

- The AA's MFI grew significantly, at 21.7 percent, which is higher than the 16.2 percent state level change.
- According to the 2022 FFIEC Census data, 13,242 households out of the 128,003 total households in the AA live below the poverty level. Additionally, 28.8 percent of households within the AA are LMI.
- A community contact characterized the families in the local community as either very wealthy or very poor.

| <i>Cost burden is housing cost that equals 30 percent or more of household income.<br/>Source: U.S. Department of Housing and Urban Development (HUD), 2015-2019 Comprehensive Housing Affordability Strategy</i> |                              |                            |                        |                             |                            |                   |

- The AA housing cost burden is comparable to the state of California. The housing cost burden has a greater impact on renters than homeowners.
- The AA lacks affordable housing, as noted by the community contact, with the median housing value being \$559,000. The median housing value for the state of California, at \$539,000, is slightly more affordable but still challenging for LMI families.
- The AA's median age of housing stock is 53 years, which is slightly older than the median age of housing stock for state of California, at 45 years.
- A community contact noted a significant shortage of affordable housing for LMI due to population growth in the AA. Additionally, housing affordability is difficult for LMI to achieve due to low wage paying jobs and high housing costs.

- During each of the most recent five years, the AA unemployment rate has been consistently higher than that of the state of California.
- Unemployment rates almost doubled in 2020 due to the COVID-19 pandemic, as many businesses laid off their employees given the statewide stay at home and social distancing mandates. In 2022, the AA unemployment rate stabilized and returned to pre-pandemic levels.
- Employment within the AA is dominated by agriculture. Other major employment industries within the AA include accommodation and food services and healthcare and social assistance. A community contact noted that tourism also drives the local AA economy.
- A community contact indicated that the Salinas MSA AA economy was impacted by the COVID-19 pandemic and storms that occurred in late 2022. The storms caused flooding, mud slides, and widespread power outages that adversely impacted crops and employment.

Table 89 details selected characteristics of the AA.

## **CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS**

### **LENDING TEST**

Comerica's Lending Test performance in the Salinas MSA AA is adequate. For this evaluation, the bank's home mortgage and small business lending carried comparable weight, as they represented similar lending volume in the AA. Additionally, the volume of home mortgage sub products was insufficient to allow for a separate analysis.

Details of the bank's 2020 mortgage and small business lending and information regarding aggregate lenders' performance can be found in Appendix C.

### **Lending Activity**

The bank's lending activity in the Salinas MSA AA reflects good responsiveness to AA credit needs. Comerica makes use of innovative and/or flexible lending practices to meet such needs. During the review period, the bank demonstrated flexible lending practices through its participation in numerous industry-recognized, government-guaranteed lending programs, including 117 SBA loan originations and 15 small business micro loans.

Comerica originated 137 home mortgage and 139 small business loans in the AA between January 1, 2020, and December 31, 2022. The number of home mortgage loans slightly increased by 13.3 percent between 2020 and 2022, while the number small business loans decreased by 77.3 percent during the same period of time. The significant decrease in small business lending is primarily due to the conclusion of the SBA's PPP in May 2021 and rising interest rates. Loan products and origination volumes are consistent with the general credit needs of the AA and align with the bank's strategic focus on commercial and residential real estate lending.

### ***Geographic Distribution of Loans***

The geographic distribution of lending reflects adequate penetration throughout the Salinas MSA AA. The bank's small business and home mortgage lending reflect adequate penetration among geographies of different income levels, especially LMI geographies. The distribution of the bank's lending in middle- and upper-income geographies did not affect conclusions about Comerica's performance in LMI census tracts. Furthermore, the bank's loan dispersion among geographies of different income levels did not reveal any notable gaps or lapses.

### ***Residential Real Estate (HMDA) Lending***

The geographic distribution of home mortgage lending reflects adequate penetration throughout the Salinas MSA AA. While the bank did not make any home mortgage loans in the AA's low-income census tracts, this is comparable to aggregate data as well as the demographic figure. Distribution of the bank's home mortgage lending among moderate-income census tracts in 2021 is comparable to aggregate data and below the demographic figure. Conversely, Comerica's 2022 lending is below aggregate lending but comparable to the demographic figure.

The bank's 2020 lending performance reflected penetration levels that exceeded Comerica's 2021 performance but was below the one in 2022. Nevertheless, the bank's overall performance was not adversely impacted.

### Small Business Lending

The geographic distribution of small business loans reflects adequate penetration throughout the AA. The total number of small business loans in LMI census tracts between 2020 and 2022 decreased due to the conclusion of the SBA's PPP and increasing interest rates. Comerica did not extend any small business loans within the AA low-income census tracts in 2022; however, the distribution among moderate-income census tracts is comparable to aggregate and demographic data. In 2021, small business lending in low-income tracts is comparable to aggregate while the distribution of loans among moderate-income tracts is below aggregate data and the demographic figure.

The bank's 2020 lending performance is consistent with 2021. A community contact identified small businesses loans and access to capital as credit and CD needs in the AA. The bank's participation in the SBA's PPP in 2020 and 2021 demonstrates its efforts in meeting the needs of small businesses in the AA.

### ***Lending to Borrowers of Different Income Levels***

The bank's borrower distribution of lending reflects an excellent penetration among individuals of different income levels. Comerica's lending distribution to middle- and upper-income borrowers did not affect conclusions about its performance to LMI borrowers.

### ***Residential Real Estate (HMDA) Lending***

Comerica's borrower distribution of home mortgage lending in the AA is excellent when compared to the performance of aggregate HMDA lenders. The bank's 2021 and 2022 home mortgage lending among LMI borrowers is greater than the level of penetration reflected by aggregate data though below the demographic figure.

The bank's lending performance in 2020 is consistent with that of 2021 and 2022, with a distribution of loans to LMI borrowers that is materially greater than aggregate.

### Small Business Lending

Comerica's borrower distribution of small business loans by revenue size of businesses is adequate. Aggregate lending serves as a better proxy for loan demand than the total business figure when evaluating the borrower distribution of loans; as such, it carried more weight when rating the bank's performance.

The bank's 2022 small business lending distribution among businesses with annual revenues of \$1 million or less is below aggregate data by number volume and dollar amount. In 2021, the number volume of loans to businesses with revenues of \$1 million or less is comparable while exceeding it by dollar amount. The bank's lending performance in 2020 is consistent with its performance in 2021. Comerica's originations of small business loans decline year after year between 2020 and 2022, as well as the volume of originations to borrowers with unknown revenue, which primarily attributed to the end of the SBA's PPP in May 2021.

**Table 93**

| Distribution of 2021 and 2022 Small Business Lending by Revenue Size of Businesses |                                  |       |       |         |       |       |      |       |       |         |       |       |                          |

### Community Development Lending

Comerica makes an adequate level of CD loans in the Salinas MSA AA, with the bank originating three CD loans totaling \$26 million. The number of CD loan originations in the Salinas MSA AA decreased by 70.0 percent since the previous evaluation, which is partially attributable to the cessation of the SBA's PPP in May 2021. Despite this decrease in the number volume, the dollar amount of CD loans in the AA increased by 214.3 percent since from the previous evaluation, highlighting the bank's willingness to make sizable CD loans when the opportunity arises. Comerica's CD lending activities considered responsive to credit needs in the AA include:

- A \$25 million line of credit promoting economic development by financing a small business and supporting permanent retention of 126 LMI jobs.
- A \$500,000 line of credit to a local organization providing drug prevention education, residential housing assistance, and outpatient counseling services targeted at LMI individuals and families in the AA.

## INVESTMENT TEST

Comerica's performance under the Investment Test in the Salinas MSA AA is good. The bank has an adequate level of qualified CD investments and grants, particularly those not routinely provided by private investors. The bank's overall number of CD investments and grants decreased since the previous evaluation, though the dollar amount increased substantially. While Comerica makes occasional use of innovative and/or complex investments and exhibits good responsiveness to credit and CD needs of the AA, it is rarely in a leadership position.

Table 95 illustrates the bank's CD investments and donations within the AA, including prior period investments that remain on the bank's ledger, current period investments purchased during the current evaluation period, and CD donations made since the previous evaluation. The bank's qualified CD investments consist entirely of LIHTC investments, aiming for increasing affordable housing in the AA. On the other hand, the bank's CD donations were granted to organizations that provide community services targeted to LMI individuals and geographies.

## SERVICE TEST

The bank's Service Test performance is good.

### **Retail Services**

The bank's delivery systems are reasonably accessible to the bank's geographies and individuals of different income levels in the AA. The distribution of the bank's three branch offices and three ATMs as of April 1, 2023, was compared to the distribution of the population and businesses among the tract categories within the AA. Table 96 summarizes the bank's retail locations in the Salinas MSA AA.

**Table 96**

The bank's branches are located in the northern portion of the AA and are distributed among the cities of Salinas, Monterey, and Prunedale. The largest concentration of LMI census tracts in the AA are in the central and southern portions of Monterey County, where population groups are relatively distant from each other, and a large portion of the geography is a designated state park.

The bank closed one branch in the AA during the review period in an upper-income census tract. The bank's record of opening or closing branches has not adversely affected the accessibility of its delivery systems, including to LMI geographies. Banking services and hours of operations do not vary in a way that inconveniences the AA, particularly in LMI geographies or to LMI individuals. The level of branch services and hours offered are materially the same throughout the AA.

### ***Community Development Services***

The bank provides a relatively high level of CD services in the Salinas MSA AA. The bank's employees served in various capacities for three organizations offering CD services targeted toward LMI individuals. Overall, bank representatives provided nine CD services totaling 37 hours. Examples of services performed by bank employees include:

- Four bank employees provided financial education to LMI students and their families through two different organizations. In each instance, the education focused on saving, budgeting, and other tools vital for a student to build financial security as they approach graduation and beyond.
- A bank employee serves on the board of director for an organization that provides a wide array of services including alcohol and drug prevention, legal, financial, and clinical counseling, as well as temporary housing for low-income individuals and families.

**SAN JOSE METROPOLITAN ASSESSMENT AREA**  
(Full-Scope Review)

**DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN THE SAN JOSE METROPOLITAN ASSESSMENT AREA**

- The San Jose Metropolitan AA consists of the entirety of Santa Clara County, which along with San Benito County (excluded from the AA) comprises the San Jose-Sunnyvale-Santa Clara, CA MSA. See Appendix A for an AA map and Appendix B for additional demographic data.
- The AA is comprised of 408 census tracts, of which 7.1 percent are designated as low-income, 21.8 percent are moderate-income, 40.4 percent are middle-income, 30.4 percent are upper-income, and 0.2 percent are designated as unknown-income.
- Following the 2020 U.S. Census, 36 new census tracts were drawn within the AA, representing a 9.7 percent increase. Geographies designated as LMI increased by 5.9 percent.
- The bank operates 13 full-service branches in the AA, including one branch in a moderate-income census tract, six in middle-income tracts, and six in upper-income tracts.
- According to the June 30, 2022, FDIC Market Share Report, the bank had a 3.3 percent market share, ranking 7<sup>th</sup> out of 42 FDIC-insured depository institutions operating in the AA.
- In 2022, the bank ranked 30<sup>th</sup> out of 508 HMDA reporters in the AA with 246 HMDA originations and purchases, and 21<sup>st</sup> out of 149 CRA reporters with 217 CRA small business loans.
- A community contact indicated there is a shortage of affordable housing in the AA, and that there are many opportunities for financial institutions to participate in CD and other financing projects.

- MFI reported throughout the AA exceeded the state MFI growth rate by 8.5 percent. It is noteworthy that the AA MFI between 2015 and 2020 is significantly higher than that of the state.
- The AA population is mostly affluent, with 42.4 percent of AA households considered as upper-income as well as 70.8 percent of the AA census tracts designated as middle- and upper-income geographies. Only 7.0 percent of households in the AA live below the poverty level.

- The AA housing cost burden for low-income renters is a substantially greater than the burden on homeowners at any other level. However, the overall the cost burden for homeowners and renters in the AA is comparable to the statewide figures.
- The AA median housing value is \$1.0 million, with a median age of 52 years. The AA median housing value almost doubles the median housing value for the state of California is, at \$539,000.
- A community contact indicated that there is a shortage of affordable housing in the AA; thus, there are significant needs and opportunities for the development of affordable housing.

- In 2020, the unemployment rates almost tripled due to the COVID-19 pandemic, as many businesses laid off their employees given the statewide stay at home and social distancing mandates. In 2022, the unemployment rates stabilized and returned to pre-pandemic levels.
- Major employment industries within the AA include professional and technical services, manufacturing, and healthcare and social assistance. The AA serves as a hub for many Fortune 500 technology companies, such as Adobe, PayPal, eBay, and Cisco, which provide significant employment opportunities.
- A community contact noted construction labor shortages in the AA.

Table 101 details selected characteristics of the AA.

## **CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS**

### **LENDING TEST**

The bank's Lending Test performance in the San Jose Metropolitan AA is good. For this evaluation, the bank's small business lending carried more weight, as it is a strategic focus for the bank in the AA and represents the largest volume of lending. Home refinance and home improvement lending, as well as other purpose lines of credit, received individual evaluation, as the other HMDA lending products did not have sufficient volume for a meaningful analysis.

Appendix C provides details of the bank's 2020 mortgage and small business lending, as well as corresponding aggregate data.

#### **Lending Activity**

Comerica's lending activity reflects good responsiveness to AA credit needs, as the bank makes use of innovative and/or flexible lending practices. The bank demonstrated flexible lending practices through its participation in numerous industry-recognized, government-guaranteed lending programs, including, 773 SBA loans and 157 small business micro loans in the AA during the review period.

For this evaluation, the total volume of loans in the AA included 751 home mortgage and 1,187 small business loans originated between January 1, 2020, and December 31, 2022. The loan products and origination volumes are consistent with the general credit needs of the AA and align with the bank's strategic focus on commercial and residential real estate lending.

#### ***Geographic Distribution of Loans***

The geographic distribution of lending reflects good penetration throughout the AA. The bank's small business lending reflects excellent penetration among geographies of different income levels, especially LMI geographies, while home mortgage lending reflects adequate penetration. The distribution of the bank's lending in middle- and upper-income geographies did not affect conclusions about the bank's performance in LMI geographies. Furthermore, the bank's loan dispersion among geographies of different income levels did not reveal any notable gaps or lapses.

#### ***Residential Real Estate (HMDA) Lending***

The geographic distribution of home mortgage lending reflects adequate penetration throughout the AA. The distribution of 2021 and 2022 home mortgage lending among low-income census tracts is comparable to aggregate data and the demographic figure. Comerica's home mortgage lending in low-income census tracts declined in 2022, which aligns with the performance of aggregate lenders. This drop in performance correlates to lower demand due to the rising interest rate environment, which makes borrowing more expensive.

Lending in moderate-income census tracts is below aggregate lending data in 2021 and 2022. The bank's performance in 2022 is improved but remains slightly below the level of aggregate lending in these tracts as well as the demographic figure.

The bank's 2020 lending performance reflects penetration levels consistent with 2021 and 2022 performance, with penetration levels comparable to aggregate data and the demographic figure.

#### *Home Refinance Lending*

The geographic distribution of home refinance lending is poor. The distribution of 2022 home refinance loans among low-income census tracts is below aggregate data and the demographic figure. The bank's lending in moderate-income census tracts is well below that of aggregate lenders and the demographic figure.

The bank's lending performance for 2021 reflects penetration levels that were greater than that of 2022. Distribution of 2021 home refinance loans among low-income census tracts in the AA is below aggregate lending performance and the demographic figure, while lending in moderate-income census tracts is comparable to aggregate lending but below the demographic figure.

The bank's lending performance in 2020 reflected penetration levels consistent with 2021 and 2022 performance, with a distribution of loans in LMI census tracts below aggregate data.

#### *Home Improvement Lending*

The geographic distribution of home improvement lending is adequate. The distribution of 2021 home improvement loans among low-income census tracts is above aggregate data and the demographic figure. Distribution of 2022 home improvement loans is comparable to aggregate data and the demographic figure, declining slightly from the previous year's performance. In moderate-income census tracts, the bank's 2021 and 2022 home improvement lending performance is comparable to aggregate data and below the demographic figure. Additionally, greater weight was assigned to the bank's performance compared to aggregate lenders', as aggregate data is a better indicator of loan demand.

The bank's 2020 lending performance reflects penetration levels greater than that of 2021 and 2022, with a distribution of loans in LMI census tracts above aggregate data and comparable to the demographic figure.

#### *Other Purpose Lines of Credit Lending*

The geographic distribution of other purpose lines of credit is good. The 2021 distribution of other purpose lines of credit among LMI census tracts is comparable to aggregate data and below the percentage of owner-occupied units in these geographies. Among low-income census tracts, the bank's 2022 distribution matches aggregate data. The bank's performance in moderate-income census tracts is substantially exceeded the performance reflected by aggregate lenders and almost doubled the demographic figure.

The bank's 2020 lending performance reflects penetration levels comparable to that of 2021, with a distribution of lending in LMI census tracts similar to aggregate data and the demographic figure.

### Small Business Lending

The geographic distribution of small business loans reflects excellent penetration throughout the AA. The distribution of 2021 and 2022 small business loans among low-income census tracts is greater than aggregate data as well as the percentage of businesses in these tracts (the demographic figure). The bank's small business lending in moderate-income census tracts is also above aggregate lending and the demographic figure in both years. This performance reflects favorably on the bank's responsiveness to the credit needs of small businesses in the AA.

The bank's 2020 lending performance reflects penetration levels consistent with 2021 and 2022 performance, with the lending levels comparable to aggregate data in low-income census tracts and above aggregate lenders in moderate-income tracts.

### ***Lending to Borrowers of Different Income Levels and Businesses of Different Sizes***

The bank's borrower loan distribution reflects an adequate penetration among individuals of different income levels and businesses of different revenue sizes. Comerica's lending distribution to middle- and upper-income borrowers did not affect conclusions about its performance to LMI borrowers. Greater weight was given to home mortgage lending, as the bank originated more HMDA loans than small business loans in the AA.

#### ***Residential Real Estate (HMDA) Lending***

Home mortgage lending by borrower income in the AA is adequate when compared to demographic characteristics, as well as the performance of aggregate lenders. The dispersion of home mortgage loans in the AA among LMI borrowers was comparable to aggregate data, which is far below the percentage of families in the AA classified as LMI. This is indicative of the demand for home mortgage products among LMI borrowers in the AA, where median home values are more than double the average of the state of California.

The bank's 2020 lending performance is consistent with that of 2021 and 2022, with a distribution of loans to LMI borrowers that is comparable to aggregate data but below the demographic figure.

### Small Business Lending

Comerica's borrower distribution of small business loans by revenue size of businesses is poor. The distribution of 2022 loan originations to businesses with revenues of \$1 million or less is well below the percentage of small businesses in the AA as well as aggregate data by number and dollar amount of originations. The bank's 2021 small business loan distribution is also below the performance of aggregate lenders, though by a smaller margin than 2022.

The bank's 2020 small business lending distribution among businesses with annual revenues of \$1 million or less is slightly above the performance of aggregate lenders. Viewed in conjunction with 2021 and 2022 performance, it is notable that bank's performance declined each year, even as the performance of aggregate lenders improved during the same period of time.

**Table 105**

## Community Development Lending

The bank makes a relatively high level of CD loans in the AA. The bank originated 56 CD loans totaling \$149.2 million, which comprised 4.2 percent of bank-wide CD loans by number volume and 2.8 percent by dollar amount. The number of CD loan originations in the AA decreased by 5.1 percent since the previous evaluation. This is attributable to the substantial decrease in loans originated through the SBA's PPP, which made up 52.5 percent of the bank's CD loans in the AA. Despite the decrease in number of CD loans, the dollar amount increased by 41.9 percent since the previous evaluation, highlighting the bank's willingness to make sizable CD loans when the opportunity arises.

The largest portion of the bank's CD lending in the AA promotes economic development through small business financing and permanent job creation, retention, or improvement impacting LMI persons or LMI geographies. Examples of the bank's CD lending activities that are considered responsive to credit needs in the AA include:

- A \$15 million line of credit to a manufacturer of industrial automation equipment securing 133 LMI jobs in the AA.
- A \$2.4 million loan to a SBA 504 Certified Development Company to support a qualified small business to replace its current rental property by purchasing commercial property.
- A \$17.6 million loan for a 115-unit LIHTC apartment project for households earning less than 80 percent of the area median income. Additionally, 25 percent of the units are set aside for individuals with intellectual and developmental disabilities. Given the affordable

housing shortage in the AA, as indicated by the community contact, the extension of this CD loan reflects favorably on the bank.

- A \$1 million line of credit to a local organization that focuses on building a community free from poverty for LMI children and providing community services, such as educational programs, food and housing assistance.

## INVESTMENT TEST

Comerica's performance under the Investment Test in the AA is good. The bank has a significant level of qualified CD investments and grants, particularly those not routinely provided by private investors. Comerica is occasionally in a leadership position given its volume of CD investments. The bank's overall number of CD investments and grants decreased since the previous evaluation, though the dollar amount of qualified investments and services increased. The bank makes occasional use of innovative and/or complex investments and exhibits good responsiveness to credit and CD needs of the AA.

Table 107 illustrates the bank's CD investments and donations within the AA, including prior period investments that remain on the bank's ledger, investments purchased during the current evaluation period, and CD donations made since the previous evaluation. The bank's qualified CD investments consist entirely of LIHTC investments that provide affordable housing in the AA, while the bank's CD donations were provided for a wide array of qualified purposes. Examples of donations extended by the bank include:

- Three donations to an organization to support COVID-19 recovery efforts that provide wraparound services to clients who have experienced job loss, loss of healthcare, rent difficulties, and food scarcity. Approximately 98 percent of the organization's clients, including those benefitting directly from the donations, are LMI.
- A \$12,500 donation to a program providing essential financial education to an elementary school where 78 percent of students qualify for free or reduced-price lunches.

## SERVICE TEST

The bank's Service Test performance is good.

### Retail Services

Comerica's delivery systems are accessible throughout the AA geographies and to individuals of different income levels and businesses of different revenue size. The distribution of the bank's 13 branch offices and 15 ATMs as of April 1, 2023, was compared to the distribution of the households and businesses among the AA census tracts by income level. Table 108 below summarizes the bank's retail locations in the AA.

**Table 108**

| Branch and Full-Service ATM Locations<br>Assessment Area: San Jose Metropolitan |                  |                 |                 |           |              |                   |              |

| Upper                                                                           | 30.4             | 32.0            | 37.9            | 6         | 46.2         | 7                 | 46.7         |
| Unknown                                                                         | 0.2              | 0.1             | 0.2             | 0         | 0.0          | 0                 | 0.0          |
| <b>Total</b>                                                                    | <b>100.0</b>     | <b>100.0</b>    | <b>100.0</b>    | <b>13</b> | <b>100.0</b> | <b>15</b>         | <b>100.0</b> |

The bank's branches are well distributed among the northwest portion of the AA. Though only a single branch is located within a moderate-income census tract, four additional branches are in very close proximity to and serve LMI geographies.

Comerica did not open or close any branches in the AA during the review period. Banking services and hours of operations do not vary in a way that inconveniences the AA, particularly in LMI geographies or to LMI individuals. The level of branch services and hours offered are materially the same throughout the AA.

### ***Community Development Services***

The bank provides a relatively high level of CD services in the AA. Comerica's employees served in various capacities for 17 organizations offering CD services targeted toward LMI individuals. The 118 CD services provided by bank representatives total approximately 481 hours. Examples of CD services performed include:

- A bank representative serving on the board of directors for an organization that provides transitional housing, career training, and mental and behavioral health support to formerly incarcerated individuals. A 100 percent of the individuals served are LMI.
- A bank employee serving on the board of directors for an organization that provides access to safe, stable, and affordable housing in an area of the AA where it is particularly difficult to acquire. The employee provides financial oversight and strategic planning services, aiding the organization in its ongoing efforts to address the lack of affordable housing in the area.

## METROPOLITAN AREAS (LIMITED-SCOPE REVIEW)

### DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN LIMITED-SCOPE CALIFORNIA METROPOLITAN ASSESSMENT AREAS

The bank's branch operations and deposit market share for each metropolitan AA receiving a limited-scope review were determined as of April 1, 2023, and June 30, 2022, respectively.

- **Inland Empire MSA AA**

- The Inland Empire MSA AA is comprised of the entirety of San Bernadino and Riverside counties which make up the Riverside-San Bernadino-Ontario, CA MSA.
- The AA is comprised of 984 census tracts, including 48 low-, 282 moderate-, 362 middle-, 279 upper-, and 13 unknown-income tracts.
- Based upon 2020 ACS data, the AA population was 4,599,839, which reflects a 4.7 percent increase from the 2015 ACS data.
- The AA includes 1,029,309 families, 21.8 percent are low-, 17.5 percent moderate-, 19.3 percent middle-, and 41.4 percent are upper-income.
- The bank operated three branches, representing 0.7 percent of its branches.
- Comerica held \$104.5 million in deposits, representing a market share of 0.1 percent and 0.1 percent of its total deposits.

- **San Diego MSA AA**

- The San Diego MSA AA is comprised of the entirety of San Diego County which is coterminous with the San Diego-Chula Vista-Carlsbad, CA MSA.
- The AA is comprised of 737 census tracts, including 46 low-, 167 moderate-, 262 middle-, 248 upper-, and 14 unknown-income tracts.
- Based upon 2020 ACS data, the AA population was 3,298,634, which reflects a 2.3 percent increase from the 2015 ACS data.
- The AA includes 759,418 families, 22.8 percent are low-, 17.3 percent moderate-, 18.7 percent middle-, and 41.2 percent are upper-income.
- The bank operated 13 branches, representing 3.2 percent of its branches.
- Comerica held \$889.2 million in deposits, representing a market share of 0.6 percent and 1.2 percent of its total deposits.

- **San Francisco Bay Metropolitan AA**

- The San Francisco Bay Metropolitan AA is comprised of the entirety of Alameda, Contra Costa, San Francisco, and San Mateo counties which, along with Marin County (excluded from the AA) make up the San Francisco-Oakland-Berkeley, CA MSA.
- The AA is comprised of 1,039 census tracts, including 91 low-, 240 moderate-, 330 middle-, 337 upper-, and 41 unknown-income tracts.
- Based upon 2020 ACS data, the AA population was 4,486,687, which reflects a 5.1 percent increase from the 2015 ACS data.
- The AA includes 1,022,205 families, 23.5 percent are low-, 16.4 percent moderate-, 18.7 percent middle-, and 41.4 percent are upper-income.
- The bank operated 17 branches, representing 4.2 percent of its branches.
- Comerica held \$3.4 billion in deposits, representing a market share of 0.6 percent and 4.4 percent of its total deposits.

- **Santa Cruz MSA AA**

- The Santa Cruz MSA AA is comprised of the entirety of Santa Cruz County, which is coterminous with the Santa Cruz-Watsonville, CA MSA.
- The AA is comprised of 70 census tracts, which includes five low-, 12 moderate-, 29 middle-, 23 upper-, and one unknown-income tract.
- Based upon 2020 ACS data, the AA population was 270,861, which reflects a 0.6 percent increase from the 2015 ACS data.
- The AA includes 60,870 families, 22.1 percent are low-, 16.7 percent moderate-, 19.3 percent middle-, and 42.0 percent are upper-income.
- The bank operated six branches, representing 1.5 percent of its branches.
- Comerica held \$853.6 million in deposits, representing a market share of 9.6 percent and 1.1 percent of its total deposits.

- **Ventura County MSA AA**

- The Ventura County MSA AA is comprised of the entirety of Ventura County, which is coterminous with the Oxnard-Thousand Oaks-Ventura, CA MSA.
- The AA is comprised of 190 census tracts, including nine low-, 46 moderate-, 77 middle-, 55 upper-, and three unknown-income tracts.
- Based upon 2020 ACS data, the AA population was 843,843, which reflects a 0.4 percent increase from the 2015 ACS data.
- The AA includes 196,312 families, 22.0 percent are low-, 16.5 percent moderate-, 20.8 percent middle-, and 40.7 percent are upper-income.
- The bank operated one branch, representing 0.2 percent of its branches.
- Comerica held \$58.1 million in deposits, representing a market share of 0.2 percent and 0.1 percent of its total deposits.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS

Appendix D contains detailed performance and demographic information reviewed for the limited-scope AAs. Table 109 discusses conclusions regarding the bank's performance.

**Table 109**

| Assessment Area                   | Lending Test | Investment Test | Service Test |
|-----------------------------------|--------------|-----------------|--------------|
| Inland Empire MSA AA              | Consistent   | Consistent      | Consistent   |
| San Diego MSA AA                  | Exceeds      | Consistent      | Exceeds      |
| San Francisco Bay Metropolitan AA | Consistent   | Consistent      | Exceeds      |
| Santa Cruz MSA AA                 | Below        | Below           | Below        |
| Ventura County MSA AA             | Consistent   | Consistent      | Consistent   |

The institution's lending, investment, service performance in the area is generally consistent with the institution's lending, investment, service performance in the state.

## **STATE OF FLORIDA**

### **CRA RATING FOR FLORIDA:**

|                               |                                          |
|-------------------------------|------------------------------------------|
| The Lending Test is Rated:    | <b>Satisfactory</b><br>High Satisfactory |
| The Investment Test is Rated: | High Satisfactory                        |
| The Service Test is Rated:    | High Satisfactory                        |

Major factors supporting the institution's rating include:

- Lending activity reflects good responsiveness and record of serving the credit needs of the AAs' credit needs, including low-income individuals, low-income, and very small businesses.
- The geographic distribution of loans reflects excellent penetration throughout the AAs.
- The bank's distribution of loans among individuals of different income levels and businesses of different revenue sizes is good.
- The bank has a relatively high level of CD loans.
- Comerica makes use of innovative and/or flexible lending practices in serving the AAs' needs.
- The bank is occasionally in a leadership position given its significant level of qualified CD investments and grants, particularly those not routinely provided by private investors.
- Comerica makes occasional use of innovative and/or complex investments to support CD initiatives.
- The bank exhibits good responsiveness to credit and CD needs.
- Delivery systems are accessible to individuals of different income levels throughout the bank's AAs.
- The record of opening and closing branches has not adversely affected the accessibility of its delivery systems, particularly to LMI geographies and/or LMI individuals.
- Services do not vary in a way that inconveniences the bank's AAs, particularly LMI geographies and/or LMI individuals.
- Comerica provides a relatively high level of CD services.

### **SCOPE OF THE EVALUATION**

The scope of the review for the state of Florida is consistent with the overall scope for the institution, including evaluations under the Lending, Investment, and Service tests. The period and products evaluated for this state are also unchanged from the scope discussed in the Institution section of this report.

Comerica has two delineated AAs in the state of Florida: Fort Lauderdale-West Palm Beach Metropolitan AA and Naples MSA AA. The Fort Lauderdale-West Palm Beach Metropolitan AA was reviewed using full-scope procedures while the Naples MSA AA received a limited-scope review. Factors considered to determine the AA receiving a full-scope review include strategic importance of the AA to the bank operations; volume of lending; number of branches; percentage of total deposits; and length of time since the AA last received a full-scope review. Approximately 88.9 percent of lending activity (by number of loans), 90.6 percent of the total deposits, and 75.0 percent of total branches within the state of Florida were evaluated through the full-scope review.

## DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN FLORIDA

The bank delineates two of its 27 AAs and operates eight of its 409 branches in the state of Florida. As of June 30, 2022, the bank had \$424.6 million in deposits in the state, representing 0.6 percent of total deposits. According to the June 30, 2022, FDIC Summary of Deposits, the bank had a deposit market share of 0.1 percent and ranked 97<sup>th</sup> out of 186 FDIC-insured financial institutions across the state.

Of the 20,205 HMDA-reportable loans and 35,231 small business loans originated and purchased by Comerica during the review period, 432 HMDA-reportable loans (2.1 percent) and 368 small business loans (1.0 percent) were extended in the Florida AAs.

## CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS

### LENDING TEST

The bank's Lending Test performance in the state of Florida is High Satisfactory. The Lending Test conclusions in the Fort Lauderdale-West Palm Beach Metropolitan AA are good, which is consistent with the overall state rating. The bank's performance in Naples MSA AA supports the state rating.

### Lending Activity

The bank's lending activities in the state of Florida reflect good responsiveness to the credit needs of the AAs. Comerica makes use of innovative and/or flexible lending programs through its participation in numerous industry-recognized, government-guaranteed programs, including the origination of 207 SBA loans and 79 small business micro loans in the state of Florida.

As outlined in Table 110, Comerica extended 803 loans totaling \$329.0 million. The loan products and origination volumes appear consistent with the credit needs of the bank's AAs. The number of small business and HMDA loans extended by the bank was compared against the number of loans made by aggregate lenders during the review period. The bank ranked 56<sup>th</sup> out of 275 CRA reporters and 118<sup>th</sup> of 1,197 HMDA reporters in its Florida AAs.

### ***Geographic Distribution of Loans***

The overall geographic distribution of lending within the state of Florida reflects excellent penetration throughout the bank's AAs. This performance is consistent across the bank's Fort Lauderdale-West Palm Beach Metropolitan AA.

### ***Lending to Borrowers of Different Income Levels and Businesses of Different Sizes***

The bank's overall lending reflects good penetration among individuals of different income levels and businesses of different sizes. This performance is consistent across the bank's AA. A detailed discussion of the facts and data supporting the overall conclusions are presented in the Conclusions with Respect to Performance Criteria section for each AA.

### ***Community Development Lending***

Comerica makes a relatively high level of CD loans, considering the bank's capacity and the need and availability of CD opportunities. As reflected in Table 111, the bank originated 16 CD loans totaling approximately \$38.6 million within the state, which comprises 1.2 percent of overall bank-wide CD loan volume by number and 0.7 percent by dollar amount.

While the number of qualified CD loans decreased slightly since the previous evaluation, the dollar amount of CD lending grew by 271.0 percent. This growth occurred despite the substantial decrease in loans originated through the SBA's PPP, which made up approximately 36.4 percent of the bank's CD loans at the previous evaluation.

Comerica extended CD loans for a variety of purposes, as noted in Table 111. Specific details regarding the CD lending can be found in the Conclusions with Respect to Performance Tests section for each AA.

## **INVESTMENT TEST**

The bank's Investment Test rating is High Satisfactory. The Investment Test conclusions in the bank's Fort Lauderdale-West Palm Beach Metropolitan AA are good, which is consistent with the overall state rating. The bank's performance in the AA that received a limited-scope review was below the performance in the full-scope review area and the state.

The bank is occasionally in a leadership position given its significant level of qualified CD investments and grants. While Comerica makes rare use of innovative and/or complex investments, the bank exhibits good responsiveness to the credit and CD needs of its AAs.

In addition to the investments made within the bank's AAs, Comerica also made three investments in a broader statewide area. The bank deposited \$250,000 in a minority-owned depository institution in conjunction with a mentor-protégé relationship focused on capacity building for the depository institution. The bank also made a large investment in a Small Business Investment Corporation, providing expertise, networking, and capital to help entrepreneurs build their small businesses to their full potential.

Specific details regarding CD investments and donations made within the bank's Florida AAs can be found in the Conclusions with Respect to Performance Tests section for each AA. In addition to the investments made within the bank's delineated AAs, the bank also made four investments totaling \$2.8 million in the border statewide area. These investments included \$1.3 million worth of deposits in minority-owned financial institutions and a \$1 million investment in a Small Business Investment Company that promotes economic development in the region by financing small businesses. As the bank was sufficiently responsive to the CD needs of its AAs, the qualified activity in which the bank engaged in the broader statewide area is favorably considered as representing the bank's overall responsiveness to CD needs.

**Table 112**

| <sup>2</sup> Original market value of investment               |                                       |               |                                  |              |            |            |            |               |

## SERVICE TEST

The bank's performance under the Service Test is High Satisfactory. The Service Test conclusions in the Fort Lauderdale-West Palm Beach Metropolitan AA are good, which is consistent with the overall state rating. The bank's performance in the Naples AA, which received a limited-scope review, is consistent with the performance in the full-scope review areas and the state.

## Retail Services

Comerica's delivery systems are accessible to the AAs geographies and individuals of different income levels. During the review period, the bank opened one branch within the delineated Naples MSA AA. While this new branch is located within an upper-income census tract, the bank's record of opening or closing branches in the state has not adversely affected the accessibility of its delivery systems, including to LMI geographies. Banking services and hours of operations do not vary in a way that inconveniences the state, particularly in LMI geographies or to LMI individuals.

Refer to Table 113 for the distribution of banking offices and full-service ATMs by income level of geographies.

**Table 113**

The bank also operates a mobile branch, which is located in its Naples Metropolitan AA. The mobile branch affords flexibility in providing retail banking services to customers in geographies not sufficiently served by the existing brick-and-mortar branches. As of April 1, 2023, the mobile branch is situated in an upper-income census tract, though the location is proximate to several moderate-income geographies that are reasonably served by the mobile branch.

### ***Community Development Services***

Comerica provides a relatively high level of CD services in its Florida AAs, which is consistent with its performance in the Fort Lauderdale-West Palm Beach Metropolitan AA. Bank representatives provided 466 CD services, totaling 1,166 hours, to 61 unique organizations within the state of Florida. This represents approximately 6.7 percent of Comerica's total CD services, despite only 1.0 percent of the bank's 7,382 employees are located in Florida. Details regarding CD services can be found in the respective Conclusions with Respect to Performance Tests section for each AA.

**FORT LAUDERDALE – WEST PALM BEACH METROPOLITAN ASSESSMENT AREA**  
(Full-Scope Review)

**DESCRIPTION OF THE INSTITUTION’S OPERATIONS IN THE FORT LAUDERDALE-WEST PALM BEACH METROPOLITAN ASSESSMENT AREA**

- The Fort Lauderdale-West Palm Beach Metropolitan AA consists of Palm Beach and Broward counties. These counties, along with Miami Dade County, which is excluded from the AA, make up the Miami-Fort Lauderdale-Pompano Beach, FL MSA. See Appendix A for an AA map and Appendix B for additional demographic data.
- The AA is comprised of 790 census tracts, of which 5.7 percent are designated as low-income, 27.6 percent are moderate-income, 29.7 percent are middle-income, 34.1 percent are upper-income, and 2.9 percent are designated as unknown-income.
- As a result of the 2020 U.S. Census, the number of census tracts within the AA increase by 90 geographies (12.9 percent). Additionally, the income level designations of many existing census tracts changed, with census tracts designated as LMI increasing by 6.5 percent.
- Comerica operates six full-service branches in the AA, including one branch in moderate-income, two in middle-income, and three in upper-income census tracts.
- According to the June 30, 2022, FDIC Deposit Market Share Report, the bank had a 0.3 percent market share, ranking 29<sup>th</sup> out of 60 FDIC-insured depository institutions operating in the AA.
- In 2022, the bank ranked 115<sup>th</sup> out of 1,047 HMDA reporters in the AA with 117 HMDA originations and purchases, and 52<sup>nd</sup> out of 244 CRA reporters with 89 CRA small business loans.
- A community contact indicated that affordable housing is scarce and a need for AA residents.

- The AA MFI grew at a rate comparable to the state MFI, with all of the AA counties and MDs reflecting MFIs greater than \$70,000 in 2020.
- Broward County and Fort Lauderdale-Pompano Beach-Sunrise, FL MD have slightly lower MFIs than other AA counties and MDs but exceed the state MFI.
- According to the 2022 FFIEC Census Data, 12 percent of AA households live below the poverty level. Additionally, a community contact stated that there are high poverty rates within the AA that adversely impact children and families.

| Cost burden is housing cost that equals 30 percent or more of household income.<br>Source: U.S. Department of Housing and Urban Development (HUD), 2015-2019 Comprehensive Housing Affordability Strategy |                       |                 |             |                      |                 |            |

- Housing affordability within the AA for low-income renters is a substantially greater burden than the burden on homeowners at any other level.
- Overall, the cost burden for renters and homeowners in the AA is greater than the housing cost burden for statewide Florida renters.
- A community contact indicated that affordable housing is at a premium and that there is not much incentive for developing affordable housing in the AA.
- The AA median housing value is \$291,000, which exceeds the statewide median housing value, at \$232,000.

- Unemployment rates more than doubled in 2020 due to the COVID-19 pandemic, as many businesses laid off their employees given the statewide stay at home and social distancing mandates. In 2022, the AA unemployment rate stabilized and returned to below pre-pandemic levels.
- Major employment industries within the AA include retail trade, healthcare and social assistance, and accommodation and food services.

Table 118 details selected AA characteristics.

## **CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS**

### **LENDING TEST**

The bank's Lending Test performance in the AA is good. For this evaluation, the bank's home mortgage and small business lending carried similar weight. Additionally, home purchases and home refinance lending are the only home mortgage loan products to be separately evaluated, as the remaining products had insufficient volume to conduct a meaningful analysis.

Appendix C details the bank's 2020 mortgage and small business lending activity, as well as the corresponding aggregate data.

#### **Lending Activity**

The bank's lending activity in the AA reflects good responsiveness to credit needs. Comerica makes use of innovative and/or flexible lending practices through its participation in numerous industry-recognized, government-guaranteed programs, including the origination of 194 SBA loans and 73 small business micro loans.

For this evaluation, the total volume of loans in consisted of 368 home mortgage and 343 small business loans originated between January 1, 2020, and December 31, 2022. The loan products and origination volumes appear consistent with the general credit needs of the AA and align with the bank's strategic focus on commercial and residential real estate lending.

#### ***Geographic Distribution of Loans***

For this analysis, the geographic distribution of small business lending and mortgage lending was compared with available demographic and aggregate data. Comerica's geographic distribution of loans reflects excellent penetration throughout the AA. The distribution of the bank's lending in middle- and upper-income geographies did not affect conclusions about the bank's performance in LMI geographies. Furthermore, the bank's loan dispersion among geographies of different income levels did not reveal any notable gaps or lapses.

#### ***Residential Real Estate (HMDA) Lending***

The geographic distribution of home mortgage lending reflects excellent penetration throughout the AA. The 2021 and 2022 distribution of home mortgage loans among low-income census tracts is comparable to aggregate data and the demographic figure, while it substantially exceeded these figures in moderate-income census tracts. Comerica's significant level of home mortgage lending in LMI census tracts reflects the bank's targeted efforts to meet the AA credit needs.

The bank's 2020 lending performance is consistent with the 2021 and 2022 geographic distribution of loans, as it exceeded aggregate and demographic data.

#### ***Home Purchase Lending***

The geographic distribution of home purchase lending is excellent. The bank's 2021 and 2022 distribution of home purchase loans among low-income census tracts is greater than that of aggregate lending data and slightly above the percentage of owner-occupied housing units

located in these tracts (the demographic figure). Loan distribution among moderate-income geographies, is even better, as the bank originated a substantially higher percentage of home purchase loans in moderate-income census tracts than aggregate lenders. While moderate-income census tracts contained almost one quarter of the owner-occupied units in the AA, Comerica originated home purchase loans at a rate approximately three times higher than this figure.

The bank's 2020 lending performance is consistent with the 2021 and 2022 loan distribution, doubling aggregate data.

#### *Home Refinance Lending*

The geographic distribution of the bank's home refinance lending in the AA is excellent. The 2021 distribution of home refinance loans among low-income census tracts is above aggregate data and the demographic figure, though the 2022 distribution of lending is comparable to the aggregate data and below the demographic figure. Comerica's 2021 and 2022 distribution of home refinance lending among moderate-income census tracts is substantially greater than aggregate data and the demographic figure.

The bank's 2020 lending performance is consistent with its 2021 and 2022 distribution of loans, with comparable performance in low-income tracts to aggregate data and materially exceeding than the lending distribution of aggregate lenders in moderate-income geographies.

### Small Business Lending

The geographic distribution of small business loans reflects good penetration throughout the AA. The distribution of 2021 small business loans among low-income census tracts is significantly greater than aggregate data and the demographic figure. Among moderate-income census tracts, the distribution of 2021 loans is comparable to the aggregate data and the percentage of businesses located in these tracts. Additionally, the bank's dispersion of 2022 small business loans among LMI census tracts is also comparable to both metrics.

Comerica's 2020 small business lending performance is consistent with the bank's performance in 2021 and 2022.

## Lending to Borrowers of Different Income Levels and Businesses of Different Sizes

The bank's distribution of lending to individuals of different income levels and businesses of different revenue sizes is good. Comerica's lending distribution to middle- and upper-income borrowers did not affect conclusions about its performance to LMI borrowers.

### Residential Real Estate (HMDA) Lending

Home mortgage lending by borrower income in the is good when compared to demographic and aggregate data. The 2021 distribution of the bank's home mortgage loans among low-income borrowers is comparable to aggregate data, while the bank's lending to moderate-income borrowers almost doubles aggregate data and exceeds the demographic figure. Aggregate data serves as a better proxy for loan demand than the demographic figure.

The distribution of the bank's lending among LMI borrowers decreased in 2022. Home mortgage lending among low-income borrowers was slightly below the aggregate data; however, lending to moderate-income borrowers was significantly below aggregated and demographic data. Given the scarcity of affordable housing in the AA and rising interest rates, the bank's performance is good.

The bank's 2020 lending performance is consistent with that of 2021, as the distribution of loans to LMI borrowers is comparable to aggregate data.

### Small Business Lending

The borrower distribution of small business loans by revenue size of businesses is adequate. In 2021, the bank outperformed aggregate data by number and dollar amount of originations, though remained well below the large percentage of AA businesses reporting annual revenues of \$1 million or less. Aggregate data serves as a better proxy for loan demand than the demographic figure.

The distribution of 2022 loan originations to businesses with revenues of \$1 million or less is below the percentage of small businesses in the AA and aggregate data by number of originations. However, the bank exceeded aggregate data by dollar amount, which is reflective of Comerica's willingness to lend larger sums to small businesses.

The bank's 2020 lending performance exceed that of 2021 and 2022. The decline in performance is primarily attributed to the cessation of the SBA's PPP and rising interests.

Table 122

### Community Development Lending

The bank makes a relatively high level of CD loans in the AA. Comerica originated 16 CD loans totaling \$38.6 million in the AA, making up 1.2 percent of bank-wide CD loan volume by number and 0.7 percent by dollar amount. The number volume of CD loans originated in the AA decreased by 11.1 percent since the previous evaluation, though the dollar amount increased by more than 310.4 percent. This growth occurred despite the substantial decrease in loans originated through the SBA's PPP, which represented 38.9 percent of CD loans in the AA at the previous evaluation.

The largest portion of the bank's CD lending in the AA promotes economic development through small business financing and permanent job creation, retention, or improvement impacting LMI persons or LMI geographies. Examples of the bank's CD lending activities that are considered responsive to credit needs in the AA include:

- A \$16 million line of credit to a certified home healthcare and senior care provider that provides essential medical care to Medicaid recipients in a variety of regions throughout the state of Florida, including the AA.
- A \$3.8 million line of credit for the construction of an apartment project in the AA where the city of Delray Beach requires 25 percent of the total units to be set aside for LMI residents, granting prorated CD qualification in the amount of \$952,000.

## INVESTMENT TEST

The bank's performance under the Investment Test in the AA is good. Comerica is occasionally in a leadership position, as its level of qualified CD investments and grants is significant, particularly those not routinely provided by private investors. The bank's overall level of CD qualified investments and donations decreased since the previous evaluation. While the bank makes rare use of innovative and/or complex investments to support CD initiatives, the bank's activity exhibits good responsiveness to identified needs in the AA. Comerica's qualified CD investments in the AA focus on the need for affordable housing and consist entirely of LIHTC investments; however, the donations were made for a variety of purposes. Examples of the bank's CD donations that were responsive to the AA needs include:

- A recurring donation totaling \$65,000 to an organization that facilitates financial education programs as well as business, entrepreneurship, and career workshops to students in more than 400 local schools where 85 percent of students qualify for free or reduced-price lunches.
- Donations totaling \$20,000 to an organization that responds to the current food crisis among LMI individuals, especially seniors and disabled individuals.
- Donations totaling \$20,000 to a CD corporation that serves the AA in a variety of ways, including providing financial education to LMI youth as well as organizing a small business program for businesses operating in and employing LMI residents.

## SERVICE TEST

The bank's Service Test performance is good.

### *Retail Services*

Comerica's delivery systems are accessible to the AA geographies and individuals of different income levels. The distribution of the bank's six branch offices and five ATMs as of April 1, 2023, was compared to the distribution of the households and businesses among the tract categories within the AA. Table 125 below summarizes the bank's retail locations in the AA.

**Table 125**

| <b>Total</b>                                                                                           | <b>100.0</b>        | <b>100.0</b>       | <b>100.0</b>       | <b>6</b> | <b>100.0</b> | <b>5</b>          | <b>100.0</b> |

The bank did not open or close any branches in the AA during the review period. Banking services and hours of operations do not vary in a way that inconveniences the AA, as the level of services and hours offered are materially the same throughout the AA.

### *Community Development Services*

The bank provides a relatively high level of CD services in the AA. Comerica's employees served in various capacities for 40 community organizations that offer CD services targeted to LMI individuals. During the review period, bank employees provided 228 CD services totaling 613 hours. Examples of services performed include:

- Several bank employees served as subject matter experts for an organization that provides financial education and professional counseling to LMI families in financial crisis.
- Bank employees provided technical assistance on behalf of Habitat for Humanity by underwriting loan applications submitted for affordable housing in the AA.
- A bank employee served on the board of directors of a nonprofit organization with a mission of providing essential products to underprivileged youth and LMI veterans

**METROPOLITAN ASSESSMENT AREA (LIMITED-SCOPE REVIEW)**

**DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN LIMITED-SCOPE FLORIDA METROPOLITAN ASSESSMENT AREA**

- **Naples MSA AA**
  - The Naples MSA AA is comprised of the entirety of Collier County, which is coterminous with the Naples-Marco Island, FL MSA.
  - The AA is comprised of 109 census tracts, including eight low-, 21 moderate-, 44 middle-, 33 upper-, and three unknown-income tracts.
  - Based upon 2020 ACS data, the AA population was 375,752, which reflects a 10.2 percent increase from the 2015 ACS data.
  - The AA includes 98,121 families, 21.9 percent are low-, 18.0 percent moderate-, 19.6 percent middle-, and 40.5 percent are upper-income.
  - As of April 1, 2023, the bank operated two branches, representing 0.5 percent of its total branches.
  - As of June 30, 2022, the bank held \$39.8 million in deposits, representing a market share of 0.2 percent and approximately 0.1 percent of Comerica's total deposits.

**CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS**

Appendix D contains detailed performance and demographic information reviewed for the AA. Table 126 discusses conclusions regarding the bank's performance.

**Table 126**

| <b>Assessment Area</b> | <b>Lending Test</b> | <b>Investment Test</b> | <b>Service Test</b> |
|------------------------|---------------------|------------------------|---------------------|
| Naples MSA AA          | Below               | Below                  | Consistent          |

The institution's lending and investment performance in the AA is below Comerica's performance in the state; however, it does not impact the assessed rating.

## **STATE OF ARIZONA**

### **CRA RATING FOR ARIZONA:**

### **Satisfactory**

|                               |                   |
|-------------------------------|-------------------|
| The Lending Test is Rated:    | High Satisfactory |
| The Investment Test is Rated: | High Satisfactory |
| The Service Test is Rated:    | High Satisfactory |

Major factors supporting the institution's rating include:

- Lending activity reflects good responsiveness and record of serving the credit needs of its AA, including low-income individuals, low-income areas, and very small businesses.
- The geographic distribution of loans reflects good penetration throughout the sole AA in the state of Arizona.
- The bank's distribution of loans among individuals of different income levels and businesses of different revenue sizes is good.
- The bank is a leader in making CD loans.
- Comerica makes use of innovative and/or flexible lending practices in serving the AA's needs.
- The bank is occasionally in a leadership position given its significant level of qualified CD investments and donations, particularly those not routinely provided by private investors.
- Comerica makes occasional use of innovative and/or complex investments to support CD initiatives.
- The bank exhibits good responsiveness to credit and CD needs.
- Delivery systems are accessible to individuals of different income levels throughout the bank's AA.
- Comerica provides an adequate level of CD services that do not vary in a way that inconveniences the bank's AA, particularly LMI geographies and/or LMI individuals.

### **SCOPE OF THE EVALUATION**

The scope of the review for the state of Arizona is consistent with the overall scope for the institution, including evaluations under the lending, investment, and service tests. The review period and products evaluated for this state are also unchanged from the scope discussed in the Institution section of this report.

The bank designates the Phoenix Metropolitan AA, as its single AA in the state of Arizona. As such, the Phoenix Metropolitan AA was reviewed using full-scope examination procedures. Accordingly, the statewide rating is based on the CRA performance within this AA and any other investment or services that are provided on a broader, statewide basis.

### **DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN ARIZONA**

Comerica delineates one of its 27 AAs and operates 17 of its 409 total branches in the state of Arizona. As of June 30, 2022, the bank held \$734.7 million in deposits in the state, representing approximately one percent of its total deposits. According to the June 30, 2022, Federal Deposit Insurance Corporation (FDIC) Summary of Deposits, the bank had a deposit market share of 0.3 percent and ranked 24<sup>th</sup> out of 67 FDIC-insured financial institutions across the state.

Of the 20,205 HMDA-reportable loans and 35,231 small business loans originated and purchased by Comerica during the review period, 1,050 HMDA-reportable loans (5.2 percent) and 703 small business loans (2.0 percent) were extended in the state of Arizona.

#### **CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS**

Conclusions with respect to Comerica's performance in the state of Arizona are based upon the bank's performance in the only delineated AA within the state. See the Phoenix Metropolitan AA section below for information on the bank's CRA performance in the state of Arizona.

**PHOENIX METROPOLITAN ASSESSMENT AREA**  
(Full-Scope Review)

**DESCRIPTION OF THE INSTITUTION'S OPERATIONS IN THE PHOENIX METROPOLITAN ASSESSMENT AREA**

- The bank's Phoenix Metropolitan AA is comprised of Maricopa County in its entirety, which represents a portion of the Phoenix-Mesa-Chandler, AZ MSA. Refer to Appendix A for an AA map.
- The AA is made up of 1,009 census tracts, of which 6.3 percent are designated as low-income, 25.7 percent are moderate-income, 31.1 percent are middle-income, 34.5 percent are upper-income, and 2.4 percent are designated as unknown-income.
- Since the previous evaluation and the issuance of the 2020 U.S. Census data, 93 new geographies were drawn within Maricopa County and the income level designations of many existing census tracts changed. The number of low-income census tracts in the AA decreased by 39.0 percent but LMI geographies increased by 3.7 percent. Refer to Appendix B for additional demographic data.
- The bank operates 17 full-service branches in the AA, including four branches in moderate-income, five in middle-income, and eight in upper-income census tracts.
- According to the June 30, 2022, FDIC Market Share Report, the bank had a 0.4 percent market share, ranking 20<sup>th</sup> out of 61 FDIC-insured depository institutions operating in the AA.
- In 2022, the bank ranked 88<sup>th</sup> out of 978 HMDA reporters in the AA with 417 HMDA originations and purchases, and 51<sup>st</sup> out of 239 CRA reporters with 110 CRA small business and small farm loans.
- A community contact shared that the AA has experienced significant population growth due to the influx of people from areas where the cost of living and housing are much higher. The community contact noted that housing availability for LMI individuals and families is limited, resulting in the rise of homelessness throughout the AA.

**Table 127**

| <b>Population Change</b>                                                                                              |                            |                            |                              |

| Phoenix-Mesa-Chandler, AZ MSA                                                                                         | 4,407,915                  | 4,845,832                  | 9.9                          |
| Arizona                                                                                                               | 6,641,928                  | 7,151,502                  | 7.7                          |
| <i>Source: 2020 U.S. Census Bureau Decennial Census<br/>2011 - 2015 U.S. Census Bureau: American Community Survey</i> |                            |                            |                              |

- The AA's population has grown substantially since 2015, exceeding the growth rate of the Phoenix-Mesa-Chandler, AZ MSA and the state of Arizona as a whole. The AA's suburban population has doubled in size in some areas.
- Phoenix, AZ is one of the fastest growing cities in the United States over the most recent decade, surpassing Philadelphia to be the fifth largest city by population in the country. This increase has been fueled by the migration of families, as a result of job opportunities related to the arrival of technology companies and lower cost of living than in other areas of the nation. A community contact shared that the population growth in the AA is primarily driven by AA's lower cost of living and housing in comparison to other metropolitan areas.

- Several colleges and universities are located in the AA, including Grand Canyon University and Phoenix College, with approximate enrollments of 64,000 and 17,000, respectively.

**Table 128**

| Median Family Income Change<br>Assessment Area: Phoenix Metropolitan                                                                                                                                                          |                           |                           |                   |

| Source: 2011 - 2015 U.S. Census Bureau: American Community Survey<br>2016 - 2020 U.S. Census Bureau: American Community Survey<br>Note: Median family incomes have been adjusted for inflation and expressed in 2020 dollars. |                           |                           |                   |

- The AA's median family income (MFI) has increased proportionally to the MFIs for the Phoenix-Mesa-Chandler, AZ MSA and the state of Arizona, at approximately 13 percent. The FFIEC estimates the MSA MFI to grow another 12.5 percent between 2020 and 2022.
- According to 2020 FFIEC data, approximately 9.1 percent of AA families live below the poverty level, which is similar to the 10.1 percent statewide figure.

**Table 129**

| Housing Cost Burden<br>Assessment Area: Phoenix Metropolitan                                                                                                                                              |                       |                 |             |                      |                 |            |

| Cost burden is housing cost that equals 30 percent or more of household income.<br>Source: U.S. Department of Housing and Urban Development (HUD), 2015-2019 Comprehensive Housing Affordability Strategy |                       |                 |             |                      |                 |            |

- Housing affordability within the AA varies among the income levels, with the burden on low-income renters and owners being substantially greater than the burden on renters and owners at any other income level.
- Overall, the cost burden for homeowners and renters in the AA is comparable to the housing cost burden for homeowners and renters statewide in Arizona.
- The median age of housing stock in the AA is 37 years, and the median housing value is \$278,687. Additionally, the average median gross rent in the AA is \$1,182.
- A community contact noted that affordable housing throughout the AA for LMI individuals and families is limited, resulting in the rise of homelessness.

- Unemployment rates in the AA remained below the overall statewide figure from 2018 to 2022.
- Unemployment rates significantly increased in 2020 due to the COVID-19 pandemic, as many businesses laid off their employees given the statewide stay at home and social distancing mandates. In 2021, the AA unemployment rate stabilized and returned to pre-pandemic levels. In 2022, the AA unemployment rate continued to improve, by 1.2 percent.
- Major employment industries in the AA include health care and social assistance, retail trade, and government. The top employers in the AA include the State of Arizona, City of Phoenix, Wal-Mart Stores, and the Banner Health system.

Table 131 details selected characteristics of the AA.

**CONCLUSIONS WITH RESPECT TO PERFORMANCE TESTS****LENDING TEST**

The bank's lending test performance in the Phoenix Metropolitan AA is good. For this evaluation, the bank's home mortgage lending was generally given greater weight as these products represent the largest volume of lending in the AA during the review period. Additionally, multifamily, other purpose closed/exempt, and loan purpose not applicable lending products were not evaluated separately from the evaluation of the bank's home mortgage lending.

Details of the bank's 2020 mortgage and small business lending and information regarding lending by aggregate lenders can be found in Appendix C.

***Lending Activity***

The bank's lending activity in the Phoenix Metropolitan AA reflects good responsiveness and use of innovative and/or flexible lending practices through its participation in numerous industry-recognized, government-guaranteed programs, including the origination of 535 SBA loans and 160 small business micro loans within the AA.

Comerica originated 1,050 home mortgage and 703 small business loans between January 1, 2020, and December 31, 2022. The volume of small business and home mortgage lending decreased primarily due to the increase in interest rates and the cessation of the SBA's PPP in May 2021. However, loan products and origination volumes are consistent with the general credit needs of the AA and align with the bank's strategic focus on commercial and residential real estate lending.

***Geographic Distribution of Loans***

The geographic distribution of lending reflects excellent penetration throughout the AA. The bank's small business and home mortgage lending reflects excellent and good penetration among geographies of different income levels, respectively. The distribution of the bank's lending in middle- and upper-income geographies did not affect conclusions about Comerica's performance

in LMI census tracts. Furthermore, the bank's loan dispersion among geographies of different income levels did not reveal any notable gaps or lapses.

*Residential Real Estate (HMDA) Lending*

The geographic distribution of home mortgage loans is good. The distribution of 2021 and 2022 home mortgage loans among low-income census tracts is comparable to aggregate data, though below the percentage of owner-occupied units in these tracts (the demographic figure). The penetration of the bank's HMDA lending in moderate-income census tracts is below aggregate data in 2022, though above aggregate data in 2021 by a similar margin. In both years, the bank's lending in moderate-income census tracts was below the demographic figure.

The bank's lending performance for 2020 reflected penetration levels similar than those of 2021 and 2022, with a distribution of loans to LMI tracts that was comparable to aggregate data but below the demographic figure.

*Home Purchase Lending*

The geographic distribution of home purchase lending is excellent. The distribution of 2021 and 2022 home purchase loans among low-income census tracts is significantly above the aggregate data. During both years, the bank's level of lending in low-income census tracts was more than twice that of aggregate lenders and the percentage of owner-occupied units in these tracts.

The distribution of the bank's home purchase loans among moderate-income census tracts is also substantially above both aggregate lending performance and the demographic figure. During the review period, almost half of home purchase loans originated by the bank in the Phoenix Metropolitan AA were in moderate-income census tracts, which contain less than 21 percent of owner-occupied units.

*Home Refinance Lending*

The geographic distribution of home refinance lending is excellent. The distribution of 2022 home refinance loans among low-income census tracts are comparable to aggregate data and the demographic figure. The bank's lending in moderate-income census tracts is above that of aggregate lenders and comparable to the demographic figure.

The bank's lending performance for 2021 reflected penetration levels that were above that of 2022. Distribution of 2021 home refinance loans among LMI census tracts in the Phoenix Metropolitan AA was significantly above aggregate lending performance and the demographic figure.

*Home Improvement Lending*

The geographic distribution of home improvement lending is adequate. The distribution of 2021 and 2022 home improvement loans among low-income census tracts is comparable to aggregate data and the demographic figure. Conversely, the bank's home improvement lending in moderate-income census tracts is below aggregate data and the demographic figure.

*Other Purpose Lines of Credit Lending*

The geographic distribution of other purpose lines of credit is adequate. The bank did not originate any other purpose lines of credit among low-income census tracts in 2021 or 2022, though this represents a level of performance that is comparable to aggregate data in each year. Among moderate-income census tracts, the bank's performance is comparable to aggregate data and below the percentage of owner-occupied units in these tracts, which could point to lack of loan demand.

### Small Business Lending

The geographic distribution of small business loans reflects excellent penetration throughout the AA when compared to demographics and the performance of the aggregate lenders. The distribution of 2021 and 2022 small business loans among low-income census tracts is greater than aggregate data as well as the percentage of businesses in these tracts (the demographic figure). The bank's small business lending in moderate-income census tracts is also above aggregate lending, outpacing aggregate data by almost 10 percent in 2022. This performance reflects favorably on the bank's responsiveness to the credit needs of small businesses in the Phoenix Metropolitan AA.

Although the volume of small business lending has decreased, Comerica's performance in 2020 is consistent with the bank's performance in 2021 and 2022. The decrease is attributed to the conclusion of the SBA's PPP lending and the increase in interest rates.

### Lending to Borrowers of Different Income Levels and Businesses of Different Sizes

The bank's borrower distribution of lending reflects a good penetration among individuals of different income levels (including LMI) and businesses of revenue different sizes. Comerica's lending distribution to middle- and upper-income borrowers did not affect conclusions about its performance to LMI borrowers.

### Residential Real Estate (HMDA) Lending

Home mortgage lending by borrower income in the Phoenix Metropolitan AA is good when compared to demographic characteristics of the community, as well as the performance of aggregate HMDA lenders. In 2021, the bank's lending to LMI borrowers was comparable to the performance of aggregate HMDA lenders. Lending to low-income borrowers was also comparable to aggregate performance in 2022, though the bank's performance to moderate-income borrowers decreased.

The shift in performance toward higher income borrowers occurred as interest rates began to rise from historic lows in early 2022, making mortgage loans more expensive and pricing some lower-income borrowers out of the market. However, the bank's lending to low-income borrowers for home refinance loans and other purpose lines of credit was noteworthy as Comerica lent these products at levels well above aggregate HMDA lenders.

The bank's lending performance in 2020 is consistent with that of 2021 and 2022, with a distribution of loans to LMI borrowers that is comparable to aggregate data but below the demographic figure.

### Small Business Lending

Comerica's lending distribution to businesses of different revenue size is adequate. The distribution of 2022 loan originations to businesses with revenues of \$1 million or less is below the percentage of small businesses in the AA and aggregate data by number of originations. Though the bank made a smaller percentage of loans to businesses with revenues of \$1 million or less than aggregate lenders by number volume, these loans represented a larger portion of the total dollar amount of the bank's total loans to small businesses than the comparable aggregate total loans, which reflects favorably on Comerica's willingness to lend larger sums to small businesses. In addition, Comerica's performance in comparison to aggregate lenders carried more weight as aggregate lending is a better indicator of loan demand than the percentage of small businesses in the AA.

In 2021, the bank's performance remained well below the large percentage of AA business reporting annual revenues of \$1 million or less, though the bank originated a larger percentage of small business loans to businesses with annual revenues of \$1 million or less than reflected by aggregate lending data. Conversely, Comerica's 2020 lending performance to businesses with

annual revenues of \$1 million or less significantly exceeded the volume of lending in 2021 and 2022 and outperformed aggregate lenders' performance.

**Table 136**

| Distribution of 2021 and 2022 Small Business Lending by Revenue Size of Businesses                                                                                                        |                                  |       |       |         |       |       |      |       |       |         |       |       |                          |

### Community Development Lending

The bank is a leader in making CD loans in the Phoenix Metropolitan AA. Comerica originated 33 CD loans totaling \$171.9 million in the AA, which comprised 2.4 percent of bank-wide CD loans volume by number and 3.2 percent by dollar amount. Despite the substantial decrease in loans originated through the SBA's PPP, the number of CD loan originations in the AA increased by 83.3 percent since the previous evaluation, representing a substantial increase in the dollar amount of CD loans in the AA (697.4 percent). This is reflective of the bank's focus on identifying CD opportunities and responding through qualified activities.

The largest portion of the bank's CD lending in the AA was comprised of loans that promote economic development by financing small businesses and supporting permanent job creation, retention, or improvement for LMI persons or in LMI geographies. Examples of the bank's CD lending activities that were considered responsive to AA credit needs include:

- A \$7 million loan to a mid-sized bakery and an \$8.5 million loan to a local lighting manufacturer. Combined these loans provided for the retention and improvement of more than 350 LMI jobs.

- Four loans totaling \$15 million to a 24-hour urgent care center that provides behavioral health services to patients experiencing mental health crises and primarily serves local residents receiving Medicaid, which serves as a proxy for determining LMI status.
- A \$100,000 line of credit to a non-profit that provides food, shelter, basic education, and counseling needs to LMI residents of the AA.
- Four SBA PPP loans totaling \$786,000 in response to the ongoing effects of the COVID-19 pandemic, which impacted the nation during the early portion of the review period for this evaluation.

Table 137 details Comerica's CD lending activity during the review period.

## INVESTMENT TEST

The bank's performance under the Investment Test in the Phoenix Metropolitan AA is good. Although Comerica's overall dollar amount of CD investments and donations decreased since the previous evaluation, its volume is significant and occasionally positions the bank as a leader. The slight decrease in dollar amount of CD investments in the AA is attributed to the bank focusing on investments in the states in which the bank has majority of its branches, receives deposits, and originates loans. Comerica makes occasional use of innovative and/or complex investments, particularly those not routinely provided by private investors, and exhibits good responsiveness to credit and CD needs of the AA.

Table 138 illustrates the breakdown of Comerica's CD investments and donations within the AA, including prior period investments that remain on the bank's ledger, current period investments purchased during the current evaluation period, and CD donations made since the previous evaluation. Examples of CD investment and donation activities include:

- A \$500,000 equity investment in a minority-led community development financial institution (CDFI), providing financing to small business owners and their underserved communities.
- A \$2.3 million LIHTC investment in a new construction project that consists of 43 townhomes reserved for households with incomes below 60 percent of area median income. This project will include a rent-to-own component allowing tenants to accumulate value over time toward the purchase of their unit, catalyzing wealth creation through homeownership.
- An annual donation, totaling \$73,000 over the review period, to support a CDFI serving LMI minority communities in the Southwest United States, including the bank's AA.

## SERVICE TEST

The bank's Service Test performance is good.

### Retail Services

Comerica's delivery systems are accessible to the geographies and individuals of different income levels in the AA. The distribution of the bank's 17 branch offices and 21 ATMs as of April 1, 2023, was compared to the distribution of the population and businesses among the tract categories within the AA. Table 139 summarizes the bank's retail locations in the Phoenix Metropolitan AA.

**Table 139**

| Branch and Full-Service ATM Locations<br>Assessment Area: Phoenix Metropolitan |                  |                 |                 |           |              |                   |              |

| <b>Total</b>                                                                   | <b>100.0</b>     | <b>100.0</b>    | <b>100.0</b>    | <b>17</b> | <b>100.0</b> | <b>21</b>         | <b>100.0</b> |

The bank's branch offices in the AA are generally well distributed, with the exception of the city of Glendale, AZ, which contains no Comerica branches. Glendale contains approximately 8 percent of the total LMI census tracts in the AA and stands out as a corridor for which Comerica branches are not readily available. However, the 65 square miles that make up the city are well saturated with 47 branches from other financial institutions. Additionally, Comerica's branch locations are within five miles of Glendale's LMI census tracts and more than 90 percent of the 323 LMI geographies within the entire AA.

The bank did not open or close any branches in the AA during the review period. Banking services and hours of operations are materially the same and do not vary in a way that inconveniences the AA, particularly in LMI geographies or to LMI individuals.

*Community Development Services*

The bank provides an adequate level of CD services in the Phoenix Metropolitan AA. Comerica's employees served in various capacities, including boards of directors and as trustees, for 14 organizations offering CD services targeted toward LMI individuals. The 72 CD services provided by bank representatives during the review period total approximately 414 hours. Examples of services performed by bank employees include:

- Twenty-three bank representatives volunteer with a local organization to teach financial education at local schools where the majority of students qualify for free or reduced-price lunch. One bank employee also sits on the organization's board of directors.
- One bank representative serves as a director of a local organization that offers legal and financial services to minority-owned businesses, of which the substantial majority of owners are LMI individuals.
