
INSTRUCTIONS FOR PREPARATION OF

Application for a Foreign Organization to Acquire a U.S. Bank or Bank Holding Company FR Y-3F

Purpose

This application collects data that are used to evaluate the existing and pro forma ownership structure and financial condition of the applicant and its proposed subsidiary(ies), the home country supervisory regime, and the transaction's effects on (i) competition in the relevant market(s), (ii) the convenience and needs of the public, and (iii) the stability of the United States banking and financial system.

Who Must File This Application

This form should be used for applications filed with the Federal Reserve System (the "Federal Reserve") by any company organized under the laws of a foreign country that is seeking to acquire a U.S. bank or bank holding company pursuant to section 3 of the Bank Holding Company Act of 1956, as amended (the "BHC Act,"—12 U.S.C. 1842).

Nonbanking Investments and Activities

Certain additional information is required if the applicant, in connection with the proposed transaction, intends to acquire nonbanking operations, including a savings association or other nonbank insured depository institution. Any nonbanking investments or activities that are to be acquired under the authority of sections 4(c)(8) and 4(j) of the BHC Act require the prior approval of the Board and a companion FR Y-4 notification. (See section 225.28 of the Board of Governors of the Federal Reserve System's (the "Board's") Regulation Y for a listing of permissible nonbanking activities approved by regulation and section 225.24 for application procedures to engage in those and other nonbanking activities.) Any nonbanking operations that are to be acquired under other provisions within section 4 of the BHC Act and that do not require the

prior approval of the Board should be identified separately with relevant authorities cited. (See sections 225.22, 225.86 and 225.170 of Regulation Y for activities and investments that generally do not require the prior approval of the Board.) See also Item 18 below.

Tiered Applicant Organizations

In tiered organizations, the applicant should consult with the Reserve Bank of the Federal Reserve district in which the head office of the applicant or its sole or principal banking subsidiary either will be or is currently located (the "appropriate Reserve Bank") regarding the financial and managerial information that should be provided.

Financial Holding Companies

If the applicant seeks to become a financial holding company in connection with the proposed transaction, it must submit the necessary written declaration as part of the FR Y-3F filing. The declaration must conform to section 4(l) of the BHC Act and Regulation Y (sections 225.81 and 225.82, or sections 225.90, 225.91 and 225.92, as appropriate). The applicant should contact the appropriate Reserve Bank and consult the Board's [public website](#) for further information.

If the applicant is a financial holding company that is seeking to acquire a depository institution that is not well capitalized or well managed, the applicant must contact the appropriate Reserve Bank regarding the development and execution of an agreement under section 4(m) of the BHC Act acceptable to the Federal Reserve. The agreement will outline the actions to be taken by the applicant to address the financial and/or managerial deficiencies of the depository institution, and any limitations on the activities of the applicant until those deficiencies are satisfactorily addressed.

General Instructions

Preparation of Application

An applicant should consult the Board's Regulation Y (12 CFR Part 225), a copy of which is available on the Board's [public website](#) or from any Reserve Bank. Additional filing information is also available on the Board's [public website](#). An applicant may submit a pre-filing before filing a formal application.¹

Inquiries regarding the preparation and filing of applications should be directed to the appropriate Reserve Bank. Applicants are encouraged to contact Federal Reserve staff as soon as possible for assistance in identifying the information that should be provided in the application (particularly information related to convenience and needs, competitive or financial stability considerations, and management official interlocks subject to Regulation L (12 CFR Part 212)) and to determine whether an examination of the bank(s) to be acquired will be required in connection with the proposed transaction.

The application is filed by submitting the information requested in this form to the appropriate Reserve Bank. Applicants are strongly encouraged to submit their applications electronically through the Federal Reserve System's web-based application (E-Apps).² Additional information on E-Apps may be found on the Board's [public website](#). Alternative formats to this form, if used, must include all requested information. In order to be considered properly filed in accordance with the requirements of the BHC Act, the application must be substantially complete and responsive to all information requested (including an indication of "not applicable" or "none" if such is the case).

The appropriate Reserve Bank will review the submitted application to determine if it is substantially complete. If the application is considered complete, an acknowledgment letter will be sent indicating the date the application has been formally accepted for processing. If not considered complete, the application will be returned to the applicant. As necessary to complete the record, a request for additional information will be sent to the contact person named in the application. Under certain circumstances, name check and financial information related to individuals involved in a proposed transaction may be required. Such information for

individuals should be submitted on the Interagency Biographical and Financial Report (FR 2081c; OMB No. 7100-0134), and may be submitted in advance of the application.³ Contact the appropriate Reserve Bank for further information.

During processing of the application, if there are any material changes to the information initially furnished in the application, these changes should be communicated promptly to the appropriate Reserve Bank.

Publication Requirement

For applications filed pursuant to section 3 of the BHC Act, the applicant is required to publish a notice in a newspaper of general circulation in the community(ies) in which the head offices of the target bank holding company, its largest subsidiary bank, and each bank to be directly or indirectly acquired is located. The newspaper notice should provide opportunity for the public to submit written comments on the proposal for at least 30 calendar days after the date of publication, and must be published no more than 15 calendar days before and no later than 7 calendar days after the date the application is filed with the appropriate Reserve Bank. The Federal Reserve will publish notice of the proposal in the *Federal Register* upon receipt of the application. On written request by the applicant, the notice in the *Federal Register* may be published up to no more than 15 calendar days before the application is filed.

The applicant should contact the appropriate Reserve Bank or consult the Board's public website for the publication format. A copy of the newspaper notice publication must be provided to the appropriate Reserve Bank. In addition, proof of newspaper publication should be provided, when available.

Confidentiality

Under the provisions of the Freedom of Information Act (the "FOIA" - 5 U.S.C. § 552), the application is a public document and available to the public upon request. Once submitted, an application becomes a record of the Board and may be requested by any member of the public. Board records generally must be disclosed unless they are determined to fall, in whole or in part, within the scope of one or more of the FOIA exemptions from disclosure. See 5 U.S.C. § 552(b)(1)-(9).

The exempt categories include (but are not limited to) "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (exemption 4), and information that, if disclosed, "would constitute a clearly unwarranted invasion of personal privacy" (exemption 6). The applicant may request confidential treatment for any information submitted in or in connection with its application that

the applicant believes is exempt from disclosure under the FOIA. For example, if the applicant is of the opinion that disclosure of commercial or financial information would likely result in substantial harm to its competitive position or that of its subsidiaries, or that disclosure of information of a personal nature would result in a clearly unwarranted invasion of personal privacy, confidential treatment of such information may be requested.

The request for confidential treatment must be submitted in writing concurrently with the filing of the application (or subsequent related submissions), and must discuss in detail the justification for confidential treatment. Such justification must be provided for each portion of the application (or related submissions) for which confidential treatment is requested. The applicant's reasons for requesting confidentiality must specifically describe the harm that would result from public release of the information. A statement simply indicating that the information would result in competitive harm or that it is personal in nature is not sufficient. In addition, a claim that disclosure would violate the law or policy of a foreign country is not, in and of itself, sufficient to exempt information from disclosure. The applicant must demonstrate that disclosure would fall within the scope of one or more of the FOIA exemptions from disclosure. The applicant must follow the steps outlined immediately below, and certify in the application (or related submissions) that these steps have been followed.

Information for which confidential treatment is requested should be: (1) specifically identified in the public portion of the application (by reference to the confidential section); (2) separately bound; and (3) labeled "CONFIDENTIAL."

With respect to applications that include information regarding an individual or individuals associated with the proposed transaction, the Board expects the applicant to certify that it has obtained the consent of the individual(s) to public release of such information prior to its submission to the Board or, in the absence of such consent, to submit (or ensure that the individual(s) submit(s)) a timely request for confidential treatment of the information in accordance with these instructions. Information submitted directly by an individual or individuals will become part of the relevant application record, and, accordingly, will be a

General Instructions

Board record subject to being requested by any member of the public under the FOIA.

The Federal Reserve will determine whether information submitted as confidential will be so regarded, and will advise the applicant of any decision to make available to the public information labeled “CONFIDENTIAL.” However, it shall be understood that, without prior notice to the applicant, the Board may disclose or comment on any of the contents of the application in the Order or Statement issued by the Board in connection with its decision on the application. The Board’s staff normally will apprise the applicant in the course of the review process that such information may need to be disclosed in connection with the Board’s action on the application.

For further information on the procedures for requesting confidential treatment and the Board’s procedures for addressing such requests, consult the Board’s Rules Regarding Availability of Information, 12 CFR part 261, including 12 CFR 261.15, which governs requests for confidential treatment.

Newly Chartered or Converting Bank

If a proposed new operating bank or charter conversion is involved, the applicant should contact the appropriate Reserve Bank before the review process for the charter application of the new or converting bank (and the review process for any related deposit insurance application) begins to determine the appropriate time(s) when the related Federal Reserve application(s) should be filed, and to discuss the informational requirements for the specific proposal. Applicants are encouraged to remain in contact with the appropriate Reserve Bank during the review process of all the relevant applications.

Supporting Information

The Federal Reserve specifically reserves the right to require the filing of additional statements and information. The formal questions in the application are not intended to limit an applicant’s presentation. The applicant bears the full burden for presenting and documenting a case that meets the statutory criteria for approval. Supporting information for any or all factors, setting forth the basis for the applicant’s judgment, may accompany the application.

Compliance

The applicant is expected to comply with all representations and commitments made in this application. The applicant should immediately contact the appropriate Reserve Bank if there is any material change in the information contained in the application prior to consummation.

4. Material changes between the date of the balance sheets and the date of the application should be disclosed (explained by footnotes). If there are no material changes, a statement to that effect should be made.

Item 7

Describe any litigation or investigations by local, state, or federal authorities involving the applicant or any of its subsidiaries or the target or any of its subsidiaries that is currently pending or was resolved during the past two years.

IV. Home Country Supervision

In order to approve an application by a foreign bank to become a bank holding company, the Board must determine that the applicant and any parent foreign bank are each subject to comprehensive supervision or regulation on a consolidated basis by the appropriate authorities in the home country of each bank. The Board considers this standard met if the foreign bank’s home country supervisor receives sufficient information on the bank’s worldwide operations (including the bank’s relationships to any affiliates) to assess the foreign bank’s overall financial condition and compliance with law and regulation. In making such a determination, the Board assesses, among other factors, the extent to which the home country supervisor:

- ensures that the foreign bank has adequate procedures for monitoring and controlling its activities worldwide;

- obtains information on the condition of the foreign bank and its subsidiaries and offices outside the home country through regular reports of examination, audit reports, or otherwise;
- obtains information on the dealings and relationship between the foreign bank and its affiliates, both foreign and domestic;
- receives from the foreign bank financial reports that are consolidated on a worldwide basis, or comparable information that permits analysis of the foreign bank’s financial condition on a worldwide, consolidated basis; and
- evaluates prudential standards, such as capital adequacy and risk asset exposure, on a worldwide basis.

Item 8

1. For a foreign organization seeking initial entry:

Describe the bank regulatory system that exists in the home country of the applicant and, if different, the home country of any foreign bank in the ownership chain.¹⁰ The response should identify the applicant’s primary home country supervisor and the major laws governing the applicant’s operations and activities. *The description also should include a discussion of each of the following:*

- a. The scope and frequency of on-site examinations by the home country supervisor: Describe the scope and frequency of onsite examinations, identifying the operational areas reviewed and the general procedures used by the home country supervisor to evaluate asset quality and internal controls.

10. If the Federal Reserve has previously determined that another bank or a bank holding company from the applicant’s home country is subject to comprehensive consolidated supervision, the applicant may request a copy of the previous application from the Federal Reserve under the FOIA. After reviewing the record in the previous application, the applicant may make a statement that, if such is the case, it is subject to the same supervisory regime as the foreign bank previously considered by the Federal Reserve, rather than responding to each subpart of this Item. In addition, the applicant should confirm that there have been no material changes in the manner in which the applicant is supervised and regulated by its home country supervisor(s) since that previous application or, if material changes have occurred, the applicant should describe such changes.

General Instructions

Also, discuss the manner in which the home country supervisor monitors the condition and operations of the applicant's subsidiaries and foreign offices.

- b. Off-site monitoring by the home country supervisor: Discuss the general type and frequency of filing of regulatory and financial reports submitted by the applicant to the home country supervisor. Specify whether the reports contain information on the domestic and foreign subsidiaries of the applicant and, if so, whether this information is provided on a consolidated basis or for each entity separately.
- c. The role of external auditors: Discuss the general frequency, nature, and scope of review of the applicant (including subsidiaries and foreign offices) performed by external auditors, particularly with respect to the review of asset quality and internal controls. Discuss whether the home country supervisor sets standards for such reviews and the manner (if at all) by which the external audit results are communicated to the home country supervisor. Include a brief discussion of the general standards or requirements that apply to the external auditors themselves.
- d. Transactions with affiliates: Indicate whether (and, if so, discuss how) the home country supervisor regulates and monitors the applicant's transactions with its affiliates (e.g., through reporting requirements, lending limits, or other restrictions). Define the home country's definition of "affiliate" for this purpose (if different from the Federal Reserve's definition¹¹), and specify whether any such restrictions apply to "upstream," "downstream," or "sister" affiliates.
- e. Other applicable prudential requirements: To the extent not previously addressed, describe any prudential limitations (e.g., with respect to capital adequacy, asset classification and provisioning, single or aggregate credit and foreign currency exposure limits, and liquidity) that are imposed on the operations of

the applicant. Describe the methods used by the home country supervisor to monitor compliance with these limitations.

- f. Remedial authority of the home country supervisor: Describe the general methods available to the home country supervisor to enforce the applicant's compliance with prudential controls and other supervisory or regulatory requirements.
 - g. Prior approval requirements: Indicate whether prior approval of the home country supervisor is needed for the applicant to make investments in other companies, or generally to establish overseas offices. Indicate the type of information the home country supervisor reviews in making its determination.
2. For a foreign organization that has previously been approved to acquire a U.S. bank or to establish a U.S. branch or agency:

Provide the date of the Federal Reserve's most recent determination that the foreign bank is subject to comprehensive consolidated supervision. Confirm (or modify as appropriate) that there have been no material changes in the manner in which the foreign organization, including any parent holding companies, is supervised and regulated by its home country supervisor(s) since that time.

Item 9

Indicate what other home country regulatory authorities, if any, in addition to the primary home country supervisor, supervise subsidiaries or particular activities of the applicant. If the subject transaction is a bank holding company formation involving only one bank or an application filed pursuant to section 3(a)(3) or 3(a)(5) of the BHC Act to acquire a *de novo* bank, a response to items 11 and 12 is not required. Otherwise, the applicant should contact the appropriate Reserve Bank to determine whether a response to items 11 and 12 will be necessary. If a response is required, the applicant should obtain a preliminary definition of the relevant banking markets from the appropriate Reserve Bank. If the applicant disagrees with the Reserve Bank's preliminary definition of the banking market(s), it may, in addition to supplying the information requested on the basis of the Reserve Bank's definition of the banking market(s), include its own definition of the banking market(s), with supportive data, and answer the questions based on its definition. If later analysis leads Federal Reserve staff to alter the preliminary definition provided, the applicant will be so informed.

Item 11

Discuss the effects of the proposed transaction on competition considering the structural criteria specified in the Board's Rules Regarding Delegation of Authority (section 265.11c(11)(v)). The applicant may be required to provide additional information if Federal Reserve staff determines that the proposal exceeds existing competitive guidelines. Also, if divestiture of all or any portion of any bank or nonbanking company constitutes part of the proposal, discuss in detail the specifics and timing of such divestiture.

If any material impediments exist, discuss the manner in which the applicant and its ultimate parent, if any, propose to provide the Board with adequate assurances of access to information.

For any additional such jurisdiction, describe any secrecy laws or other impediments that would restrict the ability of the applicant or its ultimate parent, if any, to provide information on the operations or activities of the applicant and any of its affiliates that the Federal Reserve deems necessary to determine and enforce compliance with the International Banking Act, the BHC Act, and other applicable federal laws. In tiered organizations, if a foreign bank applicant meets the requirements of section 211.23(a) but the ultimate parent applicant does not, then indicate whether the ultimate parent applicant would satisfy the requirements set forth in section 211.23(c) of Regulation K, and provide the necessary information to support that determination. To the extent the information requested in this item has been provided in other report forms (FR Y-7) filed with the Federal Reserve, the applicant(s) may include such information by reference to those filings.

Item 17

Item 18

If the applicant has relied on the nonbanking exemptions afforded by Section 2(h) and 4(c)(9) of the BHC Act (as implemented by Section 211.23 of Regulation K) for certain activities, provide information to support such a determination. To the extent the information requested in this item has been provided to the Federal Reserve in other report forms (Form FR Y-7 or FR Y-10F), the applicant may include such information by reference to those filings.
