PNC/PNC Bank Fair Lending and Consumer Compliance Program Overview

PNC Fair Lending and Consumer Compliance Program Overview

PNC's Compliance Management System ("CMS") provides the foundation for PNC's compliance risk management program, including its consumer compliance risk management program ("Consumer Compliance Program"), and leverages both the Enterprise Risk Management Framework and the Operational Risk Management (the "ORM") Framework. Leveraging these frameworks, PNC seeks to identify, independently assess, monitor and report compliance risk across the enterprise. Laws and regulations that govern the rights of PNC's consumer customers, including those designed to ensure that customers are treated fairly, such as the Equal Credit Opportunity Act ("ECOA"), the Fair Housing Act ("FHA"), and the Unfair, Deceptive, or Abusive Acts or Practices ("UDAAP") provisions of the Federal Trade Commission Act and the Dodd-Frank Act. Through regular reporting to senior management and PNC's Board, PNC provides an assessment of its compliance risk management effectiveness, including updates regarding any identified weaknesses in business operations and the steps that PNC is taking to mitigate associated compliance risk; emerging areas of compliance risk, including relevant industry-wide events (such as enforcement actions); and significant compliance-related initiatives (such as efforts to implement processes designed to meet recently adopted laws and regulations).

The central pillars of PNC's Consumer Compliance Program are summarized below:

1. Compliance Risk Identification

The keystone of PNC's ORM Framework and compliance program is the Risk and Control Self-Assessment (the "RCSA"). The Regulatory Library is the basis of the Compliance Risk domain in the RCSA framework and includes an inventory of laws, rules, and regulations applicable to PNC's business operations as well as standardized risks resulting from non-compliance with those with laws, rules and regulations ("Compliance Risk Events"). Enterprise Compliance, with assistance from Legal, maintains the Regulatory Library and provides PNC's lines of business, the first line of defense (the "1LOD"), with standardized Compliance Risk Events for inclusion in the business unit's RCSA. Each PNC 1LOD business operation, in conjunction with their compliance and risk partners, identifies the regulation and corresponding Compliance Risk Events for inclusion in the RCSA. Additionally, these Compliance Risk Events are tied to the corresponding product and business processes that implicate them. Enterprise Compliance and Legal share responsibility for modifying the Regulatory Library and associated Compliance Risk Events when changes to laws, rules or regulation occur or when guidance is issued that impacts PNCs business operations (collectively "Regulatory Change Events").

The Regulatory Change Program sets the framework and governance for how PNC effectuates changes to its policies, procedures and controls resulting from Regulatory Change Events. The Regulatory Change Program is governed by the Regulatory Change Leadership Group that is comprised of the General Counsel, Senior Deputy General Counsel, Chief Compliance Officer, the Chief BSA/AML Officer, the Director of Regulatory Policy and the Director of Regulatory Change, or their designated representative(s).

PNC has adopted compliance policies that provide additional, specific guidance to PNC's 1LOD teams regarding the steps that PNC employees are required to take in order to satisfy its most impactful consumer regulatory compliance obligations. With that goal in mind, PNC has published policies that govern how PNC meets its obligations under the Fair Lending laws (*i.e.*, ECOA and the FHA), UDAAP standards, the Servicemembers Civil Relief Act, the Flood Disaster Protection Act, and the state and federal laws designed to protect the privacy interests of PNC's customers. To the same end, PNC also provides compliance specific training to relevant employees, including training on significant consumer compliance risks, such as each of the risks covered by the policies listed above.

2. Compliance Risk Assessment

Working closely with subject matter experts and functional risk areas, each 1LOD works to inventory applicable Compliance Risk Events and to ensure that controls exist to mitigate the attributable risk(s). The performance of each compliance control is periodically assessed through scheduled validation activities to ensure that they are working, as designed. Where the control is deemed ineffective or the control environment is deemed insufficient, existing controls are enhanced or new controls are developed. Enterprise Compliance reviews RCSA results and provides credible challenge to corresponding conclusions.

Additionally, Enterprise Compliance monitors the performance of compliance controls, risk appetite metrics and key risk indicators, and conducts or directs independent testing to inform its own independent assessment of attributable compliance risks ("ICRA"). The ICRA includes an assessment of inherent compliance risk attributable to 1LOD business operations, quality of ILOD compliance risk management programs, and resulting residual compliance risk exposure. Results of the ICRA are reported annually to the Compliance, Fiduciary and Anti-Money Laundering Risk Committee (the "CFAMLRC") and the Compliance Subcommittee of the Board of Directors (the "Board"). The results of the ICRA are also used to develop an annual compliance monitoring and testing plan (the "Compliance Testing Plan") that is executed by Enterprise Compliance staff and performed by specialized resources within IRM Compliance Testing.

3. Compliance Monitoring and Testing

PNC supplements its preventative compliance risk management processes with risk-based monitoring and testing designed to detect practices that are not identified and mitigated effectively through its preventative risk management routines. Enterprise Compliance completes monitoring activities on a routine basis or through targeted reviews. Monitoring activities may include, but are not limited to, control performance monitoring, policy or procedure review, complaints review and analysis, and targeted Compliance Risk reviews. The Fair Lending Monitoring Program, and any subsequent modification thereto, is approved by the CFAMLRC. With regard to Fair Lending requirements, in particular, PNC's Fair Lending Monitoring Program includes analyses designed to identify issues for further investigation and possible remediation in instances where there are statistically significant differences between the lending outcomes for customers who are and are not members of a protected class.

The Enterprise Compliance Fair Banking Compliance Group develops and executes the Fair Lending Monitoring Program on an enterprise-wide basis. The Fair Lending Monitoring Program is informed by fair lending risk assessments, regulatory guidance, industry best practices, examination experience and fair lending enforcement actions across the industry. Additionally, the Fair Lending Monitoring Program is planned annually, working closely with the Legal Department and outside counsel, and approved by the Fair Banking Compliance Director. The fair lending monitoring process is designed to be risk-based, scalable and adaptable. The activities cover most PNC asset classes and the full product life cycle. A variety of monitoring techniques are used, including: loan file and customer complaint reviews, as well as data analytics, including linear and logistic regression analysis, spatial analyses (maps), peer data benchmarking and race, gender and ethnicity proxy estimation on products for which monitoring data are not available.

Identifying and mitigating fair lending risk is the key objective of the Fair Lending Monitoring Program. Any potential fair lending incidents, risks or issues identified through the Fair Lending Monitoring Program or by program staff are reviewed by the Fair Lending Program Manager with the Fair Banking Compliance Director and the Legal Department and managed under the direction of the Legal Department. PNC's preventative and detective risk management routines are necessarily designed to identify operational weaknesses that create compliance risk. When PNC identifies a gap in its processes that creates unacceptable compliance risk, either through the RCSA control validation process or through the execution of its Compliance Testing Plan, PNC documents the identified weakness by opening an issue within PNC's Archer eGRC System. Appropriate subject matter experts, including compliance personnel in Enterprise Compliance, monitor the steps taken to address the process weakness identified through the issue. Where an issue results in a negative financial impact to a consumer customer, the issues management process is used to ensure that the customer receives appropriate restitution. Progress in addressing issues is tracked formally in Archer and is subject to regular reporting to senior management and, for the most serious issues, to the Board. PNC's prudential regulators have access to Archer and, thus, have the opportunity to discuss any issues with PNC management on a regular basis.

PNC Internal Audit, the third line of defense, includes a Compliance audit team (the "Compliance Audit Team"), which is led by a dedicated Assistant General Auditor who is responsible for ensuring sufficient audit coverage, including control testing over fair lending, consumer regulations, and all other required laws and regulations. The Compliance Audit Team audits the Enterprise Compliance framework, governance and oversight, and independently tests controls within the lines of business. Additionally, the Compliance Audit Team leads an annual risk assessment of laws and regulations to set the audit coverage plan for the following year. Fair lending compliance audit work is performed on a risk-based cycle across relevant lines of business. Other important consumer regulations are audited by the Compliance Audit Team within line of business audits where the related operational processes or products are reviewed.

4. Compliance Reporting

PNC provides regular reporting to senior management and the Board regarding compliance risk. This reporting is designed to ensure that senior management and the Board are aware of, and thus well-positioned to oversee, important compliance risk-related activities. Accordingly, PNC's compliance risk reporting focuses on matters such as identified weaknesses in PNC's compliance impacted business processes, and the steps that PNC is taking to mitigate those issues; process changes being implemented to meet new regulatory requirements; analyses of significant new business initiatives for compliance risk and associated risk mitigation activities; and efforts taken to review process in order to confirm that PNC is meeting regulatory expectations as communicated through recent regulatory enforcement actions across the industry.

Public Exhibit 14

BBVA USA Fair Lending and Consumer Compliance Program Overview

Overview of BBVA USA Fair Lending and Consumer Compliance Program

BBVA, S.A. ("BBVA Group") operates in the U.S. ("BBVA US Operations") under the governance and oversight of the board of directors of BBVA USA Bancshares, Inc. ("BBVA Bancshares"). BBVA US Operations encompasses BBVA Bancshares and its subsidiaries, including BBVA USA (the "Bank") and its operating subsidiaries, such as Simple, BBVA Wealth Solutions ("BWS"), BBVA Insurance Agency ("BIA") and the technology companies (e.g., Open Platform and Azlo); BBVA Securities, Inc. ("BSI"); and BBVA Transfer Holdings, Inc. ("BTS").

Compliance oversight for consumer protection regulation and fair lending at the Bank is provided by the compliance function at BBVA Bancshares and directed by the BBVA Bancshares board of directors (the "BBVA US Compliance") to supervise the Bank with independence and objectivity, identify and assess potential regulatory risk, advise and train business and support units on applicable regulatory compliance requirements, assist production and operations units with the development of compliance programs and policies, and test and monitor material compliance matters across the Bank (the "Compliance Program").

The BBVA US Compliance function is made up of multiple functional areas, which all operate with independence from the lines of business.

Chief Compliance Officer ("CCO")

The Compliance Program is led by the Bank's CCO who reports to the US Country Manager, Chief Executive Officer (the "CEO") and President of the Bank, and functionally to the Head of Global Compliance for BBVA Group. This compliance model provides direct and immediate lines of communication and oversight between BBVA US Operations and BBVA Group on compliance matters. In addition, this structure supports appropriate independence of the Compliance function from the lines of business and helps ensure the objectivity needed to render proper advice and avoid conflicts of interest. The CCO is responsible for the continuous implementation, administration, and enhancement of the Compliance Program. The CCO is assisted in this effort by a Senior Leadership Team ("SLT").

Customer Compliance Director

The Customer Compliance Director exists to promote compliance with the letter and spirit of applicable federal laws and regulations, and to advance the business strategy and activities in a fair and transparent manner for consumer and commercial products and services offered to entities' customers, as described in the Customer Compliance program. The Customer Compliance function uses a multi-faceted approach to achieve these objectives. This is accomplished through a process of identifying, assessing, controlling, measuring, monitoring and reporting compliance risks across the Bank.

Customer Compliance includes the following functional areas based on roles and responsibilities:

- Lending Compliance;
- Deposit Compliance;
- Fair and Responsible Banking; and
- Complaint Management.

The business areas within scope include, but are not limited to:

- Consumer Loans (non-real estate lending);
- Mortgage/Home Equity (real estate lending);
- Consumer Finance (non-real estate lending);
- Credit Card/Unsecured Lending (non-real estate lending);
- Consumer, Small Business, and Commercial Deposits;
- Retail Branch Network;
- Customer Service:
- Wealth & Asset Management;
- Indirect Auto (non-real estate lending);
- Small Business and Commercial Loans (non-real estate lending); and
- Treasury Management.

Fair and Responsible Banking, which is a part of the Customer Compliance function, has responsibility for compliance oversight of the Fair and Responsible Banking Program, including providing advice and regulatory compliance oversight and support to the first line of defense to ensure full compliance with fair banking laws and regulations. Additionally, the Fair Lending Manager identifies, assesses, monitors and reports consumer regulatory compliance risks related to fair banking, specifically fair lending laws and unfair, deceptive or abusive acts or practices ("UDAP" and "UDAAP") guidance, laws and regulations, and oversees the review and reporting on fair lending data analysis conducted by the Fair Lending Analytics team.

Compliance Model & Assurance

The Compliance Model and Assurance function, maintains methodologies and standards to support the Bank's Compliance Program through risk assessment, testing, monitoring, issue management and risk appetite. The Compliance Model and Assurance function also manages the Compliance Documentation Change Management Process, as well as the coordination and facilitation of the Bank's Compliance Risk Oversight Committee ("<u>C-ROC</u>").

Compliance Execution

The Compliance Execution function performs the business as usual processes in support of the Compliance Program and Compliance Directors. This includes, managing firm wide compliance training, providing MIS and reporting for the Compliance Program, including preparing and filing the HMDA and Small Business/Small Farm LARs, performing analytics to support the Fair and Responsible Banking program and CRA commitments, facilitating the

compliance risk assessments, providing regulatory guidance to the lines of business and support areas, and administering complaints and whistleblower cases.

The Fair Lending Analytics team, which is part of the Compliance Execution function, is comprised of statisticians experienced in fair lending analyses, statistical analysts, programmers, and modelers. This team maintains an annual fair lending review schedule, discussed below. Results of reviews are presented to executive management and material issues are escalated and reported to the C-ROC, the Bank's U.S. Operations Committee and the Audit and Compliance Committee of the Bank's board of directors.

Compliance Training

Firm-wide compliance training of both employees and board members is an important part of managing compliance risk. To that end, annual compliance training is designed to assure appropriate board, management, and employee knowledge and awareness of relevant regulations applicable to the roles and responsibilities. The annual compliance training plan consists of:

- General compliance training (also referred to as mandatory or critical) is assigned to all employees and identified third-party contractors and covers:
 - o Privacy;
 - o BSA, AML and OFAC;
 - o UDAAP;
 - Self-Discovered Compliance Issues;
 - o The Bank's Code of Conduct Training; and
 - o Community Reinvestment Act.
- Job-specific compliance training is assigned to employees and identified third-party contractors for job specific tasks or functions. This training is assigned based on a collaborative effort between the first line of defense and Compliance where the first line of defense defines the tasks or functions that their employees perform, and Compliance identifies and assigns regulatory-related required training based on those functions.
- Ad hoc process-specific training is delivered by the first line of defense and Talent & Culture function to ensure employees receive training necessary to complete specific functions related to their role. Compliance reviews training content to ensure regulatory requirements are adequately covered. Examples include new hire training for the Branch Network and training related to new products or services.

Further, a Fair & Responsible Banking Forum was established to provide program results, industry and regulatory environment updates, and targeted training to attendees from various lines of defense, including Management Committee members. The forums are held quarterly and as needed.

Compliance Risk Assessments

Annually, a compliance risk assessment is completed, which documents the firm-wide compliance profile, aids in the identification of existing and emerging compliance risks, and provides a comprehensive view of compliance risks and controls associated with BBVA US Operations. The risk assessment is facilitated by the use of a Governance, Risk Management, and Compliance ("GRC") tool. The GRC tool calculates a resulting residual risk rating based on the inherent risk rating and control environment rating. A five-tier scale of low, low-moderate, moderate, high, and critical is used for the risk rating. The residual risk rating band is used to determine where the compliance monitoring, compliance testing, and issue management resources and efforts should be focused. The completed risk assessment and the resulting compliance risk issues are leveraged as a source to determine the annual Compliance Testing and Monitoring Plans. With respect to fair lending, enhancements were made to the fair lending risk assessment process to effectively identify and document fair lending risks associated with pricing and underwriting.

Compliance Testing

The Compliance Testing scope consists of laws, rules, regulations and published regulatory guidance governing those business activities and processes conducted by the Bank. The residual risk ratings derived from the risk assessments are the primary driver for the frequency, or cycle, in which a review will be conducted and ensures that an appropriate focus is placed on regulatory requirements and associated processes based on their assessed level of risk. Other drivers include, but are not limited to, changes in the regulatory environment, new/changes to existing products and services, Internal Audit and regulatory exam results, and major system changes. The Compliance Testing Plan (the "Plan") is presented to C-ROC and the ACC for review and comment on a periodic basis. The Plan is updated during the year, as needed, according to changes in the risk environment. The Plan year typically begins on February 1 of each year and ends on January 31 of the following year.

Compliance Monitoring

The Compliance Monitoring program employs a risk-based approach in order to identify, document, track and report on monitoring activities that mitigate compliance risk and help ensure compliance with applicable laws, rules and regulations. With respect to fair lending monitoring, the following enhancements were implemented:

- Established annual and quarterly schedules and incorporated newly established threshold values to quantify levels of potential fair lending risks (*e.g.*, High, Medium, and Low), which will be reviewed annually to determine if adjustments are needed based on testing results; and
- Expanded quarterly monitoring and annual analyses to include Indirect Auto, Express Personal Loan and Small Business underwriting and pricing exceptions

Escalation and Reporting

US Compliance reporting is conducted through ongoing meetings and information received from various BBVA US entities, functional areas, and management. This information may be communicated through ad-hoc discussions, periodic meetings, or formal reporting. The CCO and the SLT regularly report material compliance matters to executive management and the Board or ACC. In addition to formalized reporting, the CCO has direct access to the US Country Manager and the Bank's CEO, all levels of executive management of the various BBVA US entities, and the ACC chairman at any time and for any purpose that the CCO deems necessary. Further, the CCO is a member of the Management Committee and voting member of the US Operations Committee.

Customer Compliance maintains a monthly Risk & Activity Report with material compliance matters related to consumer compliance, including self-discovered issues, monitoring, testing, complaint reviews and audit findings. Additionally, these issues are reported in the quarterly C-ROC meetings. An annual Customer Compliance & Fair Lending update is also provided to the ACC, along with an annual review and approval of the Fair & Responsible Banking Policy.

Fair Lending

The Bank's commitment to fair and responsible banking principals is demonstrated through various monitoring and auditing programs, in employee accountability and throughout the Bank's structure and organization. To that end, the Bank periodically conducts risk-based reviews of all relevant policies, procedures, models, pricing strategies, marketing, product specific promotional campaigns and training materials to ensure that the Bank's internal controls and employee training programs are current, appropriate and adequate. These risk-based reviews are conducted by the three lines of defense.

The annual or semi-annual fair lending analyses that involve statistical analysis or regression models are:

- Mortgage & Home Equity Lines of Credit (HELOC)
 - o Annual Underwriting & Pricing Analysis (model)
 - o Three-year Redlining Analysis (non-model)
- Indirect Auto
 - Annual Manual Decision Underwriting Analysis (model)
 - o Semi-annual Dealer Level Monitoring (non-model)
 - Annual Portfolio Level Dealer Mark-up (performed by a third party annually using a model)
- Small Business
 - Annual Market Penetration Analysis (non-model)
 - o Annual Underwriting & Pricing Analysis (performed by a third party using a model)

• Credit Card

- Annual Underwriting Analysis (model)
- o Annual Pricing Analysis (non-model)

Additionally, quarterly monitoring for the following areas is conducted to provide timely evaluation of potential fair lending risks without the use of regression models. Reporting thresholds are established to quantify potential fair lending risk into three (3) levels (High, Medium and Low).

Mortgage and HELOC

- HMDA Outcome Monitoring Monitors the denial rate, withdrawal rate, and incomplete rate by race, gender, and age groups
- Mortgage & HELOC Underwriting Exception Monitoring Monitors the mortgage and equity underwriting exception rate overall, and compares the exception rate among race, gender, and age groups
- Mortgage Pricing Exception Monitoring Compares the exception rate among race, gender and age groups
- Mortgage and HELOC Redlining Monitoring and Mapping Compares HMDA production in majority-minority census tracts ("MMCTs") for identified top CRA assessment areas ("AAs") to the peer data

Small Business

- o Small Business Underwriting and Pricing Exceptions
- Small Business Market Penetration Monitors CRA reportable loan distribution in MMCT for identified AAs from the annual analysis
- Credit Card Manual Decision Monitoring Monitors manual decision results by race (proxied), gender (proxied), and age
- Express Personal Loan (consumer unsecured) Underwriting and Pricing Exception Monitoring Monitors the underwriting and pricing exception rates, and compares the exception rate among race (proxied), gender (proxied) and age groups
- Indirect Auto Underwriting and Pricing Exception Monitoring Monitors the underwriting and pricing exception rates, and compares the exception rates among race (proxied), gender (proxied) and age groups

All the fair lending regression models (the analysis projects using regression models) are under the Bank's model governance framework, which is subject to model validation or review by the Bank's Model Validation Team.

Public Exhibit 15

Overview of PNC Environmental, Social Responsibility and Governance Practices

TO OUR STAKEHOLDERS:

To say that 2020 has been challenging would be an understatement. We are living in a truly extraordinary time and experiencing an unprecedented level of change — for our world, for our country and for our company. But as I have shared with our employees, it's in moments like this that we must move forward, focused on making the next right decision and fulfilling our obligations to each other, our customers, our communities and our shareholders.

Now more than ever, I'm grateful to lead a company that is built on a foundation of strong values and that is committed to looking out for the best interests of our key stakeholders. Because of these values and our focus on supporting the unique needs of each of our constituents, we're navigating this extraordinary time from a position of strength.

In this moment, as we find ourselves at the convergence of a global health crisis, economic decline and one of the most significant civil rights movements of our time, we have an opportunity. We have an opportunity to respond in a way that helps drive meaningful and sustainable change for those who need it the most. Not only

will we weather this storm, but we will come out even stronger and more resilient.

This moment matters. Our response matters. And I am stubbornly committed to making sure PNC gets it right.

In light of the current environment, we made the difficult decision to forgo publishing our full 2019 CSR Report, choosing instead to focus on our evolving response to both the COVID-19 pandemic and its economic impacts, as well as efforts underway to end systemic racism and empower Black Americans and low- and moderate-income communities.

That's not to say we've lost sight of the many ongoing issues that we have monitored and reported on over time. Those issues remain a priority. Managing climate risk, enabling sustainable finance, lending responsibly and supporting quality early childhood education — among other matters — are critical pieces of our commitments to our employees, customers, shareholders and communities. But as we react in real time to further strengthen our business and our company in the face of these unprecedented challenges, it's important for me to use this opportunity to share with you some of the steps we are taking to become ever more responsive to our stakeholders' most pressing concerns.

Our Commitment to Racial Justice

It is abundantly clear that our country has been unable to effectively address racism in its various forms, including discrimination, bigotry, unconscious bias, economic and health disparities, and violence. For this reason, living our values — particularly diversity and inclusion but also equity and mutual respect — has never been more critical.

PNC is against discrimination in every form. Embracing and promoting diversity, equity and inclusion is not about being

politically correct, or even about complying with the law. It's about being a better company, a better employer, a better neighbor and a better investment.

To that end, we have made considerable progress. Over the past few years, we have:

- Broadened our definition of diversity and inclusion to go beyond race, ethnicity and other factors to reflect the value of diverse perspectives and experiences
- Introduced and continued to refine a
 Diversity Trends Tool for managers
 that provides a view of talent trends
 and models how manager decisions
 influence diverse representation in
 hiring, promotions and terminations
- Incorporated "Includes Intentionally" as one of our Leadership Standards, which define the behaviors expected of all PNC leaders
- Trained 99% of people managers on unconscious bias and 97% of people managers on microbehaviors
- Achieved record high membership in our Employee Business Resource Groups (EBRGs) with 10,000 members, and more than 2,300 employees actively engaged in our EBRG mentoring programs

As we find ourselves at the convergence of a global health crisis, economic decline and one of the most significant civil rights movements of our time, we have an opportunity. This moment matters.

Our response matters. And I am stubbornly committed to making sure PNC gets it right.

Held our inaugural Black Leaders
 Forum in February 2020, with more than 130 leaders engaging in candid discussion on both our challenges and our opportunities in recruiting, advancing and retaining Black leaders and employees

Additionally, our commitment to diversity, equity and inclusion has helped to guide our efforts around economic empowerment:

- In 2019, PNC provided \$6.7 billion in small business loans, including nearly \$250 million in micro-lending to small businesses.
- Since 2016, we've provided financial education to more than 770,000 people.
- PNC has earned an "Outstanding" rating under the Office of the Comptroller of the Currency's Community Reinvestment Act (CRA) since those exams began more than 40 years ago.
- PNC Grow Up Great®, our multi-year, bilingual early childhood education initiative, focuses on helping children, families and others in diverse and low- and moderate-income neighborhoods. Since its 2004 inception, the program has benefited more than

6.6 million children through grants and educational programming.

Notwithstanding this significant progress, we must do more to help end systemic racism and drive change in the areas where we can have the greatest impact. We must continue to actively and consciously work toward equity, with kindness, compassion and — most importantly — a clear sense of responsibility.

In June 2020, PNC committed more than \$1 billion to help end systemic racism and support the economic empowerment of Black Americans and low- to moderate-income communities. As outlined in our announcement, the majority of this commitment will come to life through our work in community development banking. PNC's community development banking team works to boost the quality of life in low- and moderate-income neighborhoods through financial education, consumer programs, and community development lending and investing. Although our commitment to low- and moderate-income communities is not new, we are now approaching this work with a more deliberate focus on the Black community.

This commitment also encompasses \$50 million in additional charitable support for national and local work that will help eliminate systemic racism, promote social justice, expand financial education and workforce development initiatives, and enhance low-income neighborhood revitalization and affordable housing.

While more than \$1 billion in financial commitments is important, its impact is dependent on solid organizational infrastructure and clear accountability. To that end, PNC appointed Richard Bynum as the company's first Chief Corporate Responsibility Officer in July 2020. In this new role, Richard will serve as a member of PNC's Executive Committee, reporting directly to me.

Under Richard's leadership, our Diversity and Inclusion, Community Development Banking, and Community Affairs and Corporate Social Responsibility teams have been realigned to form a single organization. This will allow for a more efficient and seamless implementation of our \$1 billion commitment, among other benefits.

Given the critical role of this work — inclusive of our intensified focus on the recruitment, retention and advancement

of Black talent and enhancement of our internal systems to improve racial equality — we have formed a special sub-committee of the PNC Board of Directors to focus on equity and inclusion and to help oversee our efforts.

We also recognize that meaningful change requires a commitment from each and every one of us, and PNC employees are rising to the challenge, voicing their desire to support our efforts. Among other steps we have taken and will continue to take to engage our employees is our enhancement of our existing matching gift program to include qualifying nonprofit organizations that support economic empowerment and social justice educational efforts. In addition, PNC employees have the opportunity through our internal employee recognition system to earn Spotlight Points, which, if employees choose, can be used to make donations to nonprofit organizations. We've added recipient organizations working for civil liberties, racial and social justice, and equal access to education. Finally, we are expanding our volunteer time-off policy — previously focused exclusively on PNC Grow Up Great — to encompass qualifying social justice and economic empowerment nonprofits, giving

In June 2020, PNC committed more than \$1 billion to help end systemic racism and support the economic empowerment of Black Americans and low- to moderate-income communities. As outlined in our announcement, the majority of this commitment will come to life through our work in community development banking.

employees up to 40 hours of paid time off each year to volunteer in support of these causes.

Internally, we also are committing to an intensified focus on the recruitment. retention and advancement of diverse talent; a more comprehensive and sustained effort to create a more inclusive culture at PNC; and a focus on enhancing our internal systems to improve racial equity. As a first step, and building on our February 2020 Black Leaders Forum, thousands of employees participated in dialogue on diversity, equity and inclusion in sessions led by PNC leaders across the company. This included a series of virtual town halls led by members of PNC's Executive Committee. These sessions, open to all PNC employees, were designed to surface candid, transparent insights on the experiences of our colleagues, and what we as a company can do to drive meaningful change. Additionally, to further enhance transparency around our workforce demographic data, we will begin providing our EEO-1 data in calendar year 2021.

Our Effort to Address a Global Pandemic

As I mentioned earlier, our responsibility to support all of our stakeholders — from

our employees and customers to our communities and investors — has never been more important. As a bank, we recognize our role as a pillar of the communities we serve, and we are actively working to meet the unique needs of those affected by the economic disruption caused by the COVID-19 pandemic. Equally important, we have taken a number of steps to help ensure the safety of our employees and customers.

First, we implemented a work-from-home strategy for employees whose jobs can be performed remotely, and these employees will continue to perform their jobs remotely until at least January 2021. For team members who must be on site, we instituted a variety of safeguards, including temporary adjustments to retail branch access, operating primarily in drive-up-only mode; social distancing policies; and two-week, split-team rotations for frontline and operations employees, who received paid time off for the two-week periods when they were not on site. In addition, employees are also eligible for up to two weeks of paid time off for child or elder care.

Second, PNC helped thousands of business customers apply for emergency relief loans through the Federal Government's Paycheck Protection Program (PPP). Our employees worked tirelessly and often through the night to process these loan requests in accordance with the Small Business Administration's requirements, ultimately funding \$13.7 billion of PPP loans during the second quarter of 2020.

I would be remiss if I did not acknowledge PNC's Technology & Innovation employees, who were critical in allowing us to register these loans. In what would normally have taken months to complete, they developed a digital online PPP loan application portal, creating a start-tofinish digital process for applying, registering, underwriting, electronically signing, and automatically funding and booking PPP loans — in just days.

As the PPP program prepared to launch in early April, it became clear that our Business Banking Lending Center team, which normally handles small business loans, would need additional support. My leadership team and I put out a companywide emergency call for help and thousands of employees responded.

Approximately 10% of the PNC workforce either took on extra work and hours or pivoted completely from their day jobs

Approximately 80% of the Paycheck Protection Program loans that PNC registered with the Small Business Administration were for amounts of \$150,000 or less, and the average loan size was less than \$185,000.

to a variety of tasks associated with booking and processing PPP loans. These actions were enabled by the willingness of other PNC team members to provide coverage for their re-assigned teammates.

PNC's response to increased demand for these loans highlights our ability to support the small businesses in communities across our footprint. Of the more than 73.000 PNC PPP loans processed and registered with the Small Business Administration:

- 85% were from PNC's Business Banking segment, which serves businesses — including nonprofits, sole proprietors and independent contractors — with less than \$5 million in annual revenue.
- Approximately 80% of these registered loans were for amounts of \$150,000 or less, and the average loan size was less than \$185,000.

• More than 15.800 of the loans were for borrowers located in low- to moderate-income census tracts, and more than 4,500 of the registered loans were for nonprofit organizations.

To further support small businesses that may lack access to traditional financial institutions. PNC committed more than \$50 million to eight Community Development Financial Institutions (CDFIs) throughout the country to support CDFI origination of PPP loans in potentially underserved geographies and sectors.

The first PNC customers received PPP loan funding on April 12 — a Sunday which was possible using PNC's 24-hours-a-day, 7-days-a-week, Real-Time Payments (RTP). More than 95% of PPP payments were made via RTP, providing immediate relief to small business customers in need.

In April 2020, PNC announced a \$30 million philanthropic commitment to support communities in their efforts to respond to the economic and societal effects of the pandemic. Under the leadership of our Regional Presidents, each PNC market identified grant opportunities that provide the greatest local impact in the areas of food insecurity and shelter; early education; and online resources that enhance access to information, programs and tools for those in need. The \$30 million will be dispersed by the end of 2020.

Good Stewards of Capital

In May 2020, we announced that PNC would sell its nearly 22% stake in BlackRock. We sold all but 500.000 shares, which were donated to the PNC Foundation.

The \$14 billion realized in the sale further strengthens PNC's ability to support its customers, communities, employees and shareholders during the economic downturn caused by the COVID-19 pandemic. With the fairly substantial and sustained disruption across the financial landscape, the BlackRock sale also positions PNC to maneuver offensively, bolstering its already healthy position from a capital and liquidity perspective.

As good stewards of shareholder capital, we have consistently reviewed options to unlock the value of our investment in BlackRock. Doing so now allows us to realize a substantial return on our investment, leaving PNC very wellpositioned to take advantage of potential investment opportunities that history has shown can arise in disrupted markets.

2019 Progress

In many ways, 2019 feels like a lifetime ago, but we recognize that providing our stakeholders with continuity of our progress is important, even in the face of shifting societal pressures. We're pleased to be including our 2019 scorecard in this document, which provides a road map of how PNC is progressing against several

key environmental, social and governance (ESG) metrics over time.

In 2019, we again delivered excellent financial results, navigating the rapidly changing landscape across our industry while building on our legacy of creating positive impacts across our markets. We helped our clients achieve their financial goals in convenient, secure and rewarding ways. We invested substantially in the health, wellness, long-term financial well-being and development of our employees. And we worked with our partners — employees, investors and community organizations across the country — to build vibrant, healthy, sustainable communities.

Our team's commitment to this work has not gone unnoticed. We were the highest-rated bank on Barron's 100 Most Sustainable Companies list in 2019 and included in Newsweek's 2019 list of America's Most Responsible Companies. We were ranked #1 by CreditSights in the inaugural launch of their ESG model for regional banks. And we score in the top 10% on State Street's R-Factor, a tool used to measure the performance of a company's business operations and governance as it relates to financially material ESG challenges.

Creating Impact for Customers

Our customers have very diverse needs, and we're proud to serve all of them. We design our services and facilities to be inclusive for customers at every level of income, physical ability and stage of life. As our customers' needs shift, we listen and evolve our offerings accordingly.

In 2019, we were named a leading bank for services ranging from credit cards to loans to accounts for students by various publications and research organizations. We saw our Net Promoter Score a measure we use to track customer satisfaction — rise. And we continued the digital expansion of our national retail banking business launched in recent years to respond to changing consumer preferences and the opportunity to participate in new markets.

In our Corporate & Institutional Banking (C&IB) business, we strengthened our commitment to sustainable finance by enhancing our Responsible Investing strategy and establishing a Renewable Energy Financing Group, focused on financing solar and wind projects. In 2019, we were only the third U.S. bank to issue a green bond, raising \$650 million to support initiatives aligned with the transition to a low-carbon economy.

DISABILITY:IN'S 2019 EMPLOYER OF THE YEAR

We've leveraged what we've learned to establish a Sustainable Finance practice within our Debt Capital Markets team, focused on advising our clients on issuing their own sustainability-focused debt.

Our customers also trust us to keep their financial transactions convenient and safe, a responsibility that we keep top of mind in every decision we make. We continue to invest in advanced data security and privacy tools, including an advanced platform that analyzes transactions for suspicious activity and systems that are designed to protect against identity theft and fraudulent

account openings by improving our ability to validate customers' identities.

Creating Impact for Communities

We take pride in how we serve the communities where we do business, and treat each market we enter as a home town. That means listening carefully, making important decisions locally, and investing consistently in early childhood education, arts and culture, and economic development initiatives, among other priorities.

In 2019, we contributed more than \$80 million in philanthropic funds to

many worthy community organizations, and facilitated community development through innovative programs like our Opportunity Zone Fund, which financed projects from business incubators to affordable housing in low- to moderate-income communities.

Also, PNC Grow Up Great, our signature philanthropic program in early childhood education, celebrated its 15th anniversary in 2019, which we commemorated with new educational resources and an additional \$150 million in funding to extend the program, now a \$500 million initiative. In 2019 alone, the PNC

Foundation awarded more than \$18 million in grants, and our employees volunteered more than 123,000 hours to support Grow Up Great.

Creating Impact for Employees

We are committed to ensuring a diverse, inclusive and equitable workplace where employees at all stages in their careers have opportunities to grow. This commitment begins at the very top of our organization, with a focus on building and maintaining a diverse Board of Directors — women comprise 33% of our independent Board Directors and people of color 25%. And I'm proud that PNC's

executive leadership team continues to be increasingly diverse, with four of my 11 direct reports being women and two being people of color.

We're focused on developing stronger talent pipelines, mentorship programs, training and leadership development tools, and better feedback systems that help us listen carefully to employees' needs and monitor the quality of management they're receiving. In addition, we are fully committed to pay equity and regularly review our pay practices to ensure that employees are being compensated fairly and consistently across roles. Pay equity also plays a critical role in creating an inclusive culture and attracting and retaining diverse talent so that we can better compete in the marketplace, which are key elements of our Talent-Focused Culture. We are proud that, on average among our employees, women are paid 99% of what men are paid and minorities are paid 100% of what non-minorities are paid within like roles. Our pay analysis accounts for factors such as time in job, performance and geography.

In 2019, our efforts to create an inclusive culture, including our LGBTQ+ supportive policies and resources for employees with

a disability, earned us numerous third-party accolades. And since 2015, the percentage of women represented at each level of seniority in our organization has risen between 2% and 6%, and the percentage of people of color at each level of seniority has risen between 2% and 4%. Nearly all of our people managers participated in unconscious bias and microbehaviors trainings during 2019, and we plan to extend this training to all employees in 2021.

We also saw increases in the number of employees participating in Employee Business Resource Groups, taking advantage of the 40 hours of paid time off offered for PNC Grow Up Great volunteering, and providing positive feedback through internal surveys, indicating our investment in creating an engaged workforce is yielding results.

Creating Impact for Investors

Our goal is to return value to our shareholders in ways that inspire confidence in our governance, business strategy and day-to-day operations. We actively manage ESG risk at both the transaction and the portfolio levels, demonstrate transparency around climate risk, and work to ensure that our Board of Directors has the diversity, knowledge and experience to provide effective guidance and oversight in rapidly changing times.

We're eager to engage directly with our stakeholders on ESG issues, and meet with a number of investors, community activists and others throughout the year. Our philosophy when it comes to stakeholder engagement — whether in conversation with investors, activists. community-based organizations or our own employees — is to be transparent about our processes and procedures; to listen, share and learn; and to use what we've learned to make the best possible decisions for PNC and all of our stakeholders.

When it comes to making lending decisions within our C&IB business. it's important to us that our business decisions are aligned with our public ESG commitments and with our corporate values. Our stakeholder engagement process allows us to collect feedback from concerned parties, and we pair this feedback with our Environmental & Social Risk Management framework, which is designed to help us manage and monitor the environmental, human rights and other social risks within our C&IB business.

In 2019, we developed employee training on our Environmental & Social Risk Management framework for C&IB employees. Designed to be modular, the framework can be enhanced as new issues arise that are material to our industry, and provides us with a quick way to inform employees about changes in our approach. For example, careful review of the industries in which we have exposure led us to a decision to not extend new credit to customers operating private prisons. Conversely, in consultation with a local community group, we reviewed our exposure to the nuclear weapons industry. PNC's exposure to this industry is extremely small and focused on large, diversified firms involved in many industries beyond nuclear defense, including things like commercial aircraft, manufacturing, infrastructure, healthcare, renewable energy and watershed management. These are not industries that stand in opposition to our ESG commitments or corporate values, and no changes were proposed as a part of our review.

To help us stay on course in managing sustainability issues, in 2019 we joined the CERES Company Network a respected cohort of responsible

companies partnering to advance sustainability performance. And in keeping with our commitment to transparency and supporting the transition to a low-carbon economy, we formally endorsed the recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD) and have begun assessing the work necessary to integrate the recommendations into our business operations. We also set a goal to purchase 100% of our electricity from renewable sources by 2025, which is in addition to our goals to reduce our greenhouse gas emissions, and our use of energy and water.

2020 and Beyond

As we move forward, we remain committed to constantly engaging all of our stakeholders, being as transparent as possible, and using what we learn to better look after our business, our employees, our clients, our communities and our environment.

Thank you for your continued partnership. Your engagement will be crucial to our progress moving forward. Complex problems require collaboration and conversation, and we'll continue to need your help in understanding and

responding to the important ESG and business matters that lie ahead.

We don't have all the answers to the challenges facing our country today, or those we will face in the future. But we are committed to acting on and influencing what is within our control.

This moment matters. It matters that we commit to listening and learning. Most importantly, it matters that we commit to doing, based on what we learn from our employees, our clients, our investors and our communities.

As always, I welcome your feedback on our progress, challenges and opportunities to create new and greater impacts together.

PNC BSA/AML/Sanctions Compliance Program Overview

PNC BSA/AML/Sanctions Compliance Risk Management Program Overview

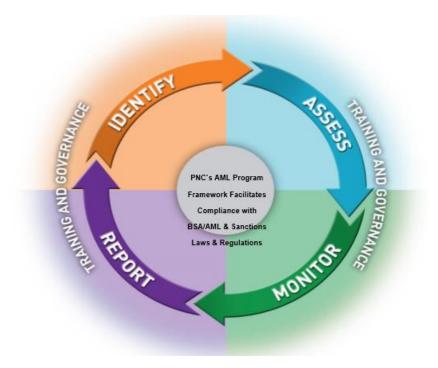

PNC maintains a robust program for compliance with the laws and regulations concerning the Bank Secrecy Act ("BSA"), anti-money laundering ("AML"), counter-terrorist financing, economic and trade sanctions ("Sanctions") and financial crimes ("BSA/AML/Sanctions Compliance Program" or "Program"). The BSA/AML/Sanctions Compliance Program is designed to meet all the legal and regulatory requirements, and follow the related guidance of, the Office of the Comptroller of the Currency, the Federal Reserve Board and the U.S. Department of the Treasury ("Treasury"), including Treasury's Financial Crimes Enforcement Network bureau ("FinCen") and Office of Foreign Assets Control ("OFAC"), in all jurisdictions in which it operates. The Program is intended to also (i) protect PNC's reputation and minimize the likelihood that it is exploited by criminals and parties with which it is prohibited by law or regulation from doing business, (ii) help ensure PNC is operating in a manner consistent with its business strategy and risk appetite, and (iii) comply with applicable regulatory and supervisory guidance.

PNC continues to administer the BSA/AML/Sanctions Compliance Program and prioritize the important objectives associated with maintaining the integrity of the financial system as a whole, protecting our national security, and making appropriate referrals to law enforcement. PNC administers the Program in a safe and responsible manner, leveraging more than 900 fully-dedicated, appropriately-trained and highly knowledgeable professional employees across the company's BSA/AML/Sanctions ecosystem.

PNC has a written BSA/AML/Sanctions Compliance Program (including a Customer Identification Program) approved by the Compliance Subcommittee of the Board of Directors ("Board"). The Board has appointed a Chief BSA/AML Officer that possesses the necessary authority and resources to effectively execute all assigned duties. The BSA/AML Officer is supported by an experienced, knowledgeable, and competent team of AML and sanctions managers. The program and execution approach aligns with PNC's enterprise-wide defined risk and control framework components, as defined by enterprise risk management and operational risk standards consistent with heightened standards and leverages all three lines of defense. PNC has successfully managed its BSA/AML/Sanctions Compliance obligations for several decades with a "duty of care" approach. PNC's management team, with deep industry experience, applies a continuous improvement philosophy and designs program controls in order to ensure adherence with both legal requirements and PNC's defined business strategy and risk appetite.

All employees are required to complete enterprise-wide BSA/AML/OFAC Compliance training annually. Line of business specific BSA/AML/Sanctions Compliance training courses are tailored to employee roles, responsibilities and business segments. Training is also provided to the Board. Relevant information, including Suspicious Activity Reporting information, is provided to senior management and the Board on a regular basis. PNC has a distinct Independent Testing and Internal Audit function to evaluate BSA/AML/Sanction Compliance throughout the organization, and they maintain the appropriate qualifications, expertise and staffing levels.

The Bank leverages a vibrant program-level risk assessment process and Risk and Control Self Assessments process to identify, escalate, control and remediate important AML issues.

PNC maintains an enterprise-wide transaction monitoring system to detect potential suspicious activity. The system consists of specific scenarios and algorithms common to the banking industry and further supplements the vendor package with a series of rules and monitoring techniques specific to PNC's risk profile and customer base, and which is shaped by its investigative experience. These systems and rules are documented, regularly tuned by quantitative analysts and validated by the Model Risk Management team within Independent Risk Management. PNC maintains similar systems and controls to conduct regular screening to ensure compliance with Sanctions and OFAC requirements for all areas in which it operates.

The Enterprise Chief BSA/AML Risk Officer has directed the establishment of an Enterprise SAR Office ("ESO") that provides governance and administrative controls for filing Suspicious Activity Reports ("SARs"). The ESO is responsible for establishing enterprise-wide filing standards in alignment with those of the applicable law enforcement agencies, federal regulators, and PNC requirements. These standards include establishing PNC's reporting format, performing quality assurance reviews, conducting administrative filings, developing summary reporting of filings, and executing Escalated Risk Analysis Working Group functions. PNC entities are required to file an initial SAR no later than 30 calendar days from the date of the initial detection of facts that may constitute the basis for filing. If no suspect can be identified and additional investigation is required, the SAR must be filed within 60 days of the date of the initial detection of facts. In situations involving violations that require the immediate attention of law enforcement, PNC will immediately notify, by telephone, an appropriate law

enforcement authority in addition to filing a SAR. All situations involving immediate law enforcement notification must be coordinated through the Enterprise Chief BSA/AML Risk Officer.

When a PNC entity files a SAR and the account remains open, it must continue to monitor account activity to identify any additional suspicious activity for a 90-day period. If suspicious activity continues, PNC must file a Continuing Activity Report ("CAR") to report the suspicious activity. FinCEN's deadline for filling a CAR is 120 days. However, to reduce the risk of a late CAR filing, PNC has established a 110-day threshold as policy. Relevant information is summarized and discussed with management and the Board at least quarterly.

PNC Internal Audit has a dedicated Assistant General Auditor ("<u>AGA</u>") and team responsible for strategy and coverage of BSA/AML/Sanctions Compliance ("<u>BSA/AML Audit Team</u>"). The BSA/AML Audit Team provides coverage for both the design of the enterprise programs and governance of BSA/AML/Sanctions Compliance risks, as well as the execution and effectiveness of controls across all PNC lines of business. The BSA/AML Audit Team partners with line of business audit teams to ensure appropriate assessment of risks and independent audit testing of relevant controls.

In addition to adhering to departmental audit standards and processes, the BSA/AML Audit Team employs additional standards and processes aimed at ensuring effective control testing and coverage of BSA/AML/Sanctions Compliance risk. The team generally adheres to a three-year audit cycle, as opposed to the four-year cycle generally adhered to by the department. The team employs additional controls to ensure adequate consideration of all applicable Federal Financial Institutions Examination Council BSA/AML Examination Manual standards and guidance. In addition, the team employs supplemental processes to promote effective, risk-based testing as well as strong AGA oversight over all phases of the audit work.

With regard to reporting, in addition to audit reports issued to PNC management and other department-standard reporting to the Audit Committee of the Board, the BSA/AML Audit Team issues quarterly and annual reports to the Board summarizing the audit work performed and the results of such work, as well as any relevant themes or trends. The annual report includes an opinion assessing PNC's BSA/AML/Sanctions Compliance Program, as well as an opinion assessing PNC Bank's compliance with the applicable statutory BSA/AML program requirements.

Public Exhibit 17

BBVA Bancshares BSA/AML/Sanctions Compliance Program Overview

BBVA USA BSA/AML/OFAC Compliance Program Overview

BBVA, S.A. ("BBVA Group") operates in the U.S. ("BBVA US Operations") under the governance and oversight of the board of directors of BBVA USA Bancshares, Inc. ("BBVA Bancshares"). BBVA US Operations has established a BSA/AML/OFAC Compliance Risk Management Program to provide firm-wide management and oversight of BSA/AML/OFAC Compliance risk across BBVA US Operations and its subsidiaries operating in the U.S. (the "US Program"), including: BBVA Bancshares; BBVA USA (the "Bank") and its operating subsidiaries, such as Simple, BBVA Wealth Solutions ("BWS"), BBVA Insurance Agency ("BIA") and the technology companies (e.g., Open Platform and Azlo); and BBVA Transfer Holdings, Inc. ("BTS").

The US Program applies to all facets of BBVA US Operations, including onboarding, transactional monitoring, and reporting associated with the prevention of money laundering, terrorist financing, and sanctions imposed by national and international law. The US Program utilizes a risk based approach and risk assessment methodology to establish the risk profile of BBVA US Operations. Further, the US Program provides the framework for adherence to BSA/AML/OFAC regulatory requirements, policies and procedures through effective risk management and mitigation.

The US Program is designed to comply with all BSA/AML/OFAC laws, regulations and guidelines and provides for the following requirements for each US entity:

- 1. Establish an AML program covering the required five pillars of a program including:
 - A system of internal controls to assure ongoing compliance;
 - Independent testing for compliance to be conducted by bank personnel or by an outside party;
 - Designation of an individual or individuals responsible for coordinating and monitoring day-to-day compliance ("BSA Officer");
 - Training for appropriate personnel; and,
 - Appropriate risk-based procedures for conducting ongoing customer due diligence and enhanced due diligence ("<u>CDD/EDD</u>"), a Customer Identification Program ("<u>CIP</u>"), and collection of Beneficial Ownership Information.
- 2. Establish due diligence policies, procedures and controls with respect to private banking accounts and correspondent banking accounts involving foreign individuals and certain foreign banks; and
- 3. Avoid establishing, maintaining, administering, or managing correspondent accounts in the US for or on behalf of a foreign bank that does not have a physical presence in any country.

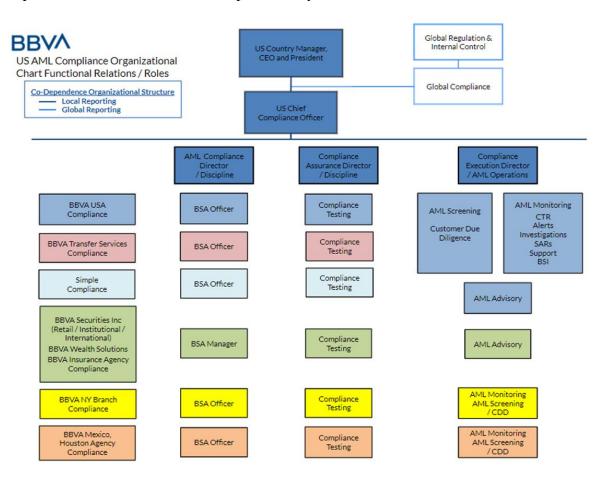

The BBVA US entities are committed to complying with all legal requirements, business standards and ethical codes of the financial services industry. Each entity maintains policies, procedures, and processes for complying with the requirements of the US Program. Details regarding the implementation and execution of the US Program are discussed below.

Overview of the Bank's BSA/AML/OFAC Compliance Program

The Bank's BSA/AML and Sanctions Compliance Policy (the "BSA Policy") establishes the Bank's Program for compliance with the Bank Secrecy Act (the "BSA"), anti-money laundering ("AML") and Office of Foreign Assets Control ("OFAC") sanctions (the "AML Program") and outlines the pillars of the program, as outlined in the US Program described above. The AML Program is executed via a risk-based approach that includes a risk assessment methodology to establish the risk profile. The AML Program outlines risk mitigation and management strategies and guidance on compliance with BSA/AML/OFAC regulatory requirements and policies. The AML Program is directed by the Audit and Compliance Committee ("ACC"), as designated by the Bank's board of directors, to promote and supervise the Bank with independence and objectivity in areas such as the prevention of money laundering, counter-terrorist financing and sanctions compliance.

Organization

The AML Program is led by the Director of AML Compliance ("<u>AML Director</u>"), who reports to the US Chief Compliance Officer ("<u>CCO</u>"). BSA Officers are appointed for each entity by their respective boards of directors and report directly or via dotted line to the AML Director.

The AML Program documents roles, responsibilities and governance protocols through which execution occurs. The Bank's Executive Management is responsible for establishing procedures that drive operations and business practices that reflect the Bank's commitment to AML, counter-terrorist financing and sanctions compliance, as well as adherence to all related policies, programs and protocols. The success of the AML Program is the responsibility of the entire organization.

Governance is organized through a series of committees that ultimately report to the BBVA Bancshares board of directors. The ACC of BBVA Bancshares annually approves the Bank's BSA/AML and Sanctions Compliance Policy as designated in the BBVA Bancshares board of directors' charter and receives quarterly AML Program reports. The ACC is ultimately responsible for ensuring that the Bank maintains an effective AML Program, by providing oversight and holding senior management accountable for adherence.

The BBVA US Operations Committee, a management committee, has the responsibility for overseeing the compliance and maintenance of the controls associated with executing the strategy for BBVA US Operations and receives quarterly, and as needed, AML Program reports, as well as reviews AML Program documentation.

Additionally, two other management committees, the Compliance Risk Oversight Committee and the Financial Crimes Compliance Risk Oversight Committee, receive and review quarterly AML Program reports and review AML Program documentation annually and as needed.

AML Program execution is accomplished through the three lines of defense system whereby first, second and third line functions have specific roles and responsibilities. The lines of business and operational functions across the Bank are the first line of defense and are owners and managers of the unique compliance risk within each unit. Management and individual employees within each unit are responsible for the identification, assessment, mitigation, monitoring and reporting of compliance risks taken by the lines of business, consistent with the Bank's risk appetite, the current regulatory model for these risks and any material failures that may occur.

The US Compliance function represents the second line of defense and provides oversight of the AML Program. The AML Director and the AML Discipline Leaders apply specialized knowledge to the Bank's strategic agenda and develop and maintain models, policies and methodologies that adhere to the BSA, OFAC and CDD/EDD requirements, and all AML-related rules and regulations. The Compliance Execution function is responsible for the operational aspects of the AML Program, such as, but not limited to, reviews, investigations, filing currency transaction reports ("CTRs") and suspicious activity reports, CIP, CDD/EDD continuous monitoring, OFAC/Sanctions monitoring and annual training.

Internal Audit represents the third line of defense and provides the necessary independent review and reporting of processes, systems and control testing that is required for an effective program.

Independence of the Compliance Function

To ensure accountability exists between the AML Program and the support staff with operations and the business line, a separation of duties is maintained. The AML Director, working in cooperation with the CCO, is the authority on BSA/AML matters at the Bank and provides guidance to the first line of defense. A clear distinction is made between supporting the strong adherence to the BSA/AML/OFAC rules and regulations and business line strategic goals. Accordingly, the AML Director is able to freely report with transparency any issues pertaining to BSA/AML/OFAC risks and mitigating factors to the AML Program.

To further the independence of the BSA/AML/OFAC compliance staff, compensation is based on the overall performance of the Bank and not the success of a particular business line or product.

Oversight

The Bank's Executive Management is responsible for establishing procedures that drive operations and business practices that reflect the Bank's commitment to AML, counter-terrorist financing and sanctions compliance, as well as adherence to the BSA Policy. Annually, the ACC, as delegated by the board of directors, reviews and approves the BSA Policy and appoints the BSA Officer. Prior to submission to the ACC, the Compliance Risk Oversight Committee, of which the AML Director is a voting member, reviews AML Program documentation to ensure alignment with all other Compliance policies, programs, methodologies, etc.

Also, the AML Director chairs the quarterly meetings of the US Financial Crimes Compliance and Risk Committee (the "FCC-ROC"), which oversees the risks associated with fraud, AML, cyber-crimes and sanctions. The reporting includes BSA/AML and OFAC metrics used to monitor the program, including currency transaction reporting, suspicious activity reporting, and sanction rejected transactions or blocked accounts.

Escalation Protocols

The CCO and the AML Director regularly report material AML compliance matters to executive management, relevant committees and the ACC. In addition to formalized reporting, information may be communicated through ad-hoc discussions or periodic meetings. Typically, issues are escalated to the AML Director and CCO and through the appropriate governance, as applicable.

Risk Assessments

The Bank developed a BSA/AML risk assessment process that is facilitated by the use of the GRC system (BWise) and data collected from core systems throughout the Bank. BWise provides a standardized method to identify and measure money laundering risks. The BSA/AML risk assessment process is performed in accordance with Federal Financial Institutions Examination Council BSA/AML Examination Manual as guidance. On an annual basis, the evaluation of the risk types are consolidated to create the Bank's BSA/AML Risk Assessment.

Upon completion, the Bank's BSA/AML Risk Assessment is presented to the C-ROC, the FCC-ROC, BBVA US Operations and the ACC.

The Bank uses three primary risk factors to assess its overall BSA/AML exposure. The risk factors are equally weighted and include customers, geographies, and products and services. Within each of the three primary risk factors, sub-risk factors are identified, scored and averaged to determine the rating for the primary risk factors. Each of the primary risk factor ratings is then averaged to determine the overall BSA/AML risk exposure. The BBVA US BSA/AML Risk Assessment Methodology uses seven inherent risk elements to assess its overall Inherent Risk Score. The risk elements include management oversight, staffing resources, systems, policies and procedures, monitoring, processes and training. Each risk element is given a rating, inherent risk points are awarded, and the points are totaled to create an Inherent Risk Score. The Control Environment Rating is determined by evaluating the adequacy of the controls in place to mitigate the inherent risk exposure and a Control Mitigation Score is generated based on the ratings of each Control Pillar. The Residual Risk Score is determined by subtracting the Control Mitigation Score from the Inherent Risk Score.

Additionally, the Bank performs an annual risk assessment based on the risks associated with OFAC and sanctions processes using BWise and seven inherent risk elements to assess its overall OFAC risk exposure, similar to the BSA/AML risk assessment process.

Training

AML training is assigned to all employees as part of the Annual Compliance Training plan. Bank executives and employees are assigned mandatory annual BSA/AML and OFAC online via the Learning Management System, Campus BBVA. Additional BSA/AML and OFAC training is assigned to employees based on job function. The AML Director also provides annual training to the Bank's board of directors.

Monitoring and Controls

The BSA Policy outlines the CIP and CDD/EDD requirements for onboarding and continuous monitoring of customer risk, including both documentary and non-documentary procedures to ensure the Bank knows the customer's identity and source of funds.

The Bank developed and implemented an AML Program that is consistent with its size, location and activities. The AML Director is responsible for the development of the program, which includes appropriate procedures and controls to avoid use of the Bank as a facility for money laundering, terrorist financing or other potential illicit activity.

• Customer-facing personnel (e.g., branch employees, relationship bankers, etc.) serve as the first line of defense in the Bank's efforts to identify and report unusual activity. As such, employees play a critical internal control role. Bank employees who are involved in opening accounts, managing accounts, or accepting and processing customer accounts or service transactions, adhere to specified account opening procedures and monitor customers and customers' account activity for red flags indicative of money laundering and/or terrorist

funding activities. Upon identification of any unusual activity, employees are required to report all such instances to the Bank's AML Monitoring Execution team. Employees are specifically trained to recognize and report such activity.

• The Bank's AML Director and AML Execution teams serve as the secondary lines of defense against possible use of the Bank as a money laundering vehicle. AML Execution teams are responsible for the review of multiple information systems that are specifically designed or utilized to identify money laundering red flags or other unusual activity.

The Bank maintains controls and procedures to aggregate cash transactions for CTRs qualify customers for CTR exemptions, and to identify, report and file suspicious transactions in a timely manner. The Oracle Financial Crime Compliance Management CTR and AML modules are the primary tools utilized.

Further, the Bank maintains procedures to ensure updates to OFAC country restrictions and specially designated nationals ("SDN") lists. All new and existing accounts/relationships (including account maintenance), vendors and employees are screened against the OFAC SDN list nightly. If a transaction or account is found to violate OFAC regulations, it is blocked, rejected or restricted. If either an account or transaction is required to be blocked/frozen, the related funds are moved to a specially designated OFAC Blocked Funds Holding Account, from which only specially designated Bank Compliance personnel are able to debit. If a transaction or account is required to be rejected, the funds or other property in question are returned to the originator.

Compliance Testing and Internal Audit

Compliance Testing (a second line function) and Internal Audit (a third line function) review the execution of AML Program annually to ensure compliance by both the first and second line of defense activities. Upon completion of corrective actions there is a validation performed to close the issues or findings.

PNC and BBVA Bancshares FR Y-15 Systemic Risk Reports

Board of Governors of the Federal Reserve System

Systemic Risk Report—FR Y-15

Report at the close of business as of the last calendar day of the quarter.

This Report is required by law: Section 5 of the Bank Holding Company Act of 1956; section 10(b) of the Homeowners' Loan Act; and section 8 of the International Banking Act of 1978.

The Federal Reserve may not conduct or sponsor, and an organization (or a person) is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: Each banking organization's board of directors and senior management are responsible for establishing and maintaining an effective system of internal control, including controls over the Systemic Risk Report. The Systemic Risk Report is to be prepared in accordance with instructions provided by the Federal Reserve System. The Systemic Risk Report must be signed and attested by the Chief Financial Officer (CFO) of the reporting banking organization (or by the individual performing this equivalent function). For foreign banking organizations, the Systemic Risk Report must be signed and attested by an authorized officer of the foreign banking organization.

I, the undersigned CFO (or equivalent/authorized officer) of the named banking organization, attest that the Systemic Risk Report (including the supporting schedules) for this report date has been prepared in conformance with the instructions issued by the Federal Reserve System and is true and correct to the best of my knowledge and belief.

Robert Q. Reilly

Schedule A—Size Indicator

U.S	. Dollar Amounts in Thousands	RISK	Amount	
Total Exposures				
Derivative exposures:				
a. Current exposure of derivative contracts		M337	6,431,846	1.a.
b. Potential future exposure (PFE) of derivative contracts		M339	1,609,613	1.b.
c. Gross-up for derivatives collateral		Y822	0	1.c.
d. Effective notional amount of written credit derivatives		M340	0	1.d.
e. Cash variation margin included as an on-balance sheet receivable	e	Y823	0	1.e.
f. Exempted central counterparty legs of client-cleared transactions inclu	ded in items 1(a) and 1(b)	Y824	0	1.f.
g. Effective notional amount offsets and PFE adjustments for sold c	redit protection	Y825	0	1.g.
h. Total derivative exposures (sum of items 1.a. through 1.d, minus	the sum of			
items 1.e through 1.g)		Y826	8,041,459	1.h.
2. Securities financing transaction (SFT) exposures:				
a. Gross SFT assets		M334	1,464,568	2.a.
b. Counterparty credit risk exposure for SFTs		N507	11,210	2.b.
c. SFT indemnification and other agent-related exposures		Y827	0	2.c.
d. Gross value of offsetting cash payables		Y828	0	2.d.
e. Total SFT exposures (sum of items 2.a through 2.c, minus item 2	.d)	Y829	1,475,778	2.e.
3. Other on-balance sheet exposures:				
a. Other on-balance sheet assets		Y830	445,978,220	3.a.
b. Regulatory adjustments		M349	9,222,015	3.b.
4. Other off-balance sheet exposures:				
a. Gross notional amount of items subject to a 0% credit conversion	factor (CCF)	M342	50,689,710	4.a.
b. Gross notional amount of items subject to a 20% CCF		M718	30,100,875	4.b.
c. Gross notional amount of items subject to a 50% CCF		M346	108,540,077	4.c.
d. Gross notional amount of items subject to a 100% CCF		M347	22,396,478	4.d.
e. Credit exposure equivalent of other off-balance sheet items (sum	of 0.1 times item 4.a,			
0.2 times item 4.b, 0.5 times item 4.c, and item 4.d)		Y831	87,755,663	4.e.
5. Total exposures prior to regulatory deductions (sum of items 1.h, 2.	e, 3.a, and 4.e)	Y832	543,251,120	5.
		0	D=No RISK	
6. Does item 5 represent an average value over the reporting period? (Enter "1" for Yes; enter "0" for No	0.) [1	I=Yes FC52 1	6.

Optional Narrative Statement

The management of the reporting banking organization has the option to submit a public statement regarding the values reported on the FR Y-15. The statement must not contain any confidential information that would compromise customer privacy or that the respondent is not willing to have made public. Furthermore, the information in the narrative statement must be accurate and must not be misleading.

The statement may not exceed 750 characters, including punctuation, indentation, and standard spacing between words and sentences. Statements exceeding this limit will be truncated at

750 characters with no notice to the respondent. Other than the truncation of statements exceeding the character limit, the statement will appear on agency computerized records and in releases to the public exactly as submitted. Public disclosure of the statement shall not signify that a federal supervisory agency has verified the accuracy or relevance of the information contained therein.

If the respondent elects not to make a statement, the item should be left blank (i.e., do not enter phrases such as "No statement," "Not applicable," "N/A," "No comment," or "None").

Board of Governors of the Federal Reserve System

Systemic Risk Report—FR Y-15

Report at the close of business as of the last calendar day of the quarter.

This Report is required by law: Section 5 of the Bank Holding Company Act of 1956; section 10(b) of the Homeowners' Loan Act; and section 8 of the International Banking Act of 1978.

The Federal Reserve may not conduct or sponsor, and an organization (or a person) is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

NOTE: Each banking organization's board of directors and senior management are responsible for establishing and maintaining an effective system of internal control, including controls over the Systemic Risk Report. The Systemic Risk Report is to be prepared in accordance with instructions provided by the Federal Reserve System. The Systemic Risk Report must be signed and attested by the Chief Financial Officer (CFO) of the reporting banking organization (or by the individual performing this equivalent function). For foreign banking organizations, the Systemic Risk Report must be signed and attested by an authorized officer of the foreign banking organization.

I, the undersigned CFO (or equivalent/authorized officer) of the named banking organization, attest that the Systemic Risk Report (including the supporting schedules) for this report date has been prepared in conformance with the instructions issued by the Federal Reserve System and is true and correct to the best of my knowledge and belief.

Optional Narrative Statement

The management of the reporting banking organization has the option to submit a public statement regarding the values reported on the FR Y-15. The statement must not contain any confidential information that would compromise customer privacy or that the respondent is not willing to have made public. Furthermore, the information in the narrative statement must be accurate and must not be misleading.

The statement may not exceed 750 characters, including punctuation, indentation, and standard spacing between words and sentences. Statements exceeding this limit will be truncated at

750 characters with no notice to the respondent. Other than the truncation of statements exceeding the character limit, the statement will appear on agency computerized records and in releases to the public exactly as submitted. Public disclosure of the statement shall not signify that a federal supervisory agency has verified the accuracy or relevance of the information contained therein.

If the respondent elects not to make a statement, the item should be left blank (i.e., do not enter phrases such as "No statement," "Not applicable," "N/A," "No comment," or "None").

Public Exhibit 25

PNC/PNC Bank Diversity and Inclusion Overview

PNC Diversity and Inclusion Overview

PNC is committed to building a diverse, equitable and inclusive workplace at all levels, and to ensuring employees at all stages of their careers have opportunities to grow. This commitment begins at the very top of the organization, with a focus on building and maintaining a diverse Board of Directors, and the establishment of a Board subcommittee focused on diversity, equity and inclusion. Of PNC's 12 outside directors, four (33%) are women and three (25%) are people of color. PNC's executive leadership team continues to be increasingly diverse; of its 12 direct reports to the Chief Executive Officer ("CEO"), five (42%) are women and three (25%) are people of color.

Creating an inclusive culture and attracting and retaining diverse talent enable PNC to better compete in the marketplace and are key elements of PNC's Talent-Focused Culture. Since 2015, the percentage of women represented at each level of seniority in the organization has risen between 2% and 6%, and the percentage of people of color at each level of seniority has risen between 2% and 4%. In addition, PNC is fully committed to pay equity and regularly reviews its pay practices to ensure that employees are being compensated fairly and consistently across roles. Pay equity also plays a critical role in creating an inclusive culture and attracting and retaining diverse talent so that PNC can better compete in the marketplace. On average among PNC employees, women are paid 99% of what men are paid and minorities are paid 100% of what non-minorities are paid within like roles. PNC's pay analysis accounts for factors such as time in job, performance and geography.

Moving forward as a pro forma company, PNC will create diversity objectives based on year-end 2020 headcount. After close, PNC will consider calendar year 2021 as a transition year, monitoring and managing diversity based on representation at consummation of the Proposed Transaction for the remainder of the year. In calendar year 2022, PNC will set diversity objectives for the combined organization.

Organization Structure

PNC's Diversity & Inclusion team is part of PNC's Corporate Responsibility Group, which also includes Community Development Banking, Community Affairs and Corporate Social Responsibility. The Corporate Responsibility Group is led by a member of PNC's Executive Committee, PNC's most senior management-level committee.

Diverse Talent Strategy

PNC's leadership team is dedicated to championing a culture that is diverse, equitable and inclusive, and where its people are encouraged to bring their full selves and talents to work. PNC's Corporate Diversity Council is composed of senior executives across a wide range of business lines and chaired by its CEO. This council has successfully implemented a Talent and Diversity Trends tool to ensure that managers and organizational leaders are accountable for building diverse and high-performing teams. It also influenced the creation of PNC's i-LEAD Leadership Standards, which emphasize five critical leadership principles for all PNC leaders,

and ensures these priorities are built into company-wide training. Those leadership principles are:

- Includes Intentionally;
- Lives the Values;
- Enables Change;
- Achieves Results; and
- Develops the Best.

PNC's commitment to diversity and inclusion is focused around three drivers: Workforce, Workplace and Marketplace. Under the leadership of a dedicated team leader, each of these drivers contributes to the building of a diverse, inclusive and equitable environment via the following focuses:

- The *Workforce* team focuses on attracting, developing and retaining a diverse workforce that reflects, and is equipped to meet, the needs of PNC's diverse customer base.
- The *Workplace* team focuses on fostering an inclusive environment in which PNC employees can thrive. Creating a workplace where everyone feels respected, trusted and empowered fuels creativity and innovation.
- The *Marketplace* team focuses on leveraging PNC's diverse talent to respond to the needs of its diverse markets.

PNC leverages a unique inclusion matrix to ensure a cross-functional and cross-enterprise approach. PNC's strong Employee Business Resource Group ("EBRG") program supports the *Workforce* pillar. The 17 Line of Business ("LOB") Diversity & Inclusion Councils at PNC support the *Workplace* pillar and enable each LOB to embed inclusion into their business in ways that best resonate with their employees. The 35 Regional Diversity & Inclusion Councils, led by PNC's Regional Presidents and Retail Market Managers, support PNC's *Marketplace* pillar and enable each market to develop customized programming and community outreach that strengthen PNC's relationships with its customers and the communities they serve.

PNC Diversity Initiatives

Over the past few years, PNC has:

- Made a \$1 billion pledge in 2020 to help end systemic racism and support economic empowerment of Black Americans and low- and moderate-income communities;
- Broadened its definition of diversity and inclusion to go beyond race, ethnicity and other factors to reflect the value of diverse perspectives and experiences;

- Introduced and continued to refine a Diversity Trends Tool for managers that provides a view of talent trends and models how manager decisions influence diverse representation in hiring, promotions and terminations;
- Incorporated "Includes Intentionally" as one of the company's corporate Leadership Standards, which define the behaviors expected of all PNC leaders;
- Trained 99% of people managers on unconscious bias and 97% of people managers on discriminatory micro-behaviors;
- Achieved record high membership in EBRGs with 10,000 members, and more than 2,300 employees actively engaged in EBRG mentoring programs;
- Held its inaugural Black Leaders Forum in February 2020, with more than 130 company leaders engaging in candid discussion on both challenges and opportunities in recruiting, advancing and retaining Black leaders and employees; and
- Set and met public goals to build and maintain a gender- and ethnically-diverse Board of Directors and have at least 50% of annual hires to PNC's early career development programs be made up of diverse candidates.

Talent-Focused Culture

PNC is committed to supporting its employees' development, growing their skills and providing doorways to new opportunities within the company. To create growth and internal mobility, managers actively encourage and support career development, and PNC's recruiting team and hiring managers work to identify qualified internal candidates when mid- to executive-level positions become available.

The company's focus on reducing turnover has paid significant rewards. In recent years, PNC has progressed from filling approximately 60% of roles with external candidates to filling approximately 60% of roles internally. Not only does this help PNC retain valuable talent and institutional knowledge, but employees understanding they have a future at PNC drives deeper employee engagement.

The value of these efforts is proven in PNC employee longevity. In 2019, the company inducted more than 350 employees into its Quarter Century Club, which recognizes those who have 25 years of service with the company. They joined more than 4,200 others who have earned this distinction.

Diversity Recruiting

PNC's strategy for recruiting diverse employees locally and nationally includes collaboration with its external partners, effective outreach efforts and targeted marketing.

PNC's early career programs are a critical component of its overall talent strategy. The company's 10-week internship program brings nearly 500 undergraduate students into the company every summer to apply their academic knowledge while learning about the financial services industry. As an integral part of PNC's talent and diversity strategy, recruiting for early career talent programs employ a robust outreach and candidate-engagement strategy that includes partnerships with Historically Black Colleges and Universities, underclassmen diversity summits and partnerships with many diversity-focused organizations. About 74% of PNC interns subsequently receive an offer of full-time employment, including placement in its Early Career Development Programs, and approximately 76% of these offers are accepted.

PNC set a public goal that at least 50% of its Early Career Development Program would be comprised of diverse candidates – with "diverse" defined, in this instance, as including women, veterans, people of color and those with a disability. In calendar year 2019, 63.8% of PNC's early career program candidates were diverse.

PNC's Early Career Development Programs expose recent graduates to one of nine business areas, where they learn, network and develop professionally. As they rotate through different business units and functions, analysts and associates receive hands-on experience that prepares them for placement into established roles. As of November 1, 2020, PNC had 781 current development program associates, 47.6% of whom began as interns.

Equally important to recruiting top talent is developing and advancing talent. In 2019, PNC University implemented a learning experience platform, iLearn, which revolutionized learning and development at PNC by providing timely, curated resources to meet the needs of PNC's businesses and the employees who support them. iLearn offers over 30,000 content items on demand to help employees grow their skills and knowledge. Additionally, iLearn enables social learning by making it easy for employees to share content recommendations and connect with like-minded learners through groups.

In 2020, PNC employees completed 2.4 million hours of training and education. Additionally, over 51,000 employees completed more than 2.1 million content items in iLearn throughout the year with over 10,000 items being shared between employees. The company's educational offerings align with its Leadership Standards and goals/priorities for different LOBs; address different learning preferences; enable employees to grow in their current roles while preparing for future roles; and allow managers to help guide employee learning opportunities.

Another way PNC supports career development—not only for the company's benefit but for the community's—is its PartnerUP program, launched in 2018. This program aims to bring career opportunities to high school seniors who may not see post-secondary education as their next step. Since its initial launch, the program has expanded to serve 23 school districts and offers a curriculum for both high school juniors and seniors, increasing its reach to more than 3,000 local students. More than 10 regional employers are part of this PNC-led collaborative. More information can be found at www.pnc.jobs/partnerup.

Women's Business Development

PNC established Women's Business Development to help the bank better serve female financial decision makers, including employees, clients, prospects and those in the company's communities. PNC strives to provide women with timely, relevant and informative programs to help them build on the banking relationships that are essential to financial wellness. By offering resources and connections and serving as an ally and partner, PNC is committed to inspiring greater financial confidence among women and creating an equitable path forward for women in business. Among other programs, initiatives and resources, Women's Business Development offers value through:

- Women's Business Advocates: More than 3,000 male and female employees have completed proprietary training to become PNC-Certified Women's Business Advocates ("WBAs"). These employees are especially committed to supporting the achievement of female financial decision-makers, including women who own or run a business. In addition to delivering financial products, services and resources, PNC WBAs often play leadership roles in organizations that mentor or connect women. As a result, WBAs are aware of the issues that impact female financial decision-makers and have connections that are valuable to employees, clients, prospects and those in PNC's communities.
- Resources for Women in Business: A dedicated website, pnc.com/women, provides female decision makers with articles, success stories, webcasts and additional ideas and tips to enhance their professional and personal financial lives. PNC's *Insights for Women in Business* magazine is published bi-annually; hard copies are distributed to customers through the branch network and WBAs, and a digital version is broadly accessible via pnc.com/women. *Women in Business Week*, an annual event to connect with and better support female customers and prospects, is one of the many ways in which PNC engages, enlightens, educates, inspires, attracts and retains its female clients. The event provides female financial decision-makers with an opportunity to glean valuable insights for themselves, their families and businesses, while allowing PNC bankers to establish and build relationships in a way that differentiates PNC. In 2020, PNC celebrated its tenth consecutive *Women in Business Week* with five consecutive days of virtual programming. Included was a keynote presentation that included a \$25,000 sweepstakes and a 30-minute consulting session with the keynote speaker for the winning business owner.
- **Sponsorships:** Corporate sponsorships with organizations, including C200 (formerly Committee of 200), the Women's Presidents' Organization and Women in Bio reflect PNC's commitment to female financial decision-makers, including entrepreneurs and executives, and the company with access to valuable insights, resources and connections. PNC Regional Presidents' organizations sponsor additional similar organizations that are local to the markets they serve. Additionally, PNC has engaged organizations like The Acceleration Project, a nonprofit, to provide workshops and one-on-one consulting to women- or minority-owned small businesses.
- **Strong Governance:** The Director of Women's Business Development receives support from an Advisory Board, which consists of senior leaders across the organization, and

two Working Groups, which consist of mid- and senior-level employees across the organization. The Advisory Board and Working Groups lend guidance, support and expertise and help ensure that Women's Business Development comes to life in a consistent manner across all markets and lines of business.

Supplier Diversity

PNC's commitment to an inclusive culture is also reflected in its supplier relationships. Building and maintaining relationships with a diverse supplier base is an important goal for PNC as diverse suppliers increase supply chain competitiveness, grow the customer base and provide PNC an advantage when bidding on new business opportunities. Supplier diversity initiatives are important to PNC's clients and prospective clients, and PNC's ability to demonstrate alignment with its goals in this area is important for securing and maintaining business.

PNC's procurement practices are designed to identify diverse-owned businesses committed to delivering the service, quality and value that defines its brand, and promote the economic growth of the local and diverse business communities PNC serves. PNC's award-winning Supplier Diversity Program is supported by corporate policies and procedures and aligns with its internal supply chain practices. Additionally, PNC has a policy to provide small and diverse-owned businesses with equal opportunity to compete for PNC's business through competitive processes. By engaging a diverse supplier base, PNC helps to promote economic and community development in the regions the organization serves.

PNC's Supplier Diversity Program ("Program") serves businesses owned by minorities, women, military veterans, LGBTQ+ individuals, persons with disabilities, and other disadvantaged and small business enterprises. In 2019, PNC spent \$372 million with Program suppliers, directly and indirectly. This represented 11.3% of PNC's total eligible supplier spending and is above the peer benchmark (per the Financial Services Roundtable for Supplier Diversity annual benchmarking survey). The Program received eight awards in 2020, including:

- 2020 National Business Inclusion Consortium Best of the Best Corporations for Inclusion:
- 2020 Best Corporation for Veteran's Business Enterprises by National Veteran-Owned Business Association;
- US Pan Asian American Chamber of Commerce Top 35 Corporate Star; and
- Best of the Best Supplier Diversity Program by:

Black EOE Journal;

Professional Women's Magazine;

US Veteran's Magazine;

Hispanic Network; and

Awards and Recognition

PNC endeavors to build, maintain and nurture a diverse, equitable and inclusive environment for employees, as well as to build a bank accessible and responsive to its diverse clients and communities. PNC customers have very diverse needs, and the company is proud to serve all of them. PNC designs its services and facilities to be inclusive for customers at every level of income, physical ability and stage of life. As PNC customers' needs shift, the company listens and evolves its offerings accordingly. These efforts have been recognized by a variety of reputable third parties:

- 2019 Employer of the Year, Disability:IN (2019)
- Best Finance Companies for Women, Fairygodboss (2019)

BBVA Bancshares/BBVA USA Diversity and Inclusion Overview

BBVA USA Diversity and Inclusion

BBVA USA (or the "Bank") values diversity in all forms as a competitive advantage in today's global economy. The Bank's purpose, "to bring the age of opportunity to everyone," exists in part to promote diversity and inclusion across all stakeholder groups, starting with a focus on diversity in the workplace, which is critical to the Bank's success. Creativity and talent are not restricted to any particular background, race, gender, ethnicity or other classification. A diverse pool of creative and talented people provides an enhanced ability to understand the wants and motivations of a broad customer base. This guiding principle allows the Bank to provide the best possible service to a wide variety of customers and offer knowledge and expertise in support of the many communities where it operates.

BBVA USA's prioritization of diversity and inclusion starts with its top leadership and is implemented through various initiatives.

Senior Leadership

BBVA USA has led the charge for diversity and inclusion through its early implementation of a company-wide diversity and inclusion council and strategy in 2013. In 2019, BBVA USA's CEO, Javier Rodriguez Soler, was appointed as the Global Executive Sponsor for BBVA's workplace diversity and inclusion strategy to drive global program adoption and accountability. This exemplifies BBVA USA's commitment to diversity and inclusion beginning at the top of its structure and ensures that the Bank's progress and best practices are reflected across its global footprint.

BBVA USA's Board of Directors is comprised of twelve members, 17% of which are women and 42% of which are considered Hispanic or Latinx. Most recently, BBVA USA announced the addition of its second female board member, Carin Mary Barth, in January 2020, increasing the number of female board members to two. BBVA USA has four board committees: Audit and Compliance, Compensation and Benefits, Executive and Risk. The diversity of BBVA USA's Board of Directors is reflected in each of the committees where at least one committee member is female or part of a racial or ethnic minority group.

BBVA's Management Committee is led by BBVA USA CEO, Javier Rodríguez Soler, who is an acting member. The additional twelve members all have reporting responsibility to the CEO. Women represent 15% of BBVA USA's Management Committee and, in terms of racial and ethnic representation, the Management Committee represents the employee population within 10% in each racial and ethnic category as demonstrated below:

- White: Employees 48%, Management Committee 46%
- Hispanic/Latino: Employees 30%, Management Committee 38%
- Black or African American: Employees 15%, Management Committee 8%
- Asian: Employees 5%, Management Committee 0%
- Two or More Races: Employees 1%, Management Committee 8%

In addition to race and ethnicity, one member of BBVA USA's Management Committee identifies as LGBTQ+, which represents 8% of the leadership team, and one member identifies as an individual with disabilities, representing 8% as well.

BBVA USA has developed numerous initiatives and programs to support diversity and inclusion within its stakeholder groups of employees, customers, communities and suppliers.

- Recognition. BBVA USA has been recognized by DiversityInc, which ranked BBVA USA among the top 50 companies for diversity in 2017 and 2019. BBVA USA Bancshares, Inc. was also recognized in 2018, 2019, and 2020 with a perfect score of 100% from the Human Rights Campaign survey on workplace equality, the Corporate Equality Index.
- Leadership Structure. Diversity and inclusion efforts at BBVA USA are led by the Chief Talent & Culture Executive reporting to the Bank's President and CEO. Individuals from both the Talent & Culture and Communications and Responsible Business business units comprise the diversity team. External diversity and inclusion initiatives are led by the Director of Communications and Responsible Business, whose team partners with many organizations to support communities where BBVA USA operates across the U.S. The Director of Communications and Responsible Business is also a direct report of the President and CEO, indicating the importance the Bank puts on diversity and inclusion. Across the organization, there are 80 employees who work on diversity and inclusion initiatives.
- <u>Developing Employees</u>. In 2017, BBVA USA launched its first Business Resource Group, Women in Leadership, in an effort to increase engagement for women in BBVA USA and provide a forum for mentorship, sponsorship, professional development and networking. The Business Resource Group was met with overwhelming employee support and has since created chapters in the largest BBVA USA markets. In 2020, BBVA USA launched its second Business Resource Group to support LGBTQ employees across its seven-state footprint. There are plans to launch two new identity-based business resource groups for Hispanic/Latinx and Black/African American employees in 2021.
- Acknowledging and Addressing Bias. To reduce and eliminate the workplace impact of unconscious bias, BBVA USA implemented its Blending the Best training in 2013, an inclusionary training program focused on understanding unconscious bias in the workplace. The four-step training includes in-person training, webinars and online content for all employees so that everyone feels welcomed, heard, valued and respected. In addition, the Bank is currently exploring approaches to develop more inclusive job descriptions that provide compelling ways for diverse candidate pools to imagine their roles with the Bank and encourage them to apply. In 2019, BBVA USA launched inperson and virtual training sessions for employees to better understand the intersectionality of identity, acknowledge unconscious biases, and recognize societal privilege and oppression due to racial inequality.

• Racial Justice. In response to the tragic killings of George Floyd, Ahmaud Arbery, Breonna Taylor and other Black Americans, BBVA USA hosted more than 150 small group sessions with over 1,100 employees to share experiences and respond to difficult and often uncomfortable questions about racial inequality. Of those who participated, the overwhelming majority indicated the discussions were extremely worthwhile and substantially improved relationships with fellow team members. BBVA USA has also made external commitments to support organizations that advocate for racial justice, such as NAACP, Unidos US, Human Rights Campaign, Congressional Black Caucus Foundation, Congressional Hispanic Caucus Institute and Victory Institute.

Information on PNC/PNC Bank Litigation Matters

Status of Material PNC Litigation

Interchange Litigation

• Description:

- O PNC, originally as successor to National City Corporation and National City Bank, and now in its own right, is a defendant in putative nationwide class action complaints filed against Visa, MasterCard and about a dozen issuing and acquiring banks. Plaintiffs make claims principally under the federal antitrust laws, alleging that defendants conspired to fix the prices for general purpose card network services, causing the class to pay inflated interchange fees. The focus is on the honor-all-cards rule forcing merchants to accept all Visa cards if it accepts any of them, and "anti-steering" rules that keep merchants from directing consumers to cheaper forms of payment.
- o The existing complaints seek injunctive relief, actual and treble damages, and attorney's fees for a proposed class that includes merchants that accepted Visa and/or MasterCard from January 1, 2004 to November 28, 2012. However, following rejection of a settlement (see Status), a proposed amended complaint seeks damages for a class including merchants that have accepted Visa and/or MasterCard at any time from and after January 1, 2004. A separate proposed complaint, in which PNC is not named, seeks equitable relief only.
- o In addition to the principal suits, a number of individual suits have been filed, originally as "opt-outs" to the settlement but now as stand-alone cases (since there is presently no settlement). PNC was a named defendant in only one, Luby's Fuddruckers Restaurants.

• Status:

- In 2013 the district court approved, a class settlement that provided up to \$6.6 billion and certain equitable relief. On June 30, 2016, the U.S. Court of Appeals for the Second Circuit vacated the district court's certification of the class and reversed approval of the settlement. The court did not take issue with the amount of damages but held that the merchants not in the damages class (those who accepted cards after November 28, 2012) needed separate representation. A petition for certiorari with the U.S. Supreme Court was subsequently denied.
- o In June 2018 the "(b)(3)" (money damages) class reached an agreement in principle to settle the litigation for an additional \$900 million, \$600 million of which is attributable to Visa (the remainder to MasterCard). On September 18, 2018, Plaintiffs moved for preliminary approval of the settlement, which was granted on January 24, 2019. Per the court's preliminary approval order, notice was completed and the opt-out period concluded, and the final approval hearing

was held on November 7, 2019. Many merchants opted out, but defendants decided to maintain the agreement in force. On December 16, 2019, the district court granted final approval to the settlement. That decision was appealed by a number of objectors to the Second Circuit, and those consolidated appeals are being briefed.

Residential Mortgage-Backed Securities Indemnification Demands

• Description:

At various times in 2009 and 2011, PNC received letters from certain banks asserting that PNC, as successor to National City Mortgage Company, sold loans to these banks that were subsequently securitized. The banks were sued in lawsuits alleging misstatements and omissions in the offering statements. The banks assert that the agreements governing the sale of these loans obligate PNC to indemnify the banks in connection with the claims being made in the securities litigation matters.

• Status:

o PNC timely responded to these demands. PNC is unaware of any determinations of liability to plaintiffs in the underlying lawsuits, although it has been reported in the media that at least some of the lawsuits have been settled.

Pre-Need Funeral Arrangements

• Description:

O This litigation filed against National City Bank and PNC Bank in federal court in Missouri arises out of a criminal scheme by entities that sold pre-need funeral contracts. One entity, National Prearranged Services ("NPS"), maintained trusts with Allegiant Bank, a predecessor of PNC's predecessor National City, into which funeral contract monies were deposited. Upon insolvency of NPS and related entities, the receiver and certain state insurance guaranty associations sued PNC, as successor to Allegiant, as well numerous other banks that acted as trustees and certain other service-providers to NPS. Plaintiffs alleged that Allegiant Bank breached its fiduciary duties and acted negligently, contributing to \$600 million in losses from the criminal scheme.

• Status:

o In March 2015, a jury returned a verdict against PNC for \$391 million, which included \$35.5 million in punitive damages. That judgment was subsequently reduced by the district court to \$290 million. In August 2017, the Court of Appeals reversed the judgment and ordered a new trial based on trust rather than tort law principles. The non-jury retrial of this matter was conducted between

November 28, 2018 and January 11, 2019. On July 3, 2019, the Court issued a 305-page decision, finding breaches of fiduciary duty and assessing damages in the total amount of \$102 million, inclusive of \$15 million in punitive damages and approximately \$15 million in pre-judgment interest. On July 18, we appealed to the United States Court of Appeals for the Eighth Circuit. On July 24, 2019, plaintiffs filed a petition to be awarded their fees and costs for the entirety of the case. On August 19 the Court stated that it would award fees and costs but only for the post-remand period. Plaintiffs submitted a revised fee petition on September 9, 2019 seeking a total of \$16,451,482 in fees and costs. On September 10, 2019, we moved to reduce the judgment by \$6,505,886 due to the Court's error in computing prejudgment interest. The court partially granted the relief sought on December 4, 2019 reducing the judgment to \$99,497,290.24. On February 21, 2020, the Court awarded fees in the amount of \$7,005,337, which award has been appealed to the Eighth Circuit. Additionally, Plaintiffs have now voluntarily dismissed their cross-appeal pending in the Eighth Circuit.

DD Growth Premium Master Fund

• Description:

This proceeding by the Liquidators of the DD Growth Premium Master Fund arises from the services provided to DD Growth by a European subsidiary ("GIS Europe") of PNC Global Investment Servicing, a former subsidiary of PNC. The claim asserts that GIS Europe breached duties in connection with calculations of the net asset values of the fund.

• Status:

- The Irish Proceedings settled at mediation in Dublin, Ireland on March 10, 2019 and the settlement has been completed and the Irish case has been dismissed.
- O By judgment dated February 28, 2019, the Milan Court granted the Bank of New York Mellon's motion to dismiss and granted judgment in favor of defendants. The Court declared that "the Italian courts do not have jurisdiction over the matter in relation to the claim brought by the plaintiffs against the defendant BANK OF NEW YORK Mellon Fund Services (Ireland) DAC," because whatever claims plaintiffs allege were subsumed within the DD Growth receivership proceedings (above). The Italian Appeals Court heard argument on October 14, 2020, and has scheduled a second hearing for November 18, 2020, with final papers to be filed within 3 days before the hearing.

Low-Income Housing Tax Credits

• Description:

O In May 2017, PNC received a Grand Jury Subpoena from the US Attorney's Office for the Southern District of Florida seeking: (1) information about certain low-income housing projects where PNC acquired low-income housing tax credits; and (2) emails and human resource records for a PNC employee who was involved in some of those projects. The US Attorney's Office has obtained guilty pleas from development companies and individuals with whom PNC had worked on low-income housing deals.

• Status:

o PNC is cooperating with the government's inquiry.

CFTC – SWAP Dealer Enforcement Action

• Description:

- On September 30, 2019, the Commodities Futures Trading Commission ("<u>CFTC</u>") filed and settled charges against PNC Bank, National Association (PNC), a provisionally registered swap dealer, for failing to comply with PNC's swap reporting obligations as a swap dealer. According to the order, PNC failed to properly report legal entity identifiers, primary economic terms, and continuation data to its swap data repository ("<u>SDR</u>"); failed to file large trader reports for its physical commodity swaps; and failed to timely report certain trades to its SDR. The CFTC order imposes a \$300,000 civil monetary penalty on PNC, among other sanctions, for these reporting violations.
- O PNC's reporting failures were in violation of the reporting requirements of Parts 20, 43, and 45 of the CFTC regulations.

• Status:

The order recognizes PNC's self-reporting before PNC knew the full extent of its violations and PNC's full cooperation with the CFTC Division of Enforcement, the CFTC Division of Swap Dealer and Intermediary Oversight, and the CFTC Division of Market Oversight. The order also recognizes PNC's remediation of its swaps reporting issues both on an ongoing basis and with respect to historical reports, including transactions no longer on PNC's books.

USAA v. PNC

• Description:

 USAA filed suit against PNC in the Eastern District of Texas claiming that PNC's mobile remote deposit capture systems infringe on two patents owned by USAA.
 USAA seeks, among other things, a judgment that PNC is infringing each of the patents, damages for infringement and attorneys' fees.

• Status:

o PNC is vigorously defending against these claims.

Information on BBVA Bancshares/BBVA USA Litigation Matters

BBVA USA Bancshares, Inc./BBVA USA Public Litigation

Active Litigation:

BAGWELL

In January 2014, the Bank was named as a defendant in a lawsuit filed in the District Court of Dallas County, Texas, David Bagwell, individually and as Trustee of the *David S. Bagwell Trust, et al. v. BBVA USA, et al.*, wherein the plaintiffs (who are the borrowers and guarantors of the underlying loans) allege that BBVA USA wrongfully sold their loans to a third party after representing that it would not do so. The plaintiffs seek unspecified monetary relief. Following trial in December 2017, the jury rendered a verdict in favor of the plaintiffs totaling \$98 million. On June 27, 2018, the court entered a judgment in favor of the plaintiffs in the amount of \$96 million, which includes prejudgment interest. The Bank has appealed and will vigorously contest the judgment on appeal. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

On December 14, 2020, the appeals court issued a decision reversing the jury verdict and rendering a plaintiffs "take-nothing" judgment in favor of the Bank. The plaintiffs have appellate options to seek review of the decision in favor of the Bank.

SW ENERGY

In October 2016, BSI was named as a defendant in a putative class action lawsuit filed in the District Court of Harris County, Texas, *St. Lucie County Fire District Firefighters' Pension Trust, individually and on behalf of all others similarly situated v. Southwestern Energy Company, et al.*, wherein the plaintiffs allege that Southwestern Energy Company, its officers and directors, and the underwriting defendants (including BSI) made inaccurate and misleading statements in the registration statement and prospectus related to a securities offering. The plaintiffs seek unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

POWELL

The Company and the Bank have been named in two proceedings involving David L. Powell: one that was filed in January 2017 with the Federal Conciliation and Arbitration Labor Board of Mexico City, Mexico, *David Lannon Powell Finneran v. BBVA USA Bancshares, Inc.*, *et al.*, and one that was filed in April 2018 in the United States District Court for the Northern District of Texas, *David L. Powell, et al. v. BBVA USA*. Powell alleges discrimination and wrongful termination in both proceedings, and seeks unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

CHATTOPADHYAY

In March 2019, the Company and its subsidiary, Simple Finance Technology Corp., were named as defendants in a putative class action lawsuit filed in the United States District Court for

the Northern District of California, *Amitahbo Chattopadhyay v. BBVA USA Bancshares, Inc., et al.* Plaintiff claims that Simple and the Company only permit United States citizens to open Simple accounts (which are exclusively originated through online channels). Plaintiff has recently amended the complaint and now also takes issue with BBVA USA's practice of directing non-citizen applicants to complete the online account origination processes in a physical branch location. Plaintiff alleges that these practices constitute alienage discrimination and violations of California's Unruh Act. The Company believes that there are substantial defenses to these claims and intends to defend them vigorously.

FERGUSON

In July 2019, the Company was named as a defendant in a putative class action lawsuit filed in the United States District Court for the Northern District of Alabama, *Ferguson v. BBVA USA Bancshares, Inc.*, wherein the plaintiffs allege certain investment options within the Company's employee retirement plan violate provisions of ERISA. The plaintiffs seek unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

ZAMORA-ORDUNA

In April 2020, the Bank was named in a putative class action lawsuit filed in the District Court of Bexar County, Texas styled *Zamora-Orduna Realty Group LLC v. BBVA USA*, wherein plaintiffs allege the Bank tortiously failed to process certain loan requests submitted in connection with the federal Paycheck Protection Program. The plaintiffs seek an amount not less than \$10 million along with other demands for unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

ESTECH

In April 2020, BBVA USA was named as a defendant in a lawsuit filed in the United States District Court for the Eastern District of Texas, Marshall Division originally styled *Estech Systems, Inc. v. BBVA USA Bancshares, Inc.*, alleging that BBVA USA has violated intellectual property rights owned by the plaintiff in connection with various patents regarding voice-over-internet protocols (VoIP). The plaintiff alleges that BBVA USA's use of certain phone systems and technologies violate its claimed patent rights. The plaintiff seeks unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

HILL

In June 2020, BBVA USA was named as a defendant in a putative class action lawsuit filed in the United States District Court for the Southern District of California styled *Sarah Hill v. BBVA USA*, challenging BBVA USA's assessment of certain overdraft fees. The plaintiffs seek unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

OCCIDENTAL

In July 2020, BSI was named as a defendant in a putative class action lawsuit filed in the Supreme Court of the State of New York, County of New York, styled *City of Miami Fire Fighters' and Police Officers' Retirement Trust, individually and on behalf of all others similarly situated v. Occidental Petroleum Corporation, et al.*, wherein the plaintiffs allege that Occidental Petroleum Corporation, its officers and directors, and the underwriting defendants (including BSI) made inaccurate and misleading statements in the registration statement and prospectus related to a securities offering. The plaintiffs seek unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

MACLEOD

In October 2020, the Company was named in a putative class lawsuit filed in the District Court of Denver County, State of Colorado, styled *Jean MacLeod v. BBVA USA* wherein the plaintiff, individually and on behalf of all others similarly situated, alleges that BBVA failed to refund unearned guaranteed automobile protection fees to her and other customers who paid their auto loans off early as supposedly required by state law. The plaintiffs seek unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

YATRA

In October 2020, the Company was named in a lawsuit filed in the Chancery Court of the State of Delaware, styled *Yatra Online, Inc. v. Ebix Inc., et al.*, wherein the plaintiff alleges that BBVA USA, as a participating lender in a syndicated loan facility to Ebix, and along with multiple other lenders, tortiously interfered in a certain merger transaction between plaintiff and Ebix. The plaintiff seeks unspecified monetary relief. The Company believes there are substantial defenses to these claims and intends to defend them vigorously.

Closed Litigation:

BELLISSIMO

In September 2017, BBVA Compass was named as a defendant in a putative class action lawsuit filed in the United States District Court for the Northern District of Illinois, dismissed and refiled in the Circuit Court of Jefferson County, Alabama, *Lara Bellissimo, et al. individually and on behalf of similarly situated individuals v. BBVA Compass*, alleging violations of the Telephone Consumer Protection Act in the context of collections calls to the cell phones of individuals who were not the individuals that provided the phone numbers to BBVA Compass. The parties agreed to a class settlement which was ultimately approved by the court and the matter is now fully concluded.

HOSSFELD

In December 2016, BBVA Compass was named as a defendant in a putative class action lawsuit filed in the United States District Court for the Northern District of Alabama, *Robert*

Hossfeld, individually and on behalf of all others similarly situated v. BBVA Compass, alleging violations of the Telephone Consumer Protection Act in the context of customer satisfaction survey calls to the cell phones of individuals who have not given, or who have withdrawn, consent to receive calls on their cell phones. The parties agreed to a class settlement which was ultimately approved by the court and the matter is now fully concluded.

STABILIS

In November 2017, BBVA Compass was named as a defendant in a lawsuit filed in the United States District Court for the Southern District of New York and subsequently transferred to the United States District Court for the Northern District of Texas, *Stabilis Fund II, LLC v. BBVA Compass*, alleging that BBVA Compass fraudulently induced the plaintiff to purchase a loan that subsequently became the subject of litigation. The parties ultimately stipulated to dismissal and the matter is now fully concluded.

MX BONDS

In March 2018, the Company and BSI were named as defendants in a putative class action lawsuit filed in the United States District Court for the Southern District of New York, In re *Mexican Government Bonds Antitrust Litigation*, alleging that the defendant financial institutions engaged in collusion with respect to the sale of Mexican government bonds. Five substantially similar lawsuits were filed and consolidated with the original lawsuit. The Company and BSI have been dismissed from the matter.

LOMIX

In March 2015, BBVA Compass was named as a defendant in a lawsuit filed in the United States District Court for the Southern District of Texas, *Lomix Limited Partnership, et al. v. BBVA Compass*, wherein the plaintiffs (who are the borrower and guarantors of the underlying loan) allege that BBVA Compass wrongfully sold their loan to a third party, and wrongfully disclosed the guarantors' personal financial information in connection with the sale of the loan. The parties ultimately stipulated to dismissal and the matter is now fully concluded.

PLAINS ALL AMERICAN

In January 2016, BBVA Securities Inc. ("BSI") was named as a defendant in a putative class action lawsuit filed in the United States District Court for the Southern District of Texas, In re *Plains All American Pipeline, L.P. Securities Litigation*, wherein the plaintiffs challenge statements made in registration materials and prospectuses filed with the Securities and Exchange Commission in connection with eight securities offerings of stock and notes issued by Plains GP Holdings and Plains All American Pipeline and underwritten by BSI, among others. The plaintiffs seek unspecified monetary relief. On April 2, 2018, the court granted the defendants' motion to dismiss with prejudice. The plaintiffs have appealed. The dismissal was affirmed on appeal and the matter is now fully concluded.

Instructions for Completing the CATS Working Branches Spreadsheet							
Column Name Mandatory/ Optional		Guidance					
Branch Type	mandatory for each row of the spreadsheet, for each branch listed	Select a code from the list:					
		Branch Type Code	BranchTypeDesc				
		1	Staffed Branch				
		2	Drive-in				
		3	Night Depository/Drop Box				
		4	Mobile Branch - Van				
		5	Mobile Branch - Messenger Service				
		6	Mobile Branch - Expansion of Service				
		7	Mobile Branch - Other				
		8	Temporary Branch - College/University				
		9	Temporary Branch - Emergency/Major Disaster				
		10	Temporary Branch - Other (non-Emergency)				
		11	Seasonal Branch/Agency				
		12	Branch - Other				
			Bialicii - Otilei				
BrnchTypeCode	mandatory	Automatically populated based on the Branch Type selected					
FullName	mandatory for each row of the spreadsheet, for each branch listed	Enter the popular name for the Branch					
AddressLine1	mandatory for each row of the spreadsheet, for each branch listed	Enter the Street Address of the Branch					
AddressLine2	optional	Enter the Street Address of the Branch					
AddressCity	mandatory for each row of the spreadsheet, for each branch listed	Enter City (Town or Village) of the Branch					
AddressState	mandatory for each row of the spreadsheet, for each branch listed	Enter the two digit abbreviation for the State (the District or US Territory) in which the Institution is located					
AddressZIP	mandatory for each row of the spreadsheet, for each branch listed	Enter 5 digit Zip Code of Branch					
AddressZIP4	optional	Enter Optional 4 digit extension of Zip Code					
BranchCounty	mandatory for each row of the spreadsheet, for each branch listed	Select from the drop-down list the County (Parish) of the Branch					
AddressCountyID	mandatory	Automatically populated based on the County (Parish) selected					
BranchCertificationNumber	mandatory for each row of the spreadsheet, for each branch listed	If a National Bank, enter the existing Branch Certification number. If not an existing branch of a national bank, leave blank.

Public Exhibit 32

Branch Considerations

Branch Considerations

There are more ways to bank with PNC Bank than ever before via online, mobile, ATM, and telephone, and PNC Bank has continued to see customers taking advantage of the investments made in these channels by altering the ways in which they have been banking with PNC Bank. Approximately 75% of PNC Bank's consumer customers used non-teller channels for the majority of their transactions during the third quarter of 2020. Additionally during the third quarter, deposit transactions via ATM and mobile channels were 67% of total deposit transactions. These shifts in the way many customers are conducting their banking transactions are important inputs that will inform PNC Bank's branch consolidation decisions.

Nevertheless, branches remain an important aspect of PNC Bank's retail banking delivery channels. As of September 30, 2020, PNC Bank had 2,256 branches, including 556 branches (or 24.6% of its branches) in low- and moderate-income ("LMI") census tracts. Moreover, PNC Bank recognizes that branch closings may have an impact on segments of the local community, even when another PNC Bank location is nearby or when a majority of the branch's customers primarily transact with PNC Bank through non-branch channels. That is why PNC Bank carefully considers a variety of factors before making *any* decision to consolidate or close a branch, provides clear and timely communications to customers about planned branch closings and, where possible, works to assist customers and the community with the transition.

PNC Bank's decision-making process on branch consolidations and closures is governed by PNC Bank's Branch Office Closure Policy, which helps ensure that PNC Bank follows a rigorous process in determining whether a branch should be closed, complies with legal and regulatory requirements in connection with any branch consolidation or closing, and communicates plans to consolidate or close a branch to customers, affected communities and regulators.¹ For example, under PNC Bank's Branch Closing Policy, PNC Bank management consider the following factors prior to deciding to close any branch:

- The performance of the branch (as compared to other branches in PNC Bank's branch system;
- The direct and indirect costs of maintaining the branch;
- The effects on PNC Bank's overall financial performance if the branch were closed;
- PNC Bank's ability, through other branches, departments or service lines, to provide continuity of service to the community in which the branch is located;

¹ PNC Bank's Branch Closing Policy does not apply to branch consolidations that qualify as a "short distance relocation" under applicable regulations given the closeness of the branch being consolidated to the receiving branch. BBVA USA has a branch closing policy that is substantially similar to PNC Bank's Branch Closing Policy, and complies with all legal and regulatory requirements for branch closures or consolidations, including the regulations and guidance of the Federal Reserve Board and the Alabama State Banking Department.

- The presence of other financial services providers in the community in which the branch is located, and the impact of the services and market share of these institutions;
- Other alternate actions that could be taken to make the branch viable (<u>e.g.</u>, reduced hours or staffing);
- The number of customers and the amount of deposit and loan accounts at the branch;
- PNC Bank's overall strategy for the operation of the bank's branch system;
- Any potential adverse impacts on LMI communities that are served by the branch; and
- Any non-traditional or alternative ways of serving customers of the branch that could mitigate any identified adverse impacts.

In assessing these factors, PNC Bank considers input from PNC Bank Retail Banking, PNC Bank's Fair Banking unit (which is responsible for overseeing PNC Bank's Community Reinvestment Act program), Community Development, Legal and the Regional President for the local market.

If a decision is made to close a branch, PNC Bank promptly provides notice to affected customers, regulators and the local community. At a minimum, these communications include:

- 90-day prior notice to customers of the branch via a special mailing or by including a notice in at least one regular account statement mailed to customers of the branch. If the branch to be closed is located in a LMI census tract, the notice to customers will also contain:
 - The mailing address of the Office of the Comptroller of the Currency (the "OCC") and its designee to receive such notice;
 - A statement that comments on the proposed branch closing may be mailed to the OCC; and
 - A statement (as required by law) indicating that the OCC does not have the authority to approve or prevent the branch closing.
- 90-day prior notice to the OCC (as the primary supervisory agency for PNC Bank);
- 30-day on-site prior notice, posted in a conspicuous manner on the premises of the branch. This notice includes the proposed closing date and information about where customers may obtain service following the closing date, or a telephone number for customers to call to determine such alternative sites.
- A final branch closing notice, as required by OCC procedures, that includes (i) the popular names, location and authorization number of the branch; (ii) the date the branch

was closed; and (iii) a statement that the bank provided customers of the branch 90 days prior notice of the closing.²

PNC Bank personnel also may contact local officials, community organizations and other interested parties to provide advance notice of a branch closing and solicit input on how to mitigate any potential adverse impacts on the community. Based on this input and its own review, PNC Bank may take a variety of steps to mitigate the impact of a branch closing on the local community. These actions may include, for example:

- Arranging for a full-service PNC Bank ATM to remain at or near the branch location;
- Making the branch location available to another financial institution, including a minority-owned depository institution, at reduced or minimal cost;
- Making the branch location available to the local government or community organizations at reduced or minimal cost;
- Arranging for a PNC Bank mobile branch to service the area on a temporary or periodic basis; and
- Providing training to community residents (*e.g.*, senior citizens) on PNC Bank's mobile and online banking tools and resources.

PNC Bank and BBVA USA continue to evaluate the combined branch network of the two banks. In planning for the pro forma branch network, PNC Bank and BBVA USA recognize the need to minimize the potential impact of any branch consolidations or closings that may result from the combination of the branch networks of PNC Bank and BBVA USA on LMI communities to the fullest extent possible. As such, PNC does not expect to close or consolidate any BBVA USA or PNC Bank branch located in an LMI census tract in connection with the Proposed Transaction.

3

² In circumstances where alternative customer notification timeframes or methods may be necessary, PNC Bank consults with the OCC to determine how best to proceed.
