# Y-14 September Proposal Outreach Call

---

## Purpose of call

On July 6, the Federal Reserve published a Federal Register notice in the Federal Register on July 6 (77 Federal Register 40051, July 6, 2012) notifying the public of proposed changes to the FR Y-14 information collection. The Federal Reserve has invited firms that may be affected by these proposed changes to the Y-14 schedule to an outreach session on August 15.

The call has two purposes:

1. For the firms to ask clarifying questions about the proposed revisions to the schedules. Because the proposals are out for comment, the Federal Reserve generally cannot comment on the purpose of the proposed changes to the data items requested or discuss possible alternatives to the proposal. However, the Federal Reserve can answer factual questions about the nature of the data items requested.
2. For the Federal Reserve to receive preliminary feedback and comment on the proposed revisions to the schedules. Although the comment period ends on September 4, preliminary feedback will help the Federal Reserve better prepare for potential responses to written public comment.

## Order of discussion

Questions and comments will be discussed one schedule at a time in the following order.

- Overall questions
  - Confidentiality
  - Attestation
  - FAQ

Questions about the FR Y-14M and FR Y-14Q CRE and Corporate Loan schedules may be submitted through the usual FAQ process. The comment period on proposed changes to the FR Y-14Q Operational Risk schedule closed on August 6, 2012, and accordingly, it will not be addressed on this call.
