The Board's H.4.1 statistical release, "Factors Affecting Reserve Balances of Depository Institutions and Condition Statement of Federal Reserve Banks," reflects the closing of the American International Group, Inc. (AIG) recapitalization plan, which occurred on January 14, 2011. The recapitalization plan was designed to restructure and facilitate repayment of the financial support provided to AIG by the U.S. Department of the Treasury (Treasury) and the Federal Reserve. Upon closing of the recapitalization plan, the cash proceeds from certain asset dispositions, specifically the initial public offering of AIA Group Limited (AIA) and the sale of American Life Insurance Company (ALICO), were used first to repay in full the credit extended to AIG by the FRBNY under the revolving credit facility (AIG loan), including accrued interest and fees, and then to redeem a portion of the FRBNY's preferred interests in ALICO Holdings LLC taken earlier by the FRBNY in satisfaction of a portion of the AIG loan. The remaining FRBNY preferred interests in ALICO Holdings LLC and AIA Aurora LLC, valued at approximately \$20 billion, were purchased by AIG through a draw on the Treasury's Series F preferred stock commitment and then transferred by AIG to the Treasury as consideration for the draw on the available Series F funds.

The weekly average values shown in table 1 reflect, as of January 14, 2011, the repayment by AIG of the "Credit extended to American International Group, Inc., net" and the "Preferred interests in AIA Aurora LLC and ALICO Holdings LLC," and the distribution of the "Funds from American International Group, Inc. asset dispositions, held as agent."

The H.4.1 statistical release continues to show average amounts for "Credit extended to American International Group, Inc., net," "Preferred interests in AIA Aurora LLC and ALICO Holdings LLC," and "Funds from American International Group, Inc. asset dispositions, held as agent," even though all funding commitments to AIG have been terminated, to provide a complete disaggregation of changes in assets and liabilities from the corresponding week one year ago.

Note: On November 25, 2008, the Federal Reserve announced the creation of the Term Asset-Backed Securities Loan Facility (TALF) under the authority of section 13(3) of the Federal Reserve Act. The TALF is a facility under which the Federal Reserve Bank of New York (FRBNY) extends loans with a term of up to five years to holders of eligible asset-backed securities. The TALF is intended to assist financial markets in accommodating the credit needs of consumers and businesses by facilitating the issuance of asset-backed securities collateralized by a variety of consumer and business loans. The loans provided through the TALF to eligible borrowers are non-recourse, meaning that the obligation of the borrower can be discharged by surrendering the collateral to the FRBNY. The loans are extended for the market value of the security less an amount known as a haircut. As a result, the borrower bears the initial risk of a decline in the value of the security.

TALF LLC is a limited liability company formed to purchase and manage any asset-backed securities received by the FRBNY in connection with the decision of a borrower not to repay a TALF loan. TALF LLC has committed, for a fee, to purchase all asset-backed securities received by the FRBNY in conjunction with a TALF loan at a price equal to the TALF loan plus accrued but unpaid interest. Losses on asset-backed securities held by TALF LLC will be offset in the following order: by the commitment fees collected by TALF LLC, by the interest received on investments of TALF LLC, by up to \$4.3 billion in subordinated debt funding provided by the U.S. Treasury, and finally, by senior debt funding provided by the FRBNY. Any remaining funds will be shared by the FRBNY and the U.S. Treasury.

14. Cash value of agreements, which are collateralized by U.S. Treasury securities, federal agency debt securities, and mortgage-backed securities.
15. Represents the estimated weekly remittances to U.S. Treasury as interest on Federal Reserve notes or, in those cases where the Reserve Bank's net earnings are not sufficient to equate surplus to capital paid-in, the deferred asset for interest on Federal Reserve notes. The amount of any deferred asset, which is presented as a negative amount in this line, represents the amount of the Federal Reserve Bank's earnings that must be retained before remittances to the U.S. Treasury resume. The amounts on this line are calculated in accordance with Board of Governors policy, which requires the Federal Reserve Banks to remit residual earnings to the U.S. Treasury as interest on Federal Reserve notes after providing for the costs of operations, payment of dividends, and the amount necessary to equate surplus with capital paid-in.
16. Includes the liabilities of Maiden Lane LLC, Maiden Lane II LLC, Maiden Lane III LLC, and TALF LLC to entities other than the Federal Reserve Bank of New York, including liabilities that have recourse only to the portfolio holdings of these LLCs. Refer to table 4 through table 7 and the note on consolidation below. Before the closing of the AIG recapitalization plan on January 14, 2011, included funds from American International Group, Inc. asset dispositions, held as agent.

Note on consolidation:

The Federal Reserve Bank of New York (FRBNY) has extended loans to several limited liability companies under the authority of section 13(3) of the Federal Reserve Act. On June 26, 2008, a loan was extended to Maiden Lane LLC, which was formed to acquire certain assets of Bear Stearns. On November 25, 2008, a loan was extended to Maiden Lane III LLC, which was formed to purchase multi-sector collateralized debt obligations on which the Financial Products group of the American International Group, Inc. has written credit default swap contracts. On December 12, 2008, a loan was extended to Maiden Lane II LLC, which was formed to purchase residential mortgage-backed securities from the U.S. securities lending reinvestment portfolio of subsidiaries of American International Group, Inc. On November 25, 2008, the Federal Reserve Board authorized the FRBNY to extend credit to TALF LLC, which was formed to purchase and manage any asset-backed securities received by the FRBNY in connection with the decision of a borrower not to repay a loan extended under the Term Asset-Backed Securities Loan Facility.

The FRBNY is the primary beneficiary of TALF LLC, because of the two beneficiaries of the LLC, the FRBNY and the U.S. Treasury, the FRBNY is primarily responsible for directing the financial activities of TALF LLC. The FRBNY is the primary beneficiary of the other LLCs cited above because it will receive a majority of any residual returns of the LLCs and absorb a majority of any residual losses of the LLCs. Consistent with generally accepted accounting principles, the assets and liabilities of these LLCs have been consolidated with the assets and liabilities of the FRBNY in the preparation of the statements of condition shown on this release. As a consequence of the consolidation, the extensions of credit from the FRBNY to the LLCs are eliminated, the net assets of the LLCs appear as assets on the previous page (and in table 1 and table 8), and the liabilities of the LLCs to entities other than the FRBNY, including those with recourse only to the portfolio holdings of the LLCs, are included in other liabilities in this table (and table 1 and table 8).
