Current and historical H.8 data are available on the Federal Reserve Board's web site (<http://www.federalreserve.gov>). For information about individual copies or subscriptions, contact Publications Services at the Federal Reserve Board (phone 202-452-3244, fax 202-728-5886). For paid electronic access to current and historical data, call STAT-USA at 1-800-728-8872 or 202-482-1986.

1. Covers the following types of institutions in the fifty states and the District of Columbia: domestically chartered commercial banks that submit a weekly report of condition (large domestic); other domestically chartered commercial banks (small domestic); branches and agencies of foreign banks, and Edge Act and Agreement corporations (foreign-related institutions). Excludes International Banking Facilities. Data are Wednesday values or *pro rata* averages of Wednesday values. Large domestic banks constitute a universe; data for small domestic banks and foreign-related institutions are estimates based on weekly samples and on quarter-end condition reports. Data are adjusted for breaks caused by reclassifications of assets and liabilities.  
The data for large and small domestic banks presented on pages 5 to 10 are adjusted to remove the estimated effects of mergers between these two groups. The adjustment for mergers changes past levels to make them comparable with current levels. Estimated quantities of balance sheet items acquired in mergers are removed from past data for the bank group that contained the acquired bank and put into past data for the group containing the acquiring bank. Balance sheet data for acquired banks are obtained from call reports, and a ratio procedure is used to adjust past levels.
2. Excludes federal funds sold to, reverse RPs with, and loans made to commercial banks in the United States, all of which are included in line 13.
3. Consists of reverse RPs with brokers and dealers and loans to purchase and carry securities.
4. Includes vault cash, cash items in process of collection, balances due from depository institutions, and balances due from Federal Reserve Banks.
5. Excludes the due-from position with related foreign offices, which is included in line 25.
6. Excludes unearned income, reserves for losses on loans and leases, and reserves for transfer risk. Loans are reported gross of these items.
7. This balancing item is not intended as a measure of equity capital for use in capital adequacy analysis. On a seasonally adjusted basis this item reflects any differences in the seasonal patterns estimated for total assets and total liabilities.
8. Fair value of derivative contracts (interest rate, foreign exchange rate, other commodity and equity contracts) in a gain/loss position, as determined under FASB Interpretation No. 39.
9. Includes mortgage-backed securities issued by U.S. government agencies, U.S. government-sponsored enterprises, and private entities.
10. Difference between fair value and historical cost for securities classified as available-for-sale under FASB Statement No. 115. Data are reported net of tax effects. Data shown are restated to include an estimate of these tax effects.
11. Mainly commercial and industrial loans, but also includes an unknown amount of credit extended to other than nonfinancial businesses.
12. Total amount outstanding.

NOTE: Large domestically chartered commercial banks acquired \$1.2 billion in assets and liabilities of nonbank institutions in the week ending December 6, 2000. The major asset items affected were (in billions): cash assets, \$0.2; real estate loans, revolving home equity, \$0.1; real estate loans, other, \$0.6; and consumer loans, other, \$0.3. The major liability items affected were: transaction deposits, \$0.1; nontransactions deposit, large time, \$0.3; borrowings from banks in the U.S., \$0.7; and residual (assets less liabilities), \$0.1.
