

Bank Holding Company Supervision Manual

Supplement 59—September 2026

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the February 2026 supplement.

Section 1020.0, “Supervision of Savings and Loan Holding Companies” and Section 1060.0, “Large Financial Institution Rating System”

These sections were revised to reflect changes to the large financial institution (LFI) rating system (LFI Framework) and the rating system for depository institution holding companies significantly engaged in insurance activities (Insurance Supervisory Framework, together with the LFI Framework, Frameworks) that were made effective on January 16, 2026. The Frameworks were revised to more appropriately identify “well managed” LFIs that have sufficient financial and operational strength and resilience to maintain safe and sound operations through a range of conditions, including stressful ones. Furthermore, the sections were revised to reflect the guidance in the final notice which replaced the presumption in the Frameworks that LFIs with one or more Deficient-1 component ratings will be subject to a formal or informal enforcement action with a statement that such firms may be subject to a formal or informal enforcement action, depending on particular facts and circumstances. For more information on the changes to the LFI Framework, see 90 Fed. Reg. 51,329 (November 17, 2025). See also the modifications to the Insurance Supervisory Framework in 90 Fed. Reg. 51,329 (November 17, 2025).

Section 1060.20, “Liquidity Planning and Positions (LFI Ratings System)”

This section was revised to modify the discussion on supervisory considerations for assessing liquidity at LFIs. Descriptions of the Comprehensive Liquidity Analysis and Review or “CLAR” were removed from the section. The description of the Horizontal Liquidity Review for large and foreign banking organizations was also removed from the section. For more information on the assessment of liquidity at large

and foreign banking organizations as well as GSIBs (previously called the Large Institution Supervision Coordination Committee program), see the [manuals page](#) on the Board’s public website. This section was revised to remove cross references to SR-17-11, “Interagency Frequently Asked Questions on Implementation of the Liquidity Coverage Ratio (LCR) Rule,” and SR-11-7, “Guidance on Model Risk Management.”

Section 2050.0, “Extensions of Credit to BHC Officials”

Significant revisions were made to this section. Most of the content in this section was removed, as it described the provisions in the Board’s Regulation O, “Loans to Executive Officers, Directors, and Principal Shareholders of Member Banks,” which is codified at 12 CFR 215. Regulation O governs extensions of credit by banks to their insiders. This section was revised to include appropriate cross references to the Board’s Regulation O as well as the *Commercial Bank Examination Manual’s* (CBEM), section 6050.1, “Regulation O: Loans to Executive Officers, Directors, and Principal Shareholders of Member Banks.”

Section 2065.2, “Maintaining and Documenting the Allowance for Loan and Lease Losses”

This section was removed from the manual. This section described the allowance for loan and lease losses (ALLL) and provided an overview of supervisory guidance related to the ALLL. In 2016, the Financial Accounting Standards Board (FASB) announced a change to the accounting standard for loss recognition, referred to as the allowance for credit losses (ACL). FASB established an adoption timetable that began in 2020 with this standard fully implemented by all institutions in 2023. For more information about the ACL and the current expected credit losses or CECL methodology, see this manual’s section 2065.3, “Allowance for Credit Losses,” as well as section 2013.1, “Allowance for Credit Losses,” in the CBEM.

Section 2080.4, “Funding (Retention of Earnings)”

This section was revised to update references to related content in section 3025.1, “Dividends” of the CBEM. Other minor technical edits were also made to the section.

Section 2080.5, “Funding (Pension Funding and Employee Stock Option Plans)”

Significant changes were made to this section. Much of the content in this section was reorganized to improve the clarity and reduce duplicative information. The section was revised to include updated supervisory considerations for the Federal Reserve examination staff assessing banks and holding companies with employee benefit-owned plans subject to Department of Labor (DOL) regulations. The revised section also explains Uniform Interagency Referral Agreement that the federal financial institution regulatory agencies use to facilitate referrals of possible bank and holding company violations of Employee Retirement Income Security Act of 1974 to the DOL. Accounting references in the section also were updated.

Section 2126.0, “Model Risk Management”

Significant changes were made to this section. This section was revised to incorporate the interagency “Revised Guidance on Model Risk Management.” The “Revised Guidance on Model Risk Management” superseded SR-11-7, “Guidance on Model Risk Management,” which was the basis of section 2126.0. The “Revised Guidance on Model Risk Management” highlights sound principles for effective model risk management while recognizing that model risk management practices appropriately vary among banking organizations based on their specific risk profiles and model usage. The guidance emphasizes a risk-based approach to model risk management that is tailored to a banking organization’s model risk profile and the size and complexity of its operations. See SR-26-2, “Revised Guidance on Model Risk Management.”

Section 3160.0, “Section 4(c)(8) of the BHC Act (EDP Servicing Company)”

Extensive revisions were made to this section. The information in this section was reorganized to improve clarity and remove duplicative information. Under section 4(c)(8) of the Bank Holding Company (BHC) Act and section 225.28(b)(14) of the Board’s Regulation Y, a BHC directly or through a subsidiary may engage in data processing activities, subject to certain restrictions. Revisions to the section were made to align with the requirements set forth in Regulation Y and more clearly distinguish those requirements from Board staff interpretations on this topic. This section was revised to remove a statement indicating BHCs that conduct financial and related nonfinancial data processing activities through separately incorporated subsidiaries may request permission to administer the 49 percent revenue test on a business-line or multiple-entity basis, to avoid the potential implication that additional prior approval is required beyond the approval requirements set forth in section 4 and Regulation Y. Furthermore, corresponding revisions were made to the inspection objectives and inspection procedures.

Section 3270.0, “Section 4(c)(8) of the BHC Act (Real Estate and Personal Property Appraising)”

This section was revised to provide updated references to the real estate appraisal requirements. Several subsections were moved to improve the organization of the overall section. Lastly, the inspection objectives and inspection procedures were removed from the section. See also this manual’s section 2231.0, “Real Estate Appraisals and Evaluations,” for more information on this topic.

Section 4020.1, “Banks (Capital)”

Technical edits were made to this section. An outdated cross reference to a section in the CBEM was updated. Also, a cross reference was provided to the Board’s Regulation Q (12 CFR 217).

Section 4020.2, “Banks (Asset Quality)”

Technical edits were made to this section. References to the ALLL were removed and replaced with references to the ACL. An outdated cross reference to a section in the CBEM was updated.

Section 4020.3, “Banks (Earnings)”

Technical edits were made to this section. References to the ALLL were removed and replaced with references to the ACL. An outdated cross reference to a section in the CBEM was updated.

Section 4020.4, “Banks (Liquidity)”

This section was revised to update the description of liquidity and liquidity risk to better align with existing interagency guidance on liquidity found in SR 10-6, “Interagency Policy Statement on Funding and Liquidity Risk Management.” This section was also revised to remove information pertaining to liquidity risk management using the Federal Reserve’s primary credit program as more information on this topic can be found in the CBEM’s section 3210.1, “The Discount Window and Liquidity Risk Management.” An outdated cross reference to a section in the CBEM was updated.

Section 4060.9, “Consolidated Capital Planning Processes (Payment of Dividends, Stock Redemptions, and Stock Repurchases at Bank Holding Companies)”

This section, which is based on guidance in SR-09-4, “Applying Supervisory Guidance and Regulations on the Payment of Dividends, Stock Redemptions, and Stock Repurchases at Bank Holding Companies,” was revised to remove outdated references to the Board’s capital adequacy guidelines. Specifically, consistent with applicable Board regulations, the section was revised to remove references that state voting common stockholders’ equity generally should be the dominant element within tier 1 capital, and that banking organizations should avoid overreliance on non-common-equity capital elements. In addition, the section was revised to include the relevant information from the Board’s July 2020 supplemental guidance to SR-09-4 entitled, “Attachment C: Situations in Which Holding Companies May Expect Expedited Consultation,” which describes the process that the Federal Reserve uses when consulting with holding companies. References to the ALLL were removed and replaced with references to the ACL.

Bank Holding Company Supervision Manual

Supplement 58—February 2026

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the November 2024 supplement.

Reputational Risk Updates

The *Bank Holding Company Supervision Manual* (BHCSM) has been revised to align with the Board's June 23, 2025, [announcement](#) that reputational risk will no longer be a component of examination programs in its supervision of banks and holding companies.

The following sections have been revised to remove, as appropriate, instances of reputation or reputational risk. Other than minor clarifying edits (such as removing cross references to inactive guidance issuances or updating cross references to other manual sections), no other substantive edits have been made to the following sections:

- 1050.0, "Consolidated Supervision of Bank Holding Companies and the Combined U.S. Operations of Foreign Banking Organizations"
- 1050.1, "Guidance for the Consolidated Supervision of Domestic Bank Holding Companies That Are Large Complex Banking Organizations"
- 1050.2, "Consolidated Supervision of Regional Holding Companies"
- 1060.31, "Assessment of Risk-Management Processes and Internal Controls of BHCs Having \$100 Billion or More in Total Assets"
- 2010.2, "Supervision of Subsidiaries (Loan Administration and Lending Standards)" (Note that references to reputation risk based on interagency guidance in 78 Fed. Reg. 17,766, March 22, 2013; and SR-05-11, "Interagency Credit Risk Management Guidance for Home Equity Lending" were retained in this section.)
- 2010.9, "Supervision of Subsidiaries (Required Absences from Sensitive Positions)"
- 2060.07, "Supplemental Policy Statement on the Internal Audit Function and Its Outsourcing"
- 2124.0, "Risk-Focused Safety-and-Soundness Inspections"
- 2124.05, "Consolidated Supervision Framework for Large Financial Institutions"

- 2124.07, "Compliance Risk-Management Programs and Oversight at Large Firms"
- 2124.1, "Assessment of Information Technology in Risk-Focused Supervision"
- 2126.3, "Risk-Focused Supervision (Counterparty Credit Risk Management Systems)"
- 2128.08, "Subprime Lending" (Note that references to reputation risk based on interagency guidance in SR-01-4, "Subprime Lending," were retained in this section.)
- 2129.05, "Risk and Capital Management—Secondary-Market Credit Activities (Risk Management and Internal Controls)"
- 2130.0, "Futures, Forward, and Option Contracts"
- 2160.0, "Recognition and Control of Exposure to Risk"
- 3070.0, "Section 4(c)(8) of the BHC Act (Mortgage Banking)"
- 3090.1, "Section 4(c)(8) of the BHC Act (Factoring)"
- 3250.0, "4(c)(8)—Agency Transactional Services (Futures Commission Merchants and Futures Brokerage)"
- 3270.0, "Section 4(c)(8) of the BHC Act (Real Estate and Personal Property Appraising)"
- 3610.1, "Section 4(c)(8) of the BHC Act (Board Staff Legal Interpretation—Financing Customers' Commodity Purchase and Forward Sales)"
- 3610.2, "Section 4(c)(8) of the BHC Act (Board Staff Legal Interpretation—Certain Volumetric-Production-Payment Transactions Involving Physical Commodities)"
- 3912.0, "To Acquire, Manage, and Operate Defined Benefit Pension Plans in the United Kingdom (Section 4(k) of the BHC Act)"
- 3920.0, "Limited Physical-Commodity-Trading Activities (Section 4(k) of the BHC Act)"
- 3950.0, "Insurance Sales Activities and Consumer Protection in Sales of Insurance (Sections 4(k) and 4(c)(8) of the BHC Act)"

The following BHCSM sections contain references to reputation or reputational risk. These sections are based on interagency guidance issuances or issuances that were published in *Federal Register* notices. Board staff will revise, as appropriate, the following BHCSM sections after the underlying guidance issuances that form the basis for these sections have been revised:

- 1062.0, “RFI Rating System” (69 Fed. Reg. 70,444, December 6, 2004; 83 Fed. Reg. 58,724, November 21, 2018; and 84 Fed. Reg. 4309, February 15, 2019)
- 2068.0, “Sound Incentive Compensation Policies” (75 Fed. Reg. 36,395, June 25, 2010)
- 2124.4, “Information Security Standards” (12 CFR 225, appendix F)
- 2126.0, “Model Risk Management” (SR-11-7, “Guidance on Model Risk Management”)
- 2126.1, “Investment Securities and End-User Derivatives Activities” (63 Fed. Reg. 20,191, April 23, 1998).
- 2128.06, “Valuation of Retained Interests and Risk Management of Securitization Activities (Risk Management and Internal Controls)” (SR-99-37, “Risk Management and Valuation of Retained Interests Arising from Securitization Activities”)
- 2128.09, “Elevated-Risk Complex Structured Finance Activities (Risk Management and Internal Controls)” (72 Fed. Reg. 1372, January 11, 2007)
- 2140.0, “Securities Lending” (62 Fed. Reg. 38,991, July 21, 1997)
- 2150.0, “Repurchase Transactions” (50 Fed. Reg. 49,764, December 4, 1985)
- 2178.0, “Support of Bank-Affiliated Investment Funds” (SR-04-1, “Interagency Policy on Banks/Thriffs Providing Financial Support to Funds Advised by the Banking Organization”)
- 3070.3, “Section 4(c)(8) of the BHC Act (Nontraditional Mortgages—Associated Risks)” (71 Fed. Reg. 58,609, October 4, 2006)
- 4066.0, “Consolidated (Funding and Liquidity Risk Management)” (75 Fed. Reg. 13,656, March 22, 2010)

Bank Holding Company Supervision Manual

Supplement 57—November 2024

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the February 2023 supplement.

Section 1045.0, “Supervision of Holding Companies with Less Than \$10 Billion in Total Consolidated Assets”

This section was revised to describe the inspection report content for all holding companies in the community banking organization (CBO) supervisory portfolio. The section describes three ways that ratings are presented in inspection reports for CBO holding companies. First, the section explains the inspection report content for noncomplex holding companies with less than \$3 billion in total consolidated assets (small noncomplex holding companies). Small noncomplex holding companies are only assigned a risk-management rating (R) and a composite rating (C) from the RFI/C(D) rating system. Second, the section refers examiners to section 1050.2.6, “Inspection Report Content for Certain Holding Companies in the Regional Banking Organization Portfolio,” for inspection report instructions for CBO holding companies receiving the full RFI/C(D) rating. Lastly, the section describes the optional inspection report format that examiners can utilize for inspections of complex CBO holding companies that result in a composite RFI/C(D) supervisory rating of “4” or “5.”

Section 1050.2, “Consolidated Supervision of Regional Holding Companies”

This section was revised to include an outline of the “Combined Roll-Up Report” for certain regional banking organizations. The Combined Roll-Up Report is an inspection report that examiners can use for conveying the supervisory assessment of bank holding companies (BHCs) with a lead bank subsidiary that is a state member bank. The section also provides detailed instructions that examiners should follow when completing the various sections of the Combined Roll-Up Report.

Section 2010.11, “Supervision of Subsidiaries (Private-Banking Functions and Activities)”

This section has been removed from the manual. Additional information on the assessment of private banking activities is provided in the *Federal Financial Institutions Examination Council Bank Secrecy Act/Anti-Money Laundering Examination Manual* as well as in the *Commercial Bank Examination Manual* (CBEM), section 5210.1.

Section 2065.1, “Nonaccrual Loans and Loan Modifications to Borrowers Experiencing Financial Difficulty”

This section was previously called “Nonaccrual Loans and Restructured Debt (Accounting, Reporting, and Disclosure Issues).” This section was updated to remove references to troubled debt restructurings (TDRs). In March 2022, the Financial Accounting Standards Board issued Accounting Standards Update No. 2022-02, “Financial Instruments – Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures,” which amended Accounting Standards Codification Topic 326, Financial Instruments – Credit Losses. This guidance eliminated the recognition and measurement accounting guidance for TDRs by creditors in Subtopic 310-40, Receivables – Troubled Debt Restructurings by Creditors, while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty. Other outdated accounting references were either removed or updated in the section.

Section 2124.3, “Risk Management of Third-Party Relationships”

This section was previously called, “Managing Outsourcing Risk,” and was based on inactive guidance in SR-13-19/CA-13-21, “Guidance on Managing Outsourcing Risk.” SR-13-19/CA-13-21 was superseded by SR-23-4, “Inter-agency Guidance on Third-Party Relationships: Risk Management.” The revised section briefly describes the guidance in SR-23-4 and provides hyperlinks to resources that provide more infor-

mation and supervisory guidance on third-party relationships and the risk management of these relationships. See also the CBEM’s section 4062.1, “Risk Management of Third-Party Relationships.”

Sections 5010.0 through 5030.0—BHC Inspection Report Template Pages

The following sections have been removed from this manual:

- 5010.0 Procedures for Inspection Report Preparation—Inspection Report References
- 5010.1 General Instructions to FR 1225
- 5010.2 Cover
- 5010.3 Page i—Table of Contents
- 5010.4 Core Page 1—Examiner’s Comments; Matters Requiring Special Board Attention
- 5010.5 Core Page 2—Scope of Inspection and Abbreviations
- 5010.6 Core Page 3—Analysis of Financial Factors
- 5010.7 Core Page 4—Audit Program
- 5010.8 Appendix Page 5—Parent Company Comparative Balance Sheet
- 5010.9 Appendix Page 6—Comparative Statement of Income and Expenses (Parent)
- 5010.10 Appendix Page 7—Consolidated Classified & Special-Mention Assets
- 5010.11 Appendix Page 8—Consolidated Comparative Balance Sheet
- 5010.12 Appendix Page 9—Comparative Consolidated Statement of Income and Expenses
- 5010.13 Capital Structure
- 5010.14 Page—Policies and Supervision
- 5010.15 Page—Violations
- 5010.16 Page—Other Matters
- 5010.17 Page—Classified Assets and Capital Ratios of Subsidiary Banks
- 5010.18 Page—Organization Chart
- 5010.19 Page—History and Structure
- 5010.20 Page—Investment in and Advances to Subsidiaries
- 5010.21 Page—Commercial Paper (Parent)
- 5010.22 Page—Lines of Credit (Parent)
- 5010.23 Page—Questions on Commercial Paper and Lines of Credit
- 5010.24 Page—Contingent Liabilities and Other Accounts
- 5010.25 Page—Statement of Changes in Stockholders’ Equity (Parent)
- 5010.26 Page—Income from Subsidiaries

- 5010.27 Page—Cash Flow Statement (Parent)
- 5010.28 Page—Parent Company Liquidity Position
- 5010.29 Page—Classified Parent Company and Nonbank Assets
- 5010.30 Page—Bank Subsidiaries
- 5010.31 Page—Nonbank Subsidiary
- 5010.32 Page—Nonbank Subsidiary Financial Statements
- 5010.33 Page—Fidelity and Other Indemnity Insurance
- 5010.35 Page—Other Supervisory Issues
- 5010.36 Page—Extensions of Credit to BHC Officials
- 5010.37 Page—Interest Rate Sensitivity—Assets and Liabilities
- 5010.38 Page—Treasury Activities/Capital Markets
- 5010.40 Confidential Page A—Principal Officers and Directors
- 5010.41 Confidential Page B—Condition of Bank Holding Company
- 5010.42 Confidential Page C—Liquidity and Debt Information
- 5010.43 Confidential Page D—Administrative and Other Matters
- 5020.1 Page—Bank Subsidiary (FR 1241)
- 5020.2 Page—Other Supervisory Issues (FR 1241)
- 5030.0 Inspection Report Forms

These sections were removed from the manual because they conveyed BHC inspection report template pages and examiner instructions for completing these report pages that were outdated. Overall, many of these sections provided information that applied to past BHC rating systems and did not appropriately convey how holding company inspection reports are completed in the risk-focused supervisory framework. Information on the completion of holding company inspection reports can be found in the “About this Manual, Supervisory Process” sections (1000.0 through 1080.1) of this manual, which describe supervisory processes for the various portfolios. Specifically, see section 1045.0, “Supervision of Holding Companies with Less Than \$10 Billion in Total Consolidated Assets,” for more information on the completion of inspection reports for small non-complex holding companies. Also see section 1050.2, “Consolidated Supervision of Regional Holding Companies,” for information on the completion of inspection reports for holding companies that are subject to the full RFI/C(D) ratings.

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the November 2021 supplement.

Section 1000.0, “About this Manual”

This section was revised to remove a reference to SR letter 18-5/CA letter 18-7, “Interagency Statement Clarifying Role of Supervisory Guidance.” The Board codified the 2018 “Interagency Statement Clarifying the Role of Supervisory Guidance,” with clarifying changes, as appendix A to 12 C.F.R. 262, “Statement Clarifying the Role of Supervisory Guidance.” The final rule superseded the 2018 statement. See 86 Fed. Reg. 18,173 (April 8, 2021).

Section 1020.0, “Supervision of Savings and Loan Holding Companies”

This new section contains guidance that was previously in section 2500.0, “Supervision of Savings and Loan Holding Companies.” The material was moved closer to the manual’s other sections that describe supervisory process guidance. In addition, this section was modified to provide an overview of the statutes, regulations, and guidance that apply to savings and loan holding companies (SLHCs). The section describes the supervisory approach for SLHCs, highlighting that the Federal Reserve employs a “portfolio approach” to consolidated supervision for most SLHCs to facilitate greater consistency of supervisory practices and assessments across comparable organizations. The section describes the ratings systems that apply to SLHCs. The Federal Reserve uses the “RFI/C(D)” rating system for non-insurance and non-commercial SLHCs with total consolidated assets less than \$100 billion. The “Large Financial Institution” or “LFI” rating system is used for all non-insurance, non-commercial SLHCs with total consolidated assets of \$100 billion or more. Supervised insurance institutions receive a unique rating. See 87 Fed. Reg. 60,160 (October 4, 2022). The section also describes guidance on qualified thrift lenders (see SR-17-9, “Supervisory Guidance for Examining Compliance with the Qualified Thrift Lender Test”), as well as covered savings associations (see SR-22-2, “Status of Covered Savings Associations and Hold-

ing Companies of Covered Savings Associations Under Statutes and Regulations Administered by the Federal Reserve”).

Section 1045.0, “Supervision of Holding Companies with Less Than \$10 Billion in Total Consolidated Assets”

Previously, this section was called “Supervision of Holding Companies with Total Consolidated Assets of \$10 Billion or Less.” The section’s title and content have been revised to reflect minor technical applicability changes. Previously, the guidance in the section applied to the supervision of holding companies with \$10 billion or less in total consolidated assets. The section was revised to reflect that the guidance applies to holding companies supervised by the Federal Reserve with less than \$10 billion in total consolidated assets. For more information see SR-13-21, “Inspection Frequency and Scope Expectations for Bank Holding Companies and Savings and Loan Holding Companies that are Community Banking Organizations.”

Section 1060.20, “Liquidity Planning and Positions (LFI Ratings System)”

This new section provides an overview of key liquidity-related regulations and guidance issues that apply to firms that are subject to the large financial institution (LFI) rating system. This section provides an overview of the “Interagency Policy Statement on Funding and Liquidity Risk Management” (see SR-10-6). The section introduces key liquidity-related requirements in Regulation YY, “Enhanced Prudential Standards” (12 C.F.R. part 252). Further, the section describes the liquidity coverage ratio requirements and the net stable funding ratio requirements in Regulation WW, “Liquidity Risk Measurement Standards” (12 C.F.R. part 249). The liquidity regulatory requirements in the *Complex Institution Liquidity Monitoring Report* (FR 2052a) are summarized. The FR 2052a is required to be submitted by top-tier BHCs, top-tier SLHCs, and FBOs subject to Category I, II, III, or IV standards under the Board’s Regulation YY and Regulation LL. Lastly, the section

describes the Federal Reserve’s supervisory activities and approach for assessing liquidity at LFIIs.

Section 1063.0, “Holding Company Ratings Applicability and Inspection Frequency”

This section was revised to update the inspection scope and frequency expectations for supervised insurance organizations. A “supervised insurance organization” is a depository institution holding company that is an insurance underwriting company, or that has over 25 percent of its consolidated assets held by insurance underwriting subsidiaries or has been otherwise designated as a supervised insurance organization by Federal Reserve staff. For more information on the ratings system that applies to supervised insurance organizations, see SR-22-8, “Framework for the Supervision of Insurance Organizations.”

Section 1075.0, “Formal Corrective Actions”

This new section contains guidance that was previously in section 2110.0, “Formal Corrective Actions.” The material was moved closer to the manual’s other sections that describe supervisory process guidance. The section was revised to include the entities against which the Federal Reserve has the statutory authority to take formal enforcement actions. In particular, the section was revised to indicate which formal actions apply to SLHCs. Additional information was added to describe enforcement actions for Bank Secrecy Act and anti-money laundering compliance failures, as well as the interagency coordination activities of federal banking agencies on formal enforcement actions. Clarifying edits were made to the subsections describing civil money penalties, prohibited indemnification payments, and golden parachute payments, as well as prohibition and removal authority. The section highlights that the Board does not issue an enforcement action on the basis of a “violation” or of “non-compliance” with supervisory guidance.

Section 2010.6, “Supervision of Subsidiaries (Retail Sales of Nondeposit Investment Products)”

Previously, this section was called “Supervision of Subsidiaries (Financial Institution Subsidiary Retail Sales of Nondeposit Investment Products).” The section’s title has been revised to reflect the significant changes that were made to the material. This section provides a summary of the relevant guidance on nondeposit investment products and directs readers to the key pieces of guidance, via hyperlinks, that the Board and other banking agencies have issued regarding this topic. The inspection objectives and inspection procedures have been removed. Relevant examination objectives and procedures on the retail sales of nondeposit investment products are in the *Commercial Bank Examination Manual*.

Section 2080.6, “Funding (Holding Company Funding from Sweep Accounts)”

Previously, this section was called “Funding (Bank Holding Company Funding from Sweep Accounts).” The section was renamed to reflect that the guidance in this section applies to SLHCs as well as bank holding companies (BHCs). The section was revised to reflect the expanded applicability of the guidance. Further, the section was revised to better align with the “Statement Clarifying the Role of Supervisory Guidance” (see 12 C.F.R. part 262, appendix A). Unlike a law or regulation, supervisory guidance does not have the force and effect of law, and the Board does not take enforcement actions based on supervisory guidance.

Section 2090.2 “Control and Ownership (BHC Formations)”

This section contains information about the Small Bank Holding Company and Savings and Loan Holding Company Policy Statement (12 C.F.R. part 225, appendix C). Additional information was added to explain the calculation of equity, the denominator of the debt-to-equity ratio, as described in this policy statement. The components of total equity capital align with the components of equity that are listed in the *Parent Company Only Financial Statements for Small Holding Companies Report* (FR-Y-9SP). Total equity capital includes perpetual preferred stock (including related surplus); common stock

(including related surplus); retained earnings; accumulated other comprehensive income; and all other equity capital components, including the total carrying value (at cost) of treasury stock and unearned Employee Stock Ownership Plan shares.

Section 2110.0, “Formal Corrective Actions”

The material in this section has been revised and moved to section 1075.0. As a result, this section has been removed from the manual. See the description above for section 1075.0 for more information.

Section 2128.02 Asset Securitization (Risk Management and Internal Controls)

This section was significantly revised. Much of the information that was previously in the section was removed because it conveyed outdated risk-based capital provisions affecting asset securitization, as well as outdated accounting references. The section refers readers to the Asset Securitization section of the *Commercial Bank Examination Manual* for more information. The inspection objectives and inspection procedures also were removed, as the Securitization Examination Documentation (ED) module provides more detailed examination procedures for examiners.

Section 2241.0, “Retail-Credit Classification”

This section was revised to reflect that the guidance in this section applies to BHCs as well as

SLHCs. Outdated references were removed from the section. Minor edits were made to the definitions for the classifications used for retail credit: *Substandard*, *Doubtful*, and *Loss*. Edits were made to these definitions to ensure they align with the definitions that the federal bank regulatory agencies utilize for assets adversely classified for supervisory purposes. Further, edits were made to better align the guidance in the manual section with the “Statement Clarifying the Role of Supervisory Guidance.”

Section 2500.0, “Supervision of Savings and Loan Holding Companies”

The material in this section has been revised and moved to section 1020.0. As a result, this section has been removed from the manual. See the description above for section 1020.0 for more information.

Section 3520.0, “Section 4(c)(10) of the BHC Act (Exemption from Section 4 for BHCs That Are Banks)”

This section, previously called “Section 4(c)(10) of the BHC Act (Grandfather Exemption from Section 4 for BHC’s Which Are Banks)” was revised to note that at the time of the enactment of the BHC Act, the exemption described in the section accommodated only three BHCs and that these BHCs no longer exist. The section remains in the manual to provide historical background information.

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the February 2020 supplement.

Section 1050.2, “Consolidated Supervision of Regional Holding Companies”

This section was previously called “Guidance for the Consolidated Supervision of Regional Bank Holding Companies.” The section was revised to note that it applies to domestic bank holding companies (BHCs) and savings and loan holding companies (SLHCs) having between \$10 billion and \$100 billion in total consolidated assets. Several discussions regarding supervisory findings were modified to align more closely with the “Statement Clarifying the Role of Supervisory Guidance” (12 CFR part 262, appendix A). Further, this section was revised to include an outline of the report of inspection that examiners should follow when assigning holding company rating components and sub-components at full-scope or roll-up inspections of BHCs and SLHCs in the regional banking organization portfolio. The section explains the timing expectations for examination staff to complete safety-and-soundness examination and inspection reports for domestic regional financial institutions and the submission of the reports to the institution. Lastly, references to inactive guidance issuances were updated.

Section 1060.1, “Large Financial Institution Rating System: Capital Planning and Positions”

This new section provides an overview of key capital-related regulations and guidance issuances that apply to firms that are subject to the large financial institution (LFI) rating system. The section describes capital stress testing requirements for BHCs and covered SLHCs with total consolidated assets of \$100 billion or more (Regulation YY and Regulation LL). The section also contains an overview of Regulation Q, which establishes minimum capital requirements and overall capital adequacy standards for Federal Reserve-regulated institutions. A fuller discussion of Regulation Q is provided in the “Assessment of Capital Adequacy” section

of the *Commercial Bank Examination Manual*. In addition, the section describes the applicability and purpose of the capital plan rule (Regulation Y and Regulation LL), which requires an LFI to develop an annual capital plan that is approved by its board of directors. This section contains updated information that was previously discussed in section 4060.5, “Capital Adequacy (Advanced Approaches)” and section 4061.0, “Consolidated Capital (Capital Planning).”

Section 1060.2, “Supervisory Assessment of Capital Planning and Positions for Category I Firms”

This new section contains guidance that was previously in section 4063.0, “Federal Reserve Supervisory Assessment of Capital Planning and Positions for LISCC Firms and Large and Complex Firms.” This material was moved closer to the other sections in the manual that provide guidance on the assessment of capital planning and positions at LFIs. Further, this section was modified to cover U.S. BHCs that are subject to category I standards under the Board’s tailoring framework. These applicability modifications align with the Board’s tailoring rules. See 84 Fed. Reg. 59,032 (November 1, 2019) for more information. See also SR-15-18, “Federal Reserve Supervisory Assessment of Capital Planning and Positions for Firms Subject to Category I Standards.”

Section 1060.3, “Supervisory Assessment of Capital Planning and Positions for Category II or III Firms”

This new section contains guidance that was previously in section 4065.0, “Federal Reserve Supervisory Assessment of Capital Planning and Positions for Large and Noncomplex Firms.” The material was moved closer to the other sections in the manual that provide guidance on the assessment of capital planning and positions at LFIs. Further, this section was modified to cover U.S. BHCs, U.S. intermediate holding companies of foreign banking organizations, and covered SLHCs that are subject to category II or III standards under the Board’s tailoring framework. These applicability modifica-

tions align with the Board's tailoring rules. See 84 Fed. Reg. 59,032 (November 1, 2019); and SR-15-19, "Federal Reserve Supervisory Assessment of Capital Planning and Positions for Firms Subject to Category II or III Standards."

Section 1060.30, "Supervisory Guidance on Board of Directors' Effectiveness (Governance and Controls)"

This new section is based on SR-21-3/CA-21-1, "Supervisory Guidance on Board of Directors' Effectiveness." The guidance in this section explains key attributes of effective boards at BHCs and SLHCs that are LFIIs. Specifically, this guidance notes that boards of directors at LFIIs should: (1) set clear, aligned and consistent direction regarding the firm's strategy and risk appetite; (2) direct senior management regarding the board's information needs; (3) oversee and hold senior management accountable; (4) support the independence and stature of independent risk management and internal audit; and (5) maintain a capable board composition and governance structure. The section also provides an explanation of supervisory considerations in assessing board effectiveness as part of the LFI rating system.

Section 1060.31, "Assessment of Risk-Management Processes and Internal Controls of BHCs Having \$100 Billion or More in Total Assets"

This new section was previously section 4070.1. The material was moved closer to the manual's sections on the assignment of ratings for holding companies subject to the LFI rating system. The section was revised to cover the supervision of BHCs having \$100 billion or more in total consolidated assets. Further, this section was updated to reflect the Federal Reserve's guidance for boards of directors in SR-21-3/CA-21-1, "Supervisory Guidance on Board of Directors' Effectiveness." Specifically, the section was revised to better reflect the roles and responsibilities of the board of directors and the roles and responsibilities of senior management.

Section 1062.1, "Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 Billion"

This new section was previously section 4071.0. The material in this section was moved closer to the manual's sections on the assignment of ratings for holding companies with less than \$100 billion in assets (RFI/C(D) rating system). In addition, the section was revised to cover the supervision of Federal Reserve-regulated institutions with total consolidated assets of less than \$100 billion, including state member banks, BHCs, and SLHCs (including insurance and commercial SLHCs); as well as foreign banking organizations with consolidated U.S. assets of less than \$100 billion. Previously, the guidance in the section generally applied to the supervision of Federal Reserve-regulated institutions with total consolidated assets of less than \$50 billion. Outdated references to SR letters also were removed from the section. See SR-16-11, "Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 billion."

Section 1070.1, "Communication of Supervisory Findings"

This section was revised to include a reference to the "Statement Clarifying the Role of Supervisory Guidance." This statement, as codified in 12 CFR part 262, implements a September 2018 statement clarifying the differences between regulation and guidance. Unlike a law or regulation, supervisory guidance does not have the force and effect of law, and the Board does not take enforcement actions based on supervisory guidance. Rather, guidance outlines expectations and priorities, or articulates views regarding appropriate practices for a specific subject. See 12 CFR part 262, appendix A; 86 Fed. Reg. 18,179, (April 8, 2021).

Section 1072.0, "Considerations in Assigning and Revising Supervisory Ratings"

This new section was previously section 4070.3, "Revising Supervisory Ratings." The material was moved closer to the other sections in the manual covering aspects of the Federal Reserve's supervisory process. The section was revised to

describe considerations for upgrading supervisory ratings at community banking organizations. See SR-12-4, “Upgrades of Supervisory Ratings for Banking Organizations with \$10 Billion or Less in Total Consolidated Assets.” In addition, the section describes how examiners provide timely and accurate assessments of larger holding company through the LFI rating system.

Section 1080.0, “Federal Reserve System Holding Company Surveillance Program”

This section was formerly section 4080.0, “Federal Reserve System BHC Surveillance Program.” The material was moved to be closer to the other sections in the manual covering aspects of the Federal Reserve’s supervisory process. Minor technical edits were made to the section.

Section 1080.1, “Surveillance Program for Small Holding Companies”

This section was formerly section 4080.1, “Surveillance Program for Small Holding Companies.” The material was moved closer to the other sections in the manual covering aspects of the Federal Reserve’s supervisory process. Minor technical edits were made to the section.

Section 2010.12, “Fees Involving Investments of Fiduciary Assets in Mutual Funds and Potential Conflicts of Interest”

This section was updated to reflect the Federal Reserve’s guidance for boards of directors in SR-21-3/CA-21-1, “Supervisory Guidance on Board of Directors’ Effectiveness,” and SR-16-11, “Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 Billion.” Specifically, the section was revised to better reflect the roles and responsibilities of the board of directors and the roles and responsibilities of senior management with regards to this activity.

Section 2065.2, “Maintaining and Documenting the Allowance for Loan and Lease Losses”

Section 2065.2, “Determining an Adequate Level for the Allowance for Loan and Lease Losses (Accounting, Reporting, and Disclosure Issues),” was renamed “Maintaining and Documenting

the Allowance for Loan and Lease Losses.” Section 2065.2 was modified to summarize the contents of the following manual sections, which were based on several SR letters:

- Section 2065.3, “Maintenance of an Appropriate Allowance for Loan and Lease Losses (Accounting, Reporting, and Disclosure Issues)” (See SR-06-17);
- Section 2065.4, “ALLL Methodologies and Documentation (Accounting, Reporting, and Disclosure Issues)” (See SR-01-17); and
- Section 2065.5, “ALLL Estimation Practices for Loans Secured by Junior Liens” (See SR-12-3)

As a result of the changes to section 2065.2, sections 2065.4, and 2065.5 have been removed from the manual. Section 2065.3 “Maintenance of an Appropriate Allowance for Loan and Lease Losses (Accounting, Reporting, and Disclosure Issues),” has been replaced with entirely new content on the “Allowance for Credit Losses.” In addition, references to the 2020 interagency guidance on credit-risk review systems were added to section 2065.2. See SR-20-13, “Interagency Guidance on Credit Risk Review Systems.”

Section 2065.3, “Allowance for Credit Losses”

This new section provides an overview of the Financial Accounting Standards Board’s (FASB) Accounting Standards Update No. 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The section highlights the Interagency Policy Statement on Allowances for Credit Losses,” which was issued by the Federal Reserve, Office of the Comptroller of the Currency, Federal Deposit Insurance Corporation, and National Credit Union Administration. (See SR-20-12.) The statement describes the measurement of expected credit losses under the current expected credit losses (CECL) methodology and the accounting for impairment on available-for-sale debt securities in accordance with FASB Accounting Standards Codification Topic 326; the design, documentation, and validation of expected credit loss estimation processes, including the internal controls over these processes; the maintenance of appropriate allowances for credit losses (ACLs); the responsibility

ties of boards of directors and management; and examiners' review of a bank's ACLs. The section also explains the Board's rules providing institutions the option to phase in the day-one adverse effects on regulatory capital that may result transitioning from the incurred loss methodology to the CECL methodology.

Section 2065.4, "ALLL Methodologies and Documentation (Accounting, Reporting, and Disclosure Issues)"

This section has been removed from the manual. See the description above for section 2065.2 for more information on the removal of this section from the manual.

Section 2065.5, "ALLL Estimation Practices for Loans Secured by Junior Liens"

This section has been removed from the manual. See the description above for section 2065.2 for more information on the removal of this section from the manual.

Section 2090.0, "Control and Ownership (General)"

This section was revised to provide an overview of the concept of control as it is applied by the Federal Reserve under the relevant banking and savings and loan-related statutes. The section was revised to include key concepts from a final rule that the Board issued in 2020 on control and divestiture proceedings. See 85 Fed. Reg. 12,398 (March 2, 2020).

Section 2122.0, "Internal Credit-Risk Ratings at Large Firms"

This section was renamed and updated to reflect the Federal Reserve's guidance for boards of directors in SR-21-3/CA-21-1, "Supervisory Guidance on Board of Directors' Effectiveness," and SR-16-11, "Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 Billion." Specifically, the section was revised to better reflect the roles and responsibilities of the board of directors and the roles and

responsibilities of senior management with regards to this activity. Outdated guidance references in the section were updated. In addition, the inspection objectives and procedures were removed.

Section 2124.01, "Risk-Focused Supervision Framework for Large Complex Banking Organizations"

Section 2124.01 was removed from the manual as SR-97-24, "Risk-Focused Framework for Supervision of Large Complex Institutions," has been made inactive. Refer to SR-21-4/CA-21-2, "Inactive or Revised SR Letters Related to the Federal Reserve's Supervisory Expectations for a Firm's Boards of Directors."

Section 2124.07, "Compliance Risk-Management Programs and Oversight at Large Firms"

This section was renamed and updated to reflect the Federal Reserve's guidance for boards of directors in SR-21-3/CA-21-1, "Supervisory Guidance on Board of Directors' Effectiveness," and SR-16-11, "Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 Billion." Specifically, the section was revised to better reflect the roles and responsibilities of the board of directors and the roles and responsibilities of senior management with regards to implementing compliance risk-management programs.

Section 2124.1, "Assessment of Information Technology in Risk-Focused Supervision"

This section was updated to reflect the Federal Reserve's guidance for boards of directors in SR-21-3/CA-21-1, "Supervisory Guidance on Board of Directors' Effectiveness," and SR-16-11, "Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 Billion." Specifically, the section was revised to better reflect the roles and responsibilities of the board of directors and the roles and responsibilities of senior management with regards to institutions' use of information technology. Outdated references to information technology tools or processes were removed. Further, the inspection objectives and inspection procedures were

removed from the section. More information on inspection objectives and procedures is provided in the *FFIEC IT Examination Handbook*.

Section 2124.3, “Managing Outsourcing Risk”

This section was updated to reflect the Federal Reserve’s guidance for boards of directors in SR-21-3/CA-21-1, “Supervisory Guidance on Board of Directors’ Effectiveness,” and SR-16-11, “Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 Billion.” Specifically, the section was revised to better reflect the roles and responsibilities of the board of directors and the roles and responsibilities of senior management with regards to outsourcing risk.

Section 2125.0, Trading Activities of Banking Organizations (Risk Management and Internal Controls)

Section 2125.0 was removed from the manual as SR-93-69, “Examining Risk Management and Internal Controls for Trading Activities of Banking Organizations,” has been made inactive. Refer to SR-21-4/CA-21-2, “Inactive or Revised SR Letters Related to the Federal Reserve’s Supervisory Expectations for a Firm’s Boards of Directors.”

Section 2126.5, “Volcker Rule (Section 13 of the Bank Holding Company Act)”

This section’s title was revised from “Procedures for a Banking Entity to Request an Extended Transition Period for Illiquid Funds.” Further, the section was revised to provide an overview of section 13 to the Bank Holding Company Act of 1956 (BHC Act), commonly referred to as the Volcker rule. The Volcker rule generally prohibits any banking entity from engaging in proprietary trading or from acquiring or retaining an ownership interest in, sponsoring, or having certain relationships with a hedge fund or private equity fund, subject to certain exemptions. The section provides background information on the applicability of the Volcker rule, as well as Regulation VV, which implements the Volcker rule. The section retained salient information related to the procedures that institutions could follow to request an extended transition period for illiquid funds.

Section 2129.05, “Risk and Capital Management—Secondary-Market Credit Activities (Risk Management and Internal Controls)”

This section was updated to reflect the Federal Reserve’s guidance for boards of directors in SR-21-3/CA-21-1, “Supervisory Guidance on Board of Directors’ Effectiveness,” and SR-16-11, “Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 Billion.” The material related to SR-97-21, “Risk Management and Capital Adequacy of Exposures Arising from Secondary Market Credit Activities,” was removed from the section as this letter was made inactive. Refer to SR-21-4/CA-21-2, “Inactive or Revised SR Letters Related to the Federal Reserve’s Supervisory Expectations for a Firm’s Boards of Directors.” SR-21-4/CA-21-2 notes that the expectations related to the responsibilities of board of directors will be revised in the *Bank Holding Company Supervision Manual* to be consistent with the guidance in SR-21-3/CA-21-1 as well as SR-16-11.

Section 3500.0, “Prohibitions Against Tying Arrangements”

This section was revised to provide an overview of section 106 of the BHC Act amendments of 1970 (section 106). Section 106, as implemented by the Federal Reserve Board’s Regulation Y (12 CFR part 225), prohibits a bank from conditioning the availability or price of one product on a requirement that the customer also obtain another product from the bank or an affiliate of the bank. The statute is intended to prevent banks from using their ability to offer bank products in a coercive manner to gain a competitive advantage in markets for other products and services. Several legal interpretations about the application of section 106 were removed from the section because legal interpretations are available on the Board’s public website. The inspection objectives and inspections procedures were updated.

Section 3909.0, “Supervisory Guidance on Equity Investment and Merchant Banking Activities (Section 4(k) of the BHC Act)”

This section was updated to reflect the Federal Reserve’s guidance for boards of directors in SR-21-3/CA-21-1, “Supervisory Guidance on Board of Directors’ Effectiveness,” and SR-16-11, “Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$100 Billion.” Specifically, the section was revised to better reflect the roles and responsibilities of the board of directors and the roles and responsibilities of senior management with regards to this activity.

Section 4020.9, “Supervision Standards for De Novo State Member Banks of Bank Holding Companies”

This section was revised to incorporate updated guidance on the supervision program for de novo state member banks. The section was revised to explain that a state member bank is considered to be in the de novo stage until it has been operating for at least three years. In addition, the section was updated to note that as a condition of membership, the Federal Reserve typically requires each de novo to maintain a tier 1 leverage ratio of at least 8 percent for the first three years of its existence. See SR-20-16, “Supervision of De Novo State Member Banks.”

Section 4060.3, “Consolidated Capital (Examiners’ Guidelines for Assessing the Capital Adequacy of BHCs)”

Section 4060.3 has been removed from the manual. This section contained outdated information describing the capital adequacy guidelines for BHCs that was previously found in appendix A to Regulation Y (12 CFR part 225). Supervised institutions should refer to the Board’s capital rule (12 CFR part 217 or Regulation Q) and the Small Bank Holding Company and Savings and Loan Holding Company Policy Statement (12 CFR part 225, appendix C). For more information on Regulation Q, see the *Commercial Bank Examination Manual’s* section entitled, “Assessment of Capital Adequacy.” For more information on the Small Bank Holding Company and Savings and Loan Holding Com-

pany Policy Statement, see this manual’s section 2090.2, “Control and Ownership (BHC Formations).”

Section 4060.5, “Capital Adequacy (Advanced Approaches)”

Section 4060.5 has been removed from the manual. This section described the advanced approaches framework, which provides a risk-based capital framework that requires some bank holding companies to use an internal ratings-based approach to calculate credit-risk capital requirements and advanced measurement approaches in order to calculate regulatory operational-risk capital requirements. The relevant information on the advanced approaches framework is located in section 1060.1, “Large Financial Institution Rating System: Capital Planning and Positions,” in the subsection entitled, “Regulation Q (12 CFR 217): Capital Positions.” For more information on the advanced approaches framework see 12 CFR part 217, subpart E, as well as the Basel Coordination Committee Bulletins on the [Board’s public website](#).

Section 4061.0, “Consolidated Capital (Capital Planning)”

Section 4061.0 has been removed from the manual. Relevant guidance on the capital plan rule (12 CFR 225.8) is in section 1060.1, “Large Financial Institution Rating System: Capital Planning and Positions,” in the subsection entitled, “Regulation Y: Capital Plan Rule and Stress Capital Buffer.” Section 1060.1 explains the purpose of a firm’s capital plan; the applicability of the rule; and the mandatory elements of a capital plan. The tailored capital plan rule sets forth requirements for firms that are subject to category IV standards.

Section 4063.0, “Federal Reserve Supervisory Assessment of Capital Planning and Positions for LISCC Firms and Large and Complex Firms”

This section has been removed from the manual. See the description above for section 1060.2 for more information on the removal of this section from the manual.

Section 4065.0, “Federal Reserve Supervisory Assessment of Capital Planning and Positions for Large and Noncomplex Firms”

This section has been removed from the manual. See the description above for section 1060.3 for more information on the removal of this section from the manual.

Section 4070.1, “Rating Risk-Management Processes and Internal Controls of BHCs Having \$50 Billion or More in Total Assets”

This section has been removed from the manual. See the description above for section 1060.31 for more information on the removal of this section from the manual.

Section 4070.3, “Revising Supervisory Ratings”

The content of this section was revised and moved to section 1072.0, “Considerations in Assigning and Revising Supervisory Ratings.” As a result, this section has been removed from the manual. See the description above for section 1072.0 for more information.

Section 4071.0, “Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$50 Billion”

This section has been removed from the manual. See the description above for section 1062.1 for more information on the removal of this section from the manual.

Section 4080.0, “Federal Reserve System BHC Surveillance Program”

The material in this section has been moved to section 1080.0. As a result, this section has been removed from the manual. See the description above for section 1080.0 for more information.

Section 4080.1, “Surveillance Program for Small Holding Companies”

The material in this section was moved to section 1080.1. As a result, this section has been removed from the manual. See the description above for section 1080.1 for more information.

Bank Holding Company Supervision Manual

Supplement 54—February 2020

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the February 2019 supplement.

Section 1045.0

The contents of this new section, “Supervision of Holding Companies with Total Consolidated Assets of \$10 Billion or Less,” were previously in this manual’s section 5000.0, “BHC Inspection Program (General).” A standalone section was developed to help clarify the supervisory program for smaller holding companies. The content of the section was revised to modify inspection frequency and scope expectations for holding companies with total consolidated assets between \$1 billion and \$3 billion. The inspection frequency and scope expectations were modified for this population of holding companies to align with updated statutory requirements as authorized by the Economic Growth, Regulatory Relief, and Consumer Protection Act. References were also updated to reflect that non-commercial and non-insurance savings and loan holding companies (SLHCs) are assigned RFI ratings, effective February 1, 2019. See SR-13-21, “Inspection Frequency and Scope Requirements for Bank Holding Companies and Savings and Loan Holding Companies with Total Consolidated Assets of \$10 Billion or Less.”

Section 1063.0

This new section, “Holding Company Ratings Applicability and Inspection Frequency,” provides an overview of the inspection scope and frequency expectations for bank holding companies (BHCs) and SLHCs supervised by the Federal Reserve. The section explains the applicability of the two rating systems Federal Reserve examiners use to assess the condition of BHCs and SLHCs. The section also provides a table illustrating the inspection scope and frequency expectations for holding companies with less than \$10 billion in assets, which is described in more detail in section 1045.0. See also SR-19-4/CA-19-3, “Supervisory Rating System for Holding Companies with Total Consolidated Assets Less Than \$100 billion”; SR-19-3/

CA-19-2, “Large Financial Institution (LFI) Rating System”; and SR-13-21.

Section 1065.0

This new section, “Nondisclosure of Supervisory Ratings and Confidential Supervisory Information,” was previously section 4070.5. The section was moved to section 1065.0 so it would be located closer to the manual’s sections on the assignment of ratings for holding companies. In addition, the section was revised to reference the large financial institution (LFI) rating system as another example of confidential supervisory information. Superfluous historical background information was removed from the section. In addition, outdated references to the Office of Thrift Supervision and their holding company rating system were removed from the section.

Section 1070.1

The content of this new section was previously part of section 5000.0, “BHC Inspection Program (General).” The content of section 1070.1 primarily is based on the guidance in SR-13-13/CA-13-10, “Supervisory Considerations for the Communication of Supervisory Findings.” Section 1070.1 highlights that examiners should convey, if evident, both the root cause of the finding and the potential effect of the finding on the organization. The section also includes a reference to SR-18-5/CA-18-7, “Interagency Statement Clarifying the Role of Supervisory Guidance,” which examiners should also consider when communicating supervisory findings. Lastly, the section describes key factors examiners should consider in determining whether to recommend additional formal or informal investigation or enforcement action for a holding company.

Section 2231.0

Section 2231.0, “Real Estate Appraisals and Evaluations,” has been revised significantly. This section provides a brief summary of the Board’s appraisal regulations and directs readers to the key pieces of guidance that the Board and other banking agencies have issued relating to real

estate appraisals and evaluations. Previously, the section contained the entire contents of the December 2010 “Interagency Appraisal and Evaluation Guidelines.” The revised manual section includes a brief summary of the December 2010 Interagency Appraisal and Evaluation Guidelines, as well as a hyperlink to the guidelines. (See SR-10-16.)

Section 4060.4

Section 4060.4, “Consolidated Capital (Tier 1 Leverage Measure),” has been removed from the manual. The section was outdated and based on regulations that no longer exist. For more information on the leverage ratio, including leverage ratio components and requirements, see the Board’s Regulation Q (12 CFR part 217). In addition, the instructions to the FR Y-9C, “Consolidated Financial Statements for Holding Companies,” (Schedule HC-R) outline the reporting requirements for the leverage capital ratios.

Section 4070.5

This section, “Nondisclosure of Supervisory Ratings,” has been removed from the manual. See the description above for section 1065.0 for more information on the removal of this section from the manual.

Section 4080.1

This section, “Surveillance Program for Small Holding Companies,” was modified to alter the applicability of the Federal Reserve’s surveillance program for holding companies. The small holding company surveillance program covers holding companies having total consolidated assets of less than \$3 billion. Previously, the

program covered holding companies having total consolidated assets of less than \$1 billion. (See SR-13-21.)

Section 5000.0

Section 5000.0, “BHC Inspection Program (General),” has been revised significantly and is now focused on the coordination of holding company supervisory activities. Much of the relevant content in section 5000.0 was moved to other sections to improve the manual’s organization. More specifically, information related to the supervision of holding companies with total consolidated assets \$10 billion or less was removed, revised, and incorporated into section 1045.1 of the manual. The section’s content related to the communication of supervisory findings was removed and incorporated into section 1070.1 of the manual. In addition, outdated content on the frequency and scope of holding company inspections was removed from this section. Section 1063.0 contains consolidated and updated inspection frequency and scope expectations for holding companies.

Section Tables of Contents

The detailed tables of contents sections, which listed the subheadings within each major part of the manual (parts 2000, 3000, 4000, and 5000) have been removed. Because the Board no longer offers print versions or subscriptions for the manual, these detailed tables of contents sections are obsolete. Manual readers can use the search function within the online version of the manual to find material. The General Table of Contents (section 1010.0) at the beginning of the manual, which provides a broad overview, has been retained.

Bank Holding Company Supervision Manual

Supplement 53—February 2019

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the September 2017 supplement.

Section 1000.0

This section was renamed from “Foreword” to “About this Manual” and now includes the relevant content from sections 1020.0 and 1030.0. In addition, the section clarifies the role of supervisory guidance. A statute or regulation has the force and effect of law. Unlike a law or regulation, supervisory guidance does not have the force and effect of law. Rather, supervisory guidance outlines the agencies’ supervisory expectations or priorities and articulates the agencies’ general views regarding appropriate practices for a given subject area. See SR letter 18-5/CA letter 18-7, “Interagency Statement Clarifying Role of Supervisory Guidance,” for more information.

Section 1020.0

The relevant content of this section, “Preface,” was moved to section 1000.0 of this manual. As a result, section 1020.0 was removed from the *Bank Holding Company Supervision Manual*.

Section 1030.0

The relevant content in this section, “Use of the Manual,” has been moved to section 1000.0 of this manual. As a result, section 1030.0 was removed from the *Bank Holding Company Supervision Manual*.

Section 1060.0

This new section, “Large Financial Institution Rating System,” presents the supervisory rating system adopted in November 2018 for

- bank holding companies with total consolidated assets of \$100 billion or more;
- all non-insurance, non-commercial savings and loan holding companies with total consolidated assets of \$100 billion or more; and

- U.S. intermediate holding companies of foreign banking organizations with combined U.S. assets of \$50 billion or more established pursuant to the Federal Reserve’s Regulation YY.

The large financial institution (LFI) rating system represents a supervisory evaluation of whether a firm possesses sufficient financial and operational strength and resilience to maintain safe-and-sound operations and comply with laws and regulations, including those related to consumer protection, through a range of conditions. The LFI rating system is composed of the following three components: (1) Capital Planning and Positions; (2) Liquidity Risk Management and Positions; and (3) Governance and Controls. The Federal Reserve will assign initial LFI ratings to firms in the Large Institution Supervision Coordinating Committee portfolio in early 2019. For all other firms subject to the LFI rating system, the Federal Reserve will assign initial LFI ratings in early 2020. See 83 Fed. Reg. 58,724 (November 21, 2018) and 84 Fed. Reg. 4309 (February 15, 2019). See also SR letter 19-3/CA letter 19-2, “Large Financial Institution (LFI) Rating System.”

Section 1062.0

This new section, “RFI Rating System,” primarily clarifies which supervisory rating system applies to holding companies with total consolidated assets less than \$100 billion. In 2018, the Board adopted the LFI rating system for bank holding companies and non-insurance and non-commercial savings and loan holding companies (SLHCs) with total consolidated assets of \$100 billion or more (see section 1060.0). Also in 2018, the Board adopted the RFI rating system for non-insurance and non-commercial SLHCs with total consolidated assets less than \$100 billion. See 83 Fed. Reg. 56,081 (November 7, 2018). This section notes all of the bank holding companies and savings and loan holding companies that are subject to the RFI rating system. The elements of the RFI rating system and the ratings’ definitions have not changed. The majority of the content in this section, was previously in section 4070, “Bank Holding Company Rating System.” See also 69 Fed. Reg. 70,444 (December 6, 2004). However, the RFI

rating system guidance was revised to provide current references to regulations and guidance. The manual references have also been revised. See SR letter 19-4/CA letter 19-3, “Supervisory Rating System for Holding Companies with Total Consolidated Assets Less Than \$100 billion,” for more information.

Section 2020.7

This section was renamed from “Intercompany Transactions (Transfer of Low-Quality Loans or Other Assets)” to “Intercompany Transactions (Transfer of Low-Quality Assets).” The section was updated to provide the current definition of low-quality assets, as per the Federal Reserve Board’s Regulation W (12 CFR 223.3(v)). Outdated references were removed from the section.

Section 2090.2

This section, “Control and Ownership (BHC Formations),” was revised to reflect the Board’s August 30, 2018 (effective date) amendment of the Small Bank Holding Company and Savings and Loan Holding Company Policy Statement (12 CFR 225, appendix C) to expand the applicability of the policy statement. The interim final rule raised the asset threshold of the policy statement from \$1 billion to \$3 billion in total consolidated assets. All firms covered by the policy statement must meet certain qualitative requirements, including those pertaining to non-banking activities, off-balance sheet activities, and publicly registered debt and equity. For the interim final rule, see 83 Fed. Reg. 44,195 (August 30, 2018).

Section 2100.0

This section, “International Banking Activities,” was revised to remove outdated information from year-end 2009 regarding the number of member banks, Edge Act corporations and agreement corporations operating in foreign countries and overseas areas of the United States, and entities representing foreign banking organizations operating in the United States. The section also was revised to note that in 2014, the Federal Reserve Board approved a final rule required by section 165 of the Dodd-Frank Act,

which requires enhanced prudential standards for large U.S. bank holding companies. Section 165 directed the Board to strengthen supervision and regulation of foreign banking organizations. The section also includes a reference to the Economic Growth, Regulatory Relief, and Consumer Protection Act (EGRRCPA), which amended section 165 of the Dodd-Frank Act.

Section 2170.0

This section, “Purchase and Sale of Loans Guaranteed by the U.S. Government,” has been removed from the manual. The contents of the section were based on a Federal Financial Institutions Examination Council (FFIEC) policy statement from 1985 on supervising banking organizations that participate in the purchase and sale of loans guaranteed by the U.S. government. The 1985 FFIEC policy statement was rescinded in 1997. See 62 Fed. Reg. 16,158 (April 4, 1997) for more information.

Section 2178.0

This section, “Support of Bank-Affiliated Investment Funds,” was revised to clarify that a state member bank’s management should notify and consult with the Federal Reserve prior to the bank providing material financial support to its advised funds. The section also was revised to remove a reference to the abolished Office of Thrift Supervision and to update an accounting standards reference. The inspection objectives and inspection procedures were removed from the section. Examination objectives and procedures to review banks providing financial support to advised funds are available in the “Investment-Funds Support” section of the *Commercial Bank Examination Manual*.

Section 4000.0 and section 4020.5

Section 4000.0, “Financial Factors (Introduction),” and section 4020.5, “Banks (Summary Analysis),” were updated to remove references to section 4070.0, which is no longer a section in the *Bank Holding Company Supervision Manual*.

Section 4060.8

Section 4060.8 has been significantly revised. The section was renamed from “Consolidated

Risk-Based Capital—Direct-Credit Substitutes Extended to ABCP Programs” to “Overview of Asset-Backed Commercial Paper Programs.” The section was substantially revised because the material did not reflect the current capital rules. The previous capital rules permitted banking organizations with qualifying internal risk-rating systems to use those systems to apply the internal-ratings approach to their un-rated direct-credit substitutes extended to asset-backed commercial paper programs that they sponsored by mapping internal risk ratings to external rating equivalents. The revised capital rules (78 Fed. Reg. 62,018 (October 11, 2013)) replaced references to credit ratings with new measures of credit-worthiness.

Section 4069.0

Section 4069.0, “Dodd-Frank Act Company-Run Stress Testing for Banking Organizations with Total Consolidated Assets \$10–50 Billion,” has been removed from the *Bank Holding Company Supervision Manual*. Eighteen months after the Economic Growth, Regulatory Relief, and Consumer Protection Act’s (EGRRCPA) enactment (May 24, 2018), financial companies with total consolidated assets of less than \$250 billion that are not bank holding companies (BHCs) will no longer be subject to the company-run stress testing requirements in section 165(i)(2) of the Dodd-Frank Act. In contrast, on EGRRCPA’s date of enactment, BHCs under \$100 billion in total consolidated assets were no longer subject to section 165(i)(2). The agencies’ regulations implementing company-run stress testing provide that the agencies may extend any deadline relating to company-run stress testing. In order to avoid unnecessary burden for depository institutions and to maintain consistency between BHCs and depository

institutions, the agencies are extending the deadlines for all regulatory requirements related to company-run stress testing for depository institutions with average total consolidated assets of less than \$100 billion until November 25, 2019 (at which time both statutory exemptions will be in effect). For more information, see the [Inter-agency statement regarding the impact of the Economic Growth, Regulatory Relief, and Consumer Protection Act](#) issued on July 6, 2018.

Section 4070.0

The majority of the content in this section, “Bank Holding Company Rating System,” has moved to section 1062.0, “RFI Rating System.” In addition to moving the contents to section 1062.0, the information was revised to clarify the applicability of the RFI rating system and to provide current references to regulations and guidance. The elements of the RFI rating system and the ratings’ definitions are unchanged. As a result, section 4070.0 was removed from the *Bank Holding Company Supervision Manual*. See section 1062.0 and SR letter 19-4/CA letter 19-3, “Supervisory Rating System for Holding Companies with Total Consolidated Assets Less Than \$100 billion,” for more information.

Section 6000.0

This section, the “Alphabetical Subject Index,” was removed from the *Bank Holding Company Supervision Manual*. Effective December 31, 2017, the Board no longer offers print versions or subscriptions for the manual, which has rendered the Alphabetical Subject Index obsolete. Manual readers can use the search function within the online version of the manual to find material.

Bank Holding Company Supervision Manual

Supplement 52—September 2017

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the January 2017 supplement.

SUMMARY OF CHANGES

Section 2010.13

Section 2010.13, “Supervision of Subsidiaries (Establishing Accounts for Foreign Governments, Embassies, and Political Figures),” was updated to provide additional guidance, which was conveyed in a 2011 interagency advisory entitled, “Guidance on Accepting Accounts from Foreign Embassies, Consulates and Missions.” This interagency advisory provides information to financial institutions providing account services to foreign missions in a manner that fulfills the needs of those foreign governments while complying with the provisions of the Bank Secrecy Act. It advises that financial institutions are expected to demonstrate the capacity to conduct appropriate risk assessments and implement the requisite controls and oversight systems to effectively manage the risk identified in these relationships with foreign missions. The 2011 advisory also confirms that it is the financial institution’s decision to accept or reject a foreign mission account. See SR letter 11-6, “Guidance on Accepting Accounts from Foreign Embassies, Consulates and Missions.”

Section 4060.9

Section 4060.9, “Consolidated Capital Planning Processes (Payment of Dividends, Stock Redemptions, and Stock Repurchases at Bank Holding

Companies),” was updated to clarify that the guidance in the section does not apply to U.S. bank holding companies or intermediate holding companies of foreign banking organizations with \$50 billion or more in total consolidated assets. Capital planning guidance for the previously mentioned firms is provided in SR letter 15-18, “Federal Reserve Supervisory Assessment of Capital Planning and Positions for LISCC Firms and Large and Complex Firms” (section 4063.0.1 of this manual) and SR letter 15-19, “Federal Reserve Supervisory Assessment of Capital Planning and Positions for Large and Noncomplex Firms” (section 4065.0.1 of this manual). In addition, inactive guidance references in this section have been updated.

Section 4069.0

This section, “Dodd-Frank Act Company-Run Stress Testing for Banking Organizations with Total Consolidated Assets of \$10–50 Billion,” was updated to address changes to the agencies’ rules implementing Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) company-run stress testing disclosure requirements since the issuance of SR letter 14-3, “Supervisory Guidance on Dodd-Frank Act Company-Run Stress Testing for Banking Organizations with Total Consolidated Assets of More Than \$10 Billion but Less Than \$50 Billion.” For more information on the changes to the Board’s stress testing rules, see 80 *Fed. Reg.* 75419 (December 2, 2015).

Bank Holding Company Supervision Manual

Supplement 51—January 2017

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Supervision and Regulation has issued since the publication of the July 2016 supplement.

SUMMARY OF CHANGES

Section 2126.5

Section 2126.5, “Procedures for a Banking Entity to Request an Extended Transition Period for Illiquid Funds,” is a new section that provides applicable banking entities with information on the procedures for submitting a request for an extended transition period for a hedge fund or private equity fund that qualifies as an illiquid fund pursuant to section 13 of the Bank Holding Company Act of 1956 (BHC Act), also known as the Volcker rule. Under the statute, a banking entity must apply to the Board for an extended transition period for an illiquid fund regardless of the banking entity’s primary financial regulatory agency. The term “banking entity” is defined by statute to include, with limited exceptions: (i) any insured depository institution (IDI) (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)); (ii) any company that controls an IDI (including

a bank holding company (BHC), savings and loan holding company (SLHC), and any other company that controls an insured depository institution but that is not a BHC or SLHC, such as the parent company of an industrial loan company); (iii) any company that is treated as a BHC for purposes of section 8(a) of the International Banking Act of 1978 (for example, any foreign bank operating a branch or agency in the United States); and (iv) any affiliate or subsidiary of any of the foregoing (for example, a broker–dealer subsidiary of a BHC). (Refer to SR-16-18.)

Section 3140.0

This section, “Section 4(c)(8) of the BHC Act (Leasing Personal or Real Property),” has been revised to include a brief summary of a June 10, 2016, Board order (FRB Order no. 2016-07) that approved a notice by a foreign bank holding company and its foreign wholly owned subsidiary bank to engage in permissible nonbanking activities under section 4(c)(8) of the BHC Act and section 225.24 of the Board’s Regulation Y. The nonbanking activities include railcar leasing and the provision of certain railcar fleet management services pursuant to sections 225.28(b)(3) and 225.21(a)(2) of Regulation Y. The corresponding table of Laws, Regulations, Interpretations, and Orders has been amended to include the order.

Bank Holding Company Supervision Manual

Supplement 50—July 2016

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Banking Supervision and Regulation has issued since the publication of the January 2016 supplement.

SUMMARY OF CHANGES

Section 1050.2

Section 1050.2, “Guidance for the Consolidated Supervision of Regional Bank Holding Companies,” is revised (beginning at subsection 1050.2.5) to include guidance for regional banking organizations based on SR-16-4, “Relying on the Work of the Regulators of Subsidiary Insured Depository Institution(s) of Bank Holding Companies and Savings and Loan Holding Companies with Total Consolidated Assets of Less than \$50 Billion.” The letter was issued by the Federal Reserve to explain its expectations for its examiners’ reliance on the work of the regulators of insured depository institution subsidiaries of these holding companies. The letter presents a tailored supervisory approach for regional banking organizations, which are defined as companies with total consolidated assets of between \$10 billion and \$50 billion.

Section 4066.0

Section 4066.0, “Consolidated (Funding and Liquidity Risk Management),” is amended at subsection 4066.0.2 to include “Appendix B - Interagency Guidance on Funds Transfer Pricing Related to Funding and Contingent Liquidity Risks,” issued March 1, 2016. The guidance was issued to address weaknesses observed in some large financial institutions’ funds transfer pricing practices related to funding risk (including interest rate and liquidity components) and contingent liquidity risk. (Refer to SR-16-03 and to the March 1, 2016, attachment to the interagency guidance, “Illustrative Funds Transfer Pricing Methodologies.”)

Section 4070.1

Section 4070.1, “Rating...Risk Management Processes and Internal Controls of BHCs...” is partially superseded as the result of the issuance of SR-16-11, “Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$50 Billion.” With the issuance of SR-16-11, SR-95-51 (section 4070.1) is applicable only to bank holding companies and state member banks having \$50 billion or more in total assets.

Section 4071.0

Section 4071.0, “Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less than \$50 Billion,” is a new section that reaffirms the Federal Reserve’s long-standing supervisory approach that emphasizes the importance of prudent risk management. This section’s guidance and SR-16-11, “Supervisory Guidance for Assessing Risk Management at Supervised Institutions with Total Consolidated Assets Less Than \$50 Billion,” outlines core risk categories and risk-management principles. This supervisory guidance reflects updates to, and partially supersedes, SR-95-51, “Rating the Adequacy of Risk Management and Internal Controls at State Member Banks and Bank Holding Companies.” The guidance in SR-16-11 provides clarifications on, and distinguishes supervisory expectations for, the roles and responsibilities of the board of directors and senior management. The risk-management expectations within this guidance are applicable to all supervised institutions with total consolidated assets of less than \$50 billion, including bank holding companies, state member banks, savings and loan holding companies, and foreign banking organizations with total combined U.S. assets of less than \$50 billion. The guidance also applies to insurance and commercial savings and loan holding companies with total consolidated assets of less than \$50 billion.

Substantive changes that are included in SR-16-11 (when compared to SR-95-51) are:

1. Certain major risk categories are modified.
 - a. Compliance risk is a separate core risk;
 - b. Reputation risk is not considered a core risk
 - c. Risk definitions that are revised:
 - i. Operational risk is the risk resulting from inadequate or failed internal processes, people, and systems or from external events.
 - ii. Market risk includes commodity prices
 - iii. Legal risk includes legal sanctions
2. The responsibilities of the board of directors versus senior management are separated across all risk-management components.
 - a. Senior management is responsible for risk identification.
 - b. Senior management is responsible for the establishment and maintenance of effective information systems.
 - c. Both the board of directors and senior management are responsible for an effective system of internal controls.

3. Additional risk-management concepts are included:

- a. Information systems should consist of a consolidated and integrated view of risks.
- b. The board of directors should approve significant policies to establish risk tolerances for the institution's activities.

Section 5000.0

Section 5000.0, "BHC Inspection Program (General)," is revised at subsection 5000.0.4.3.05 to provide additional guidance on the supervisory approach to be used for holding companies with total consolidated assets of \$10 billion or less. The guidance pertains to relying on the work of insured depository institution (IDI) regulators for community banking organizations. Examiners are to rely substantially on the findings of the IDI regulator in evaluating the overall condition of the holding company. Reserve Bank reviews are to evaluate the condition, performance, and prospects of a subsidiary IDI based on the conclusion of the IDI regulator and are not to duplicate the IDI regulator's work. (Refer to SR-16-4.)

This supplement reflects decisions of the Board of Governors, new and revised statutory and regulatory provisions, supervisory guidance, and instructions that the Division of Banking Supervision and Regulation has issued since the publication of the July 2015 supplement.

SUMMARY OF CHANGES

Section 2060.1

Section 2060.1, “Audit (Management Information Systems),” is revised (beginning at subsection 2060.1.8) to include an Overview and Appendix A—“Interagency Advisory on External Audits of Internationally Active U. S. Financial Institutions.” The federal banking agencies¹ (the agencies) issued the advisory to communicate their support for the principles and expectations that are set forth in Parts 1 and 2, respectively, of the Basle Committee on Banking Supervision (the BCBS) March 2014 guidance on “External audits of banks.”

The agencies acknowledge that the existing standards and practices in the United States are broadly consistent with the BCBS external audit guidance. Because of the legal and regulatory framework in the United States, certain differences exist between the standards and practices followed in the United States and the principles and expectations in the BCBS external audit guidance. These differences are addressed in this advisory, which also describes the agencies’ supervisory expectations for U. S. financial institutions within the scope of the advisory for incorporating the principles and expectations in the BCBS external audit guidance into their practices. The advisory also outlines examiner responsibilities related to these supervisory expectations.

The BCBS external audit guidance is intended for “internationally active banks,” which, the agencies defined in the advisory (Refer to SR-16-2 and its attachment.)

Section 2093.0

Section 2093.0, “Control and Ownership (Shareholder Protection Arrangements)” is a new

section that discusses Federal Reserve supervisory concerns and issues regarding the establishment of arrangements by some bank and savings and loan holding companies (collectively, “holding companies”) to protect the financial investments made by shareholders (collectively, “shareholder protection arrangements”). There has been an increase in interest by some holding companies to benefit certain shareholders, enhance short-term investor returns, and/or provide a distinct disincentive for investors to acquire or increase ownership in a holding company’s common stock and other capital instruments. Such shareholder protection arrangements raise concerns because they could have negative implications on a holding company’s capital or financial position, limit a holding company’s financial flexibility and capital raising capacity, or otherwise impair a holding company’s ability to raise additional capital in the future. These arrangements impede the ability of a holding company to serve as a source of strength to its insured depository institutions subsidiaries and are considered unsafe and unsound. A holding company, regardless of its asset size, should be aware that the Federal Reserve may object to a shareholder protection arrangement based on the facts and circumstances and the features of the particular arrangement. Examples of shareholder protection arrangements that have raised supervisory issues are discussed. (Refer to SR-15-15.)

Section 4061.0

Section 4061.0, “Consolidated Capital (Capital Planning),” is revised for amendments to Regulation Y, 12 C.F.R. 225.8 “Capital Planning.” The rule was amended to limit the ability of a bank holding company with \$50 billion or more in total consolidated assets to make capital distributions under the rule if the bank holding company’s net capital issuances are less than the amount indicated in its capital plan. The tier 1 common capital ratio requirement was removed, and certain mandatory capital action assumptions were modified. (Refer to 79 *Fed. Reg.* 64040 (October 27, 2014) and 80 *Fed. Reg.* 75424 (December 2, 2015)).

1. The Board of Governors of the Federal Reserve System, the Office of the Comptroller of the Currency, and the Federal Deposit Insurance Corporation.

Section 4060.7

Section 4060.7, Consolidated Capital (Assessing Capital Adequacy and Risk at Large Banking Organizations and Others with Complex Risk Profiles) is deleted. The section was derived from SR-99-18, superseded by SR-15-18 and SR-15-19, both issued on December 18, 2015.

Section 4063.0

Section 4063.0, “Federal Reserve Supervisory Assessment of Capital Planning and Positions for LISCC Firms and Large and Complex Firms,” is a new section consisting of Federal Reserve guidance that was issued to explain its expectations for capital planning at Large Institution Supervision Coordinating Committee (LISCC) firms and large and complex bank holding companies and intermediate holding companies of foreign banking organizations. This guidance is consistent with the broad supervisory expectations set forth in SR-12-17/CA-12-14, “Consolidated Supervision Framework for Large Financial Institutions.” It sets forth the Federal Reserve’s core capital planning expectations for LISCC and large and complex firms. Several appendices are included that detail supervisory expectations on a firm’s capital planning processes. The new guidance largely consolidates the Federal Reserve’s existing capital planning guidance.

The expectations for LISCC Firms and Large and Complex Firms are higher than the expectations for Large and Noncomplex Firms. Within the group of firms subject to this guidance, the Federal Reserve has significantly heightened expectations for the LISCC Firms. This guidance sets forth only minimum expectations, and LISCC Firms are consistently expected to exceed those minimum standards and have the most sophisticated, comprehensive, and robust capital planning practices for all of their portfolios and activities. Refer to SR-15-18 and its attachment.

Section 4065.0

Section 4065.0, “Federal Reserve Supervisory Assessment of Capital Planning And Positions

for Large and Noncomplex Firms,” The Federal Reserve’s guidance explains its supervisory expectations for capital planning at large and non-complex bank holding companies and intermediate holding companies of foreign banking organizations, consistent with the broad supervisory expectations set forth in SR-12-17/CA-12-14, “Consolidated Supervision Framework for Large Financial Institutions.” This guidance applies to U.S. bank holding companies and intermediate holding companies of foreign banking organizations that have total consolidated assets of at least \$50 billion but less than \$250 billion, have consolidated total on-balance sheet foreign exposure of less than \$10 billion, and are not otherwise subject to the Federal Reserve’s LISIC framework (referred to as a “Large and Non-complex Firm”). Refer to SR-15-19 and its attachment.

Section 4080.0

Section 4080.0, “Federal Reserve System Bank Holding Company Surveillance Program,” is revised to discuss the Federal Reserve’s revision of its safety-and-soundness surveillance program (the Surveillance Program) for top-tier bank holding companies and savings and loan holding companies (HCs). The revised program includes a new early warning model for HCs, the “*Holding Company Statistical Assessment of Bank Risk*” or “HC-SABR” model. It deploys risk identification algorithms (“Outlier Metrics”) and other surveillance products to process financial and economic data and generate forward-looking, actionable intelligence on HCs that will provide examiners and other supervisory staff with early signals by which to monitor risk-taking. Results are used to assess exposures, outlooks, and possible compliance shortcomings, with the goal of calibrating supervisory resources to risk. The Surveillance Program’s objectives, structure, and maintenance are discussed along with additional information on the metrics, procedures, and write-up requirements used to monitor HCs. The program also distributes surveillance results across the Federal Reserve’s supervision function. (Refer to SR-15-16 and its attachment.)
