

**Supporting Statement for the
Recordkeeping and Disclosure Requirements
Associated with Securities Transactions
Pursuant to Regulation H (Reg H-3; OMB No. 7100-0196)**

Summary

The Board of Governors of the Federal Reserve System, under delegated authority from the Office of Management and Budget (OMB), proposes to extend for three years, without revision, the mandatory Recordkeeping and Disclosure Requirements Associated with Securities Transactions Pursuant to Regulation H (Reg H-3; OMB No. 7100-0196).¹ These requirements are pursuant to Sections 208.34(c), (d), and (g) of Regulation H, which require that state member banks and state member trust companies effecting securities transactions for customers establish and maintain a system of records, furnish confirmations to customers, and establish written policies and procedures relating to securities transactions. State member banks and state member trust companies are required to maintain records for three years following a securities transaction. These requirements are necessary to protect the customer, to avoid or settle customer disputes, and to protect the institution against potential liability arising under the anti-fraud and insider trading provisions of the Securities Exchange Act of 1934. The respondent burden for Federal Reserve regulated entities is estimated to be 102,359 hours.

Background and Justification

The recordkeeping and disclosure requirements in Regulation H for state member banks and state member trust companies are similar to requirements imposed upon broker-dealers by the Securities and Exchange Commission (SEC) and also have been adopted by the Federal Deposit Insurance Corporation (FDIC), the Office of the Comptroller of the Currency (OCC) and the Office of Thrift Supervision (OTS) for non-member and national banks, and savings associations, respectively. The Government Securities Act of 1986, implemented by the U.S. Department of the Treasury, exempts state member banks from recordkeeping requirements imposed on government securities brokers and dealers, if they are subject to the requirements of Regulation H (17 CFR 404.4(a)(1)).

Description of Information Collection

The requirements of Section 208.34 of Regulation H apply to all state member banks and state member trust companies, except institutions effecting fewer than 500 government securities brokerage transactions per year, provided that this exception shall not apply to government securities transactions by a state member bank that has filed a written notice, or is required to file notice, with the Federal Reserve Board that it acts as a government securities broker or a government securities dealer. These reporting and disclosure requirements do not apply to activities of foreign branches of state member banks, activities of nonmember, non-insured trust company subsidiaries of bank holding companies, or activities that are subject to regulations promulgated by the Municipal Securities Rulemaking Board. In addition, state member banks and state member trust companies with an annual average of less than 200 securities transactions

¹ The Federal Reserve is required to renew these requirements every three years pursuant to the Paperwork Reduction Act of 1995 (PRA), which classifies reporting, recordkeeping, or disclosure requirements of a regulation as an information collection. The current recordkeeping and disclosure requirements associated with Reg H-3 are scheduled to expire October 31, 2007.

for customers over the prior three calendar years (exclusive of transactions in U.S. government and agency obligations) are exempt from these Regulation H recordkeeping and disclosure requirements.

Each state member bank and state member trust company effecting securities transactions for customers must maintain records and copies of disclosures as described below for three years following the transaction. Records may be maintained in hard copy, automated, or electronic format. There is no regulatory reporting form associated with these requirements.

Recordkeeping Requirements

Each state member bank and state member trust company is required by Section 208.34(c) to maintain the following records for a securities transaction in hard copy, automated or electronic form, provided that the records are easily retrievable, readily available for inspection and capable of being reproduced in a hard copy format:

- (1) chronological records of original entry containing an itemized daily record of all purchases and sales of securities. The records of original entry shall show the account or customer for which each such transaction was effected, the description of the securities, the unit and aggregate purchase or sale price (if any), the trade date and the name or other designation of the broker-dealer or other person from whom purchased or to whom sold;
- (2) account records for each customer which shall reflect all purchases and sales of securities, all receipts and deliveries of securities, and all receipts and disbursements of cash with respect to transactions in securities for such account and all other debits and credits pertaining to transactions in securities;
- (3) a separate memorandum (order ticket) of each order to purchase or sell securities (whether executed or cancelled), which shall include:
 - i. the account(s) for which the transaction was effected;
 - ii. whether the transaction was a market order, limit order, or subject to special instructions;
 - iii. the time the order was received by the trader or other bank employee responsible for effecting the transaction;
 - iv. the time the order was placed with the broker-dealer, or if there was no broker-dealer, the time the order was executed or cancelled;
 - v. the price at which the order was executed; and
 - vi. the broker-dealer utilized.
- (4) a record of all broker-dealers selected by the bank to effect securities transactions and the amount of commissions paid or allocated to each such broker during the calendar year; and
- (5) a copy of the notifications described in the disclosure section below.

Each state member bank and state member trust company is also required, under Section 208.34(g), to establish written policies and procedures providing:

- (1) assignment of responsibility for supervision of persons who:
 - i. transmit or place orders with broker-dealers; or
 - ii. execute transactions in securities for customers; or
 - iii. process orders for notification and settlement purposes; or perform other back

office functions.

- (2) for fair and equitable allocation of securities and prices to accounts under listed circumstances;
- (3) for crossing of buy and sell orders where applicable and permissible under law; and
- (4) that bank officers and employees who make investment recommendations or decisions for the accounts of customers, who participate in the determination of such recommendations or decisions, or who, in connection with their duties, obtain information concerning which securities are being purchased or sold or recommended for such action, must report to the bank, within ten days² after the end of the calendar quarter, all transactions in securities made by them or on their behalf, either at the bank or elsewhere, in which they have a beneficial interest. The report shall identify the securities purchased or sold and indicate the dates of the transactions and whether the transactions were purchases or sales. Excluded from this requirement are transactions for the benefit of the officer or employee over which the officer or employee has no direct or indirect influence or control, transactions in mutual fund shares, and all transactions involving in the aggregate \$10,000 or less during the calendar quarter. For purposes of this paragraph, the term “securities” does not include government securities.

The regulation also provides alternative procedures for certain investment arrangements.

Disclosure Requirements

For each securities transaction, the state member bank or state member trust company is required, under Section 208.34(d), to furnish its customers with *either*:

- (1) a copy of the broker-dealer confirmation relating to the securities transaction; and certain statements associated with any remuneration received by the bank, *or*
- (2) a written notification disclosing:
 - i. the name of the bank;
 - ii. the name of the customer;
 - iii. whether the bank is acting as agent for the customer, as agent for both the customer and some other person, as principal for its own account, or in any other capacity;
 - iv. the date of execution and a statement that the time of execution is available upon written request specifying the identity, price and number of shares or units (or principal amount in the case of debt securities) of such security purchased or sold by the customer;
 - v. the amount of any remuneration received or to be received by the bank from the customer and the source and amount of any other remuneration to be received by the bank in connection with the transaction, unless remuneration is determined pursuant to a written agreement between the bank and the customer, provided, however, in the case of government securities and municipal securities, this paragraph shall apply only with respect to remuneration received by the bank in an agency transaction. If

² In July of 2004, the SEC amended Rule 17j-1 of the Investment Company Act of 1940 to extend the reporting time period to 30 calendar days after the end of the calendar quarter. In order to promote practical and uniform recordkeeping requirements that are consistent with the SEC and other federal banking regulators' rules, the Federal Reserve is in the process of revising the 10 calendar day reporting requirement for state member banks and state member trust companies to a 30 calendar day reporting time period.

- the bank elects not to disclose the source and amount of remuneration it has or will receive from a party other than the customer pursuant to this paragraph, the written notification must disclose whether the bank has received or will receive remuneration from a party other than the customer, and that the bank will furnish within a reasonable time the source and amount of this remuneration upon written request of the customer. This election is not available, however, if, with respect to a purchase, the bank was participating in a distribution of that security, or with respect to a sale, the bank was participating in a tender offer for that security;
- vi. the amount of remuneration received, or to be received, directly or indirectly, by the bank from the customer and associated information;
 - vii. the name of the broker-dealer utilized or, where there is no broker/dealer, the name of the person from whom the security was purchased or to whom it was sold, or the fact that such information will be furnished within a reasonable time upon written request; and
 - viii. additional information on yield when a transaction in a debt security meets any of the following conditions:
 - is subject to redemption before maturity;
 - is effected exclusively on the basis of a dollar price;
 - is effected on the basis of yield;
 - is in an asset-backed security which represents an interest in or is secured by a pool of receivables or other financial assets that are subject continuously to prepayment; or
 - is in a debt security, other than a government security, that is unrated by a nationally recognized statistical rating organization.

Time Schedule for Information Collection

Maintenance of records of securities transactions is event-generated and must occur when securities are purchased or sold. State member banks and state member trust companies also must collect a quarterly report on certain bank employee's securities transactions. The information is not submitted to the Federal Reserve, is not available to the public, and is not published.

Currently, Regulation H requires that bank officers and employees who make investment recommendations or decisions for the accounts of customers, who participate in the determination of such recommendations or decisions, or who, in connection with their duties, obtain information concerning which securities are being purchased or sold or recommended for such action, must report to the bank, within ten days after the end of the calendar quarter, all transactions in securities made by them or on their behalf, either at the bank or elsewhere, in which they have a beneficial interest.

Sensitive Questions

This information collection contains no sensitive questions, as defined by OMB guidelines.

Consultation Outside the Agency

On August 24, 2007, the Federal Reserve published a notice in the *Federal Register* (72 FR 48639) requesting public comment for 60 days on the Reg H-3 information collection. The comment period for this notice expired on October 23, 2007. No comments were received. On October 31, 2007, a final *Federal Register* notice (72 FR 61646) was published announcing the approval to extend, without revision, this information collection.

Legal Status

The Board's Legal Division has determined that 12 U.S.C. § 325, authorizes the Federal Reserve to require recordkeeping and disclosure requirements associated with 12 CFR §208.34(c), (d), and (g). In addition, the Board is authorized to establish the Regulation H requirements by 15 U.S.C. § 78w, which empowers the Board to make rules and regulation implementing the portions of the SEC Act of 1934 for which it is responsible. If the records maintained by state member banks come into the possession of the Federal Reserve, such information would be protected from disclosure by exemptions 4 and 6 of the Freedom of Information Act (5 U.S.C. §§552(b)(4) and (b)(6)). If such information is included in the work papers of Board examiners or extracted in Board reports of examination, the information is protected by exemption 8 of the Freedom on Information Act (5 U.S.C. §552 (b) (8)).

Estimate of Respondent Burden

The total annual burden estimate of 102,359 hours comprises recordkeeping and disclosure burden for state member banks and state member trust companies. The number of respondents reflects the number of state member banks and state member trust companies subject to these requirements, based on data³ as of the fourth quarter of 2006. The burden estimates presented in the table⁴ below are based on two categories of respondents: 1) state member banks with trust departments and state member trust companies of which there are 232, and 2) state member banks without trust departments of which there are 669. All 901 institutions are subject to these requirements.

State member banks with trust departments and state member trust company respondents incur more burden than state member banks without trust powers. The higher burden for the former respondents is attributed to the additional responsibilities related to their investment discretion over customers' managed accounts.⁵ State member banks with trust departments and state member trust companies must provide disclosures upon request for discretionary accounts

³. Consolidated Reports of Condition and Income (Call Reports) (FFIEC 031 & 041; OMB No. 7100-0036).

⁴. Estimate of respondent burden is calculated in the following manner: number of respondents, multiplied by annual frequency (for total annual responses), and multiplied by average hours per response, equals annual burden hours.

⁵. Investment discretion is the authority to determine or make decisions as to what securities or other property shall be purchased or sold by or for an account.

in addition to their responsibility for providing disclosures on all nondiscretionary accounts. Further, these institutions must maintain records of each employee's securities transactions for those employees involved in investment decision making processes.

Recordkeeping Requirements

The recordkeeping requirements include the documentation of the details of customer transactions, establishing and maintaining written policies and procedures, and the maintenance of quarterly reports filed by employees to the institution regarding the employees' securities activities. The Federal Reserve estimates that, to comply with the recordkeeping requirements of securities transactions and policy and procedures, the 232 respondents with trust powers will take on average 2 hours a month and the 669 respondents without trust powers will take on average 15 minutes a month. In addition, the Federal Reserve estimates that, for the recordkeeping requirements of employee quarterly reports, respondents with trust powers will take on average 2 hours a quarter and respondents without trust powers will take on average 15 minutes a quarter. The total burden hours for recordkeeping are estimated to be 17,675 hours.

Disclosure Requirements

The disclosure requirements include notifications to customers for all securities transactions effected by the institution for its non-discretionary accounts. Additionally, upon the customer's request, the institution must provide notifications to customers for securities transactions effected by the institution for discretionary accounts. The Federal Reserve estimates that, to comply with the disclosure requirements of securities transactions, the 232 respondents with trust powers will take, on average, 16 hours a month, and the 669 respondents without trust powers will take on average 5 hours a month. The total burden hours for disclosure requirements is estimated to be 84,684 hours. The total annual burden estimate of 102,359 hours represents 2.3 percent of the total Federal Reserve System burden

	<i>Number of respondents</i>	<i>Annual frequency of responses</i>	<i>Estimated average hours per response</i>	<i>Estimated annual burden hours</i>

<i>Total burden</i>				<u>102,359</u>

The total cost to Federal Reserve respondents is estimated to be \$6,310,432⁶

Estimate of Cost to the Federal Reserve System

The cost to the Federal Reserve System associated with these requirements is negligible.

⁶. Total cost to Federal Reserve respondents was estimated using the following formula. Percent of staff time, multiplied by annual burden hours, multiplied by hourly rate: 30% - Clerical @ \$25, 45% - Managerial or Technical @ \$55, 15% - Senior Management @ \$100, and 10% - Legal Counsel @ \$144. Hourly rate estimates for each occupational group are averages using data from the Bureau of Labor and Statistics, *Occupational Employment and Wages*, news release.
