GOVERNMENT-ADMINISTERED, GENERAL-USE PREPAID CARD SURVEY

Issuer Survey

Survey Period:
Calendar Year ~~2013~~2014

General Instructions

About this Survey

The information requested is required by law [15 U.S.C. 1693o-2] to support an annual report to the Congress on the prevalence of the use of general-use prepaid cards in federal, state, or local government-administered payment programs, and the interchange fees and cardholder fees charged with respect to the use of such general-use prepaid cards.

Your Participation

To achieve the most reliable results, it is important that you respond completely and accurately. Please leave no survey item blank.

The online survey system contains links to two questionnaires, one for federal programs and a second for state/local programs. Respond to each questionnaire once by aggregating all programs falling under each respective jurisdiction. For the purposes of this survey, a program's jurisdiction is determined by the government agency that administers the program. For example, a program is considered state/local if it is administered by a state government agency even if the program is federally funded. Where applicable, this paper version of the survey highlights the differences between the federal and state/local questionnaires.

~~The survey should be completed for each government-administered payment program individually for which you are the issuer. Sections I through IX should be repeated as many times as needed to provide the requested data on each government-administered payment program.~~

There are **three possible ways** to answer a numerical survey question:

Enter a Value: The actual numeric value of the data element.

Enter a Zero: When the calculated value equals zero. **Please do not enter a non-numeric value**, e.g. "NA" or "NR," when the value equals zero.

Enter "NR" (Not Reported): If your institution engages in the activity of the type being measured but you are unable to report a figure that reflects that activity.
Please do not enter "NA."

If for any reason you cannot provide complete data or you have questions please contact ~~Aaron Rosenbaum~~ Therese Ngo Bikoi at 202-452-3885 202-785-6008 or e-mail debit.card.surveys@frb.gov for assistance.

The survey will be made available online at <https://www.federalreserve.gov/debitcardsurveys>. Please complete the survey by April 15, ~~2014~~2015.

Response Confidentiality and Burden

The Federal Reserve Board regards the majority of individual organization information provided by each respondent as confidential (5 U.S.C. § 552(b)(4)). The Board, however, may publish aggregate or summary information in a way that does not reveal your individual organization's confidential information. If it should be determined subsequently that any information collected on this form must be released, the respondents will be notified.

Public reporting burden for this collection of information is estimated to be 50-25 hours per response, including the time to gather data in the required form and to review instructions and complete the information collection. Send comments regarding this burden estimate or any other aspect of this

collection of information, including suggestions for reducing the burden, to Secretary, Board of Governors of the Federal Reserve System, 20th and C Streets, N.W., Washington, D.C. 20551 or via email to regs.comments@frb.gov; and to the Office of Management and Budget, Paperwork Reduction Project (7100-0343), Washington, D.C. 20503. The Federal Reserve may not conduct or sponsor, and an organization (or a person) is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

- 1) The issuer, along with its affiliates worldwide, has assets that are less than \$10 billion, as of December 31, 2013.
- 2) The issuer, along with its affiliates worldwide, has assets that are greater than or equal to \$10 billion, as of December 31, 2013, and all of the following conditions apply:
 - The cardholder may use the debit card only to transfer or debit funds, monetary value, or other assets that have been provided pursuant to a government-administered payment program;

Further, local government-administered payment programs would include programs administered by tribal governments.

For the purposes of this survey, this definition includes, but is not limited to, federal benefit programs (such as Social Security Administration, Supplemental Security Income, and Veterans Administration), electronic benefit transfer programs (such as Temporary Assistance to Needy Families and the energy assistance programs), payroll programs, child support programs, reimbursement programs, disaster relief programs, and petty cash programs.
